PART VI

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd September, 1898

NO II OF 1898

A Bill to amend the law relating to the forgery of currency notes and bank-notes

WHEREAS it is expedient to amend the law relating to the forgery of currency notes and bank-notes, It is hereby enacted as follows

Short title and commencement

1 (*1*) This Act may be called the Currency-Notes Forgery Act, 1898, and

(*2*) It shall come into force at once

XLV of 1860

Insertion of new sections after section 489 Act XLV, 1860.

2 After section 489 of the Indian Penal Code the following sections shall be inserted, namely

"*Of Currency Notes and Bank-Notes*

[*Cf* 24 & 25 Vict., c 98 s 13.]

Possession of forged notes

"489A Whoever without lawful authority or excuse (the proof whereof shall lie on the accused) buys or receives from any other person or has in his possession any forged or counterfeit currency note or bank note, knowing or having reason to believe the same to be forged or counterfeit, shall be punishable with transportation for life or with imprisonment of either description for a term which may extend to ten years, and shall also be liable to fine

[*Cf* 24 & 25 Vict., c. 98, ss. 14, 16, 17 & 18.]

Making or possession of any instruments or materials for forging currency-notes or bank notes

"489B Whoever without lawful authority or excuse (the proof whereof shall lie on the accused)—

(*a*) makes or begins or prepares to make or uses or knowingly has in his possession or disposes of—

(*i*) any paper or other substance resembling any paper such as is specially provided by the proper authority for the purposes of being used for making any currency note or bank-note, or

(*ii*) any machinery or instrument or material for making any such paper or other substance or capable of producing in or on such papes or substance any words, figures, letters, marks or lines, resembling any words, figures, letters, marks or lines, used in or on any paper specially provided for any such purpose, or

(*b*) impresses or makes upon any plate or material any words, figures, letters, marks or lines, the impression whereof resembles, in whole or part, the words, figures, letters, marks or lines used in any such document as aforesaid, or

(*c*) uses, or knowingly has in his possession or disposes of, any plate or material upon which any such words, figures, letters, marks or lines are impressed or made, or

(*d*) uses, or knowingly has in his possession or disposes of, any paper or other substance on which is written or printed the whole or any part of the usual contents of any such document as aforesaid,

shall be punishable with transportation for life, or with imprisonment of either description for a term which may extend to seven years, and shall also be liable to fine"

Addition to Schedule II, Act V 1898

3. In the Code of Criminal Procedure, 1898, Schedule II, after the entries relating to section 489 of the Indian Penal Code the following shall be inserted, namely V of 1898. XLV of 1860.

Of Currency Notes and Bank-Notes

489A	Possession of forged notes	May arrest without warrant	Warrant	Not bailable	Not compoundable	Transportation for life or imprisonment of either description for 10 years and fine	Court of Session
489B	Making or possession of any instruments or material for forging currency notes or bank notes	Ditto	Ditto	Ditto	Ditto	Transportation for life or imprisonment of either description for 7 years and fine	Ditto

STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is to amend the Indian Penal Code (Act XLV of 1860) so as to provide more adequately for the protection of currency notes and bank notes from forgery

2 The subject has been forced on the attention of the Government of India by the fact that cases of forged currency notes have become more frequent in recent years, and that several instances have of late occurred of the reproduction by means of photography and with apparent fraudulent intent, of currency notes

3 Under the Indian Penal Code, which was passed prior to the existence of a paper-currency in India, currency notes are not protected by any special provisions, but merely by the general provisions applying to the forgery of valuable securities There appears, however, to be a very clear and obvious distinction between documents which pass from hand to hand as money, form about one-sixth of the whole currency circulation and come into the possession occasionally at any rate, of even the most ignorant classes of the population, and other valuable securities which are often drawn up by a lawyer, concern only the persons who execute them can be transferred only under certain legal formalities and usually come into the possession only of experts Protection which may be ample for documents of the latter kind, may be quite inadequate for those of the former

4 Such a distinction is already recognized by the English Statute Law, which contains special penal provisions for the forgery of bank notes (as well as certain other notes and bills circulating among merchants and bankers almost as freely as bank notes), for the possession and uttering of forged bank notes, and for the possession of papers and instruments (such as engraved plates etc) intended to be used in forging bank notes These provisions are to be found in the Forgery Act, 1861 (24 & 25 Vict , c 98), and relate to the following offences

(1) the forging or altering a bank note, or the uttering a forged bank-note with intent to defraud (section 12) ,

(2) the purchasing, receiving or possessing a forged bank note or blank bank-note, without lawful authority or excuse, the proof of which lies on the party accused (section 13) ,

(3) the making or having a mould, etc , for making paper with water marks, etc , such as are used for bank notes, or the selling or having or imitating such paper without lawful authority or excuse, the proof of which lies on the party accused (section 14) ,

(4) the engraving or having any plate, etc for making bank notes or blank bank notes, or the uttering or having paper upon which a blank bank note or part of a bank-note has been printed without lawful authority or excuse, the proof of which lies on the party accused (section 16) ,

(5) the engraving or having any plate, etc , for producing a word, number, figure, device, character or ornament resembling any part of a bank note, or the uttering or having paper bearing any such impression without lawful authority or excuse, the proof of which lies on the party accused (section 17)

5 In India charges for forging currency notes have to be preferred under section 467 of the Indian Penal Code for uttering them under section 471 , and for making or possessing counterfeit plates under section 472 The provisons of section 467 as to the forgery of documents seem not materially to differ from those of the English law on the subject, and they afford sufficient means for dealing both with forgery generally and with the forgery of currency notes But a reference to the other sections will show how much less explicit they are than the English law and how much more difficult it consequently is to obtain a conviction under them

6 It is, for instance, provided in section 472 that the preparing or having a plate, etc , for making an impression, intending that the same shall be used for the purpose of committing forgery, is an offence, the intention being of the very essence and the burden of proving it being laid upon the prosecution The English law, on the other

hand, renders the same act punishable, if it is done without lawful authority or excuse, and throws the burden of proving lawful authority or excuse upon the accused person, and not upon the prosecution

7 This is a very important point throughout these offences In every instance (except that of actual forgery), instead of the prosecution being bound to prove the intention, the accused is under the English law required to show that he has lawful authority or excuse for what he does or for what he has in his possession The Courts will, doubtless, often presume the accused's intention from his actions and the concomitant circumstances, but the fact remains that the burden of proof as regards lawful excuse is in England thrown on the accused, and it will readily be seen in how much stronger a position the prosecution in that country is thus placed

8 There is another distinction, and it seems to be of almost as great importance as, or perhaps of even greater importance than, that just mentioned It will be noticed that the English law renders punishable the possession of "blank" bank-notes, or even of a very small part of a bank note, when forged, unless the accused can show lawful authority or excuse But under the Indian Penal Code this is not an offence, and even the uttering, or attempting to utter such blank notes or parts of notes (though it might possibly be punishable as cheating or attempting to cheat) is not punishable under the sections relating to forgery This is apparently due in the main to the fact that currency notes are protected only by the general law relating to valuable securities, in the case of which the signature of some party to the deed is the all important formality It has been held that the "making" of a false document consists in the document or part of a document being signed or sealed with the name or seal of a person who did not in fact sign or seal it, and this ruling has been applied to currency notes Therefore, in order to forge a currency note it is necessary to forge the signature, and the possession of a portion of a counterfeit note, or even of the whole of such a note complete in every respect except as to the signature, is not an offence of any kind It is clear that this constitutes a dangerous position for the paper currency of British India

9 The foregoing remarks relate to the protection of currency notes from preparations for, and attempts at, forgery It has, however, been deemed desirable to bring within the scope of the Bill bank notes as well as currency notes for, although the case of the former is much less important than that of the latter, the Government of India consider that bank notes, and especially those of the Bank of England, should, as in the United Kingdom, be afforded the same general protection as that which it is proposed to secure for Indian currency-notes

10 The clauses of the Bill do not seem to require any further explanation The provisions of the English law, on which the two sections which clause 2 proposes to add to the Penal Code are based, are referred to in the margin opposite those sections Clause 3 makes a consequential amendment in the Code of Criminal Procedure

The 23rd September, 1898

J WESTLAND

J M MACPHERSON,

Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd September, 898

No 10 OF 1898

A Bill to amend the Indian Marine Act, 1887

XIV of 1887

WHEREAS it is expedient to amend the Indian Marine Act, 1887 (hereinafter referred to as "the said Act"), It is hereby enacted as follows

Short title and commencement

1 (*1*) This Act may be called the Indian Marine Act (1887) Amendment Act, 1898, and

(*2*) It shall come into force at once

Amendment of section 2 sub section (*1*) clause (*a*) Act XIV, 1887

2 In section 2, sub section (*1*), clause (*a*), of the said Act, for the words "the Indian Marine Service' the words "the Royal Indian Marine Service" (herein referred to as 'the Indian Marine Service' or "Her Majesty's Indian Marine Service") shall be substituted

Substitution of new clauses for clauses (*b*) (*c*) and (*d*), section 2 sub section (*1*) Act XIV 1887

3 In the same section and sub section of the said Act, for clauses (*b*), (*c*) and (*d*) the following clauses shall be substituted, namely

'(*b*) "gazetted officer" means a person who, by virtue of his letter of appointment, is holding a position in the Indian Marine Service as—

Commander,	Chief Engineer,
Lieutenant	Engineer, or
Sub Lieutenant	Assistant Engineer,

(*c*) "warrant officer" means a person who, by virtue of his appointment, is holding a position in the Indian Marine Service as—

Assistant Surgeon	Carpenter,
Gunner,	Clerk, or
Engine driver, first class	

(*d*) "petty officer" means a person who is employed in the Indian Marine Service as—

General Mess Steward	Carpenter Mate, first class
Chief Syrang of Lascars first class	Carpenter's Mate second class
Chief Syrang of Lascars second class	Carpenters Crew first class
Syrang of Lascars first class,	Carpenters Crew, second class
Syrang of Lascars second class	Plumber
Sukkani	General Mess Butler, first class
Tindal of Lascars first class	General Mess Butler, second class
Tindal of Lascars second class	Cook first class
Engine-driver second class	Cook second class
Syrang of Stokers, first class,	Ships Steward
Syrang of Stokers second class	Tide-watcher
Tindal of Stokers, first class	Khalasi first class,
Tindal of Stokers second class	Khalasi, second class'
	Pilot
	Chart room Attendant
	Leadsman or
	Interpreter

Substitution of new sub sections for sub sections (*1*) (*2*) and (*3*) section 53 Act XIV 1887

4 (*1*) In section 53 of the said Act for sub sections (*1*) (*2*) and (*3*) the following sub sections shall be substituted, namely

"53 (*1*) An Indian Marine Court shall consist of a president and not less than two or more than four, other members, such members to be of rank not inferior to that of Lieutenant

(*2*) The president of an Indian Marine Court for the trial of a Commander shall be of rank not below that of Commander and two at least of the other officers composing the Court shall be of rank not below that of Commander

(*3*) Except in the case of an Indian Marine Court convened under section 52, sub section (*2*), the president of an Indian Marine Court for the trial of any person below the grade of Commander shall be of rank not below that of Commander"

(*2*) To the said section the following sub-sections shall be added, namely

"(*10*) The seniority and precedence of officers serving on the same Indian Marine Court shall be governed by their seniority as shown in the

latest Indian Marine List The fact of any officer bearing a superior title by virtue of an appointment which he may for the time being be holding, shall not give him seniority or precedence over any officer serving with him on the Indian Marine Court who may be senior to him on the Indian Marine List

(*11*) The authority convening an Indian Marine Court shall, when practicable, appoint a Judge Advocate to every trial, who shall be, if possible an officer of the Judge Advocate General's Department

(*12*) The authority convening an Indian Marine Court, shall also appoint a person as Provost-Marshal, who shall be responsible for the arrest and safe custody of the prisoner or prisoners as directed until the decision of the confirming authority is made known and communicated to him by the convening authority"

5 After section 70 of the said Act the following shall be added, namely

Addition of new section after section 70, Act XIV, 1887

"*Supplemental*

"70A When an Indian Marine vessel is wrecked, lost, destroyed or captured by the enemy, it shall, for the purposes of this Act, be deemed to remain an Indian Marine vessel until her crew are regularly removed into some other Indian Marine vessel or until a court of inquiry has been held into the cause of the wreck, loss, destruction or capture thereof" [29 & 30 Vict., c. 109, s 91]

Provision case of wreck loss destruction or capture of Indian Marine vessel

STATEMENT OF OBJECTS AND REASONS

SINCE the Indian Marine Act, 1887 (XIV of 1887), was passed, the titles of some of the gazetted officers of the Indian Marine Service have been altered by an Order in Council, and certain modifications have been made in the nomenclature of warrant and petty officers Her Majesty has further been graciously pleased to approve of the Indian Marine being designated the "Royal Indian Marine" Clauses 2, 3 and 4 of this Bill are intended to give effect to these changes

2 By the remaining clause it is proposed to add to the Act a new section which is based on section 91 of the Naval Discipline Act, 1866 (29 & 30 Vict, c 109), and will provide for the maintenance of discipline after the wreck, loss, destruction or capture of an Indian Marine vessel

AUSTRALIA—PORT WALCOTT

Reef to the eastward.

THE British Admiralty has given notice (No 495 of 1898) that information, dated 7th June 1898, has been received from Mr Joseph Lyons, Master of the S S *Beagle*, that a reef hitherto unknown exists about 8 miles northward of Forestier islands, eastward of port Walcott

This reef (Beagle reef) is about 1½ miles long east and west, and half a mile broad, and dries about 2 feet at low-water springs From its centre the north extreme of cape Thouin bears N 81° E, distant 20¼ miles, and Red hill (just open of the east extreme of Middle Forestier island) S 27° E

Approximate position, lat 20° 23½′ S, long 117° 51′ E.

Mr Lyons also reports a channel 8 miles wide and carrying a depth of 6 fathoms, low-water springs, between the Beagle reef and the western edge of the inner Geographe reef, but great caution should be exercised in navigating along this coast, as it is imperfectly surveyed

AUSTRALIA, EAST COAST—Sandy cape

Non-existence of shoal reported to the north-eastward

With reference to Notice to Mariners, No. 131 (2), dated the 4th July 1896, issued by this office, the British Admiralty has given further notice (No 501 of 1898) that information, dated 1st July 1898, has been received from Lieutenant and Commander J F Parry, H M Surveying Vessel *Dart*, that he has made a careful examination of the locality in which the 3-fathom shoal lying N 53° E, 22 miles distant from Sandy cape lighthouse, was reported to exist, and that no indication of any shoal water was found, the depths near the spot being from 600 to 800 fathoms From enquiries instituted by Lieutenant and Commander Parry it would appear that the original report was to the effect that discoloured water was observed about half a mile from the vessel when Sandy cape lighthouse bore S. 53° W, distant 22 miles, but that no soundings were obtained, or breakers seen, this shoal has therefore been expunged from the Admiralty Charts

Approximate position, lat. 24° 32½′ S, long 153° 35½′ E.

AUSTRALIA—HINCHINBROOK CHANNEL, SOUTHERN ENTRANCE

Alterations in buoys and beacons.

THE Port Master Brisbane, has given notice (No. 16 of 1898) that on and after 1st September the following alterations in the buoys at the southern entrance to Hinchinbrook Channel will be made in consequence of the extension of the Bar seawards, viz —

Fairway Buoy, which will be painted red, will be moved to the following approximate position, viz —

Hillock Point bearing N 22° W,
North end of North Palm Island bearing S 80° E,

this position being about 1 cable west of the line of lights and beacons, in a depth of 5 fathoms at low-water springs

A small black buoy will be placed in the position originally occupied by the fairway buoy, the depth at present there being 9 feet at low-water springs

The red buoy at the entrance to Enterprise Channel will be discontinued.

A red buoy will be placed in 10 feet at low-water springs in the following approximate position, viz.—

White Beacon, Hinchinbrook Island, bearing N 39° W, distant 3¾ cables, marking the edge of the sandbank, which has extended into the channel

A small red beacon will be placed on a sandbank, which dries 2 feet at low-water springs, situated in the following approximate position, viz —

White Beacon, Hinchinbrook Island, bearing N 84° E, distant 1¼ miles.

FIRST REPORT ON THE BHADOI CROPS IN BENGAL, 1898.

THE following is published for general information

M FINUCANE,

The 1st October 1898 — *Secy to the Govt of Bengal*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

First Report on the bhadoi crops in Bengal, 1898

THE present report reviews the present condition of all the *bhadoi* or rainy weather crops The most important *bhadoi* food-crops are *bhadoi* paddy, maize, and millets Among *bhadoi* non food crops, the chief are jute, indigo, and cotton Separate reports are published for these non food crops, and no special note is taken of them, therefore, in this report The cultivation of *bhadoi* paddy prevails chiefly in Bengal Proper and Orissa, and maize and millets occupy large areas in Bihar and Chota Nagpur

The figures of normal area have been revised by District Officers, but the returns still show a marked tendency on the part of local officers to take these areas as maxima rather than normal areas A percentage notation of outturn has been adopted under instructions received from the Government of India Under this system of notation 100 represents the normal outturn per acre.

2 *Character of the season*—In April, the rainfall was deficient over the whole of Bengal Proper, and especially in East Bengal It was practically normal in Chota Nagpur and Bihar, and slightly above the normal in Orissa In May, it was a little below the normal in almost all parts of these Provinces In June, the rainfall was considerably above the

average in Bengal Proper and Chota Nagpur, and it was evenly distributed, but in Bihar and Orissa it was in defect In July, the rainfall was below the normal In August, it was in excess of the normal everywhere except in parts of North Bengal and North Bihar

In the first week of September, there was good general rain throughout the Province, excepting parts of North Bihar and Orissa In the second week of September, heavy rain fell in the north of the Province, especially in North Bihar, elsewhere the fall was moderate In the week ending 19th September, heavy rain fell throughout the Province, accompanied by high wind The excess of rain this month has caused high floods, which are reported to have damaged the crops considerably in Patna, Muzaffarpur, Champaran, Darbhanga, Monghyr, and the Sonthal Parganas Floods are also reported from Midnapore, Murshidabad, Shahabad, Saran and Bhagalpur In Noakhali, some damage has also been reported lately from excessive rain Locusts are reported to have slightly damaged the paddy crops in Cuttack, and grasshoppers have done, and are still doing, considerable injury to the paddy crops in Midnapore

3 *Area cultivated* —According to the revised estimates shown in column 5 of the appended statement, it will be seen that the total normal area under *bhadoi* crops amounts to 15,296,000 acres Of this, 11,888,000 acres are occupied by food crops and the rest by non-food crops From column 7 of the same statement, it will also appear that the total area under all *bhadoi* crops during the current year amounts to 16,197,600 acres against 16,111,300 acres estimated to have been sown with the same crops last year There is thus an increase in area of 86,300 acres or 5 per cent during the present year, which is nominal The increase in *bhadoi* food-crops, amounting to 267,100 acres (2 per cent), is more noticeable, and is due to the extended cultivation of *aus* paddy in preference to jute—a result brought about by the low prices of jute and high prices of paddy prevailing last year, which induced many cultivators to grow the latter crop in preference to the former

The above estimates, it must be understood, are only approximate and are not based on actual field measurements

4 *Character of the crop* —From the appended statement it will be seen that, taking all the *bhadoi* crops together, 10 out of the 45 districts of these Provinces, viz , 24-Parganas, Bogra, Noakhali, Saran, Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Cuttack, and Manbhum, return crops above the normal (100 per cent), 30 districts return crops which are estimated to be between 75 per cent and the normal, and the rest return crops less than 75 per cent of the normal On the whole, the season this year has not been quite as favourable as that of last year, and the outturn for the whole Province of all *bhadoi* crops taken together is at present roughly estimated from about 90 to 95 per cent. of the normal It may be necessary hereafter, in the final report, to modify this estimate in view of the damage being done now to the crops by floods and insect pests

N N BANERJEE,
Asst Director of the Dept of Land Records and Agriculture, Bengal

(Countersigned)

P C LYON,
Director of the Dept. of Land Records and Agriculture, Bengal

			Other *bhadoi* cereals and *bhadoi* pulses	8 400	8 500	8 00	97	5		
			Other food crops (*e g* vegetables)	600	800	800		93		
			Other non food-crop *e g* jute indigo, *bhadoi til* sunn hemp, mulberry &c &c.)	8 600	8 800	1 100		100		
			Total ..	45 100	45 500	45,300	94	97		
Midnapore	3,298,800	2,111 500	*Bhadoi* paddy	107 300	11,,700	103 300	81	57	The decrease in the area under cultivation is due partly to want of rain during the sowing time in some parts of the district and partly to sudden floods	The damage done to crops by grasshoppers is the subject of special enquiry
			Bajra	6 100	6 000	6 000	62	75		
			Mandua (or *marua* or *ragi*)	2 000	2,800	000	68	60		
			Indian-corn (maize) ..	21 200	18 600	19 000	75	5		
			Other *bhadoi* cereals and *bhadoi* pulses	48 700	47 600	45 900	64	62		
			Other food-crops (*e g* vegetables)	23,300	22 800	19 500	72	55	The outturn is likely to be small on account of the lands remaining submerged by the flood and partly owing to damage caused by grasshoppers.	
			Other non food-crops (*g* jute, indigo *bhadoi til* sunn hemp, mulberry &c &c)	91 900	92,700	90 900	70	54		
			Total	300 400	301 900	290 600	73	58		

Hooghly	1 087 320	702,200	*Bhadoi* paddy	80 500	58 000	1 500	9		Owing to deficient rainfall a smaller area than that reported last year has been brought under cultivation and the outturn for the same reason is expected to be shorter
			Indian-corn (maize)	100	100	100	85	85	
			Other *bhadoi* cereals and *bhadoi* pulses	2,500	2,000	2 600	69	65	
			Other food crops (*e g* vegetables)	3 000	3 000	3 300	81	85	
			Other non-food crops (*e g* jute indigo, *bhadoi* til sunn hemp mulberry &c &c)	24 000	20 500	33 000	1	0	
			Total	80 500	64 500	9 000	85	79	
24-Parganas	1 344 040	1 088 000	*Bhadoi* paddy	1 00 000	105 000	1 00 100	80	100	The increase in area sown with *bhadoi* paddy this year and the return in that area under other food crops are due to the extended cultivation of paddy in patches of jute The outturn is favourable owing to seasonable rainfall
			Other *bhadoi* cereals and *bhadoi* pulses	3 000	2 000	600	5	5	
			Other food-crops (*e g*, vegetables)	4 000	2 0	400	5	6	
			Other non-food crops (*e g* jute indigo *bhadoi* til sunn hemp mulberry &c &c)	4 000	40 000	93 000	5	100	
			Total	1 53 000	1 47 000	1 3 100	1	114	
Nadia	1 758 160	1 304 000	*Bhadoi* paddy	2 00 000	83 000	41 500	1	89	The increase in the area sown as well as in the outturn is due to seasonable rainfa
			Indian-corn (maize)	1 000	100	100	12	55	
			Other *bhadoi* cereals and pulses	10 000	92 00	10 0	5	0	
			Other food crops (*e g* vegetables)	20 000	15 00	15 0	81	80	
			Other non-food crops (*e g* jute indigo *bhadoi* til sunn hemp mulberry &c &c)	10 000	8 000	0 700	81	87	The decrease in the area sown with non-food crops is due to the difficulty in steeping jute and to the closing of some indigo factories
			Total	2 41 00	96 500	508 400	80	97	

D ubtless paddy has been largely sown this year in preference to jute

The reported difficulty in steeping jute will be further enquired into

FINAL REPORT OF THE JUTE CROP FOR 1898

THE following is published for general information

REVENUE DEPT ,
The 3rd October 1898

M FINUCANE,
Secy to the Govt of Bengal

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

Final Report on the Jute crop for season 1898

Explanatory —The original date for the publication of the final jute report was fixed for the 1st of September In order to meet the wishes of the Bengal Chamber of Commerce, the date has been postponed to 1st October The present report deals with the condition of the crop up to the middle of September and is compiled from information received from the 26 important jute growing districts The little jute that is grown outside these districts has been left out of consideration

2 *Character of the season* —The character of the season up to the middle of June was briefly described in the preliminary forecast of the jute crop issued on the 30th of June 1898 The rainfall in January was in excess of the normal in most of the jute growing districts In February, it was deficient in all jute districts except in parts of North Bengal and in Malda In March and April, the rainfall was also generally deficient In May, it was slightly below the normal in most parts of the Province In June, it was above the average in Bengal Proper, and in defect in Orissa, and in July it was below the normal In August, the rainfall was above the normal everywhere except in parts of North Bengal In September, the rainfall has been heavy in most parts of these Provinces

3 *Area cultivated* —In the preliminary forecast, the area cultivated during the present year was shown as 1,670,100 acres The total area as now estimated by District Officers in the returns appended to this note amounts to 1,624,400 acres The difference is due to a revision of figures in the districts of Jessore, Rangpur, Faridpur, Backergunge, Purnea, and Cuttack The decrease in the area previously estimated is most noticeable in the districts of Rangpur and Faridpur The area cultivated last year, as shown in column 3 of the appended returns, amounted to 2,151,600 acres The decrease as compared with the area cultivated this year—*vide* column 4 of the statement—is considerable, amounting to 527,200 acres (*i e*, 24 50 per cent) and is due, as has been already explained in the preliminary forecast, partly to the unfavourable character of the season at the time of sowing, and partly to the low prices of jute prevailing last year, and to the high price of food grains, in consequence of which some lands which usually grow jute have been utilized for the cultivation of paddy

4 *Character of the crop* —On comparing the estimates of outturn for last year and this year, as given in columns 7 and 8 of the appended statement, it will be seen that out of the 26 districts from which jute reports have been received 15 districts, including such important districts as Rajshahi, Jalpaiguri, Rangpur, Bogra, Pabna, Dacca, Faridpur, Tippera, and Purnea, report worse crops for this year than for last year, four districts report equal crops, and seven, inclusive of Mymensingh, report better crops It is thus clear that the crop this year is inferior to the one which was harvested last year

Out of the 26 districts, only one reports a crop above the normal, and in that district, Cuttack, the area under jute is very small Six districts, Burdwan, Hooghly, 24 Parganas, Dinajpur, Backergunge, and Bhagalpur report normal crops, 13 districts report crops estimated between 75 per cent and the normal, and 6 districts, inclusive of three important districts, Jalpaiguri, Bogra, and Faridpur, report crops less than 75 per cent Taking the 11 most important jute growing districts, it will appear from a comparison of the present and preliminary jute reports that in 3 districts the prospects of the crop have improved since the issue of the first forecast, in 3 districts there has been no change, and in the remaining 5 districts they have deteriorated

On the whole, the jute crop of the present season, which has been grown in the restricted area described above, may be finally estimated at 88 per cent of a normal crop In the notation formerly used, this would have been described as a 14 anna crop

5 *Gross outturn* —In the preliminary forecast of last June, the gross outturn was estimated at 46 lakhs of bales Considering the revised estimates of area and outturn now received from District Officers, this estimate must now be somewhat reduced It must not be forgotten, however, that of late years there has been a natural expansion in the cultivation of jute Allowing for this and for a tendency sometimes observed on the part of District Officers to under estimate, it seems probable that the total outturn will reach 46 lakhs of bales It is to be noted that this is a smaller outturn than any that has been estimated by this Department in the past five years, but attention must be again drawn to the fact that the above is at best only a rough estimate, based on the best information available to this Department The district returns are published in full, and those who are interested in the trade are in a position to make such deductions from them as their experience may suggest

N N BANERJEI,

Assistant Director of the Dept of Land Records and Agriculture, Bengal

---

Countersigned

P C. LYON,

Director of the Dept. of Land Records, and Agriculture, Bengal

CALCUTTA,

The 1st October 1898.

Final Report on the Jute Crop of Bengal, 1898

District	Acreage— Of current year's crop (1898)	Of previous year's crop (1897)	Average of four preceding years (viz 1893 to 1896)	Percentage by which column 2 exceeds (+) or falls short of (—) area in— Column 3.	Column 4.	Taking 100 to represent the normal outturn per acre how much will represent this year's outturn (1898)?	Taking 100 to represent the normal outturn per acre how much represented the outturn last year (1897)?	Outturn in bales of 400 lbs Estimated yield of current year's crop per acre in Column 2	Yield of previous year's crop per acre in Column 3	Average of four preceding years (viz 1893 to 1896)	Percentage by which column 9 exceed (+) or falls short of (— out turn in— Column 10	Column 11	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture Bengal
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Burdwan	Acres 11 100	Acres 11 000	Acres 10 900		+ 0 9*	100	1 1	31 800	30 9	23 8	—0 9	+41 63	There was want of rain at the time of sowing. In consequence of excessive rain before the sowing was completed the outturn is now expected to be normal	
Midnapore	11 800	13 200	10 600	— 11 28	+11 3	90	96	8	8 5	8 100	—1 9	—2 0	Owing to delay in the breaking of the monsoon the area has slightly increased. The outturn is expected to be the same as the average of the last five years	
Hooghly	13 900	14 500	11 400	—4 14	+21 93	100	1 1	41 01	43 500	95 100	—4 11	+6 11	The outturn is expected at the time now reaching the preliminary estimate	
24 Parganas	30 600	300	27 600	—2 56	—1 9	100	100	9 000	1 1 800	9 400	— 6	+11 0	The sowing of the winter paddy was delayed owing to the absence of rain and a large number of the seedlings were destroyed by insects. This is due to the fact that the paddy sowing season and the harvesting of the winter crops coincide and the ryots cannot find hands when usual crops have been cultivated with ease	

District	Acreage— Of current year's crop (1898)	Of previous year's crop (1897)	Average of four previous years (1893 to 1896)	Percentage by which column 3 exceeds (+) or falls short of (—) area in— Column 5	Column 6	Taking 100 to represent the normal outturn per acre how much will it please out this year's crop (1898)	Taking 100 to represent the normal outturn per acre how much repre- sented out turn last year (1897) p	Outturn in bales of 400 lbs. Estimated yield of current year's crop of area in column 2	Yield of previous year's crop of area in column 3	Average of four previous years (viz. 1893 to 1896)	Percentage by which column 9 exceeds (+) or falls short of (—) outturn in— Column 10	Column 11	Remarks by District Officers	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Nadia	Acres 26,600	Acres 31,800	Acres 46,000	—18·35	—42·17	80	85	63,800	84,000	110,000	—24·05	—42·00	The decrease in the area sown is due to the absence of seasonable rain and to the difficulty experienced last year in steeping jute	
Murshidabad ..	16,600	17,900	22,800	—8·36	—27·19	83	75	41,500	38,500	46,500	+8·12	—11·79	The decrease in the area sown this year is due to the high price of paddy last year which induced cultivators to sow paddy on jute lands	
Jessore	18,100	23,500	34,600	—33·49	—47·69	71	100	36,600	50,500	77,300	—54·55	—50·06	The difference between the estimated area under jute for both this year and last year as shown in the present report and the preliminary forecast, is due to more reliable information having been received since the submission of the preliminary forecast. This year's outturn has been much affected by want of rain at and soon after the time of sowing.	
Khulna ..	14,500	21,600	30,000	—33·82	—39·91	70	88	30,440	67,000	84,300	—46·06	—61·31	The decrease and outturn this year have fallen short of those of last year owing to the fall in the price of jute last year and to late rainfall this year.	

Rajshahi	..	100,200	127 600	163,200	— 21 47	— 2 91	8	94	234, 60	359 900	281 600	—34 82	6 '3	The cheap rate at which jute was sold last year resulted in the decrease in area this year The outturn estimated in the preliminary forecast (90 per cent) has been reduced to 78 per cent on account of the damage done to the crop by flood and rain
Dinajpur	...	75,000	90 000	101 900	—16'66	—26'39	100	100	225 000	2 0 000	268 000	—16'66	—16'65	The price of jute having been very low last year the crop was not sown extensively this year
Jalpaiguri	...	63,800	77 400	64 000	—1' 58	—0'31	80	94	114 800	218,800	153 000	—47 41	—24'97	The decrease in area under cultivation this year is due to the fall in the price of jute last year The decrease in outturn is due to excessive rain fall at sowing time and also to deficient rainfall at the time of steeping and washing
Darjeeling (Plains)		1 600	2,330	2 50'	—30 43	—36'00	50	113	2 400	900	5 00	—69'23	—57'89	The decrease in area and outturn this year is due to excessive rainfall at the time of sowing
Rangpur		192,000	240 000	279,900	—24'17	—34'97	81 9	88	446 600	633,000	714,200	—29 51	—37 44	The decrease in the area sown this year is due to the dull market of last year The area sown in the first forecast of the current year's crop was found on enquiry to be high so the figures have been changed Want of seasonable rain injured the growth of the crop and affected the outturn
Bogra	..	40,000	100,000	93 800	—60'00	—57'35	75	180	87 600	308 800	215,600	—76'80	—59 37	The extremely dull market for jute and the high price of paddy during the preceding year induced the cultivators to grow the latter crop on larger areas than the former Heavy rain since the submission of the first forecast hindered the growth of the plants.
Pabna	..	103,200	138 800	146,400	—25'66	—29'09	90	180	248,100	415,600	454,800	—40'65	—45 17	Late rising of flood water and seasonable rain in June and July have caused a better outturn than was expected before.

District	Acreage— Of current year's crop (1898)	Of previous year's crop (1897)	Average of four preceding years (viz 1893 to 1896)	Percentage by which column 2 exceeds (+) or falls short of (—) area in— Column 3	Column 4.	Taking 100 to represent the normal outturn per acre how much will represent this year's outturn (1898) ?	Taking 100 to represent the normal outturn per acre how much represented outturn last year (1897) ?	Outturn in bales of 400 lbs. Estimated yield of current year's of area in column 2	Yield of previous year's of area in column 3.	Average of four preceding years (viz. 1893 to 1896)	Percentage by which column 9 exceeds (+) or falls short of (—) outturn in— Column 10.	Column 11	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture Bengal
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
	Acres	Acres.	Acres.											
Dacca ..	132,400	198 700	193,"00	—31·29	- 31·55	95	120	377 900	693 ,00	432 100	—45 61	—12·68	The area sown with jute has been considerably reduced this year owing to the low price of jute and the high price of food-grains last year and to the want of sufficient rain at the time of ploughing and sowing It is feared that the outturn of jute will be much smaller this year than in 1897	
Mymensingh ...	497 500	552,700	550,000	—9·99	—9 54	90	88	1,345,200	1 469 100	1 413,"00	—7·94	—4·98	The outturn is expected to be better than that shown in the preliminary forecast, as the condition of the crop has improved owing to favourable rainfall since then.	
Faridpur ...	70 000	86,000	86,700	—19·30	+23·46	60	100	126,000	258 000	202,900	—51 16	—3·"99	The decrease in area in column 2 is partly due to the dulness of the jute market last year and partly to the want of timely rain at the sowing season this year The decrease would have been still greater had not there been an increase of area under this crop in the Goalundo subdivision according to the revised statistics taken by the Local Police This year's area estimated in the preliminary forecast was apparently very high and has been revised after careful consideration.	

Backergunge ...	7 000	10 000	10,000	−30·00	−30 00	100	101	32,500	30 000	32,000	−28·00	+2 27	Recent enquiries have caused some alterations to be made in the figures of area. Copious rain since the submission of the first forecast has improved the outturn
Tippera ...	118,800	236,800	229 700	−49·77	−48 28	85·4	100	394 400	709,800	646 700	−57 10	−53 92	The decrease in area in column 2 is partly due to want of rain at the sowing season and partly to the low prices of jute last year and to the high prices of paddy which induced many cultivators to grow the latter crop in preference to jute.
Noakhali ...	3,500	3,200	4,000	+9·06	−28·57	88	78	3 000	7 700	10 300	+11·69	−16·50	The outturn will probably be higher than that of last year owing to better rainfall
Bhagalpur ...	22,400	23,400	21 700	...	+3·23	100	94	67 200	63,200	63 000	+6·33	+6·66	Favourable rainfall accounts for the increase in outturn and area
Purnea ...	35 000	61 000	73 800	−42·62	−52·51	94	100	98 700	193,000	211,000	−46·07	−53·22	The area under cultivation this year as shown in the first forecast had to be revised Owing to the low price of jute last year people substituted *bhados* paddy in place of jute and hence the area under this crop is less than that of last year Owing to deficient rain the outturn is below the normal.
Malda	28,000	25,000	34,400	−20·00	−41·86	8 5	75	52 500	58 200	74,000	−6·58	−29 05	Owing to sufficient rainfall the outturn is better than last year s.

The average rate of yield per acre is estimated by the Collector as 500 lbs. The general rate of 1 200 lbs. has been applied by this Department and the figures in columns 9 10 and 11 are based on this rate.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE DACCA DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—MISCELLANEOUS

Dated Darjeeling, the 3rd October 1898

RESOLUTION —No 3027

READ—

The Annual General Administration Report of the Dacca Division for the year 1897-98

MR HARE was in charge of the Division for the greater part of the year, though Mr Toynbee was Commissioner for the first three months, and Mr Savage, by whom the present report is submitted, joined just before its close The Division was exceptionally fortunate, in so far that there were no changes of District Officers, nor of Subdivisional Officers in 7 out of 12 subdivisions

2 *Tours and Inspections* —Mr Hare's tours as Commissioner extended over 100 days, the repairs to public buildings damaged by the earthquake forming a special subject of enquiry In accordance with the orders of Government, the duration of tours of Collectors was fixed by the Commissioner and of Subdivisional Officers by the Collector Among Collectors, the tour of Mr Beatson-Bell in Backergunge, which is reported to have been especially useful, alone came up to and exceeded the term laid down, but the deficiencies in other districts were small Among Subdivisional Officers, the tours in four instances were short, and that of the Subdivisional Officer of Kishorganj in Mymensingh noticeably so, covering 54 days only as against 90 days prescribed All the necessary inspections appear to have been made with the important exception of that of the wards' office in the district of Dacca, which the Collector did not inspect In the districts of Dacca and Mymensingh the Subdivisional Officers made no inspections of their own offices in several cases

3 *Weather and Crops Material Condition of the People Public Health* — The average rainfall of the Division amounted to 72 inches, in comparison with the short fall of 59 9 inches in the preceding year and a mean of 72 3 inches for the five years ending 1896 97 It was, moreover, well distributed, and the outturn of the different crops was in consequence as good as in any year on record The Divisional average outturns of the principal crops are reported to have been as follows —*aus* rice, 16 annas, *aman* rice, 18 annas, jute, 15 annas, and pulses, 13 annas The damage done by the earthquake to the standing crops in the district of Mymensingh was estimated at 2 annas For ordinary cultivators the year opened badly The rice crop of 1896 97 had been poor, and the jute crop of 1897-98, though good, did not fetch high prices Excellent *bhadoi* crops reaped in June to August 1897, the jute crop reaped in August September, and a bumper rice crop, harvested in November and December, however, during the second half of the year under report, are stated to have restored them to their usual state of well being Among the poorer middle class, the day-labourers, and those dependent upon small fixed incomes, high prices caused hardship, which deepened in places into distress during the first half of the year, while among the more well-to-do, the slackness of trade and the damage wrought by the earthquake prevented the year as a whole being regarded as one of prosperity Prices, though lower than in the preceding year, by no means returned to normal rates, and continued to rule high The effect on wages was practically nil, but the demand for labour after the earthquake caused a temporary rise at the head-quarter stations of Dacca and Mymensingh

The reported death rate for the Division remained the same as in the previous year—32 2 per mille The variations in the reported death rates from 43 8 per mille in Backergunge to 25 5 per mille in Mymensingh show defects

in registration, and little importance can therefore be attached to the figures As an instance, the birth-rate recorded in the areas within which registration is compulsory in the district of Backergunge, is reported to have been as low as 16 9 per mille There was a decrease in the number of persons vaccinated, which is attributed partly to fewer outbreaks of small pox and partly to the fact that less remained to be done among the Feraza Muhammadans, among whom vaccination had met with great success in the previous two years The experiment of selling quinine in rural areas through panchayats was tried in Faridpur and Backergunge

The expenditure by District Boards and municipalities on the improvement of the water-supply, which in 1896 97 amounted to Rs 75,437, rose to Rs 1,03,979 during 1897 98, the increase being most noticeable in the case of the District Boards of Mymensingh and Backergunge, and the municipalities of the Dacca district Enquiries made in the district of Backergunge show the existence of 19,460 tanks reported as wholesome and 41,597 as unwholesome, which on the basis of census figures, would give an average of one tank of drinkable water to 110 persons and to 18 square miles of area

4 *Manufactures Trade and Commerce* —The steam jute presses in the Division decreased from 21 to 18, while hand-presses increased from 5 to 8 There is a steam flour and oil mill at Dacca and an oil mill at Jhalakati, in the district of Backergunge, the value of the outturn from which in oil and oil cakes is reported to have been over two and a half lakhs The manufacture of soap at Dacca continues, and that of quack remedies and real drugs is reported to be an apparently lucrative business The position of the gold and silver smiths is said to have slightly improved

The earthquake of 12th June 1897 did serious damage to the rivers in the interior of the district of Mymensingh, causing many to silt up, and the destruction caused to the roads seriously interfered with wheeled traffic during several months

The importation of rice and paddy into the Division by rail fell off from 13,13,315 maunds during 1896 97 to 5,20,470 maunds during the year under report, though the exports by rail remained practically stationary The export of rice to Calcutta, though prices ruled high and the crop was exceptionally good, showed an increase only from 27 lakhs of maunds in 1896 97 to 28 lakhs of maunds in 1897-98, against 34 lakhs in 1895-96 It is reported that more rice now goes north to Assam than formerly The export of jute revived considerably, and amounted to 1,43,00,000 maunds exported to Calcutta, against 1,07,00,000 maunds in the previous year, and 817,000 cwts despatched from Naraingan] to Chittagong, as compared with 655,000 cwts during 1896 97 In this connection the result of the enquiry instituted in Mymensingh, that the probable average annual consumption of raw jute for domestic purposes per head of the population of the district is 2½ seers, is noticeable During the year 352 vessels entered and 368 cleared the port of Naraingan] as compared with 308 and 317 in the previous year, the increased trade in jute, salt, and rice, the obvious reason This trade was practically entirely with Chittagong The value of the imports decreased slightly from Rs 2,69,818 to Rs 2,56 995, but that of the exports rose from Rs 53,18,523 to Rs 57,82,979

5 *Joint Stock Companies* —Loan offices exist in all the districts of the Division, and seem generally to be in a fairly flourishing condition The Lieutenant-Governor is glad to observe that most of the bogus companies referred to in previous years' reports have disappeared

6 *Civil Justice* —The number of suits instituted and disposed of rose from 134,500 and 136,652 in the previous year to 135,307 and 138,067 respectively Of the cases instituted, 55 per cent were for recovery of money, 35 per cent for realisation of rent, and 10 per cent for declaration of title Rent suits were most numerous in Backergunge and least so in Dacca There is a satisfactory improvement in the promptitude with which witnesses were examined; only 9 7 per cent in the superior Courts and 10 6 before Munsifs being detained over two days as compared with percentages of 16 3 and 12 3 during 1896 Mymensingh shows the worst results in this respect, 15 6 per cent of the witnesses in Munsifs' Courts having been detained over two days

on an average throughout the district, and in one instance it is observed that no less than 71 per cent of the witnesses were so detained at Kishorganj The attention of the District Judge will be called to the matter

7 *Crime Police Criminal Justice*—Cognisable crime showed an increase during the year from 18,707 to 21,649 cases, while non cognisable cases fell from 22,690 to 19,986 These fluctuations are attributed to the prevailing high prices, with the usual result of an increase of petty theft, and a diminution of trivial complaints, which are more of a luxury than a necessity A change in the preparation of returns of cognisable cases, adopted in this year's report, has tended to increase the number of cases shown as cognisable Organized and serious crime showed a satisfactory decrease except in Faridpur, where dacoities rose from 3 to 12 during the year under report An interesting chart has been prepared showing the variations in gun shot and other murders in the district of Backergunge, in order to illustrate the results of the measures adopted in 1896 for the disarmament of the district, which the Commissioner describes as "more speedily and thoroughly effective than its warmest advocates ever expected" The manner in which murders, otherwise than by guns, have decreased in exact parallel proportion to gun shot crimes, supports the Commissioner's contention that the check put on the latter has removed the encouragement to violence which had been fostered by the knowledge of the immunity from detection which ordinarily accompanied it During the year 1897 there was a complete absence of gun shot murders, the figures for the three previous years having been 14, 23, and 12 respectively Thirty-two thousand six hundred and sixty eight persons were actually brought to trial during the year Of these, close upon one third were in the district of Mymensingh alone More than one-fourth were tried by Honorary Magistrates, but for whose valuable assistance the Stipendiary Magistrates would have found difficulty in coping with the work The proportion of witnesses detained over two days in the Courts of Stipendiary Magistrates in the Division generally is low, and has remained now for three years practically stationary, amounting to 4 6 per cent , but it is not satisfactory that the percentage in Faridpur, where the total number of witnesses examined was least, should have risen to 8 5, and in the case of one Magistrate was as high as 34 Of the police cases disposed of, 10 1 per cent were remanded six times and over, here, again, the percentage (14 6) being largest in Faridpur

Honorary Magistrates examined considerably more witnesses than in the previous year,—16,968 in comparison with 11,126—and the proportion detained over two days (11 3) remained practically the same, and is still too high The proportion of police cases tried by Honorary Magistrates, that were postponed six times and over, was as high as 24 4 per cent , such cases are not, as a rule, suitable for disposal by a Bench

The number of cases declared false fell from 1,268 in the preceding year to 799 This cannot, however, be attributed to increased vigour in the institution of prosecutions for the offence, only 49 cases having been instituted, of which 15 ended in conviction Mr Savage, in explanation both of the number of cases declared false and the small percentage in which a conviction was either attempted or secured, observes that many of such cases usually possess an element of truth, distorted and variegated it may be by perjury and exaggeration, but still distinguishable

Five hundred and forty three persons were brought to trial in the Courts of Sessions, of whom 60 per cent were convicted The results were poorest in Mymensingh and Faridpur, where the numbers acquitted were in excess of those convicted The exercise of more care in making committals appears to be called for Rs 99,985 were imposed as criminal fines during the year and there was an outstanding balance at the commencement of the year of Rs 39,761 The total collected and remitted amounted to Rs 1,07,023, leaving a balance of Rs 32,322 still to be recovered The balances in the districts of Dacca and Mymensingh are very heavy, noticeably at the Sadar stations (Rs 10,773 and Rs 5,139 respectively The Magistrates will look into this at once A similar state of things at the subdivisions of Munshiganj, Kishorganj, and Madaripur also calls for attention

The Commissioner is of opinion that the working of the police has been on the whole efficient, and thinks there are signs of distinct improvement in recent years Mr Savage, who, from his long experience as District Magistrate in Backergunge and elsewhere, is specially competent to form a sound opinion on this point, observes —"It is impossible for any one who has watched the working of the police to be blind to the fact that there has been and still is much bribery and bad work, but the black sheep in the force have always been in the minority, and there are not wanting signs that the steps taken in recent years to improve the condition of the force are having the hoped for effect The district reports show considerable improvement in work and conduct The number of complaints brought against police officers has decreased, and in no case has any heinous offence been proved against them" With the extension of the system of *daffadars*, more use may still be made of the village chaukidars The latter system is in full working order in Backergunge, but there has been some misunderstanding in its introduction in the other districts Rupees 12,731 were paid during the year as rewards to chaukidars, but the balances at the disposal of all the District Funds at the close of the year show that there was still room for more to have been done in this direction, and the Lieutenant-Governor would be glad to see the reward fund liberally dispensed It was meant to encourage quick and intelligent work among the local watchmen, who are the real detectives of the province, and the value of it has been proved to the hilt The good service medals, which have been given from the fund in some districts, have been found a most useful stimulus, and the Lieutenant Governer commends the plan to those Magistrates who have not yet adopted it

8 *Land Revenue and Cesses* —There are in all 28,435 estates borne on the revenue rolls of the different districts, on which the current demand of the year amounted to Rs 35,65,341 and arrear demand to Rs 1,57,667 The total collections were Rs 35,58,516, and a sum of Rs 30 214 was remitted, the balance outstanding at the close of the year amounting to Rs 1,14,278 The standard of the current collections fixed in permanently settled estates, or 90 per cent of the current demand, was reached in all districts with the exception of Backergunge, where, owing to a default in payment by an estate under the management of the Court of Wards, the percentage was very slightly short of the standard being 98 92 only The percentage of arrear collection on arrear demand was also satisfactory In temporarily settled estates and estates under direct management, the current collections compared with the prescribed standard were as follows —

	Percentage of current collections on current demand	
District	Temporarily settled estates	Estates under direct management
Standard	95	90
Dacca	86 2	72 6
Mymensingh	95 0	91 1
Faridpur	71 4	76 7
Backergunge	91 1	98 8

As was the case last year, in Mymensingh alone were the prescribed standards reached in both classes, the collections in Backergunge fell but little short, and showed an improvement on those of the previous year The collections in Faridpur showed a falling off from those of the previous year the proportion in Dacca was about the same The Lieutenant Governor would again draw attention to the bad results attained in the districts of Dacca and Faridpur in temporarily settled estates leased to farmers A similar deficiency was observed last year since then the collections in Faridpur have improved somewhat, but are still poor, those in Dacca have deteriorated In Dacca the necessity for coercive measures which took time, and in Faridpur the dilatory working of the Certificate Department, are the alleged excuse. The Lieutenant-Governor is unable to accept either of the reasons given as completely satisfactory There is no class of estates in which short collections are less excusable than in estates leased to farmers If the farming system does not secure prompt payment of the revenue, it ceases to have any merits whatever,

and should be abolished as soon as possible The collections in estates under direct management were good in Backergunge and Mymensingh, but fell far short of the prescribed standard in Dacca and Faridpur, the low price of jute and the insufficiency of the collecting establishment are assigned as the causes in Faridpur, but the jute crop, though the prices were low, was a bumper one, and the low prices affected all districts and not alone Faridpur, while the cost of management was 6 per cent. on the demand against 5 in Backergunge, where the current demand was realised almost in full The Lieutenant-Governor, therefore, is constrained to agree with the Commissioner that laxity of supervision by the Collectors in these districts was the true cause, and hopes that they will see to it that arrears are realised fully and punctually in full in the coming year Eight thousand six hundred and ninety-three estates, shares of estates and tenures became liable for sale for default as compared with 8,975 in the previous year The figures quoted in the Resolution of the previous year were incorrect, as there was a mistake in the defaults reported from Backergunge In only 409 cases did the default actually end in sale, and it is noticeable that the sales were fewest in Mymensingh (18), where the number of defaults (1,069) was greatest

A sum of Rs 10,205 was spent in estates under direct management on miscellaneous agricultural improvements Of this, Rs 8,661 were spent on the improvement of the water supply and Rs 3,179 on drainage and embankments The outlay on agricultural and sanitary improvements represents 4 per cent on the current demand and is satisfactory

The percentages of current collections on the current demand on account of the road and zamindari dâk cesses were 85 69 and 96 12, respectively The collections were again poorest in Faridpur (76 9 per cent) Mr Savage remarks—and the Lieutenant-Governor agrees with him—that the road cess collections generally are not satisfactory, and point to laxity in the arrear collection department Partial scarcity is said to be the cause of short collections, but the brunt of the scarcity was felt in the previous year, when the percentages of collections on the demand were better than in the year under review, the latter half of which yielded bumper crops

One hundred settlements, yielding a net increase of revenue of Rs 11,527, were concluded during the year, and 162 cases were pending at the close of the year Of these, 29 cases in Dacca, 7 in Faridpur, and 11 in Backergunge were instituted more than a year ago The Lieutenant Governor hopes that these cases may be promptly disposed of

His Honour observes with satisfaction a marked improvement in the disposal of certificate cases, to the necessity for promptly disposing of which attention was drawn last year The number instituted was fewer, being 13,214 only, in comparison with 17,473 filed during 1896 97, but whereas the balance of cases pending at the close of that year was 7,116, of which 1,796 had been pending over six months since their institution, the corresponding figures at the close of the year under review were 4,418 and 126 only Of the former, Mymensingh is responsible for 2,568

The disposal of partition cases continues to be unsatisfactory Four hundred and seventy-six cases were pending at the beginning of the year and 137 were instituted in the course of it Of these, 187 cases were disposed of and 426 left pending at its close, of which 214 have been pending for over two years It is reported that a proposal has been made for the appointment of an Additional Special Deputy Collector at Dacca, where 233 cases were left pending, no such proposal has yet been received by Government The difference in the cost per acre of partitions between Dacca (5 annas 7 pie), and Mymensingh Re 1-0 6), which was noticed last year, still continues Special enquiry is promised The Lieutenant Governor hopes that the Commissioner will give special attention to this branch of the administration in the current year, and that he will see that the new Partition Act is carefully and intelligently worked, with the result of shortening and cheapening the proceedings.

9. *Estates under the management of the Court of Wards* —Of the five estates under the charge of the Court of Wards, one (Talipabad in the Dacca district) was released during the year With the completion of the survey and record of

rights in the Kanakshar estate, Faridpur, these operations have now been finished in all the estates under the Court The percentage of collections on the total demand was 81 4 per cent, and of remissions, 5 1 per cent The outstanding balance at the close of the year was reduced from Rs 58,032 at the commencement of the year to Rs 30,681 at the close A sum of Rs 16,600 was expended in improvements, of which Rs. 14,933 was in the Dakhin Shabaz pur estate, and Rs 22,509 was expended on "miscellaneous works" The total rental of the estates under the Court of Wards was Rs 1,66,000 Under the order of Government conveyed in the Resolution of the 9th October 1896, the expenditure on sanitary and agricultural improvements should have been Rs 49,000, *i e*, 3 per cent on the rental, and the failure to expend up to that amount, especially in a year of partial distress during the earlier months of it, should be explained As regards the estates under the management of the Court generally, Mr Savage remarks that, "peace now reigns where before the estates came under the Court's management, there was constant war"

10 *Excise Stamps Income tax* —The excise revenue, notwithstanding the high prices prevailing, amounted to Rs 9,03,785, which, though slightly less than the figures of the preceding year, is still in excess of that of previous years The stamp revenue, fell off, both under the heads of judicial and non judicial stamps from Rs 29,50,087 to Rs 28,09,792 There was a marked decrease of 118 cases in the number of instances detected of insufficiently stamped and unstamped instruments The decrease is attributed to a better observance of the law Prosecutions for breaches of the law, however, increased from 56 during 1896 97 to 70, and out of 80 persons brought to trial, 75 were convicted

The income tax demand showed an increase of Rs 9,685 and 358 assessees, which is ascribed to a careful revision of assessment The increase has, however, only slightly more than compensated for the decrease in the previous years The collections were satisfactory and little recourse was necessary to coercive measures The incidence of the tax varies from Re 1 to 26 persons in Dacca to Re 1 per 34 persons in Faridpur

11 *Railways Public Works, and Communications* —The gross receipts of the Dacca Section of the Eastern Bengal State Railway amounted to Rs 5,56,220 in comparison with Rs 4,93,205 in the previous year The heavy crop of jute and an increase in passenger traffic are among the causes assigned The Mymensingh Jamalpur and Jamalpur Jagannathganj extensions are being rapidly pushed on and it is hoped to open the whole line by the end of March 1899 It is expected that the extension to Faridpur will be finished by next cold weather

Serious damage was done to the Government buildings in the Division by the earthquake of 12th June 1897, and a temporary new division of the Public Works Department was opened to supervise their repairs The expenditure on repairs prevented the undertaking of many original works The repair of 17 miles of new district roads and 37 miles of new village tracts were undertaken during the year and an expenditure of Rs 1,10,263 was incurred on new works and of Rs 1,29,284 on repairs There are 319 ferries in the Division under the management of Government and the various District Boards and Municipalities. In Mymensingh the earthquake rendered fordable many ferries previously farmed by the District Board, with a consequent loss of income

12 *Education* —The number of schools teaching the standards of the Education Department decreased by 465—from 8,897 to 8,432—and the number of pupils attending them, from 236,302 to 229,073 This decrease is attributed to the high prices of the last two years. The numbers of pupils given in the Commissioner's report represent those who were at school on the last day of the year, *i e*, 31st March It is difficult to understand why this should be greater on the 31st March 1897, when distress was greatest, than on the 31st March 1898, after harvesting of excellent crops with high prices It may be that when children once cease to attend schools it is difficult to get them to return, but however this may be, the Lieutenant-Governor hopes that lost ground will be regained in the current year In addition, there were 3,629 private institutions *tols, maktabs*, &c, with 37,585 pupils. The number of

girls' schools decreased from 1,139 to 1,042 and their pupils from 14,691 to 13,198 There are some 6,000 girls reading in boys' schools The percentage of boys of a school going age to boys actually at school fell from 33 8 in the previous year to 32 9, and of girls, similarly, from 2 8 to 2 6 The expenditure on education, however, increased by Rs. 42,606, of which Rs 11,988 were contributed from public sources

The Survey School at Dacca lost heavily in pupils, the numbers on the rolls falling from 324 to 190 No explanation has been offered The Industrial School at Barisal was narrowly saved from collapse The Lieutenant Governor regrets to observe that the number of Muhammadans under instruction was less by 3,403 than in the previous years, and that while Muhammadans constitute 65 3 per cent of the total population of the Division, the proportion borne by them to the total school population is 50 per cent only With a view of encouraging Muhammadan education at Barisal and of recognising the efforts already made by the local community in this behalf, Sir John Woodburn has recently sanctioned a grant of Rs 5,000 towards the construction of a hostel in connection with the Zilla School

13 *Dispensaries and hospitals.*—The number of dispensaries in the Division is now 85, or 6 more than in the previous year, with 553,971 patients attending them In Backergunge alone there was an increase of 40,000 patients over the preceding year The Lieutenant Governor is glad to observe that the income from private subscriptions has risen from Rs 59,471 during 1896 97 to Rs 66,168 during the year under report

14 *Local Self-Government institutions* —The working of the District Boards is unanimously commended by the different District Officers, and the reports on the different Municipalities are, on the whole, favourable Some improvement has been made in the administration of the Dacca Municipality, but more remains to be done in the improvement of the sanitary condition of the town

15 *Employment of Muhammadans* —In the Resolution on the report of the previous year, special attention was drawn to the necessity for an equitable distribution of appointments between Hindus and Muhammadans in view of the large proportion borne by the latter to the general population. The Commissioner reports that the interests of the community are kept in view, but that the backward state of education among the Musalmans will long render it impossible to give them a share in the public service in proportion to their numbers In fact, the proportion of appointments held by them has decreased from 26 4 to 25 5 per cent The following classification of different public offices, and the proportion of Muhammadans holding them, is significant —

Office	Total number of posts.	Number of posts held by Muhammadans.	Percentage of posts held by Muhammadans to total number of posts.
Subdivisional Officers	12	3	25
Rural Sub-Registrars	58	34	58 61
Honorary Magistrates	274	53	19 3
Jurors and Assessors .	2,118	297	14 02
Deputy Inspectors of Schools ...	7	2	28 5
Sub-Inspectors of Schools	22	1	45 4
Members of District Boards	104	15	14 4
„ of Local Boards	1'6	44	22 4
„ of Municipalities ...	225	36	16

16. *Conduct of Zamindars* —The names of Nawab Sir Khajeh Ahsanullah, Bahadur, K C I E., and of Raja Rajendra Narain, Rai Bahadur, of Joydebpur, of Dacca, are specially mentioned by the Commissioner as instances of public-spirited and liberal zamindars, who live among their tenantry and are ever willing to assist any good work. In other districts favourable reference is made to the names of Babu Hem Chandra Chaudhri of Ambaria in Mymensingh, and of Syed Muazzum Hossein, Khan Bahadur, of Shaistabad, in Backergunge, but the Lieutenant Governor regrets to observe that, under the example of some of the leading men, absenteeism is reported to be becoming a growing evil in Eastern Bengal The principal land-holders with few honourable exceptions (among

whom Syed Muazzum Hossein, Khan Bahadur, of Saistabad is one) are seldom resident in their respective districts, leaving their affairs too often to fall into the hands of unscrupulous agents to the detriment of their estates and their tenantry

17 To Messrs. Toynbee and Hare the Lieutenant-Governor desires to express his thanks for the efficient control exercised by them over the Division, and to Mr. Savage for his clear and interesting report, of which the extracts are published herewith.

By order of the Lieutenant-Governor of Bengal,

M FINUCANE,

Secretary to the Govt of Bengal

Extracts from the Annual General Administration Report of the Dacca Division for the year 1897-98

* * * * *

III.—WEATHER AND CROPS.

20 The average rainfall of the year was 72 0, against 59 9 in the previous year and 72 3, the average of the five years ending 1896 97 It was, on the whole, well distributed, and as a consequence the crops were all round as good as in any year of which we have a record Had it not been for the earthquake, which, as Mr Roe, Collector of Mymensingh, reports, damaged to the extent of two annas the standing crops (*aus* and jute), and for some high floods, the returns would have shown bumper crops As it is, the crops have been—*aus* rice 16 annas, *aman* rice 18 annas, jute 15 anna crop, and pulses 13-anna crop—a very material improvement on the preceding year.

* * * * *

V.—MATERIAL CONDITION OF THE PEOPLE

26 The past year will be long remembered by all whose food supply depends on the purchasing power of the rupee as a year of high prices and hardship, which here and there deepened into distress All who depend for subsistence on small money incomes, the *Bhadralok* who have no land, clerks and muharrirs, artisans and day labourers, and all who depend upon them must have felt the pinch of poverty more than in any previous year within living memory. The richer classes too cannot look back with pleasure on a year in which trade has been slack, the calls of charity have been many, and the earthquake has caused them serious losses To the cultivators also, the great bulk of the population, the prospect cannot have been a cheerful one for the first half of the year A poor winter crop in 1896 97 had left them with little surplus stock for sale, and the jute crop, though a good one, sold at very low rate To them, however, the second half of the year brought compensation, and a good *bhadon* crop, followed by a bumper rice crop, with prices still above the normal, restored the Eastern Bengal raiyat to his usual state of well-being. Indeed, in spite of all the drawbacks of the year, all the Collectors in general speak of it as one of prosperity

Mr Shirres writes that the people of his district (Dacca) are "exceedingly well off"

Mr. Harris of Mymensingh says —

"On the whole the year under review was more prosperous than the preceding one"

Mr Temple says of Faridpur (in which district there was considerable distress in some parts) —

"Two points have struck me very forcibly —

(1) The ease with which the average cultivator tided over the long period of high prices

(2) The immediate disappearance of the distress early in November, when the earliest *aman* was reaped and the cultivators were assured of a good crop"

And of Backergunge Mr Bell, the Collector, writes —

"The material condition of the people has on the whole been excellent. The district has escaped famine, plague, earthquake, and cyclone The middling crop of 1896 97 has been followed by a huge crop in 1897-98, and all along the peasantry have obtained first-rate prices for their produce"

* * * * *

VII—PRICES OF FOOD AND LABOUR

34. The prices of all articles of food were very high during the year under report, particularly those of rice, gram, and wheat, the result of the failure of the main harvest of the preceding year

35. The price of common rice in the last six years in the last fortnight of March was—

	Srs.	Chs.
1892-93	11	11¾
1893-94	11	8¾
1894-95	17	11
1895 96	13	12
1896 97	9	4¼
1897-98	11	14¼

36 The wages of labour during the year under report were practically the same as in the previous year, except for some time after the earthquake of 12th June 1897, when they rose considerably at the district and subdivisional head quarters of Dacca and Mymensingh, owing to the great demand for labourers. The high prices of food grains did not affect price of labour

* * * * *

IX—TRADE AND COMMERCE

43 There was no change in the trade routes or trade centres of the Division during the year under report, except that many of the rivers which run through the interior of the district of Mymensingh, including the old Bhahmaputra, have, since the earthquake of the 12th June 1897, become almost impassable during eight months of the year The principal roads of that district also suffered very considerably from the earthquake, and for several months wheeled traffic was practically impossible

44 The principal articles of import into this Division are European piece-goods, cotton twists, rice, paddy, gram and pulse, molasses, sugar, salt, lime, timber, corrugated iron, kerosine oil, potatoes and conch shells

45 There is nothing special to note about the importation of any of these articles during the year under report, except that in consequence of the very great damage caused by the earthquake to the lime-producing districts of Sylhet and Cachar, a much smaller quantity of lime came to this Division than in previous years from those quarters, and the demand being abnormal the price ruled very high

46 The chief articles of export from this Division are jute and rice The Collector of Mymensingh, which is noted for its trade in jute, says that there was an exceptionally good crop of jute during the year under report, but export was much retarded by the damages done to the several trade routes of that district by the earthquake.

47 Bäckergunge produces most of the rice for export from this Division, and in the season there is a brisk trade by steamers, flats and large boats to Calcutta as well as to Assam. The outturn this year was exceptionally good, and is estimated at 2,59,88,700 maunds, against 1,73,25,800 maunds in the previous year, but though prices ruled high, the export to Calcutta by the canals amounted to 27 lakhs of maunds only, against 23 lakhs of maunds in 1896-97 and 34 lakhs of maunds in 1895-96 The comparatively small exportation to the westward is attributed to the fact that more rice now goes north towards Assam than formerly

48 Gram and pulse, linseed and mustard seed are also largely exported from this Division Dacca manufactures, such as plain and striped muslins, kasidas, jamdanis, plain dhutis and chadars, also form somewhat important articles of export from this Division Country-made striped cloth called

charkhana of a fine quality is manufactured on a small scale in the Sadar subdivision of the Faridpur district and exported to the neighbouring districts

49 Of the other articles of export, mention may be made of hide, dried fish and ghee from Mymensingh, fish from Faridpur, and cocoanut, betel nut, and *sundari* wood from Backergunge.

50 The outturn of cocoanut and betel nut was somewhat short during the year under report The price of the former rose to Rs, 38 per thousand, and that of the latter to Rs 10 per maund from Rs 20 per thousand and Rs 8 8 per maund respectively in 1896-97.

51 Rupees 25,000 worth of *sundari* wood is reported to have been exported from this district during the year under report.

52 There was no appreciable change in the export of other articles, and they do not seem to call for any remark.

53. As reported in previous years, a large portion of the trade of this Division was carried on by means of large country boats, which do not pass through any registering centres, and it is therefore not possible to arrive at any correct estimate of its extent The statistics supplied to the District Officers by the Railway authorities, however, give us an accurate idea of that part of the trade of the Division which is carried by rail We have also accurate statistics of the trade of the Custom port at Narayanganj, the most important centre of trade in this Division, which has a large trade with Chittagong Coast ports and Calcutta, both by water *vid* the Sunderbans or the Eastern Canal and by rail *vid* Goalundo

Rail borne traffic

54 *Rail-borne traffic* —The following two tables, A and B, compare the import and export traffic by rail of each district of the Division as well as that of the Division during the year under report with that of 1896 97 Figures for the trade carried on between one district of this Division with another have been excluded from the divisional figures shown in columns 10 and 11 of the tables

Backergunge	28 7 903	27 97,056	20,782	1,057	60,906	71 801	11 778	2,480	4,055	10 4 0	3 07	4,658
Total	37 17 958	38 30 9 2	2,55, 54	62,2 5	1,07 19 490	1 43,80 984	2,30 883	38,689	44,970	54 6 1	2 15 1 1	3 0 4 4

Trade of the port of Narayanganj

56 During the year under report 352 vessels of 42,370 tons burden entered the port as against 308 vessels of 41,324 tons in the previous year The number of vessels cleared also rose from 317 of 39,294 tons in 1896-97 to 368 of 43,211 tons in the year under report The increase is attributed to an increased trade during the year in jute, salt and rice

Of the vessels that entered the port, 92 with cargo and 249 in ballast were from Chittagong, 9 in ballast were from Coconada, and 2 in ballast were from Masulipatam Of the vessels that cleared, 366 were with cargo and 2 in ballast, and all of them went to Chittagong

The following statement compares the total trade of the port in 1897-98, with that of 1896-97 —

	1896-97	1897-98
1	2	3
	Rs	Rs.
Imports	2,69,818	2,56,995
Exports	53,18,523	57,82,979
Total	55,88,341	60,39,974

Thus there was an increase in the total trade of the port in spite of a slight falling off in the import trade

The statistics of the import trade of the port for the past two years are compared in the following table —

Articles	1896-97		1897-98		Remarks.
	Weight	Value.	Weight.	Value	
1	2	3	4	5	6
		Rs		Rs	
Salt	Tons 4,092	1,16,687	Tons 10,682	..*	* The value of 7,159 tons of salt was not given in the special pass Hence the total value of the salt could not be ascertained. The value of the remaining quantity of salt was Rs. 92,220.
Cotton	Cwt. 4,818	36,360	Cwt. 3,123	21,950	
Rice and paddy	„ 10,760	42,677	„ 19,849	1,06,127	
Jute	„ 271	2,403	„ 1,031	8,102	
Kerosine oil	Gallon 70,667	24,040	...	..	
Timber	Tons 297	21,020	Tons 237	11,005	

The increase in the importation of salt is due to the opening of a new bonded warehouse by Babu Kishori Mohan Ray. The decrease in cotton is due to the late cyclone at Chittagong in October 1897, after which no cotton came from that port. The increase in rice and paddy was due to the short local crops Kerosine oil apparently is no longer imported by ships to the port

The following table compares the export trade of the year under report with that of the previous year —

Articles	1896 97		1897 98		Remarks
	Weight	Value	Weight	Value

The increase in jute was due to the crop being the largest on record, and to the export in the previous year having come to a complete stop owing to the high rates of discount ruling in Calcutta The other variations are attributed to differences in the prices ruling at Narayanganj and Chittagong

* * * * * * *

XIII—CRIME

62 The year 1897 was a year of high prices and hard times, which had the usual effect on crime—increase of cognizable cases (particularly of petty thefts) and decrease of non cognizable cases, which are often a somewhat expensive luxury The figures for the Division are—

	1896	1897	Increase	Decrease
Cognizable	18,707	21,649	2,942	
Non-cognizable	22,690	19,986		2,704

It must be noted, however, that part of the increase shown under cognizable is due to the change made in the preparation of the returns, which has led to the entry under reported cognizable offences of cases which, though originally brought under a cognizable section, are subsequently found to come under a non-cognizable section or to be cases of mistake of law or fact The fluctuations in the figures of the different districts are remarkably in proportion to the extent to which distress was felt In Faridpur, where special measures were necessary to relieve the distress, the figures for cognizable offences show a rise of 38·0 per cent. as compared with 1896, while those for non cognizable show a decrease of 22 4 per cent In Dacca, where the distress was less pronounced, the increase of cognizable cases is 27 5 per cent and decrease of non-cognizable 4 3 per cent. Mymensingh with but little distress has 13 3 per cent increase in cognizable, and 14 1 per cent decrease in non-cognizable, and Backergunge, where distress was practically non-existent, shows only a fraction (¼th per cent.) increase in cognizable and 8 3 per cent decrease in non-cognizable. It is satisfactory to find that, notwithstanding the general increase in cognizable crime, there has (except in Faridpur, where true dacoity cases rose from 3 in 1896 to 12 in 1897) been a decrease in organised and serious crime both against property and person, which bears testimony to the general efficiency of the administration in a year of exceptional difficulty Vigorous and judicious use of sections 107 and 110, Criminal Procedure Code, has contributed much to the success in Backergunge, Mymensingh, and Dacca, and to an undue hesitation to take action under the latter section must to some extent be ascribed the comparative failure in Faridpur

In connection with serious offences against the person the most remarkable variation is in Backergunge, where the disarmament has been more speedily and thoroughly effective than its warmest advocate ever expected Murders by gunshot have entirely ceased. The hired midnight assassins have been deprived of both their guns and their occupation and, what is more, the encouragement to violence, which the knowledge of the almost complete immunity enjoyed by them afforded, has been removed and other murders have decreased in proportion A copy of a very interesting chart drawn up by the Magistrate of Backergunge, which is given below, shows an inter relation between these two classes of crime which is too constant to be accidental, and which gives good ground for hoping that gunshot murders having ceased, other murders will in the future be few and far between.

BACKERGUNGE.

Chart of murders and gunshot murders in the district for four years ending 1897

XIV —POLICE

63. The regular police force in the Division in the year 1897 was made up of 4 District Superintendents of Police, 4 Assistant Superintendents, 23 Inspectors, 221 Sub-Inspectors, 137 Head Constables, and 1,881 constables—a small force to keep the peace, restrain bad characters, and bring to justice criminals among 10 millions of people in the four most turbulent districts of Bengal and (*pace* critics who, judging hastily from the misconduct of a few, condemn the whole body) on the whole an efficient one, as is proved by the manner in which crime has been dealt with (*vide supra* section XII) It is impossible for any one who has watched the working of the police to be blind to the fact that there has been and still is much bribery and much bad work, but the black sheep in the force have always been in the minority, and there are not wanting signs that the steps taken in recent years to improve the condition of the force are having the hoped-for effect The district reports show general improvement in work and conduct, the number of complaints brought against police officers has decreased, and in no case has any heinous offence been proved against them.

During the year it was found necessary to post special police forces at Karotia in Mymensingh and at Haturia in Backergunge to prevent disturbances likely to arise from rival claims to estates, and in Backergunge eight men were appointed special constables for two months in a turbulent village called Harinafullia

The rural police number 19,761 in the Division Of these, about one-half are Mussulmans and the other half chiefly low-caste Hindus Efforts have been made in some districts to recruit Hindus of a higher caste, but without much success, and it is doubtful whether the want of success in this direction is to be regretted High-caste men make better daffadars than chaukidars, and it would be as well to recruit them as daffadars only. The large village and daffadari system is in complete working order in Backergunge, and the Magistrate of that district is well satisfied with it In Mymensingh, Dacca, and Faridpur the principle of the "large village" has been misunderstood, the "villages" will have to be re-arranged, and it will be some time before these three districts will reap the full advantage of the new system.

The Chaukidari Reward Fund has in general been properly administered, and the considerable sum of Rs 12,731 has been paid in rewards In all districts, however, the fund at the end of the year had a large sum to credit, and everywhere more might be done towards granting rewards for general good conduct

The chaukidars have in general worked well throughout the year, and there is no doubt they are a much more useful body of men than they were 20 or even 10 years ago, but I am not satisfied that in any of the districts of the Division as much is done to make use of them as might be With good daffadars as a link between him and the chaukidar, any Sub-Inspector worth his salt should know everything that goes on in his *elaka*, and neither riot nor dacoity should take him by surprise

XV.—CRIMINAL JUSTICE

64 There were 33,997 persons actually under trial in the Division during the year. Of these, 32,668 were tried, and of those tried 19,3[illegible], or 59 per cent, were convicted.

Judging from the number of persons under trial, the courts had most work in Mymensingh (10,994 under trial) and least in Faridpur (7,226). Backergunge stands second with 8,423, and Dacca third with 7,354. Of the persons tried during the year, 9,351, or more than one-fourth of the total, were tried by Honorary Magistrates, of whom there are in the Division 272, and who constitute 37 benches. Of course the cases made over to Honorary Magistrates are, as a rule, cases of a petty nature, which can be completed at one sitting, but making every allowance for this, it is clear that if it were not for the Honorary Magistrates, the Stipendiary Magistrates would never be able to cope with the work. As a rule the District Magistrates speak well of the work done by the Honorary Magistrates, but in some instances complaints are made of irregular attendance and unnecessary adjournments—defects which careful supervision will remove.

In the various courts of session 543 persons were tried during the year, of whom 326 were convicted and 217 acquitted. The number of persons acquitted in the Sessions Courts exceeded the number convicted in both Mymensingh and Faridpur, but in Dacca and Backergunge the percentages of conviction were 70·7 and 76·3 respectively

The number of cases declared false by the courts is only 799, against 1,268 in the preceding year. The decrease is, however, not due to steps taken to check the institution of false cases (for in only 49 cases were proceedings taken against the complainants, and only 15 of the complainants were convicted), but to change in method of classification. As a matter of fact, it is improbable that one-fourth of the 799 cases declared false were really false cases, i.e., cases without some substratum of truth The more closely cases are scrutinised the more is it found that charges which at first sight seem false are in substance true, but have a fringe of exaggeration around them, and it is the want of proper scrutiny in the initial stage which leads to the large number of cases declared false and the extremely small number in which those who are thought to have brought false charges are convicted It is sometimes hastily assumed that it is extremely difficult to prove a false case false, but the fact is that in general a false case can easily be proved to be false, and that seeming failures are not failures at all, because the original charges made were substantially true. This is the real explanation of the constantly recurring phenomenon of a large number of false cases (so-called) and lamentation over the small number of convictions for the institution of such cases

It is unsatisfactory to note that there has been an increase in the number of remands in police cases The number of A forms remanded 6 times or more rose from 68 in 1896 to 104 in 1897 in Dacca, in Mymensingh the corresponding numbers are 86 and 135 and in Faridpur 55 and 135.

Backergunge alone shows an improvement, the figures being 72 and 71

* * * * * * *

XVIII.—ATTACHED ESTATES INCLUDING COURT OF WARDS

*(1) Talipabad estates in Dacca
(2) Kanakshar estate in Faridpur,
(3) Dakhin Shabaspur estate
(4) Lucas and other estates.
(5) K M Roy and other estates in Backergunge

79 At the commencement of the year under report there were 5* properties under the management of the Court of Wards in this Division, of which one (Talipabad estates) was released during the year under report. No new estate was taken charge of during the year.

The survey and record of rights of the Kanakshar estate in Faridpur commenced in 1895-96 have been completed during the year, and the final report will shortly be submitted for confirmation Survey and record of rights of the other estates were completed in previous years.

The total arrear and current demand of all the estates under the management of the Court of Wards for the year under review was Rs. 2,30,358, of which Rs 1,87,738, or 81·4 per cent, was realized and Rs. 11,823, or 5·1 per cent, remitted as irrecoverable, leaving a balance of Rs. 30,681 at the close of the year

The net revenue of the estates after payment of land revenue and rent to superior landlord was Rs 94,076, Rs 559 was spent in payment of debts, Rs 34,029 in management, Rs 42,514 in maintenance, Rs. 16,600 in improvements, and Rs 22,509 in miscellaneous works. The surplus, including the cash balance of the preceding year, amounted to Rs. 60,196

The condition of the tenants on the whole was satisfactory there was no friction between them and the managing agency and the management has in every estate been successful Mr Beatson Bell, Collector of Backergunge, in which district the largest of the estates lie, reports —

"The condition of the tenants was prosperous on account of the excellent harvest and its high price. The plague of the betel nut trees has practically disappeared. It is satisfactory to find that no estate in this district is now in what I may call the 'Register of bad characters,' the outstanding balance being in every case less than 25 per cent of the current annual demand"

I may add that peace now reigns where before the estates came under the Court's management there was constant war

* * * * * * *

XXIII.—RAILWAY AND OTHER PUBLIC WORKS.

85 The gross receipts derived from the Dacca section of the Eastern Bengal State Railway during the 12 months ending 31st March 1898 amounted to Rs 5,10,[illegible] against Rs 4,93,305 in the previous 12 months. The increase is attributed to the exceptionally heavy traffic in passengers during the late Nangalbund fair, to the excellence of the jute crop in Mymensingh, and also to the opening of the Assam-Bengal line of railway, which has improved communication between Chittagong, Comilla, Chandpur, Narainguuge, Dacca, and Mymensingh.

No new line of railway was opened in the district of Dacca during the year under review, but the project of a railway from Sealo to Munshiganj has been revived. The earth-work on the Mymensingh-Jamalpur extension of the Dacca section of the Eastern Bengal State Railway has been completed, and rails are being laid as rapidly as possible, on the Jamalpur Jagannathganj extension the earth-work is more than half-finished. The whole line is expected to be open by the end of March 1899 It is believed that the line might be profitably extended to the borders of the Garo Hills. The extension of the Eastern Bengal State Railway line to Faridpur will, it is expected, be completed by the next cold weather

A new division of the Public Works Department, with its head-quarters at Dacca, was created temporarily during the year under review for the repair of the heavy damages done to the Government buildings in Dacca and Mymensingh by the earthquake of the 12th June 1897, and all Government works in these two districts, as well as those in Faridpur, were retransferred from the District Boards to this new Public Works division in the latter half of the year The charge of the public buildings in Backergunge remained with the District Board, and it is reported that work went on smoothly under the supervision of the District Engineer.

86 Other important public works executed during the year were—

In Mymensingh

(1) The protection of a portion of the western bank of the river Brahmaputra opposite the Collector's kutchery at a cost of Rs 4,123

(2) The construction of a first class mortuary

In Faridpur

(3) The construction of the Telegraph office at Rajbari.

In Backergunge.

(4) The subdivisional court-house at Patuakhali.

My office building and residence (both private buildings, but held by Government on long leases), which were badly damaged by the earthquake, were thoroughly repaired during the year. No original work was undertaken after the earthquake, as all the money available had to be devoted to the repairs

As the hired building which provided accommodation to the Dacca District Board office and the dâk bungalow was badly damaged by the earthquake, the District Board has acquired on thirty years' lease a private building for its office and the dâk bungalow, and has repaired the same. The cost of repairs will be recovered by deduction from the rent of the building

XXIV —COMMUNICATIONS

87 The table below shows the length of roads of different classes in the several districts of this Division —

Districts	District Roads								Village roads.	
	Embanked, bridged and metalled.		Embanked, bridged, but not metalled		Not embanked and not bridged.		Total.			
1	2		3		4		5		6	
	Miles	Fur	Miles	Fur	Miles	Fur	Miles	Fur	Miles	Fur
Dacca	7	5	206	0	63	5	277	2	179	4
Mymensingh	34	0	525	4	100	4	660	0	1,717	4
Faridpur	11	0	123	1	19	4	153	5	33	6
Backergunge	12	6	270	1			282	7	407	2
Total of 1897-98	65	3	1,124	6	183	5	1,373	6	2 337	0
Total of 1896 97	62	5	1 110	3	183	0	1,356	0	2,299	0
Increase or decrease	+2	6	+14	3	+0	5	+17	6	+37	3

88 The expenditure on new works was —

Districts	Amount spent in—	
	1897-98	1896-97
1	2	3
	Rs	Rs
Dacca	10,393	11,973
Mymensingh	39,594	50,268
Faridpur	5,011	9,827
Backergunge	55,265	43,646
Total	1,10,263	1,15,714

The most important works on which the above sums were spent were the improvement of the railway feeder roads—Tangi to Kaligunge in the district of Dacca, and Balipara to Shibgunge in Mymensingh, and metalling station ghat road in Faridpur

89. The expenditure on works of repair was —

Districts.	Amount spent in—	
	1897-98	1896-97.
1	2	3
	Rs	Rs.
Dacca	26,430	25,578
Mymensingh	62,749	38,181
Faridpur	8,969	10,086
Backergunge	31,136	27,747
Total	1,29,284	1,01,592

The large increase in Mymensingh was due to expenses incurred in making the roads passable after the earthquake of the 12th June 1897.

90. The subjoined table shows the expenditure on village roads —

Districts.	1897-98			1896-97		
	Original works	Repairs	Total	Original works	Repairs.	Total
1	2	3	4	5	6	7
	Rs	Rs	Rs	Rs	Rs	Rs
Dacca	958	3 526	4,484	2 494	5 937	8,431
Mymensingh ..	4,093	14,164	18,257	11,390	9,640	21,035
Faridpur	2 346	3,976	6,321	3 405	4,623	8,028
Backergunge .	17 121	21,913	39 034	17 169	18 523	35,692
Total	24,517	43,579	68,096	34,463	38,723	73,186

The decrease in Dacca under both the heads "Original works" and "repairs," and in Mymensingh under head "Original works," is explained as due to the transfer of some grants originally made for village roads to water supply The decrease in Faridpur has not been explained In Backergunge short village paths are particularly useful, and expenditure on them must tend much to make the road cess popular

91 The following statement shows the number of ferries managed by the different bodies in each district —

Districts.	Under Government management		Under District Board management		Under municipal management.		Total	
	1897-98	1896-97	1897-98.	1896-97	1897-98.	1896-97	1897-98	1896-97
1	2	3	4	5	6	7	8	9
Dacca	2	2	70	66	4	4	76	72
Mymensingh	2	2	179	173	2	1	183	176
Faridpur	..		21	21	4	4	21	25
Backergunge	4	4	30	28	5	5	39	37
Total ..	8	8	300	288	15	14	319	310

The steam ferry between Naraingani and Munshigani continued to be managed by the Dacca District Board, and was let in farm as in the previous years. The receipts amounted to Rs. 5,412 and the working expenses to Rs. 2,837 There was thus a surplus of Rs 2,575 to meet the cost of depreciation. The Mymensingh District Board suffered considerable loss of income from ferries on account of the upheaval of river-beds by the earthquake of the 12th June 1897, whereby many ferry sites became fordable

XXVI.—EDUCATION

96 The following statement shows the state of education in the Division during the past year —

Statement showing the state of Education during the year 1897-98 in the Dacca Division

Population 9,845,296. Number of boys of school going age (at 15 per cent of the male population) 750,819

Class of Schools	Number of schools existing at the end of the year	Number of pupils on the rolls at the end of the year		Expenditure from—						Cost per head of pupil.	Number of girls in each class of schools.	Remarks
		a	b	Provincial revenues.	District Boards funds.	Municipal funds.	Fees.	Other sources.	Total.

Grand Total	8,432	213 522	15,551	1 84 376	1 68,344	6,987	5,39,103	2,33,332	10,91 837	5 7	15,551	28 5 rati. per cent

97 The number of public institutions, which are schools of organised instruction, teaching the various standards prescribed by the Education Department, decreased by 465 from 8,897 to 8,432, and the number of pupils attending them by 7,229 from 236,302 to 229,073 Of the total pupils at school, 213,522 were boys and 15,551 were girls Besides the public institutions, there were 3,629 private institutions, such as *tols*, *maktabs*, *koran* schools (with 37,585

pupils), which do not teach the departmental standards. There was a loss of 306 schools of this class, but a gain of 98 pupils attending them High price and scarcity of the past two years affected the educational prospects of all the districts in the Division, those of Mymensingh most severely. Of the boys of school-going age in the Division, 32·9 per cent., and of such girls 2·6 per cent, are actually at school. These percentages in the preceding year were 33 8 and 2·8 respectively.

The total expenditure on education increased by Rs. 42,606, the increase in contribution from public sources being Rs 11,988, and that from private sources Rs. 30,618. The contribution from public sources formed 30·2 per cent of the total expenditure, the direct Government expenditure being only 14·1 per cent. There was a slight increase of expenditure from district funds, the municipal expenditure on education remained unchanged, but was redistributed, part being withdrawn from secondary and paid to primary education.

The results of the last University Entrance examination are not yet published. At the middle English scholarship examination 68 per cent. of the competing schools and 58 per cent of the competing candidates passed At the middle vernacular examination the percentages of competing schools and candidates were 66 and 37 respectively. These examinations are losing their importance, as they do not qualify a successful candidate for receiving any professional education. Education in vernacular only without English beyond the primary standards is growing less and less popular every day The primary schools continue to grow in popularity, and they are largely resorted to by cultivating classes, and it does not appear that education up to the primary standards renders a boy unfit or unwilling to follow his father's calling. At the upper primary examination 71 per cent. of the competing schools and 58 5 per cent of the competing candidates were successful The corresponding figures for the lower primary examination were 84·1 and 68·5 respectively.

The number of girls' schools decreased by 97 from 1,139 to 1,042 and their pupils by 1,433 from 14,631 to 13,198, there are half as many girls again in boys' schools, which raise the total number of female children under instruction to 19,250

The Eden Female School in Dacca is the only Government institution for girls, it had 137 girls on its rolls, and cost Rs 6,486, of which Rs 5,635 was paid from Provincial revenues. This school, which teaches up to the University Entrance examination, and is also allowed to compete at all lower examinations, sent in candidates for primary examination only, and five girls passed the lower primary examination, one girl from Backergunge passed the middle vernacular examination, 17 girls in the Division passed the upper primary, and 292 the lower primary examination.

There are 7 special schools in the Division, the training school, the survey school, the medical school, and the Madrasah at Dacca are Government institutions. The industrial schools at Mymensingh and Barisal are maintained by District Boards; the former, however, receives a contribution of Rs 2 00 a year from Rai Jogendra Kissore Roy, zamindar, after whose father's name the institution is called Kasi Kishore Industrial School. There is an unaided homœopathic school at Dacca. The condition of the training school and the medical school remained unchanged. The survey school lost heavily in strength, the number of pupils falling from 324 to 190. The industrial schools are affiliated to the Sibpur Engineering College. The school at Barisal, which was about to collapse, was resuscitated during the year under the advice of the Principal of that College. It had 30 pupils and Mymensingh School only 13. Both the schools are going on fairly well.

The Madrasah at Dacca had 491 pupils, against 471 of the previous year It is supported by the Mohsin Endowment Fund, and cost Rs. 17,317, of which Rs. 3,333 was raised from fees. The institution is well endowed with scholarships and prizes.

The number of Muhammadans under instruction decreased by 3,403 from 137,060 to 133,657. The Muhammadans constitute 65·3 per cent. of the total population of the Division, but the percentage of Muhammadans at school to total school population is 50·1, which is the same as in the last year At the lower primary examination the Muhammadans were fairly successful, but at the higher examination they were less successful

XXVII.—DISPENSARIES AND HOSPITALS

98. Dispensaries have increased in number from 79 to 85 and patients, indoor and outdoor, from 481,863 to 552,971. The increase is most marked in Backergunge, where alone the increase in patients has been more than 40,000. The increase is chiefly among outdoor patients.

The Dufferin Zanana Hospital attached to the Dacca Mitford Hospital has been completed, and is now being furnished. The Johnson Ward, to be in addition to the Simpson Ward of the Mitford Hospital, which is being constructed by the liberality of Raja Rajendra Narain Roy Bahadur of Bhowal for treatment of women of *bhadra lok* class, is not yet complete.

A new and separate dissecting room for the female students of the Dacca Medical School has been built during the year. At Mymensingh a separate pauper ward has been constructed during the year at a cost of Rs. 2,100 by local subscription.

With the approval and sanction of Government the management of the Mitford Hospital at Dacca has been made over by the Municipal Commissioners to a body of Governors, with the Magistrate as Chairman and the Civil Surgeon as Secretary. This change was made in the expectation of obtaining large private subscriptions and donations. The Municipality will contribute a fixed sum of Rs. 11,000 annually towards the maintenance of the institution.

The total income of the dispensaries during the year was Rs. 1,31,407, against Rs. 1,07,126 in the preceding year, of this, Rs. 66,168 was from private subscriptions, as against Rs. 59,471 of the previous year. The total expenditure was Rs. 1,26,934, against Rs. 1,00,870 of the preceding year.

* * * * * * *

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

101. The subjoined statement shows the constitution of the District and Local Boards, and the number of meetings held by them during the year under report —

District and Local Boards

Name of Board.	Number of Members.			Number of meetings.
	Official.	Non-official.	Total.	
1	2	3	4	5
District Board, Dacca	9	20	29	12
Ditto, Mymensingh	5	20	25	19
Ditto, Faridpur	9	16	25	15
Ditto, Backergunge	9	16	25	16
Total	32	72	104	62
Local Boards in Dacca	1	44	45	30
Ditto, in Mymensingh	4	69	73	69
Ditto, in Faridpur	9	31	40	30
Ditto, in Backergunge	15	83	98	54
Total	29	173	196	183

* The number of Local Boards which failed to meet once a month was 6 only, against 11 in the previous year.

The constitution of the District Boards of Dacca and Faridpur remained unchanged. The District Boards of Mymensingh and Backergunge were reconstituted during the year of report.

The following statement shows the financial position of the District Boards during the year as compared with the previous year —

Name of District Board.	Opening balance.		Total income.		Total expenditure.		Closing balance.	
	1897-98	1896-97	1897-98.	1896-97	1897-98.	1896-97	1897-98.	1896-97
1	2	3	4	5	6	7	8	9
	Rs.	Rs	Rs	Rs	Rs	Rs	Rs.	Rs.
Dacca ..	54,260	54 683	1 85 901	1,61 803	1 71,761	1 58 205	68,400	58,281
Mymensingh ..	49 680	37 024	3 12,068	3,21 045	3 49 960	3,16 179	32,606	49 680
Faridpur ..	15,705	110	1 18,063	1 33,230	1 07 121	1 17 635	26,650	15,705
Backergunge ..	99 489	70 284	3,74 418	3,01 114	3,83,494	2 71,073	90,353	99 489
Total ..	2,19,277	1 62,095	9 00,336	9,67 187	9,06 746	8 59 994	2,18,009	2,19 276

As to the working of the District and Local Boards of this Division, I quote the remarks recorded by the Magistrates of districts —

Mr L. P Shirres, Officiating Magistrate-Collector of Dacca, writes —

"The members of the District Board did their work with zeal and intelligence The assistance they rendered to the administration was very real and very great Collectively they possess great commonsense, and help to promote continuity of policy and to prevent rash and wasteful expenditure The work of the Local Boards has not been equally satisfactory"

Mr F. R Roe, Officiating Magistrate-Collector of Mymensingh, writes —

"I took over charge of the district after the year closed, and I have no personal knowledge of the manner in which the District and Local Boards worked during the year My predecessor, Mr Harris, remarks in his note left for the District Board Report that the meetings of the Board have been generally well attended, that there was no tendency to obstructiveness, and that business has been expeditiously conducted The Local Boards also are said to have shown an interest in the affairs of their subdivisions, and to have made judicious allotments of their funds."

Mr K C. De, Officiating Magistrate-Collector of Faridpur, writes —

"My predecessor, Mr Temple, has left the following remarks on the working of the District and Local Boards —

'The Board has worked smoothly throughout the year, and as a consultative body has done good work. I have on several occasions obtained useful local information from the various members. The inclination to do office work, however, is small, and there is room for much more zeal on the part of some members working on certain of the Sub Committees I am not an admirer of Local Boards, and my (one) year's experience at Faridpur has in no way tended to alter my opinion Perhaps their chief business is their supervision of pounds and ferries, and this has certainly not struck me as satisfactory, and this is the more noticeable, as a Special Pound and Ferry Inspector is employed I have tried to impress upon the Chairmen of the various Local Boards the necessity of supervising the work of the Inspector carefully, and seeing that the neglects which he brings to light are really remedied, but from the report and what I have myself seen, I am afraid pound-farmers in particular are not kept up to the mark as they should be.'"

Mr Beatson Bell, Officiating Magistrate-Collector of Backergunge, writes —

"The District Board worked well during the year I never found them in any way obstructive The Vice-Chairman, who has recently been honoured by Government with the title of Rai Bahadur, is an excellent man of business."

Union Committees under the Local Self-Government Act have not yet been established in any of the districts of this Division.

102 The constitution of the Municipal Committees of this Division is shown below —

Municipalities.

Profession or Occupation	Municipalities in the district of—				Total
	Dacca	Mymensingh	Faridpur	Backergunge	
1	2	3	4	5	6
1 Government servants ...	6	15	6	9	36
2 Ditto pensioners		1	...	..	1
3 Zamindars and other landholders ..	8	24	3	8	43
4 Pleaders and mukhtars	6	34	13	14	37
5 Merchants, traders, and money-lenders	7	3	2	10	22
6 Medical practitioners ..	2	8	..	2	12
7 School-masters and other Government servants.		10	1	2	13
8 Unspecified	4	14	5	8	31
Total	33	109	30	53	225

The Patuakhali Municipality, in the district of Backergunge, was reconstituted during the year There was one bye election in the Dacca Municipality and one in Barisal.

The following statement shows the financial position of the municipalities, district by district, during the year of report, as compared with the previous year —

Municipalities in the district of—	Opening balance		Total income in—		Total expenditure in		Balance in—	
	1897-98	1896-97	1897-98	1896-97	1897-98.	1896-97	1897-98	1896-97
1	2	3	4	5	6	7	8	9
	Rs	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs
Dacca	4,081	9,189	2 77,588	2,86,441	2,50,632	2,91,549	31,037	4,081
Mymensingh ...	24,118	13,473	78,300	98,896	90,690	88,169	71,728	24,118
Faridpur	6 091	1,349	21 602	20 455	23,353	20,713	4,340	6 091
Backergunge ..	4,936	2,845	44,718	44,351	41,341	42,260	8,313	4,936
Total	37,226	26,856	4,17,209	2,74,143	4,06,016	3,42,691	37,226	37,226

Mr. L. P. Shirres, Officiating Magistrate-Collector of Dacca, writes on the working of the municipalities in his district —

"The Narainganj Municipality under the able administration of Mr Wilson continued, as in previous years, to be admirably managed. Since the close of the year the Municipality has had to regret his loss on retirement from business. In Dacca the load of debt improperly contracted was paid off, the administration of the Mitford Hospital was put on a separate basis, the roads were very greatly improved, chiefly through more efficient supervision of repairs, a very little progress was made in the reorganisation of the administration, and something was done towards introducing the central depot system On the whole, however, the sanitary condition was substantially the same as before. Better progress has, I am glad to say, been made since the close of the year"

On the municipalities in his district, Mr F R. Roe, Officiating Magistrate-Collector of Mymensingh, writes:—

"I saw nothing of the working of the municipalities during the year under report. Mr Harris has not left a special note on the subject. Judging from my short acquaintance with the municipalities of the district, I am of opinion that on the whole the Committees do fairly satisfactorily what is required of them, but there is a tendency to petty internal intrigue in many of them."

About the municipalities of his district, Mr. K C De, Officiating Magistrate-Collector of Faridpur, writes —

"The Faridpur Municipality is very ably managed by the energetic and public spirited Chairman, Babu Ambica Charan Mazumdar. The Vice-Chairman, Babu Mathura Mohan Maitra, is also an experienced gentleman, and takes a great deal of interest in the office work The Chairman and Vice-Chairman of the Madaripur Municipality are newly appointed and utterly inexperienced. The Chairman, however, does not seem to be apathetic, and the Vice-Chairman is very energetic."

Mr Beatson Bell, Officiating Magistrate-Collector of Backergunge, writes on the working of the municipalities in his district —

"All the municipalities have done good work during the year Nalchiti was somewhat dislocated for several months owing to the absence of a Chairman. Mr Haro left some valuable notes for the guidance of the municipalities in the matter of latrines Some action has already been taken on his suggestion, but much remains to be done"

On the whole, it seems that District Boards and municipalities have done good work, but that Local Boards are nowhere held in much esteem

XXXI—EMPLOYMENT OF MUHAMMADANS

103 Out of the 12 subdivisions in the Division, 3 are in charge of Muhammadan Deputy Magistrates, and of 58 Rural Sub-Registrars, 34 are Muhammadans But of 274 Honorary Magistrates, only 53, and out of 2,118 jurors and assessors, only 297 are Muhammadans There are only 2 Muhammadan Deputy Inspectors and 1 Muhammadan Sub-Inspector of Schools out of 7 Deputy Inspectors and 22 Sub-Inspectors. On the different Local Self-Government Boards, the number of Muhammadans is shown below —

	Total number of members	Number of Muhammadan members.	Percentage.
1	2	3	4
District Boards	104	15	14 4
Local ,,	196	44	22 4
Municipal ,,	225	36	16

The number of Muhammadan ministerial officers has increased by ten during the year, which is satisfactory as far as it goes In all districts the interests of Muhammadans are kept in view, and they are employed whenever it is possible to employ them with proper regard to the requirements of the public service, but the backward state of education among the Muhammadan community will for long render it impossible to give Mussalmans a share in the public service proportionate to their numbers

The percentage of the Muhammadan to the Hindu population is 65 6, but the percentage of offices held by the former is only 25 5

* * * * * * *

XXXVII—GENERAL REMARKS

118. The year began under the shadow of famine, and the earthquake of 12th June enhanced the gloomy prognostications. Six months of high price and anxiety were, however, followed by six months of such abundance that at the end of the year nearly all traces of preceding hardships had disappeared

The life-boat establishment at Goalundo continued to do good work, and saved 141 lives during the year.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CHITTAGONG FOR THE YEAR 1897-98.

No. 1934Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 4th October 1898

RESOLUTION.

READ—

The Administration Report of the Commissioners of the Port of Chittagong for the year 1897-98

The financial position of the Chittagong Port Fund for the past two years is shown in the following statement —

	1896 97	1897-98
1	2	3
	Rs. A P.	Rs A P
Opening balance of the year	56 907 9 7	8,709 1 8
Receipts during the year	55,235 2 11	1,09,785 11 6
Total	1,12,192 12 6	1,18,494 13 2
Expenditure during the year	98 803 1 8	1,04,983 15 1
Balance at the close of the year	13,389 10 10	13,510 14 1
Total	1,12,192 12 6	1,18,494 13 2

Up to the year 1897 98, the Port Commissioners had been including in their budget estimates the receipts and charges of the Chittagong Hospital Port Dues Fund Under section 50 of the Indian Ports Act, 1889, the accounts of this fund should be kept separate, and this was brought specially to the notice of the Commissioners while sanctioning their estimates for 1897 98 Accordingly, in the estimates of that year, the Commissioners have deducted the balance in hand of the Hospital Port Dues Fund from Rs. 13,389-10 10, the opening balance of the year, reducing it to Rs 8,709-1-8, as shown in the above statement

Shipping.

2 The subjoined table shows the number and tonnage of the vessels which visited the port during the year, as compared with the figures of the two previous years —

		1895-96.		1896-97		1897-98.	
		Number.	Tonnage.	Number	Tonnage.	Number	Tonnage
1		2	3	4	5	6	7
European vessels trading with foreign ports	Entered ..	21	38,686	11	21,817	24	40,334
	Cleared ..	19	38,787	11	20,915	17	29,146
British Indian vessels trading with foreign ports.	Entered ..	3	559	3	361		
	Cleared						
Vessels trading with home ports.	Entered ..	609	212,882	559	175,505	578	176,136
	Cleared ..	620	217,873	548	175,944	593	187,402

Foreign trade.

3. The total value of the foreign trade during the year is stated to be Rs 81,50,349, of which Rs 18,44,229 is under imports There is an increase of Rs 6,10,747 in the value of the trade as compared with that of the previous year

Coasting trade.

4 The total value of the coasting trade is given at Rs 1,59,76,695 against Rs. 1,42,63,654 of the previous year, showing an increase of Rs 17,13,041 The increase is due mainly to the import of large quantities of rice from Akyab, Rangoon and Kyaukpyu, owing to the failure of the local crop, and, as regards exports, to larger shipments of specie to Rangoon and Akyab for buying rice for Chittagong

Principal articles of trade

5 The principal articles of trade are shown in the following statement —

			1896 97	1897 98
Exports	Jute	Tons	31,887	36,613
	Grain	Tons	2,536	5,206
	Tea	lbs	1,130,983	899,590
Imports	Salt	Tons	1,956	24,141
	Mineral oil	Gals	960,623	1,339,050

Port appliances

6 The appliances of the port were considerably damaged by the cyclone of October 1897 They have since been repaired, and are now reported to be in good working order

The light-house at Kutubdea and the light-keeper's quarters also suffered considerable damage A third order dioptic light has been ordered from England In the meantime, a temporary light has been erected Temporary sheds have also been erected for the accommodation of the light keeper

Earnings and expenditure of the steam tug *Gekko*

7 The earnings of the steam tug *Gekko* maintained by the port amounted to Rs 17,993-12, while the expenditure on maintaining the vessel aggregated Rs 13,723 6-8 A saving, moreover, was effected by the vessel, amounting to Rs 16,000, being the estimated value of the services performed for the port, for which no charge was made Deducting the expenditure from this sum a balance of Rs 2,276-9 4 is left, which, added to the actual earnings, increased the net earnings on account of the *Gekko* to Rs 20,270 5 4

Health of the shipping

8 The general health of the shipping in the port was good Eighty-eight seamen were admitted into hospital against 21 of the previous year, of whom one died, 76 were cured, and 11 discharged after receiving medical treatment

Pilotage Fund.

9 The state of the Pilotage Fund is shown in the subjoined table —

1		1896 97			1897 98		
		2			3		
		Rs	A	P	Rs	A	P
Opening balance of the year		19,331	3	8½	21,934	14	3½
Receipts during the year		11,689	12	0	16,411	12	0
	Total	31,020	15	8½	38,346	10	3½
Expenditure during the year		9,086	1	5	8,659	3	1
Balance at the close of the year		21,934	14	3½	29,687	7	2½
	Total	31,020	15	8½	38,346	10	3½

Pilot Service

10 The working of the Pilot Service during the year was satisfactory The Lieutenant-Governor notices with pleasure that there was no accident to vessels while in charge of Pilots

By order of the Lieutenant-Governor of Bengal,

A. D McARTHUR, *Col*, R E.,
Secretary to the Government of Bengal.

WORKING OF THE BENGAL JUTE WAREHOUSE AND FIRE-BRIGADE ACT IN THE COSSIPORE-CHITPUR AND MANIKTALA MUNICIPALITIES

No 5884M —The 3rd October 1898.—The following report is published for general information in accordance with the provisions of section 41 of the Licensed Warehouse and Fire Brigade Act of 1893

E N BAKER,
Offg Secy. to the Govt. of Bengal

No 87M., dated Calcutta, the 26th August 1898

From—C E BUCKLAND, Esq., C I E., Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit herewith copies of Reports on the working of the Bengal Jute Warehouse and Fire Brigade Act of 1893 for the year ending 31st March 1898, in the Cossipore-Chitpur and Maniktala Municipalities as received from the Chairmen of those Municipalities.

No 546, dated Talla, the 5th August 1898

From—BABU KRIPA NATH DUTT, Chairman, Cossipore-Chitpur Municipality,
To—The Magistrate of the 24-Parganas.

I HAVE the honour to submit the following Report under section 41 of Act I (B C) of 1893, of the Jute Warehouses, &c, in the Cossipore Chitpur Municipality for the year ending 31st March 1898, for submission to the Local Government

2 During the year under review licenses were granted to 97 jute presses and warehouses, including roperies and fire-wood depôts as detailed below, and the amount of license fees realised was Rs. 12,457-13-6, against Rs 12,226-8-9, realised during the preceding year, viz.—

		Rs.	A	P
12	Jute press-houses	8,668	0	0
75	„ warehouses	3,658	10	6
7	„ roperies	93	0	0
3	Wood depôts	11	3	0
	Mutation fees	35	0	0
97	Total	12,457	13	6

There has been no increase or decrease in the number of jute press-houses, but there has been an increase of 7 jute warehouses during the year under review

3 The following statement shows the receipts and disbursements of the jute license fees during the year under review —

Receipts	Amount	Disbursements	Amount
1	2	3	4
	Rs. A. P.		Rs. A. P.
Opening balance on the 31st March 1897	7,131 2 11	Paid to the Commissioner of Police for the maintenance of Fire-Brigade for the year 1897-98, as per budget estimates.	11,892 0 0
License fees, &c., realised for the year 1897-98 under Act I of 1893	12,457 13 6		
Received from the Commissioner of Police for establishment for assessing new jute warehouses and collecting jute warehouse license fees for 1897-98.	700 0 0	Paid to the Commissioner of Police for establishment, for 1897-98	700 0 0
		Balance at the hands of the Commissioners on the 31st March 1898.	7,997 0 5
Total	20,289 0 5	Total	20,289 0 5

4 During the year under review the Commissioner of Police reported that fire broke out in several places within the Cossipore and Chitpur thanas, and the property destroyed was to the approximate value of Rs 50,148, as detailed below —

Date	Locality with the section letter	Duration of fire	Approximate value of property destroyed.	Remarks (showing the nature of damage done)
1	2	3	4	5
			Rs	
9th May 1897	Dharrabagan Road A Suburbs	5 minutes	2	Small portion of a *golpata* hut
27th October ,,	Ghughudanga, A ,,	15 ,, ,,	5	One *golpata* hut completely burnt
10th November ,,	Moti Jheel, A ,,	5 ,,	1	Small portion of a *golpata* hut.
28rd ,, ,,	Cossipore Road, B ,,	48 hours	35,000	Jute godown containing jute
16th January 1898	Moti Jheel, A ,,	45 minutes	15	One *golpata* hut
9th February ,,	Gun Foundry Road, B ,,	14 hours	15,000	Jute godown containing jute
5th March ,,	Tindal Bagan, B ,,	1½ ,,	100	Three tiled huts
24th ,, ,,	Ratan Babu's Ghat Road, A Suburbs	30 minutes	25	One *golpata* hut

The accompanying statement gives a list of the jute presses, warehouses, roperies, &c, to which licenses were granted during the year 1897 98

No. 160, dated Maniktola, the 12th August 1898

From—The Chairman of the Maniktola Municipality,
To—The Magistrate of the 24-Parganas

With reference to your memorandum No 1036M of the 23rd July 1898, I have the honour to submit the following Report on the working of Warehouses and the maintenance of the Metropolitan Fire-Brigade for the year 1897 98, in accordance with the provisions of section 41 of Act I of 1893, as amended by Act I of 1894

2 The Fire Brigade Budget for the year under review was prepared by the Commissioner of Police under section 26 of the Act

3 The proportionate share at 10 per cent of the estimated amount of Rs 62,660 payable by this Municipality was accepted by the Commissioners, and they contributed Rs 627 towards the maintenance of the Fire-Brigade establishment, and the amount was paid in two instalments.

4 During the year under review eight licenses were issued on the jute warehouses, and 82 on the other descriptions of trades, such as dealing in fire wood, hay, sawing mill, packing case, *durmah* mats, straw, *golpata* depots, &c, against 8 and 72 of the preceding year The total amount realised as fees from both classes of warehouses was Rs 1,316 10 9, against Rs 1,256 of the past year

The Commissioners levy license fees at 6 per cent per annum on the annual value of holdings, as assessed to the payment of municipal taxes, on jute warehouses, and 10 per cent. on other trades delineated above

5 Under the Government Notification No 2833M., dated the 14th August 1893, published in the *Calcutta Gazette* of the 16th idem, most of the traders licensable under section 261 of the Municipal Act for dealing with inflammable articles have come under the operation of the Fire-Brigade Act, therefore the number of warehouse licenses are increasing year after year

6 As all the owners of warehouses and trades paid their license fees in time, no prosecution was required to be made during the year except one, in which the defendant was acquitted

7 The jute godowns and fire-wood depôts are mostly situated near the Circular Canal, which forms the western boundary of this Municipality The Soorah Jute Mills is situated on the north side of the Narcoldanga Main Road in Ward No 2 This is the only mill for making gunny-bags. There are three ropery business and four establishments where jute strings are made by hand

8 Jute was imported from the Eastern districts by boats through canals, and also by the Eastern Bengal State Railway

9. No conflagration took place within the Municipality, and therefore the assistance of the Fire Brigade was not required

List showing the Jute Presses, Warehouses, Roperies, Fire-wood and Wood Depots to which licenses were granted during the year 1897-98 by the Cossipore-Chitpur Municipality

Number	Number of holding	Name of street	Name of License-holder	Annual assessment	Amount of license fees recovered	TOTAL

Jamui	...	14½	„ „

Bhagalpur.—Mornings and evenings cool. Rainfall at Madhipura ·21, Supaul ·95. Winter paddy crop seriously damaged in east of Madhipura subdivision, otherwise prospects of standing crops continue favourable. Fodder available. No cattle-disease except at Partapganj in Supaul subdivision. Prices stationary.

Purnea.—Rainfall at Sadar 1·93, Kishanganj ·20, Araria ·88. Weather seasonable. Harvesting of jute going on. Transplantation of winter rice finished. Prospects good. Cattle-disease gradually abating in Araria. No fresh case, but four deaths from *haladukh* reported. Fodder and water sufficient. Common rice (*bhadoi*) sells as follows:—

Sadar	...	17	seers per rupee.
Kishanganj	...	18	„
Araria	...	21	„

Malda.—Rainfall at Sadar ·64, Shibganj ·69. Weather fair with slight rain. Prospects of winter rice continue satisfactory. Sowing of *kalai* pulse has begun. Coarse rice selling at 16 seers per rupee at English Bazar. Fodder ample.

Sonthal Parganas.—Rainfall about 3 inches. Maize harvest over; outturn at Dumka reported 8 annas, elsewhere full. Sowing of winter crops beginning. Prospects of winter rice excellent. Glanders reported last week not extended. Price of rice 14 to 16 seers, and of maize 40 to 60 seers per rupee.

Cuttack.—Rainfall at Sadar nil, Jajpur nil, Kendrapara ·03, Banki ·25. Weather very hot. Want of rain is being felt. *Sarad, arhar* and sugarcane growing. *Beali* being harvested. *Biri, mug* and *kolthi* being sown. Jute being cut. Condition of cattle generally good, but disease still prevails in some places. Fodder and water sufficient. Common rice sells as follows:—

					K. ch.	
Cuttack	...	...	...	...	12 1	per rupee
Jajpur	...	...	...	...	15 13	
Kendrapara	...	...	...	...	16 11	
Banki	...	...	...	...	22 0	

Balasore.—Rainfall at Sadar ·05. *Sarad* being weeded. Harvesting of jute and *aus* crop continues. Slight damage to rice crops by insect-pest in Soro Circle. Sugarcane thriving well. Rice sells from 14 to 22 seers per rupee in the interior, and at 14½ seers and 17 seers at Balasore and Bhadrak respectively. Rain wanted. Fodder sufficient.

Angul.—Rainfall at Angul ·22. Prospects of crops good. common rice selling at 20 seers per rupee in Angul.

Puri.—No rain. Weather very close and hot. *Beali* and *mandia* harvested. *Laghu* ripening. Re-weeding of *sarad* continues. Prospects of sugarcane, *arhar*, and other miscellaneous crops good. Fodder and water sufficient. Cattle-disease reported from different parts of the district. Rain much wanted. Gompara rice sells as follows:—

	Srs.	ch.	
Puri	15	12	per rupee
Khurda	14	7	
Interior of district	14 to 21	2 to 0 (new)	

Hazaribagh.—Weather clear Rainfall at Sadar ·67, Giridi 0·4 Another shower would do good. Fair *bhadoi* and full rice crop expected. Rice sells at 10 to 13 seers per rupee.

Lohardaga.—Rainfall at Sadar 24 *Gora dhan*, *urid* and *marua* are being harvested State of standing crops good. Rice sells at Ranchi 13 seers and in the interior from 13 to 16 seers per rupee. Cattle-disease continues in the interior. Fodder and water sufficient Grain in stock sufficient.

Palamau.—Rainfall nil. Weather hot. *Bhadoi* still being harvested Standing crops doing well. Rice sells at 14 to 23 seers per rupee.

Manbhum.—Rainfall at Sadar ·83, Gobindpur 54. Weather seasonable Prospects of crops on the ground are excellent Cattle-disease reported from thana Purulia. Fodder and water sufficient Average price of common rice at Sadar 14 seers 9 chittacks and at Gobindpur 13 seers per rupee. Supply sufficient

Singhbhum.—Rainfall 17 Prospects excellent Rice plentiful from 14 to 16 seers per rupee

General Summary.—There were light and scattered showers, and the weather throughout the week was clear. This has proved very beneficial, except in Orissa, where the rainfall has been somewhat short The floods are subsiding, and the crops in the flooded tracts are improving. The harvesting of early rice and other autumn crops is being rapidly completed. The washing of jute is still going on Lands are being prepared for the *rabi* crops, and the sowing of the earlier pulses has begun. There was a fall in the price of rice in some districts. Cattle are generally in good condition except in some of the flooded tracts, where there is still difficulty in procuring fodder.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 4th October 1898.

M. FINUCANE,
Secretary to the Govt. of Bengal

	Inches
The mean pressure of the seven days	29 813
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29 744
	Hours.
The total number of hours of bright sunshine	62 4
The maximum possible number of hours of sunshine	83 7
	°
The mean temperature of the seven days	83 6
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	83 2
The extreme variation of temperature	13 6
The maximum temperature	90 9
	Miles
The highest velocity of the wind in one hour	13
	%
The mean relative humidity	84
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	84
	Inches
The total fall of rain from 25th September to 1st October 1898	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	1 70
The total fall from 1st January to 1st October 1898	53 04
The average fall of the corresponding period for 24 years, Surveyor-General's Office	58 97

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

, dew, t, thunder

The daily mean temperatures are the crude means of maximum and minimum temperatures.

METEOROLOGICAL OFFICE, BENGAL,
The 3rd October 1898

C LITTLE,
Meteorological Reporter to the Govt of Bengal.

Abstract of the Results of the Barometric and Thermometric Observations taken at 10 a.m. at the Meteorological Office, Chowringhee, in the month of September 1898

	Inches.	Date.
The mean pressure at 10 A M during the month	29 750	
	⊖	
The mean temperature at 10 A M during the month	85 7	
The highest temperature during the month	93 0	28th
The lowest temperature during the month	76 3	20th
The absolute range of temperature during the month	16 7	
The mean daily range of temperature during the month	11 5	
The greatest range of temperature in one day during the month	14 2	22nd & 28th
	%	
The mean 10 A M humidity during the month	81	
	Inches	
The mean 10 A M vapour tension during the month	996	
The total rainfall of the month	6 47	
The greatest fall in 24 hours	2 36	14th
The number of rainy days in the month	11 days	

C LITTLE,
Meteorological Reporter to the Govt of Bengal

MONDAY, OCTOBER 10, 1898

MUNICIPAL DEPARTMENT—MEDICAL.

NOTIFICATION—No. 6026.

Calcutta, the 10th October 1898

It is hereby notified for general information that Calcutta is free from plague, and that all inspections of, and restrictions regarding, travellers from Calcutta have been withdrawn

E. N BAKER,

Offg. Secy. to the Govt of Bengal

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 10th October 1898

RESOLUTION No. 6027

THE Lieutenant-Governor has the great pleasure of announcing this day that Calcutta is now free from the infection of bubonic plague, no fresh case of or death from that disease having occurred for ten days since the last reported case was discharged cured from hospital on the 28th ultimo By a Notification No 6026 of this date, all inspections of, and restrictions on, travellers proceeding from Calcutta have been withdrawn, and detailed orders to this effect have been issued to the authorities concerned. By Notification No 14 of this date, the Lieutenant-Governor has also withdrawn those provisions of Plague Regulation No 14, dated 7th June 1898, which require that the passengers and crew of all vessels leaving Calcutta for any port out of India, or for Rangoon, Aden, or the ports of the Madras Presidency, shall be medically examined *on shore* at the time of embarkation The passengers and crew of such vessels will now be subject to medical examination either on board or on shore, as may be found convenient, and provision has also been made, in the case of passengers, for the acceptance of a certificate signed by a Commissioned Medical Officer, in lieu of such examination, as was the rule in force under Plague Regulation No 3 of 17th August 1897 By these orders both the foreign trade of the port and the inhabitants of Calcutta who have occasion to travel, will be relieved from the restrictions which the outbreak of plague in April last, now happily at an end, rendered it necessary to impose

2 While, however, the Lieutenant-Governor has, with the satisfaction he shares with the whole community, taken the earliest opportunity to declare that Calcutta is free from the infection of plague, he feels it incumbent upon him to utter a word of warning. Though the town is free from the immediate presence of plague, it is too soon to assume that the danger is wholly past. The beginning of the cold season is now at hand, and the experience gained elsewhere shows that this season is liable to be accompanied by renewed activity of the disease While therefore he earnestly hopes and believes that the plague, which had obtained but little hold on Calcutta and has now quitted the city, has gone for good, it is nevertheless of the utmost importance that there shall be no relaxation of the precautions which are being taken to prevent an outbreak of the disease, and to detect cases promptly if

they should occur The Lieutenant Governor trusts that the ward, caste, and family hospitals which, with such praiseworthy generosity and public spirit, have been opened by many sections of the public and by private individuals, will be maintained in working order for some months to come and he particularly desires that the special efforts which have been made by the Corporation to make the town clean and keep it so may in no respect be remitted It would be a dangerous error to suppose, because the hospitals have been little used, that therefore they were not required, or to imagine, because the plague has not made good its hold upon the town, that therefore the special sanitary measures taken during the past two years have been intructuous or unnecessary The Lieutenant-Governor relies, as heretofore, on the good sense and hearty co-operation of all sections of the community to permit no relaxation of the vigilance which has thus far been attended by success, so that if unhappily the disease should again present itself at our doors, it may find us still prepared to meet it

By order of the Lieutenant Governor of Bengal,

E N BAKER,

Offg Secretary to the Govt of Bengal

MUNICIPAL DEPARTMENT

MEDICAL

PLAGUE REGULATION No. 14.

Calcutta, the 10th October 1898

IN exercise of the powers conferred by section 2 of the Epidemic Diseases Act III of 1897 and by the Notification of the Government of India in the Home Department, No 302, dated the 4th February, and in supersession of Plague Regulation No 14, dated the 7th June 1898, the Lieutenant-Governor of Bengal is pleased to declare that all vessels and persons leaving the port of Calcutta for ports out of India shall be subjected to the rules in the Regulation hereinafter set forth —

RULES

1 *Medical inspection and bill of health* —No vessel shall leave the Port of Calcutta for any port out of India until she has been inspected by the Health Officer, and the Master or person in charge of such vessel has obtained from such officer a bill of health in the form given below, stating that the Master or person in charge, officers, crew, and passengers (if any) of such vessel have been inspected by him by day at the time of embarkation and are free from infectious disease dangerous to life and from the bubonic plague Provided that in the case of passengers a certificate in the form annexed as Appendix I, by a Commissioned Medical Officer appointed for this purpose, and dated not more than 12 hours before the departure of the vessel, shall be accepted in lieu of examination by the Port Health Officer Such certificates shall be annexed to, and form part of, the bill of health

2 *Removal of infected persons* —Should the Health Officer be of opinion that any person so inspected is suffering from the bubonic plague or is not free from the infection of the plague, such person shall be removed to a plague hospital or place of observation appointed by Government

3 *Disinfection of suspected articles*.—All contaminated or suspected articles shall be thoroughly disinfected on shore or in the disinfection-lighter, under the supervision of the Health Officer, in the manner prescribed in Appendix II

4 *Fresh bill of health when necessary* —After the Master or person in charge of the vessel has obtained a bill of health under the provisions of these rules, no person shall be admitted on board such vessel before she leaves the port, unless such vessel is again inspected by the Health Officer of the port, and another bill of health obtained from such officer by the Master or person in charge of such vessel.

5 *Port Clearance* —(*a*) Except as provided for in clause (*b*) of this rule, no port clearance shall be delivered to any vessel bound from Calcutta to any port out of India, unless and until the Master or person in charge thereof shall produce the bill of health so to be obtained as aforesaid, and it shall be the duty of the Collector of Customs to refuse delivery of the port clearance, without the production of such bill of health

(*b*) Provided that the Collector of Customs may grant port clearance under section 66 of the Sea Customs Act on a guarantee being given by the Agents of a vessel that within 48 hours of departure they will produce a duplicate copy of the bill of health as finally granted, signed by the Health Officer, and that if for any reason the Health Officer should refuse to grant the bill of health, they will bring the vessel back to her moorings

6 *Health Officers* —In these rules "Health Officer" means the Health Officer of the Port of Calcutta, and includes an Assistant Health Officer and any person appointed by name or in virtue of his office to perform the duties of an Assistant Health Officer

BILL OF HEALTH

THIS is to certify that the ship (or steamer) sailing under the flag and under the command of as Master, of tons, bound for with a crew of persons* and passengers, is at the time of leaving this port in a satisfactory sanitary condition, and that no case of infectious disease dangerous to life, or of bubonic plague, exists among her officers, passengers, or crew, all of whom have been inspected by me, with the exception of the persons named below, by day at the time of embarkation.

* Including officers and able-bodied seamen

It is further certified that the town and port of Calcutta are at present † *free from* plague, epidemic cholera, yellow fever, and all other dangerous epidemic disease

† Or as the case may be

The persons named below, who are personally known to me, or whose identity has been proved to my satisfaction, have produced the annexed Certificates from Commissioned Medical Officers duly appointed in this behalf

APPENDIX I

CERTIFICATE

I do hereby certify that I have examined , who is personally known to me or whose identity has been proved to my satisfaction, a passenger on the ship , not more than twelve hours before the departure of the ship from the port of , and find him in good health, except as noted in the margin, and free from any symptoms of bubonic plague

Rank

Official designation

Specially appointed under Rule I of Plague Regulation No 14, dated the 10th October 1898, to examine passengers leaving the port of by sea

APPENDIX II

UNDER-CLOTHING, bedding, wearing apparel, mattresses, carpets, &c, which are contaminated or *suspected*, and other articles to be disinfected, should be exposed for 15 minutes to saturated steam —under pressure if possible—at a temperature of not less than 100° centigrade (212° Fahrenheit), care being taken that the steam shall reach all parts of each article to be disinfected

Disinfecting solutions—

(*a*) Solution of corrosive sublimate, of 1 part in 1,000, with the addition of 10 parts of chloride of soda

The solution should be coloured with aniline dye or indigo It should not be placed in metal vessels

(*b*) A 5 per cent solution of pure crystall zed carbolic acid, *or 5 per cent of crude commercial carbolic acid, free from tar oils, in a warm solution of soft soap*

The carbolic solutions will be useful, more particularly for disinfecting articles, such as metals, instruments, &c, which can neither be subjected to a temperature of 100° centigrade, nor placed in contact with corrosive sublimate They may also be used at ports not provided with a disinfecting stove of the prescribed pattern.

E N BAKER,
Offg Secy to the Govt of Bengal

NOTIFICATION

No 6028Medl —The 10th October 1898 —Under Rule 1 of Plague Regulation No 14, dated the 10th October 1898, the following Medical Officers are authorized to examine passengers leaving the Port of Calcutta for Ports out of India —

Ophthalmic Surgeon and Professor of Ophthalmic Surgery, Medical College, Calcutta
Professor of Surgery, Medical College, Calcutta, and *ex officio* 1st Surgeon to the College Hospital, Calcutta
Surgeon Superintendent, Presidency General Hospital

BOOKS.									
1898	Pages								
Feb 17th	106	4to fc	1st	1,000	Printed	1 4 0	The Author, 2 Vrindávan Pál's Lane, Calcutta	A collection of songs with their musical notations	5272
Jan 23rd	136	8vo dy	1st	500	ditto	1 0 0	Brahma Mission Office, 20, Pattuátolá Lane Calcutta		5273
Mar 16th	187	8vo rl	1st	1,000	ditto	2 0 0	Sáradá Prasád Mitra, Tamluk	A metrical biography by Gopí janaballabha Dás of his friend Rasikánanda Rasikánanda was the disciple of Syámánanda, the founder of the Syámánandi sect in Orissa, and flourished about 300 years ago And as the author says he was a contemporary of Rasika, the book should be over 250 years old The book is recited in Orissa to the accompaniment of music	5274
1897 Oct 15th	32	12mo dy	1st	1,500	ditto	0 4 0	M L De & Co, 5, Beadon Street, Calcutta	An amusing piece describing how people belonging to different walks of life rejoiced on the day of the celebration of the Diamond Jubilee In the scene before the Windsor Castle, a native merchant prayed to Her Majesty to give his countrymen facilities for manufacturing in their own country necessary articles of consumption like salt, cloth &c for which they now depend on Liverpool and Manchester an agriculturist prayed to put a stop to the exportation of food grain from India and by that means to save his countrymen from famine and scarcity and a Bengali prayed to employ his countrymen in still higher appointments in the public service The book breathes a profound spirit of loyalty to the person of the Queen Empress	5275
1898 Jan 21st	80	8vo dy	2nd	1,000	ditto	0 12 0	Sisir Kumár Ghosh, 2, Ananda Chatterjea's Lane, Calcutta	A social drama intended to expose the evils of the customs obtaining among certain sections of Brahmans in this country of demanding from the bridegroom large sums on the occasion of their daughters' marriage A certain Brahman named Rámdhan had a daughter named Sarala and he was determined to take Rs 1,000 in exchange for her But ultimately no one offering to pay that sum he was forced to lower his demand and glad to take Rs 900 from a youth named Ranjan, who loved the girl dearly The custom is happily passing away There is a good deal of coarse writing in the book, which might well have been omitted	5276
Feb 29th	100	8vo dy	1st	1,000	ditto	1 4 0	Vipra Vihári De 104 Beadon Street, Calcutta	A Bengali version of Kálidás's Sakuntalá	5277
Jan 15th	94	12mo dy	1st	500	ditto	0 4 0	Satya Charan Sen Gupta, Hampur, Nadiá	A mythological drama based on the story of Savitrí and Satyaván as told in the Mahabharata	5278
Mar 4th	130	8vo dy	1st	1,000	ditto	1 0 0		Is a religious drama intended to teach the cardinal principles of Hinduism, specially those relating to life after death The plot is merely a description of the trial of different people after death and of their relegation to different states of happiness and misery according to their deeds Three Brahmans were after such a trial awarded a residence in Indra's heaven for several thousands of years After the lapse of that period they were re born as Brahmans But at their death, while two of them had qualified themselves for freedom from the cycle of birth and death, the third man was born a dog! The writer is apparently a man of learning, and the book is full of interesting information on *Yoga* and other systems of Hindu philosophy and theology	5279

15th	390	12mo dy	1st	1,000	ditto	1 4 0	Upendra Náth Mukherji 96 Beadon Street, Calcutta	Amusing stories.	283
Jan 26th	54	12mo dy	1st	3,000	ditto		Jatindra Náth De, 10 Kusá Road, Bhawanipur	A story intended to illustrate the benefits of Life Assurance	284
Mar 1st	247	12mo dy	1st	500	ditto	1 0 0	The Author Kanksiyali, Chinsura	A love story relating to Vasanta's marriage with Ságarika He plot is as follows —Tilak Chandra Chatterji of Svarnapur had a daughter, named Mádhaví who from her early childhood was strongly attached to Vasanta a Brahman youth of the village As they grew up their mutual attachment increased, but the boy being poor, Tilak was unwilling to marry his daughter to him and selected instead Hemakumár, another youth of the village Disappointed in love Vasanta left the village and started on a voyage to the island of Saugor in the course of which he made the acquaintance of Ságarika daughter of Nayanchand of Calcutta The lady narrowly escaped drowning while landing, and her life was saved by Vasanta Her father in gratefulness resolved to give him his daughter in marriage Returning to Calcutta Vasanta stayed at the house of Nayanchánd who treated him as his son But the attention which he here received from Sagarika and her parents did not make him forget Mádhaví Gradually Ságarika came to know of his secret, and prevailed on her parents to arrange a match between Vasanta and Mádhaví In the meantime, Hema's illegitimacy having been proved, all obstacles to the proposed match had been removed Nevertheless Madhaví's abduction by Hema delayed the event for a time and when at last she was found by accident and brought to Nayanchand's house by his spiritual guide and every one expected the long deferred match to come off the girl's father was reminded by the spiritual guide of his vow to dedicate his child to God There was now nothing left but to marry Ságarika to Vasanta. Madhaví and her parents went to Benares, and here she passed her days in religious contemplation to all faithful to her love for Vasanta. Ságarika had her reward for her self abnegation and she lived a happy and prosperous life The plot is well conceived, and the characters of Mádhaví, Ságarika Vindu Vasini who was Mádhaví's grandmother, are well drawn It is written in good Bengali, but with no pretentions to exceptional merit	
Feb 28th	332	16mo dy	1st	500	ditto	1 4 0	Sridá Prasád Chakravarti, Majilpur, Jayanagar	A story of domestic life showing a Hindu lady's exemplary devotion towards her husband Savitri was married to Gokul who repudiated her at the instance of his mother and took a second wife Several years afterwards Sávitri paid a visit to her husband's house and begged her mother-in-law to take her in to the family But she remained obdurate and turned her away from the house. In the meantime, Gopal's new wife turned false and poisoned her husband His life was however, saved by the timely administration of some drugs by a Sannyasi, who suddenly appeared on the scene accompanied by a lady, dressed as a female mendicant She was no other than Savitri who had renounced the world in disgust and lived in the hermitage of the Sannyási Years of separation and ill treatment had, however, failed to abate her devotion towards her husband, whom she adored as a god She was now taken back into the family of her husband with open arms, and lived a happy and prosperous life The book is neatly got up and not badly written	285

1898	Pages.					Rs A P			
Mar 10th	176	8vo dy	1st	1,000	Printed	1 0 0	Atal Vihári Datta, P O Arnmáli, Nadiya	Is a story of love and adventure, in the course of which Vijay kumár married Vibhávati, daughter of a Bengal Zamindar Vijay incurred his father's displeasure on account of his religious views and travelled to Benares in the company of a Sádhu After the death of his father he travelled to Central Asia and applied to the Russian General Komaroff for enlistment in his army Having obtained a colonelcy through his favour he led an attack against Merv and reduced the place by defeating Kajjar Khan. He was now styled Colonel Vyzoff, and appointed Governor of Merv Among his captives, obtained in recent fight was Karimannesá, daughter of Kajjar, who took a fancy to him and nursed him through a severe illness. But he, faithful to Vibhávati, whom he was forced to leave behind, while on his way to Benares, had to decline her proposal of marriage Shortly after this, he was called back to India, but returned in time to take part in the battle of Panydeh After the conclusion of a treaty between Russia and England, he returned to India for good, formally married Vibhávati and lived a happy and prosperous life. The plot, though improbable and ill-constructed, is not uninteresting altogether	5287
Feb 26th	82	12mo dy	1st..	1,500	ditto	0 8 0	Akshaya Kumár De, 40 Garanhatá Street, Calcutta	A love story relating how Chittahárá daughter of a wealthy Dacca Zamindar, and her cousin Nílánjaná got married to Subodh Kumár The marriages proved happy and put an end to the long standing feud between the families of the principals	5288
March 24	44	12mo dy	1st	1,000	ditto	0 4 0	The Author Fatickchari Post Office, Chittagong	The story of the abduction by Rajá Rajaballabh of a fatherless girl, named Kanakalatá Left an orphan in infancy, she was taken care of by a Doctor who was her father's friend At fifteen, she fled from his house in order to avoid being married to his son, and took shelter in the hermitage of a *yogi*, whence she was abducted by Rájá Rájaballabh She died three days after the abduction leaving the Rájá to repent of his folly The story is very indifferently got up and told without any art or skill	5289
Jan 26th	24	12mo dy	1st...	1,000	ditto	0 12 0	Vijay Kesav Set 18, Haralál Dás Lane, Calcutta	The story of an elopement	5290
April 26th	12	12mo dy	1st...	1,100	ditto ..	0 0 6	Satís Chundra Mukherji	An exceedingly silly story about the kidnapping of a young man	5291
Feb 2nd	19	12mo dy	1st	1,000	ditto	0 2 0	The Author, Anantapur *via* Krishnagunj	The story of Karmadevi as told in Tod's Rajasthan Karmadevi, daughter of Manik Say Chief of Aumita a state in Rajputana was the most beautiful Rajput lady of her time Her hand was promised to the prince Aranya Kamal, fourth son of the Rathore Chief of Mundara But she preferred Sádhu, the heroic son of the Bhatti Sardar of Jesalmere, and married him The marriage incensed Aranya Kamal, and he attacked Sádhu while on his way home with his wife A duel ensued between the prince and he Sardar's son, in which the latter was killed Karmadevi, thereupon, cut off both of her arms and had them sent, the left one to her father in law in order that he might come to know what his daughter in law was like, and the right one to the Bhatta bard of her own family This done, she immolated herself on the burning pyre of her husband The incident made a deep impression on the prince, and smitten with remorse he caused a stone image of his own to be set up on the field of death with an inscription on the base which ran as follows "I have untimely burnt a heavenly flower with its beloved bee"	5292

1898	Pages.					Rs. A. P.			
Jan 21st	419	16mo cr	1st	1,000	Printed	1 8 0	The Author, Rájsáhi	A life of Nawab Sirajaddaulá compiled from original sources and possessing in consequence great historical value. It is perhaps the first systematic attempt by an educated Bengali to rehabilitate Sirajaddaulá and to question statements regarding him, which hitherto passed unchallenged And it must be admitted that he has succeeded in this attempt fairly well, for the perusal of the book is calculated to leave the impression that Siraj was more sinned against than sinning The greater part of the contents of the volume appeared from time to time in the columns of the Bengali journal *Sádhaná* and was noticed in detail in this Library Catalogue The book is written in a good, flowing and vigorous style.	5293

REVENUE DEPARTMENT,--(LAND REVENUE)

NOTIFICATION —No 679T R

The 7th October 1898 —Under the powers conferred upon him by section 101, sub section (2) (*d*) of the Bengal Tenancy Act, VIII of 1885, the Lieutenant Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of the estate, the property of Government, in the district of Tippera, mentioned below —

1 Char Krishnapura, No 70, pargana Maizurdi, tauzi No 1967

The particulars to be recorded in the survey and record of rights shall be the following —

(*a*) The name of each tenant
(*b*) The class to which he belongs, that is to say, whether he is a tenure holder, raiyat holding at fixed rates, occupancy raiyat, non occupancy raiyat or under raiyat, and if he is a tenure-holder, whether he is a permanent tenure holder or not, and whether his rent is liable to enhancement during the continuance of his tenure
(*c*) The situation, quantity and boundaries of the land held by him
(*d*) The name of his landlord

		15	Pauli

The area is bounded on the north by the villages of Chaukbar and Kalikapur on the east by the Pali river on the south by the villages of Tetulia and Mulling, and on the west by the villages of Kamra Raje Haral Chini Ghoshpur Goray and Bhatta

C W BOLTON,
Chief Secy to the Govt of Bengal

RULES FOR THE APPOINTMENT OF SUB-INSPECTORS OF POLICE

THE next divisional examination of candidates to fill vacancies in the rank of Sub Inspector of Police will be held on the 19th and 20th December 1898 at the following centres —at Calcutta (Senate House) for the Presidency, Rajshahi, and Burdwan Divisions at Bankipore for the Patna, Bhagalpur, and Chota Nagpur Divisions, at Dacca for the Dacca and Chittagong Divisions, and at Cuttack for the Orissa Division The following classes of candidates will be admissible to the examination —

(*a*) Persons who have passed the Entrance Examination of the Calcutta, Allahabad or Punjab University, provided they are not less than 21 nor more than 25 years of age on the 30th June

(*b*) Persons now serving as head-constables and writer-constables in the Police who have obtained the permission of the District Magistrate to appear at the examination, provided that they are not more than 30 years of age, and are of not less than two years' standing in the Department This permission will only be given to persons who satisfy the conditions laid down in Rule 2

2 No person will be deemed qualified who does not satisfy the following conditions —

I —That he has no disease, constitutional affection or bodily infirmity, unfitting him, or likely to unfit him, for police duties, and that he is up to the physical standard prescribed by Government circular No 4436J, dated the 7th December 1892

NOTE — Stuttering or Stammering is a constitutional defect and represents a physical disqualification

II —That he is of good moral character

III —That he belongs to a respectable family

IV —That he produces a certificate of ability to ride signed by a District Officer

3 Applications for permission to appear at the examination must be submitted, not later than one month before the date fixed, to the Magistrate of the district in which the candidate resides, stating the place at which he desires to appear for examination Each application from class (*a*) candidates must be accompanied by a fee of Rs 5 All candidates will be required to satisfy the conditions specified in Rule 2 above The certificate of health should be signed either by the Civil Surgeon of the district in which the candidate ordinarily resides, or in Calcutta by one of the Professors of the Calcutta Medical College Forms of application are available in the offices of District Superintendents of Police

The Magistrate should require a personal identification of each candidate by some known person, whose name should be recorded, and satisfy himself that the certificate* of respectability and moral character refers to the individual applying for permission to appear at the examination, and that these certificates are given by responsible and competent persons, whose opinion may be trusted It is particularly important that candidates be of reputable parentage and antecedents The candidate should be sent to the District Superintendent for a certificate as to physical fitness This certificate should contain the applicant's descriptive roll, thumb impression, signature and address for purposes of identification The District Superintendent will then obtain a health certificate, the fee for which will in all cases be Rs. 4, from the Civil Surgeon, and after seeing that all the certificates are in order send the applicant with his certificates to the Magistrate, who will, after subjecting the candidate to an examination in riding and noting the fact, grant a written permission to appear at the examination

BENGAL POLICE.

* I hereby certify that I have known ——————— for ——— years and from my own personal knowledge of his character and disposition I am of opinion that he is a steady well behaved young man and I know him to be of good moral character

Place ——— } *Signature* ———————
Date ——— } *Designation or profession* ———————

As these certificates form the verification rolls of candidates, they should be very carefully examined and enquiries made when necessary A note should be taken of the names of candidates whose certificates do not cover the period immediately preceding the examination

The above papers with the examination fee will be forwarded without delay by the Magistrate of the district in which the candidate resides to the Magistrate of the centre at which the candidate wishes to be examined

The Examination Committee before the examination will compare the descriptions, thumb impressions (duplicate impressions being taken for the purpose, if necessary), and signatures, and satisfy itself about the identity of the person appearing

At the examination a candidate will be required to sign the papers in every subject writing his father's name and his own address on them to avoid confusion arising out of a similarity of names

After the result of the examination is known the certificates of passed candidates will be forwarded to the Principal of the Police Training School, Bhagalpur, and will then be treated as verification rolls

The certificates of unsuccessful candidates will be returned, if asked for, within two months, or destroyed at the end of that period

4 The subjects of examination will be as follows —

I —Dictation, Letter-drafting, Precis writing, and a short translation from Bengali, Uriya or Hindi into English Europeans and Eurasians will be allowed to choose one out of these three languages to be examined in No candidate failing to obtain half marks in this paper will be considered qualified for appointment

II —Paper on general knowledge The questions will be set so as to test the general information and intelligence of candidates

III —Mathematics, including, Euclid, Books I—IV, Arithmetic and Algebra, and account keeping

IV —Law, including the Penal Code, the Criminal Procedure Code, and the Evidence Act

N B —Class (*b*) candidates will be exempted from passing in Euclid and Algebra alternative questions in Arithmetic being given

5 The marks will be given on the following scale —

1	Dictation and language	200
2	General knowledge	200
3	Mathematics	200
4	Law	200

6 The number of appointments which will be offered for competition at each centre will be notified later

7 After the results of the examination have been ascertained, a list will be prepared of the candidates selected for appointment. Those who have not obtained half marks in dictation and language and one third marks in the aggregate of the remaining papers may be struck out as ineligible for appointment Of the remaining candidates, a list will then be composed as follows —(*a*) one-half of the candidates who stand highest on the list in order of merit (*b*) one-half of candidates selected from among those candidates who have obtained not less than one third of the marks At least two-thirds of the appointments will, if qualified candidates are available, be given to outsiders

8 Natives of Bengal Proper will be eligible for appointments in all districts where Bengali is the vernacular of the district Natives of Bihar will be eligible for appointments in districts where Hindi is the vernacular, and natives of Orissa for appointments in districts where Uriya is the vernacular Selected candidates will be liable to be transferred to any district

9 Selected candidates on appointment will undergo a three-months' course of instruction at the Bhagalpur Police Training School This course will include drill, elementary surveying, anthropometry, and instruction in prosecuting cases in Magistrates' Courts At the end of the three months all probationers obtaining a certificate of proficiency will be posted to districts and receive appointments in due course as 5th grade Sub Inspectors During the period of probation candidates will receive Rs 20 a month as salary, on being passed out of the Training School, they will receive Rs 30 a month as salary Candidates who fail to display due diligence during their period of probation will be liable to lose their appointments

10 The position of selected candidates in the Range lists from which promotions are made will be determined by the places obtained by candidates at the final examination held at the conclusion of the Training School term

11 Candidates resident in any of the districts of the Patna, Bhagalpur, and Chota Nagpur Divisions, who take up Hindi at this examination, will be considered to be natives of Bihar Candidates competing at Cuttack who take up Uriya will be considered natives of Orissa

12 Information as to the hour and place of examination can be obtained 15 days before the examination by applying to the District Magistrates of the 24-Parganas, Dacca, Patna, and Cuttack

C W BOLTON,
Chief Secy. to the Govt of Bengal

NOTE —The question papers set at the examinations held in 1893 94 1895 and 1896 can be obtained on application to the Officer in charge, Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta at 5 annas a copy, and an additional fifteen for the three complete sets, in addition to postage

NOTIFICATION

No 5980M —The 5th October 1898 — It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant Governor is pleased to appoint the following gentlemen to be Commissioners of the Pabna Municipality —

Babu Priumber Mittra, *vice* Kumar Bhupendra Narayan
„ Madhu Sudan Sanyal, *vice* Babu Kali Charan Sen

E. N BAKER,
Offg Secy to the Govt. of Bengal

NOTIFICATION

No 5983L S-G —The 5th October 1898.—It is hereby notified that the members of the Jamui Local Board, in the district of Monghyr, having at a meeting, under section 25 of the Bengal Local Self-Government Act, III of 1885, requested the Lieutenant-Governor to appoint a Chairman, the Lieutenant-Governor is pleased under the said section to appoint Mr P T Rebello, Subdivisional Officer, to be the Chairman of that Local Board, *vice* Mr W Rattray, resigned

E N BAKER,
Offg Secy to the Govt of Bengal

NOTIFICATION

No 6014L.S.-G —The 6th October 1898 —It is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 139, clause 2 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the Malda District Board under clause 1 of the said section of the Act

E N BAKER,
Offg. Secy to the Govt of Bengal

BYE-LAWS

I —No person shall allow any elephant in his charge to pass over any bridge unless the same be of arched masonry

II —No person shall lead or drive any cart up or down the slopes of any road except at crossings fixed by the Board

III —No person shall injure or in any way damage any structure, permanent or temporary, belonging to a road by any negligent, careless or wilful act

IV —No person shall damage or encroach on any part of a road, its slopes or side ditches, by taking earth therefrom, cultivating crops, placing a fence, hut, stall, or other obstruction thereon, or by constructing bunds for the reserving or conducting of water so as to abut thereon subject to any right of irrigation or drainage now existing

V —No person shall, without the permission of the Chairman or Vice-Chairman of the Board in whose charge the road may be, or any officer authorized in this behalf by them, cut any part of a road for irrigation or other purposes

VI.—No person shall allow any sewage, rubbish or offensive matter, as defined in the Bengal Municipal Act, to fall into any side drain of any road.

VII —No person shall commit a nuisance on any road, or on the slopes or drains of any road

VIII —No person shall destroy, damage or remove any tree or any fence erected for the protection of any tree, or any post or fence erected at the cost of the Road Cess or District Fund on any road.

IX —No person shall cut or scrape grass from the slopes or side ditches of any road or tether cattle in such a manner that they can stray while tethered upon such road or on the slopes or side ditches of any such road

X —No person shall, without the permission defined in bye-law No V, deposit or stack articles of any kind on any portion of the crest or slope of a road so as to obstruct the traffic of the road, or cause inconvenience to the public or injury to the road or waterways

XI —The Board may require any person owning trees alongside a road within 15 days to cut and prune any trees overhanging it and obstructing the same, or causing damage thereto Any person failing to comply with such requisition shall be liable to the penalty provided by bye-law XVII

XII —No elephant or camel shall be allowed to remain or proceed upon a road, but shall be at once removed therefrom to a safe distance by the person in charge of it upon the approach of any person riding, driving or leading a horse immediately on demand of such person

XIII —No person shall cure hides within 200 yards of any road

XIV —No person shall tether any animal on a road, or within reach of a road

XV —No person shall leave a carriage or cart without a person in charge on a road, so as to cause inconvenience or danger to any person travelling on the road.

XVI —No elephant or camel shall be allowed to proceed on a road after nightfall without a bell or light

XVII —Any person infringing any of the above bye-laws shall, for every such offence, be liable to a fine not exceeding Rs. 10, or, in the case of a continuing offence, to a fine not exceeding Rs 2 for each day during which such offence is continued after conviction therefor

---

NOTIFICATION

No 6016M —The 7th October 1898 —It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Captain B H Deare, I M S, to be a Commissioner of the Midnapore Municipality, *vice* Major J H T Walsh, I M S, resigned

E N BAKER,
Offg Secy to the Govt of Bengal

NOTIFICATION

No 6018L S-G —The 7th October 1898 —It is hereby notified that, under sections 10 and 19 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to appoint Babu Mihir Chandra Roy to be a member of the Ghatal Local Board, in the district of Midnapore, *vice* Babu Bhagawan Chandra Rakhit, deceased.

E N. BAKER,
Offg Secy to the Govt of Bengal

NOTIFICATION

No 6077M.—The 10th October 1898 —It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 290 of the Bengal Municipal Act, III of 1884, as amended up to 1st November 1896, and in accordance with the recommendation of the Commissioners of the Darjeeling Municipality, in the district of Darjeeling, made at a meeting, to make the following rules and to impose the following conditions, subject to which the Commissioners of the said Municipality may allow the owners and occupiers of holdings paying a water-rate to lay down communication pipes from the service pipes of the Commissioners for the purpose of leading water to their premises for domestic purposes, unless good reasons are shown to the

contrary within one month from the date of the publication of this notification within the Municipality —

1 No connection of houses, holdings or land with the municipal water-supply mains or pipes or existing private pipes shall be made without the written permission of the Municipal Commissioners previously obtained

2 The Municipal Commissioners may allow connections so long as the supply permits for domestic purposes only under the following rules —

(1) The applications to be made on proper form
(2) The communication pipes to be capable of withstanding a pressure of 400 feet of water, unless otherwise required by the Municipal Engineer
(3) Every communication pipe to be connected to the municipal pipe by a ferrule and screw coupling to be supplied by the Municipal Commissioners at fixed prices to be paid by applicant
(4) No communication pipe to open through a drain so as to interfere with the free action of drainage
(5) Every communication pipe shall have a brass stop-cock of the screw-down pattern and the same waterway as the pipe, capable of adjustment to regulate and control the supply. Such cock to be enclosed in a pucca covered box capable of being locked, the keys of both stop-cock and lock shall remain with the Municipal Commissioners
(6) No connection to be made with the municipal pipes or existing private pipes, except by the Municipal Engineer or such Inspector or sub-officer as he may authorise in writing

3 The pipes and fittings shall consist of the following section —

(*a*) The ferrule connecting the municipal pipe with connecting pipe.
(*b*) The communication pipe from ferrule to stop cock
(*c*) Service pipe from stop-cock to taps
(*d*) The taps
(*e*) Stop-cock boxes.
(*f*) Meter, if provided

4 Fittings to be duplicates of standard types kept in the Municipal Office and approved by the Municipal Commissioners.—

(*a*) *Ferrule*—of brass or gun-metal made accurately bored to fixed dimensions.
(*b*) *Pipes*—diameter to be determined by the Municipal Engineer with reference to pressure at locality and supply required. All pipes shall be of galvanized iron, new, to withstand 400 feet head and of weight not less than—

½"	diameter	2·5	lbs per yard
⅝"	„	3·5	„ „
1"	„	5·5	„ „
1¼"	„	7·25	„ „
1½"	„	9·25	„ „

No more bends or elbows than absolutely necessary to be allowed, no bend by heating to be allowed. Point of discharge to be above ground and to admit of easy inspection

(*c*) Where meters are provided, they shall be placed as near the stop-cock as possible, and if underground, be enclosed in a pucca chamber with cover and lock, no disconnection of the meter to be allowed without the permission of the Municipal Commissioners The key of the meter and the lock to be in the possession of the Municipal Commissioners

5 *Adjustment of discharge of stop-cock* —As far as possible the stop-cock shall be adjusted by the Municipal Engineer, so that the discharge shall be in accordance with the quantity of water allowed for the water-rate paid

Where meters are provided this will not be necessary

6 Number of taps —

For a house and premises up to an annual value of	Rs. 300	1 tap
Ditto	over Rs. 300 up to „ 800	2 taps
Ditto	„ „ 800 „ „ 1,200	3 „
Ditto	above „ 1,200—by special arrangement	

7 No premises shall have more taps than the number allowed unless they are provided with a meter at the cost of the owner or tenant

8 The Municipal Commissioners reserve to themselves the right to determine the size of the pipes, ferrules and taps and the number of taps to be allowed and used for houses, holdings and lands

9 The size of the ferrules to be allowed shall be regulated by the annual value of premises in accordance with the following scale —

						Diameter of Ferrule
For a house or premises up to an annual value of				Rs.	200	½"
Ditto	of an annual value of over Rs.	200	up to	„	400	¾"
Ditto	ditto	„ 400	„	„	600	1"
Ditto	ditto	„ 600	„	„	800	1¼"
Ditto	ditto	„ 800	„	„	1,000	1½"
Ditto	ditto	„ 1,000	„	„	1,500	
				and upwards		1"

Ferrules, as above, may be attached to the pipes of premises where water has been already laid on at the discretion of the Municipality

10 The Municipal Commissioners reserve to themselves the right of cutting off connections and closing up pipes where the number of taps is in excess of the allowance noted above

11 On receipt of an application for work to be carried out by the Municipal Commissioners, an estimate of the cost of the connections, &c., shall be prepared by the Municipal Engineer and submitted to the applicant, who, if he approves of the estimate, will be required to deposit the cost and the Engineer's fees before the work is undertaken and accept all the conditions of these rules.

12 It must be distinctly understood that, when the Municipal Commissioners lay the pipes on behalf of owners or occupiers, such owners or occupiers will be responsible for any damage or repairs to, or stoppage of, the pipes, after the same have been handed over by the Municipal Engineer

13 A special rate shall be fixed and charged by the Municipal Commissioners for water required for manufactories, gardens or other than domestic purposes

NOTE —By gardens is not meant small patches or a few plants in the ground or in pots, but lawns and flower, vegetable or other gardens requiring considerable supplies.

14 The Municipal Commissioners reserve to themselves the right, in cases of necessity, to restrict the hours during which water will be available.

15 When a holding has already a water connection and a stop-cock and the owner or occupier of such holding refuses to deliver up the key of the stop-cock to the Municipal Commissioners, the Commissioners may cut off the water from the holding by a stop cock of their own until such time as the owner or occupier pays all expense incurred by the Municipality

16 When an existing connection with a holding has no stop-cock attached to it, the owner or occupier of such holding shall provide a stop-cock and deliver over the key to the Municipal Commissioners Should he decline to do this, the Municipal Commissioners may put on a stop-cock and cut off the water from the holding until the owner or occupier refunds the Municipal Commissioners all expense incurred in affixing the stop-cock

E N BAKER,
Offg Secy to the Govt of Bengal

NOTIFICATION

No 6039M —The 8th October 1898.—It is hereby notified that, under section 17 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Bettiah Municipality, in the district of Champaran —

Mr J R Lowis

Notice under Rule 19, Part I, Section II

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans has been applied for by Chinta Mani Maity, and will be sold at 12 o clock noon on the 20th December 1898 Tuesday the 6th Pous 1305 B S at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause

2 The lease of the land will be granted subject to the conditions which are specified below as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas Khulna, and Backergunge, dated 12th November 1879 —

Conditions

That the land shall be subject to all existing rights of way and water and other easements

That the right of using all streams and channels in any way navigable shall be reserved to the public as also the use of a towpath not less than 25 feet in width, on each side of every such stream and channel

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances or which may be used on the land but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government

That the Government reserves to itself the right to all minerals on the land together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable

NOTICE TO MARINERS—No 210

[First Publication]

CHINA—PE CHI LI GULF

Sha lu tien island—Decreased depth to the eastward

THE British Admiralty has given notice (No 522 of 1898) that the Master of the S S *Yung Ping* reports having, on 22nd June 1898, obtained a depth of 2¼ fathoms at half ebb about 15 miles eastward of Sha lu tien island, on the bank marked on the Admiralty Charts "7 to 9 fathoms"

A note to this effect has been placed on the Admiralty Charts

Approximate position, lat 38° 57 30" N, long 118° 50 30" E

INDIA, WEST—MALABAR COAST

Port of Quilon—Buoys placed in position

THE Master Attendant, Alleppey, has given notice, dated 24th September 1898, that the *Buoys* marking the Reef and Rock which form the entrance to Quilon Roads have been placed in position as under —

Red (Northern) Buoy—

Bearing to Flagstaff, N E × E ½ E, distance about 8½ cables
Do to Latin Church, N × W ½ W, distance about 8½ cables.

Black (Southern) Buoy—

Bearing to Flagstaff, N E ½ N, distance about 9 cables
Do to Latin Church, N × W ¾ W, distance about 1 mile 1 cable

N B —The Black Buoy is about ¾ cable nearly due North of the position marked on the Charts—a fact which must be borne in mind either when approaching the entrance from the South or when turning to go South

AUSTRALIA—PORT WALCOTT

Reef to the eastward

THE British Admiralty has given notice (No 495 of 1898) that information, dated 7th June 1898, has been received from Mr Joseph Lyons, Master of the S S *Beagle*, that a reef hitherto unknown exists about 8 miles northward of Forestier islands, eastward of port Walcott

This reef (Beagle reef) is about 1½ miles long east and west, and half a mile broad, and dries about 2 feet at low-water springs From its centre the north extreme of cape Thouin bears N 81° E, distant 20¾ miles, and Red hill (just open of the east extreme of Middle Forestier island) S 27° E

Approximate position, lat 20° 23½′ S, long 117° 51′ E

Mr Lyons also reports a channel 8 miles wide and carrying a depth of 6 fathoms, low water springs, between the Beagle reef and the western edge of the inner Geographe reef, but great caution should be exercised in navigating along this coast, as it is imperfectly surveyed

(*Variation Nil in 1898*)

AUSTRALIA, EAST COAST—Sandy cape

Non-existence of shoal reported to the north-eastward

With reference to Notice to Mariners, No 131 (2), dated the 4th July 1896, issued by this office, the British Admiralty has given further notice (No 501 of 1898) that information, dated 1st July 1898, has been received from Lieutenant and Commander J F Parry, H M Surveying Vessel *Dart* that he has made a careful examination of the locality in which the 3-fathom shoal lying N 53° E, 22 miles distant from Sandy cape lighthouse, was reported to exist, and that no indication of any shoal water was found, the depths near the spot being from 600 to 800 fathoms From enquiries instituted by Lieutenant and Commander Parry it would appear that the original report was to the effect that discoloured water was observed about half a mile from the vessel when Sandy cape lighthouse bore S 53° W, distant 22 miles, but that no soundings were obtained, or breakers seen, this shoal has therefore been expunged from the Admiralty Charts

Approximate position, lat. 24° 32¾ S, long 153° 35½′ E

AUSTRALIA—HINCHINBROOK CHANNEL, SOUTHERN ENTRANCE

Alterations in buoys and beacons

THE Port Master Brisbane, has given notice (No. 16 of 1898) that on and after 1st September the following alterations in the buoys at the southern entrance to Hinchinbrook Channel will be made in consequence of the extension of the Bar seawards, viz —

Fairway Buoy, which will be painted red, will be moved to the following approximate position, viz —

Hillock Point bearing N 22° W,
North end of North Palm Island bearing S 80° E,

this position being about 1 cable west of the line of lights and beacons, in a depth of 5 fathoms at low-water springs

A small black buoy will be placed in the position originally occupied by the fairway buoy, the depth at present there being 9 feet at low-water springs

The red buoy at the entrance to Enterprise Channel will be discontinued

A red buoy will be placed in 10 feet at low-water springs in the following approximate position, viz —

White Beacon, Hinchinbrook Island, bearing N 39° W, distant 3¾ cables, marking the edge of the sandbank, which has extended into the channel

A small red beacon will be placed on a sandbank, which dries 2 feet at low-water springs, situated in the following approximate position, viz —

White Beacon, Hinchinbrook Island, bearing N 84° E, distant 1¾ miles

Charts affected, Nos 1254 and 2349, Australia Directory, vol 2

THE COMMISSIONERS FOR THE PORT OF CALCUTTA

AUDITORS' REPORT ON THE PORT COMMISSIONERS' ACCOUNTS FOR 1897-98

APPENDIX I

No $\frac{L A}{366}$.

FROM

THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA,

To

THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA

Dated Calcutta, the 12th September 1898

GENTLEMEN,

WE have the honour to report that the Cash and Store Accounts maintained in your office for the year ending 31st March 1898 have been audited under our supervision and by our direction, and, subject to the exceptions pointed out in the appended note, have been found correct

2 We append statements (1) of Receipts and Expenditure during the year under audit, (2) of Assets and Liabilities on the 31st March 1898, and (3) a General Summary of Income and Expenditure from the 1st April 1897 to 31st March 1898, comparing the original and supplementary estimates with the actual income and expenditure as obtained from your books

3 We would draw your special attention to the appended note, and remark that no certified Stock List has been placed before the Auditors for the past three years, and only the *book* balances in your Stock Ledger, not the *actual stock value*, could be checked

4 The state of the Stock Ledger of Charts and Tide Tables would also seem to call for your special attention, as our remarks and suggestions for the past three years conveyed in the notes appended to our reports, have not been attended to, the Ledger being as indifferently kept now as it was in 1895-96

We have the honour to be,
GENTLEMEN,
Your most obedient servants,

W MICHAEL,
Offg Accountant General, Bengal

C SANDFORD,
for Examiner of Local Accounts

PUBLISHED under the provisions of section 76 (2) of Act III of 1890

By order of the Commissioners,

G S. E NICOLL,
Acting Secretary

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, OCTOBER 12, 1898

AUDITORS' REPORT ON HOWRAH BRIDGE ACCOUNTS FOR THE YEAR ENDING 31st MARCH 1898

APPENDIX I

No $\frac{\text{L A}}{367}$

FROM

THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS OF THE HOWRAH BRIDGE, CALCUTTA,

TO

THE COMMISSIONERS OF THE HOWRAH BRIDGE, CALCUTTA

Dated Calcutta, the 12th September 1898

GENTLEMEN,

WE have the honour to report that the Accounts of the Howrah Bridge for the year ending 31st March 1898, have been audited under our supervision, and by our direction, and to certify that they have been found correct.

We append statements of (1) Income and Expenditure during the year under audit, and (2) Assets and Liabilities on the 31st March 1898, as obtained from your books

We have the honour to be,

GENTLEMEN,

Your most obedient servants,

W MICHAEL,
Accountant-General, Bengal

C SANDFORD,
for Examiner of Local Accounts in Bengal

PUBLISHED under the provisions of section 26, Act IX of 1871, and section 76 (2) of Act III (B C) of 1890

By order of the Commissioners,
G S E NICOLL,
Acting Secretary

HOWRAH BRIDGE

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHITTAGONG DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—MISCELLANEOUS.

Dated Darjeeling, the 4th October 1898

RESOLUTION No. 3066.

READ—

The Annual General Administration Report of the Chittagong Division for the year 1897-98

Mr. F R S Collier was in charge of the Division for the greater part of the year, Mr J. D Anderson having officiated as Commissioner for a few weeks in April only on the retirement of Mr Skrine, and Mr Manisty, by whom the present report is submitted, not having assumed charge until the beginning of March 1898 There was no change of Collectors during the year in the districts of Tippera and Noakhali, nor of Subdivisional Officers in the subdivisions of Feni and Chandpur

2 *Tours and Inspections*—The Commissioner (Mr. Collier) spent 105 days on tour, inspecting every district and subdivision, and paying several visits to the area affected by the cyclone and storm-wave of the 24th October

As noticed last year, the Commissioner has again omitted to report how far the duration of the tours of District and Subdivisional Officers coincided with the periods approved by the Commissioners and Collectors respectively They appear, however, to have been generally of sufficient scope and extent, though from November onwards the Collector of Chittagong had to confine his trips entirely to visiting the sea-board and islands of his district which were submerged after the cyclone The 16 days occupied by the Subdivisional Officer, Chandpur, in attending meetings of the District Board should not be counted as time spent on tour. With the exception of Chittagong, where it is

not stated what inspections were made, the Lieutenant Governor is glad to see that Collectors made regular inspections of their own offices The most important inspection in the district is apt to be neglected, just because it can be made at any time

A statement has been furnished showing the inspections made by District Officers of Government and wards' estates, from which it appears that each estate and tahsil office was visited once, and in one instance twice. No serious irregularities came to light anywhere

3 *Weather and crops Material condition of the people Public Health* — The rainfall during the year was sufficient and on the whole well distributed, but a disastrous climatic disturbance occurred in the cyclone of the night of the 24th October, which, sweeping over a tract of some 70 miles in length in the Chittagong district, caused deplorable loss of life and did great damage to crops and property The islands of Kutubdia and Moiscal, with the adjoining sea-board, including an area of 193 square miles, with a population of 86,603 persons, were at the same time devastated by a storm-wave which is reported to have caused the death of 14,000 people and 15,000 cattle The affected area was visited by the Officiating Lieutenant-Governor, Mr C C Stevens, shortly after the occurrence, and the results of his tour have already been made public A grant of Rs 50,000 was made by the Committee of the Indian Famine Charitable Relief Fund, and Rs 7,674 was raised by public subscription for distribution in gratuitous relief. Rupees 39,000 in all are reported to have been so distributed, while Rs 1,15,631 was advanced under the Land Improvement Loans Act mostly for the repairs of embankments Remissions of land revenue to the extent of Rs. 98,220 during the current year and Rs 36,075 during 1898-99 were also sanctioned The funds placed at the disposal of the local officers for relief of distress were in fact larger in amount than they found it necessary to expend.

Outside the storm swept area, where the corps are reported to have given a 4-anna outturn only, the rice crop generally was up to the average

At the close of the year prices of food grains, though cheaper than in the preceding year, still ruled higher than in 1895-96 Jute prices were low, partly owing to the great crops of previous years The cultivation in Noakhali is reported to be extending

The recorded death-rate per mille in Tippera was practically the same as in the preceding years, 26 02—a result which shows continued defective registration The rate in Noakhali rose from 30 19 during 1896-97 to 37 08, and the Collector, after enquiries in certain villages, is disposed to accept the statistics as accurate for practical purposes The death rate in Chittagong rose from 32 5 to 53 2 per thousand, owing to the loss of life in the storm wave and the virulent epidemic of cholera that followed in its course The sanitary conditions in the submerged area lent themselves to an outbreak of disease, in the treatment of which eight extra Hospital Assistants were employed.

Various influences, it is reported, injuriously affected the material condition of certain sections of the people, particularly the bad crops of previous years and the prevailing high prices In Noakhali especially, during May, June and July, prices of rice rose almost to famine rates, causing some distress and leading to the importation of Burma rice into a district usually regarded as a granary for others Subscriptions were raised and 19,909 people gratuitously relieved, advances were also given, and khas mahal and Court of Wards' collections were temporarily suspended In Chittagong the cyclone marred prospects which till then had been bright. In ordinary times the people of this Division generally are remarkably well off They are well housed and well fed, their standard of comfort has been rising in recent years, and all but the comparatively few who depend on fixed incomes are benefiting by the steady rise in price of agricultural produce. The wages of labour are for India very high, being for a common cooly from 5 to 8 annas a day, but show no tendency to increase.

4 *Emigration and Immigration* —Complaint is still made of the influx of destitute coolies into Tippera from the tea-gardens and railway works in Sylhet The subject has occupied the special attention of Government, and representations on it were addressed to the Government of India and to the Chief Commissioner of Assam, with the result that arrangements were promised which

will, it is hoped, lead to the discontinuance of the evil The Commissioner observes that the majority of the railway coolies come from the employ of petty contractors, whom it is difficult to trace, and those from the gardens are usually free labourers leaving of their own accord

The destruction of crops wrought by the cyclone in Chittagong led to an increase in the annual migration for the rice-cutting in Backergunge and Burma.

5 *Manufactures Trade and Commerce* —There was a considerable decrease in the quantity of tea exported, which fell from 1,130,963 cwts. to 909,590 cwts.—a decrease which is attributed chiefly to the effects of the cyclone. The ship-building industry appears languishing, only three vessels of small tonnage being built during the year The two pearl fisheries in the district have ceased to exist, that at Gumakhali having been covered with silt by the storm-wave

The cyclone did considerable damage to the Chittagong Port, and although the receipts increased by Rs 60,109 over the figures of the previous year, it was not found possible to repay any portion of the balance of the loan of Rs 2,00,000, which still stands at Rs 1,48,586 There was an increase of Rs 23,23,788 in the total trade of the port (which was valued at Rs 2,41,27,044), shared alike by imports and exports, but it was not sufficient to cover the large falling off of Rs 58,80,226 in the previous year The value of rice and paddy exported increased from Rs 2,64,706 in the previous year to Rs 4,45,558, but the most noticeable feature of the year was the large import of rice and paddy, which rose in value from Rs 4,71,417 to Rs 21,27,419 The importation was mainly from Burma to meet the large demand for local consumption consequent on the destruction of crops by the cyclone, the effects of the damage done is also shown by the decrease in the export of rice and paddy from the Division as a whole from 4,20,502 maunds in 1896-97 to 2,96,555 maunds during the year under report Seventeen vessels cleared for foreign, and 593 for home ports, compared with 11 and 548 respectively in the previous year

There was a slight increase in the export of jute from the Division, which rose from 13,98,405 maunds during the previous year to 15,35,062 maunds The export of food-grains to Calcutta amounted to 61,849 maunds, showing an increase over the figures of the preceding year—29,019 maunds—but still vastly below those of 1895-96, amounting to 3,85,140 maunds.

6 *Civil Justice* —Rent suits rose from 34,443 in 1895 to 35,633 and 36,649 in 1896 and 1897 respectively, suits for money, on the other hand, declined, the figures for the same three years being 29,941, 28,652, and 27,672 respectively. Lastly, title suits, which numbered 11,627 in 1895 and fell to 10,913 in 1896, have recovered somewhat during the last year, and numbered 11,290 The increase in the number of rent suits, which, however, is not very great, is attributed to the agricultural depression of the past three years, and the consequent difficulty of realising rents without suits. The detention of witnesses in the Courts of District, Subordinate and Small Cause Court Judges was somewhat greater, and in the Courts of Munsifs slightly less than in the preceding year, the percentage of those detained over two days being 26 96 and 13 4 per cent. respectively, as against 24 06 and 15 4 per cent in 1896 In connection with the settlement proceedings, there was an increase in the number of notices served under section 424 of the Civil Procedure Code from 209 to 318, as compared with 1896, but the number of suits actually instituted to question the Settlement Officer's proceedings in the civil courts diminished from 27 to 11—a number which is extraordinarily small considering the magnitude of the operations involved in making a survey and a record of rights of the whole district, and in settling rents and revenue throughout the temporarily-settled portions of it

7 *Crime Police Criminal Justice* —The number of cognisable cases rose from 7,346 to 10,243, the increase, which is common to all districts, it is explained, is more apparent than real, and is due to the inclusion of cases ultimately declared non-cognisable which in the previous year were omitted It appears, however, from the Annual Police Report, that the number of true cognisable cases was 8,891, which is still a noticeable increase. Non cognisable

crime was less in the districts of Tippera and Chittagong, but increased in the district of Noakhali, as compared with the previous year, the total number of cases reported in the whole Division being 13,873, as compared with 14,253 The Lieutenant-Governor regrets to observe a further increase in cases of arson, which rose from 91 to 111, mostly in Chittagong town, where in March and April 1897, property to the value of over a lakh of rupees is reported to have been destroyed by a regular organised series of incendiary fires In explanation of this outbreak, it is suggested that the fires were due to concerted opposition against the introduction of Part IX of the Municipal Act relating to the construction and cleansing of latrines Stringent measures of patrol were adopted by the Magistrate, and there was no recurrence of the offence in the hot season of 1898 Another unsatisfactory feature of the criminal history of the year was the occurrence of a considerable number of cases of obstruction to the railway line by obstacles placed upon it, many of these were petty, but some serious, and the offence should be severely dealt with There were two cases of gunshot murders, in neither of which was the murderer convicted

The detective work of the police, judged by the proportion of cases successfully brought to conviction, improved slightly in Chittagong, and fell off somewhat in Tippera and to a greater extent in Noakhali The status of the rural police is said to be improving, noticeably in Noakhali, but although there is a satisfactory decrease in the number of punishments awarded, the number of men punished is still considerably in excess of those rewarded, being 2,212 as against 853 The Lieutenant-Governor would be glad to see the statistics the other way The rural police are poorly paid and their duties are not the most exhilarating. The system of constant punishment for petty offences is essentially bad the generous reward of good work is essentially better The Magistrates and their police officers are allotted a reward fund for this express purpose, and the Lieutenant-Governor will be best pleased when he sees the allotment fully utilized

Eight thousand five hundred and sixteen cases were disposed of by Stipendiary Magistrates and 1,517 by Honorary Magistrates, as compared with 8,479 and 1,563 during 1896 The average duration of cases in Noakhali already high, rose from 18 to 22 days, though the number of cases disposed of by each officer was only 216 per annum, while in Chittagong the average duration, already comparatively low, fell from 11 to 9 days, each officer disposing of 296 cases The difference indicates laxity in Noakhali and some want of proper supervision The number of witnesses examined also increased, but it is satisfactory that the percentage of those detained over two days by Stipendiary Magistrates remained the same, or 2 7 per cent, while the corresponding proportion in the Courts of Honorary Magistrates fell from 12 9 to 7 3 per cent The results in this respect are worst in the Court of the Subdivisional Officer of Cox's Bazar, who was also unfavourably noticed in last year's Resolution, but there is the justification for him this year that his time after the cyclone was much absorbed in relief operations The Lieutenant-Governor trusts that the District Magistrate will see that in future witnesses are not unnecessarily summoned or, when summoned, unnecessarily detained in this subdivision The delays in the Courts of the Bench Magistrates at the head-quarters stations in Chittagong and Tippera were also excessive One thousand eight hundred and seventy-nine police cases were disposed of by Stipendiary Magistrates in comparison with 1,831 during 1896, of which 4 6 per cent were adjourned six times and over, against 3 6 per cent in the previous year. The results were worst at the Chandpur subdivision

The system of territorial distribution of cases, which was noticed last year as having yielded unsatisfactory results at Chittagong and Noakhali, has been discontinued in the Courts of Stipendiary Magistrates in the latter district, and the Commissioner has also directed its discontinuance in the Courts of Honorary Magistrates The attendance of Honorary Magistrates in Chittagong and Noakhali continued to be good, but in Tippera was poor, and those who were most irregular in their attendance have been properly asked to resign

Ninety eight cases were disposed of at the Sessions, of which 72 per cent. ended in conviction—a similar result to that of the previous year.

8 *Land Revenue* —The current demand of land revenue and cesses during the year amounted to Rs 33,17,172, and the total demand, including the out standing balance of the previous year, to Rs 35,59,863 The total collections were Rs 31,48,305, or 88·4 per cent of the gross demand The following statement shows the amounts of the current and arrear demands of land revenue and cesses and the percentages of the total realisations on the current demand —

District	Class of estates	Current demand	Arrear demand	Total collections current and arrear	Percentage of total collections (5) on current demand (3)
1	2	3	4	5	6
		Rs	Rs	Rs	
Tippera	I —Permanently-settled estates	9 22 172	4 433	9 26,104	A little above 100

Zamindari Dak Cess

Districts	Current demand	Arrear demand	Total collections (current and arrear)	Percentage of total collection of current demand
1	2	3	4	5
	Rs	Rs	Rs.	
Tippera	7,348	238	7,395	A little above 100 per cent
Noakhali	7,553	129	7,482	99
Chittagong	7,859	670	7,748	98 6
Divisional Total 1897-98	22,760	1,037	22,625	99 4
Divisional Total 1896-97	22,781	963	22,677	99 7

The percentages of the current collections of land revenue on the current demand, as compared with the standard prescribed by Government, are shown below —

	Permanently settled estates	Temporarily settled estates.	Government estates
Standard	99	95	90
Chittagong	90 45	100	68 72
Noakhali	98 35	93 89	85 99
Tippera	99 72	91 89	86 43

The collections were markedly short of the standards in Chittagong owing to the cyclone, while, as already mentioned, considerable remissions were also sanctioned on this account The percentages of collections on the demand alike in the temporarily-settled estates and in Government estates were below the standards in Noakhali and Tippera The high price of food grains is given as the cause of short collections in Government estates, but high prices with the good harvests of 1897 ought to have produced the opposite results It is true that the raiyats suffered from the bad harvests of the preceding year, though not to the same extent as in other districts, but the main staple—the rice crop—in the year under review was a 16-anna one in Tippera and little short of 16 annas in Noakhali, and this, with low rents and high prices, should have enabled the tenants on khas mahals in these latter districts to pay much more than one year's rent and thus to reduce largely the arrears of the previous year In the Backergunge district, where conditions were very similar, the collections in Government estates were 98 8 per cent of the demand Road cess collections were best in Noakhali, where they amounted to 92 49 per cent of the current demand, and worst in Chittagong, where the percentage was 79 03 only.

The Lieutenant-Governor is glad to observe a considerable improvement in the disposal of certificate cases, the delay in dealing with which was unfavourably commented on in the Resolution of last year The percentage of disposals has risen from 49 to 66 per cent in Tippera, from 61 to 78 per cent in Noakhali, and in Chittagong only has it fallen from 63 to 57 per cent Fewer certificates, too, were issued for the realization of rents in wards' estates

Attention is drawn to the slow progress made in the disposal of land acquisition cases in the Chittagong district, where only one case was disposed of out of 24.

The grant by the Board for miscellaneous and sanitary improvements in Government estates was raised from Rs 18,920 in 1896 97 to Rs 1,00,766 during the current year, of which Rs. 95,766 were allotted to Chittagong for the repairs of the damage done by the cyclone Only Rs 50,239, however, in all were spent the failure to utilise the balance is not explained, but is no doubt due to the fact of its not having been required to relieve distress within the year, while the repairs can be completed in the current year

The cadastral survey and settlement operations in Chittagong were concluded during the year, only some office arrears still remaining One thousand nine hundred and twenty-three square miles in all, containing 1,037 villages and 620,656 tenants, have been surveyed and settled, with a total expenditure of Rs 4,99,778 on survey and Rs 10,23,674 on settlement, and with an increase of revenue on the Noabad taluks of Rs 1,83,812

The cadastral survey in the estates of the Raja of Hill Tippera is still in progress Up to the close of the year 556 square miles, comprising 1,507 villages and 183,000 tenants, had been surveyed at a cost of Rs 4,07,823, and with an increase of rent of Rs 23,562, or 25 per cent on the previous rental The Lieutenant-Governor hopes that this long pending settlement will soon be brought to a conclusion

9 *Wards and attached Estates* —The number of estates under the charge of the Revenue authorities increased from 14 to 15, with a total current demand of Rs 3,57,279 The large estates of Miss Courjon in Noakhali were released from the Court's management at the close of the year Collections, as in the case of Government estates in this district, were poor, and reached a percentage of 71·3 per cent only upon the current demand, as against a percentage of 80 01 in the previous year, and the standard of 90 The straitened circumstances of the raiyats is reported as the cause, and in the island of Sandip,

in which a large area of the estates lay, it is probable that the explanation is just The remissions allowed were not heavy, and the outstanding balances, to the necessity for the reduction of which special attention was drawn last year, increased from Rs 1,05,800 to Rs 1,46,788 The amount spent on improvements, all practically in the district of Chittagong, was only Rs 23,935 as compared with Rs 29,805 during 1896 97. In the Resolution of Government, dated the 9th October 1896, special attention was drawn to the desirability of expending 3 per cent of the income of solvent wards' and of all Government estates on agricultural and sanitary improvements, and it was requested that the subject be noticed in annual reports The actual expenditure in improvements in wards' estates in Noakhali was only 1 per cent , and no notice has been taken of the matter in the Commissioner's report It is probable that there is a good explanation, but it should have been furnished

10 *Excise Stamps Income tax.*—The excise revenue again fell during the year from Rs 2,74,721 to Rs 2,73,490, but less heavily than in the preceding year The importations of salt, on the other hand, more than recovered, 6,57,325 maunds being brought in, as compared with 55,206 maunds during 1896-97 The revenue from stamps continued to rise and now amounts to Rs 15,86,933, the increase being chiefly under the head of judicial stamps in Tippera, where the cadastral survey operations were in progress The income-tax collections show a decrease of Rs 3,650, which occurred in Chittagong alone, and is ascribed to the damage done by the storm-wave The work of assessment in Noakhali, where the percentage of successful objections (42 7) was exceedingly high, appears to call for more supervision when the assessments are being made

11 *Education* —There was a decrease in the total number of schools and pupils in every district of the Division during the year Excluding elementary private institutions, the number of schools of all kinds fell from 4,673 to 3,986, and pupils from 138,096 to 121,762 The decrease was largest in Noakhali and Chittagong, and is most noticeable in primary schools, in which it is most to be regretted The result was a decrease in the percentage of boys of a school going age at school from 45 to 40 per cent, the proportions in the three regulation districts being fairly uniform, but lowest in Noakhali Private institutions suffered heavy losses in every district, and there is unfortunately no doubt that here, as elsewhere, the effect of hard times was felt in the reduction of the private subscriptions, on which the primary schools so largely depend The result is not marked at once. The school-masters struggle on, and as shown by the figures here the collapse is the last of the indications of the strain. It is to be hoped that with the return of good harvests these schools will soon revive The only facilities afforded for technical education is at Comilla, where there is an artisan school

Girls' schools similarly showed a falling off from 490 schools with 7,687 pupils during the previous year, to 428 schools with 6,762 scholars The Commissioner remarks that female education is not very favourably regarded by the inhabitants of the Division and is seldom carried beyond the primary stage

12 *Employment of Muhammadans* —The Collectors of Tippera and Noakhali state that the claims of Muhammadans are borne in mind when suitable vacancies occur, but that it is extremely difficult to find eligible candidates Now that the Chittagong Madrasah has begun to turn out B A 's, all of whom have not yet found employment, it may be hoped this difficulty will cease The Lieutenant-Governor desires that careful attention should be paid to the orders of Government on the subject. *Cæteris paribus*, preference should be given to Muhammadans in Muhammadan districts till they secure their fair share of Government appointments

13. *Dispensaries and Hospitals*,—One new dispensary was opened during the year, and the total number of out-door patients attending the different institutions in the Division increased from 295,853 to 308,796 Several hospitals, notably the General Hospital at Chittagong, are reported to be suffering for lack of subscriptions The Lieutenant-Governor notices with regret the remark of the Collector of Tippera that gentlemen of position in his district subscribe to institutions in Calcutta, while they refuse to give anything to local

objects of this nature Next to good water, as the Collector observes, there is nothing the people in those parts appreciate more than good dispensaries However meritorious subscriptions to useful institutions in Calcutta may be, they are still more necessary in the *mufassal*

14 *Local Self-Government Institutions* —The information supplied on the subject of Local Self-Government Institutions is somewhat meagre It is said that the Union Committees have not proved successful The large balance in hand of the Tipperah District Board, amounting to some 1½ lakhs of rupees, requires explanation, but, on the other hand, the Chittagong District Board ran into debt in consequence of work undertaken after the cyclone and of confusion in their accounts, and ended the year with a deficit The unsatisfactory working of the Chittagong Municipality was unfavourably noticed last year Complete information has not been supplied regarding the improvements effected during the year Part IX of the Municipal Act was introduced after considerable opposition and friction Otherwise little seems to have been done to improve the sanitation of the town

15 *Conduct of Zamindars* —The non-resident landholders of the Noakhali district are said to have done little to assist in the gratuitous relief operations undertaken during the year The petty zamindars of the Chittagong district are reported to have behaved well on the whole, but to have been somewhat lacking in generosity to their raiyats after the cyclone

16 *Political* —The most important administrative change had effect from the close of the year, in the transfer of the South Lushai Hills to the control of the Assam Administration with effect from 1st April 1898 Considerable damage was done in Hill Tippera by the earthquake of the 12th June, and by the cyclone of the 24th October in the South Lushai Hills and the Chittagong Hill Tracts In the latter the crops were poor, and the outturns of winter rice, cotton, and sugarcane were respectively estimated at 2, 1, and 2 annas only The public health was fair, but there was an outbreak of sporadic cholera, and fever was prevalent. The number of schools decreased by 10, and of pupils by 184 The demand on account of land tax increased from Rs 10,256 to Rs 11,991, which is partly due to extension of plough cultivation Collections, however, fell off largely, from Rs 12,966 to Rs 7,625

17 The acknowledgments of Government have already been made to the Commissioner, Mr Collier, and to Mr Anderson, the Collector of Chittagong, for the energy and humanity they showed in coming to the assistance of the sufferers from the cyclone and storm wave

Mr Manisty's report is clear and concise, but meagre in certain points on which fuller information is desirable Extracts from the report are published for general information

By order of the Lieutenant-Governor of Bengal,

M FINUCANE,

Secretary to the Govt of Bengal.

Extracts from the Annual General Administration Report of the Chittagong Division for the year 1897-98

* * * * *

III.—WEATHER AND CROPS

18 On the whole the weather was fairly seasonable, and the rainfall was sufficient as will be seen from the table below —

	1895-96.	1896-97	1897-98
Tippera	67 84	58 17	75 15
Noakhali	100 65	89 51	95 26
Chittagong	97·23	74 13	102 15

19 The rain was well distributed in Tippera, and there was considerable increase in the outturn of all the principal crops, except *bhadoi* crops and mustard, which had a slight falling off, as the early months of the year were extremely dry Jute prices were low, partly owing to over-production on account of the very high prices of the two previous years

20. The rainfall was somewhat unequal in the district of Noakhali, but on the whole not unsatisfactory. The Collector, as the result of special enquiries made by him, found that the outturn of *aus* per acre was 16 maunds and of *aman* 25 maunds, and that the district in an average year produces paddy enough for two years' consumption The *rabi* crops suffered from want of rain at the sowing time, but the outturn was better than in the previous year of drought The jute cultivation is reported to be extending appreciably in thanas Ramganj and Lakhipur The betel nut plague has not re-appeared. The yield of betel-nut was 6 annas and that of cocoanut 10 annas These two crops are an important source of income to the people of Noakhali.

21 The district of Chittagong, over some 70 miles of its length, was visited on the night of Sunday, the 24th October last, by a cyclone of exceptional severity, which did great damage to houses and crops, including tea gardens, especially in the southern parts of the district, where the islands of Kutubdia and Moiscal and the neighbouring sea-board were submerged by a storm wave It swept everything that lay in its path, and drowned 14,000 people and 15,000 cattle in the course of a few hours Twelve native brigs were sunk in the river at Chittagong, and most of the public buildings, except masonry ones, all over the cyclone area, were wholly or partially destroyed Over Rs 39,000 has been spent on gratuitous relief out of a sum of Rs 50,000 contributed by the Central Famine Relief Fund, and Rs 7,674 raised by private subscriptions, and Rs 1,15,631 has been advanced for the repair of embankments damaged by the storm wave under the Land Improvement Loans Act The year was also one of short rainfall, and the outturn of crops was much below the average In the cyclone area it was reduced to a 4-anna crop

IV —PUBLIC HEALTH

22 The table below shows the mortuary statistics of the year —

Prevailing diseases.	Tippera population 1 792 935.				Noakhali population 1 009 693.				Chittagong population 1 290 167			
	Number of deaths reported		Deaths per mille		Number of deaths reported		Deaths per mille.		Number of deaths reported		Deaths per mille	
	1896.	1897	1896	1897	1896	1897	1896.	1897	1896	1897	1896	1897
1	2	3	4	5	6	7	8	9	10	11	12	13
Cholera	5 129	4,316	..		2 260	2 924			1 525	10 781		
Small pox	36	22			14	3			9	2		
Fever	32 261	33 742	..		23 594	29 742			37 104	40 058		
Bowel complaints	391	700			169	655			4 3	1 157		
Others	9 264	7 734			4 455	4,121			2 829	16 t 33		
Total ..	47 071	46 408	26 4	26·02	30 463	37 445	30 19	37 08	41 940	68 627	32 5	53 2

23 The low death rate in Tippera seems to show that registration there, despite previous year's remarks, still continues to be defective The personal attention of the Magistrate will be drawn to this matter The District

Inspector of Vaccination checked the births and deaths in 308 villages in Noakhali, and discovered only 4 omissions in births out of 919 cases Similarly, the Sub Inspector of Vaccination tested the entries in 106 villages, and found no omissions Mr Agasti thinks that the statistics of his district may, therefore, be taken as accurate for all practical purposes The marked increase of mortality in Chittagong is due to the drowning of about 14,000 persons on the night of the cyclone, and to the virulent epidemic of cholera which followed in the track of the storm-wave There was also a severe outbreak in the hot weather, but most of the deaths occurred after the cyclone The increase of cholera mortality in Noakhali is due, Mr Agasti thinks, to climatic causes, though high prices made the people more amenable to it by lowering their vitality Two extra hospital assistants were employed by the District Board of Tippera to give relief in out-of the way affected places In Noakhali compounders were deputed to the affected tracts with a supply of medicines. Eight hospital assistants and a vaccinator were also employed in the submerged area of Chittagong, the cost being met from the funds of the Central Relief Committee The Division was remarkably free from small-pox, while fever appears to have raged in all the districts with increased virulence, accounting for over two thirds of the whole mortality The increase in the number of deaths from bowel-complaints in Tippera is ascribed by the Civil Surgeon to the influx of a large number of destitute coolies from tea gardens and railway lines in Sylhet Mr. Kennedy writes —"The practice of steeping jute and bamboos and, in some places, flax in the small rivers and khals is no doubt a cause of much ill health, but, as a rule, public opinion is in favor of the practice, and a strong preventive staff would be required to make any prohibitory rules effective As the effective prohibition of this practice is very doubtful, and to attempt it would certainly start a great outcry, the only plan at present seems to be to allow the public to continue to pollute its drinking water, and to leave it to local bodies, such as municipalities and local unions or village panchayats, to ask for the enforcing of rules to prevent pollution of water-supply I would give them vigorous support, but without their aid no efforts will be effective, while an excess of odium would be thrown on Government Fortunately in this district the annual cleansing of the land and khals by floods very materially minimizes the evils of the practice'

24 The District Board of Tippera spent Rs 4,787 on a Pasteur filter at Chandpur, Rs 2,735 on tanks, Rs. 150 on ring wells, and Rs 3,324 on khals for drainage In Noakhali the District Board laid out Rs 5,136 and Rs 4,920 in improving drainage and water-supply respectively. Two new tanks were excavated, and some others were reclaimed All the reserved tanks were cleared, and the deepening of the drain from Kaliandi to Little Feni river was completed during the year. There was a regular scarcity of water, specially in the islands and the littoral tracts In consequence of the drought even the water of the reserved tank turned bad, and some of these tanks dried up altogether Relief was afforded in the worst places by temporary wells being sunk and tanks being reserved temporarily with the consent of their owners Mr Agasti had, by issuing executive notices, 614 tanks and about 100 deserted homesteads cleared of weeds and jungle. The District Board of Chittagong cleared some tanks, public and private, and disinfected them with permanganate of potash after the cyclone

25 The Municipality of Comilla spent Rs 1,990, and that of Brahmanbaria Rs 1,118 on sanitary works Even the little Municipality of Noakhali spent Rs 387 on water supply, and Rs 389 on drainage improvement, while the Chittagong Municipality, the largest and most important in the Division, spent, it is reported, only Rs 1,020 in taking levels of all important drains and in undertaking their repairs on a systematic plan, and only Rs 211 on roadside wells and tanks. Nothing has as yet been done to improve the existing sources of water-supply, to which its unhealthiness is believed to be partly due.

V —MATERIAL CONDITION OF THE PEOPLE.

26. The agricultural classes improved in circumstances by the sale of their surplus paddy and rice at the high prices which ruled during the year

In Noakhali, though the early rice crop was on the whole satisfactory, yet a succession of bad harvests and the destruction of betel-nut trees by disease brought matters to a bad state in places The rice market rose very high, and prices in parts exceeded famine rates. In Feni littoral, Sundwip, and in parts of Sadar thana only 6 seers of common rice could be had for the rupee in May, June and July Burma rice had actually to be imported from Chittagong to a place which has been looked upon as one of the granaries of Bengal

A very handsome subscription was raised, and altogether 19,909 people were gratuitously relieved Relief works were also opened by the District Board, and in some exceptional cases, by the Khas Mahal Departments Advances were given on a large scale under the Agricultural Loans Act, and all Khas Mahal and Court of Wards' collections were suspended for part of the year

27 In Chittagong two years of drought were followed by a good harvest Prices fell, and prospects were brighter than they had been for many months, when suddenly the cyclone of the 24th October devastated a great part of the district The crops in the islands and along the sea-board were destroyed, and they were much damaged elsewhere, while all over the cyclone area many people became for the time houseless The Central Famine Relief Committee placed Rs. 50,000 at the disposal of the local authorities for purposes of relief, and Rs 7,674 1 1 was received as donations from a few wealthy men of Bengal including the Dacca Nawab Rupees 39,909-5 10 was spent largely in the submerged area in charitable relief, and land improvement loans to the extent of Rs 1,15,631 have been given for the repair and reconstruction of the embankments swept away by the storm-wave, out of the Rs 1,25,500 sanctioned by Government Latterly, relief was being quite needlessly given in grain doles, and I induced the Collector to stop it in May 1898 in Satkania

28 On the whole, Mr Kennedy thinks the material condition of the people of Tippera is remarkably good. As a rule they are well off, and ordinary labour in that district has all to be supplied from other places The Noakhali peasants are also generally well-fed, well-clothed and well-housed It is only the comparatively few middle class people with fixed incomes who have some difficulty to live Their standard of living has been rising considerably in recent years, while of late the purchasing power of their incomes has decreased I consider the Chittagonian lower orders remarkably well off compared with most parts of the Province

VI —EMIGRATION AND IMMIGRATION

29. There was no regular immigration or emigration during the year In Tippera a certain number of coolies drifted down from the tea gardens and railway in Sylhet They were mostly broken down with illness and many were women and children who had lost their natural protectors Cooly hospitals were started for them at Comilla and Chandpur, and helpless cases whom the Medical Officers thought likely to recover at home were sent on to Calcutta, as also women and children who had no male relatives to look after them The evil was much the same during 1897-98 as in the previous year, but with the completion of the railway it should materially diminish The coolies from the railway seem mostly to have been employed by petty contractors, and it was found impossible to trace their history so as to fix the responsibility The tea garden coolies were mostly free labourers, and seemed to have left the gardens of their own accord The District Board paid for the hospitals, and the Local Government for their carriage to Calcutta The Government having sanctioned an alternative route for the conveyance of coolies for the Surma Valley districts by the Assam Bengal Railway, three cooly depôts or rest-houses have been constructed and a cholera hospital opened at Chandpur

30 A number of people as usual migrated from Noakhali and Chittagong to Backergunge and Burma during the harvesting season for employment as day labourers The exodus this year, however, was on a large scale owing to high prices and the cyclone in Chittagong The Burma labour market was over-stocked and wages probably low Mr Anderson, however, thinks that it afforded much relief after the cyclone One hundred and forty-five families emigrated to Arrakan from his district owing to the high prices

VII—PRICES OF FOOD AND LABOUR

31. Prices ruled high, common rice selling at 8 to 6½ seers per rupee It was only after the harvesting of the winter rice that they began to fall With the rise of the rice market there was a corresponding rise in the price of other food grains This, however, caused no variation in the prices of labour Skilled labour of a superior kind is not to be had anywhere in the Division It has to be imported from Calcutta or Dacca when required The prices of ordinary unskilled labour continued stationary Of course matters became abnormal for a time in Chittagong after the cyclone, and record prices both of food and labour ruled in the market

* * * * *

IX—TRADE AND COMMERCE

Tippera

35 The Assam-Bengal Railway traverses the district lengthwise, tapping some of the important trade centres in the Chandpur and Sadar subdivisions. The traffic of Brahmanbaria subdivision is largely carried on by rivers The internal trade is carried on partly by rivers and partly by bullock-carts As there are no registering centres it is not possible to furnish any estimate of its extent The export trade of the district rose from 5,44,648 maunds to 7,37,725 maunds, while the import trade dropped from 3,43,679 maunds to 2,58,0o8 maunds The increase of export was in rice, jute, gunny-bags and mustard seed. In import also there was a considerable increase in piece goods, cotton twist (European), gunny bags, salt and kerosine oil

Noakhali

36 The principal articles of exports from this district are paddy, husked rice, betel nuts, cocoanuts, linseed, til, chillies, onion, cotton, eggs, hides and jute The articles imported are chiefly piece goods, yarn, petroleum, salt, twists, mustard oil, molasses, sugar, tobacco, brass and bell-metal articles, spices and betel leaves The year of report and the one before it having been periods of severe and general shortness of crops, the export trade in paddy and rice, the most important produce of the district, was not so brisk as in former years Of the articles of import trade, salt and mustard oil, being constituents of the daily food of the people, are consumed more or less by every family, while kerosine oil has, owing to its cheapness, found favour with the poorer classes Tobacco, molasses and sugar are largely consumed, as also betel leaves, most of which are imported from Backergunge

37 As already stated in 1896-97 the geographical configuration of this district is very disadvantageous from a commercial point of view There are only a few navigable rivers that intersect the district, while the large rivers that border it are too big for country boats to ply with safety, except during the winter season During the rains, however, all the khals in the district become navigable by dug-outs.

38 The formerly most important commercial mart in this district, the Raipura hát, has lost its importance owing to the partial silting up of the Dakatya river on which it stands, and the depression in the betel-nut trade consequent on the destruction of the trees by plague Chowmohani is now the most important mart for the export of paddy and rice, the other important rice marts being Bosur hát in Bamni, Shaheberhát in Hatiya, char Ani and Nando Bhuia's háts in Sandip, Panchgachia and Foolgazi hats in the Feni subdivision.

39 A railway to connect the town of Noakhali with the Laksham station on the Assam-Bengal Railway line has been sanctioned by the Government of India, and it is likely that either the Assam Bengal Railway Company or some other Company will soon take up its construction

40 The steamer service between Noakhali and Barisal continued to ply four times in the week each way during the year There was another bi-weekly and intermittent service between the mainland and Sandip during the winter season The quantity of goods imported by steamers was 40,938 maunds, against 50,279 maunds of the preceding year, while the quantity exported was 8,383 maunds, against 99,456 maunds of the previous year The large fall in exports was owing to short crops and betelnut plague

41 The figures are given in Statements B and C appended As reported last year, no improvement in the system of inter local boat traffic registration at Chittagong has yet been devised

Inter local boat traffic registered at Chittagong

42 *Imports* —Husked and unhusked rice constitute the staple imports The quantity registered was 1,88,606 maunds, against 1,16,991 maunds in 1896-97, showing an increase of 71,616 maunds The increase under the heads of cotton (raw), chillies and tobacco also is most marked, while there was a noticeable decrease in cocoanuts, hides, betel nuts, sugar (unrefined), timber and firewood

43 *Exports* —European piece goods, husked rice and cocoanuts registered show a large increase, and unhusked rice and salt large falling off No explanation has been furnished with regard to the fluctuations in exports and imports

44 The instructions contained in Government Circular No 103, dated the 22nd July 1897, have been followed in compiling the statistics of trade of this Division for the year 1897-98 The import and export statements with regard to the 24 staples have been prepared and submitted in forms Nos XXXIV, XXXV and XXXVI A similar statement in form No XXXVII for the whole Division, excluding the traffic moving between the districts within the Division, is also appended Besides these, two statements of imports and exports in forms Nos. XXXVIII and XXXIX with regard to the trade of the several districts with Calcutta have been prepared from the monthly statements published in the *Calcutta Gazette* and annexed herewith With reference to the instructions contained in paragraph 3 of the Government circular No 1, dated the 20th April 1896, the District Officers have prepared and submitted amalgamated statements showing separately the total import and export trade in each of the 24 staples carried by rail and along the Nadia rivers and canals From these statements divisional statements have been prepared in my office, and are submitted as appendices to this report, bearing No XL In preparing this statement the internal trade between the several districts of this Division has been excluded, as directed by Government

45 The Port Commission during the year consisted of three representatives of European and two of native firms, the Magistrate of Chittagong, and the Assistant Agent and Chief Engineer, Assam Bengal Railway, with Mr J D Anderson, Mr. F R S Collier, and, for the last few days of the year, myself as its Chairman, and Mr E Good (Port Officer) as Vice-Chairman. The Commissioners held 12 ordinary meetings and 1 special meeting, with an average attendance of 5 1.

Port of Chittagong

46 The cyclone caused serious damage to the port Some of the moorings were injured, and all the bar and river channel buoys were dragged out of position The light tower of the Kutubdia Light house had its walls cracked, and every pane of glass of the lantern room broken The frame on which the cut-glass reflector stood was so completely smashed that it had to be temporarily replaced by a dioptric light from the tug *Gekko*, and a flare was burnt every 15 minutes from the top of the tower The damages were promptly repaired by Mr Good, the moorings and the buoys were relaid, the tug *Gekko* rendering valuable assistance in this emergency

47. Owing to the consequent strain on their finance, the Commissioners were unable to repay any portion of the balance of the loan of Rs 2,00,000 which still stands at Rs 1,48,586 8-8. Of the loan of Rs. 33,000 taken for mooring materials, Rs 2,519-10-8 was paid up

48 The opening balance at the credit of the Port Fund was Rs 8,709 The receipts during the year yielded Rs 1,09,785, and the expenditure amounted to Rs 1,04,983, leaving a balance of Rs 13,510 As compared with the previous year, the receipts increased by Rs 60,109, and the expenditure by Rs 12,714 The hospital port dues stood thus receipts, Rs. 5,726, opening balance of previous year, Rs 4,680, disbursements, Rs 4,997, and closing balance, Rs 5,408 The health of the port was good Eighty eight seamen were admitted into hospital, and 76 were discharged cured Admissions in the previous year were only 21.

49 The chief articles of export were rice, paddy, jute, tea and salt, and of import kerosine, salt, hardware and cutlery, railway materials, piece goods, jute, paddy, rice and sugar

	Hardware and cutlery	56,365	97,196
	Apparel	2,63,436	7,07,766

50. The total value of the foreign trade of the year amounted to Rs 81,50,349, and that of the interportal trade to Rs 1,59,76,695, showing an increase of Rs 6,10,747 in the former, and Rs 17,13,041 in the latter, as compared with the previous year. The increase in imports was Rs 9,08,482, chiefly in kerosine oil from America and salt from the United Kingdom, and that in exports was Rs 14,15,306 contributed chiefly by the export of rice to Ceylon and Trinidad, and of jute to the United Kingdom, Hamburgh and Dunkirk. The total increase of Rs 23,23,788, however, is not sufficient to cover the large falling off of Rs 58,80,226 of the previous year The cyclone of the 24th October last, which partly damaged the crops, did not allow trade to recover from the paralysis inflicted on it by the drought and scarcity of the previous year

Number and tonnage of vessels which cleared for foreign and home ports —

Year.	Foreign Ports		Home Ports	
	Vessels	Tonnage	Vessels	Tonnage
1	2	3	4	5
1896-97	11	20,915	543	1 75,944
1897-98	17	29,146	588	1,87 402
Increase ...	6	8 231	45	11,458

51 The total receipts of the year amounted to Rs 6,65,2,73, salt duty alone contributing Rs. 6,11,442 They show an increase of Rs 13, 165 chiefly in import and export duty, and a falling off of Rs 1,38,141 in salt duty, as compared with the results of the previous year This decrease is due chiefly to smaller clearances of salt for Tippera, and for local consumption, in consequence of two years' bad crops and the cyclone The disbursements showing a total of Rs. 37,350 left a margin of Rs 6,27,923 in favour of Government.

52 The Juldeah Customs station at the entrance to the port was abolished during the year, and the staff was removed to head quarters. The present Customs office building being in a bad way and quite unfit for the purpose, a proposal for a new building is under the consideration of Government

* * * * *

XXIV —COMMUNICATIONS

117. The Kasba, the Merkota, the Lowi and Syamagram to Lakhiganj khals were excavated and made navigable for internal traffic in Tippera Four feeder roads were also constructed at a cost of Rs 3,853. The Sylhet and Cachar line of steamers continued to touch at several important places on the Meghna, and the boat services between Comilla and Narainganj, Akhaura and Brahmanbaria, and Maniknagar and Brahmanbaria were maintained, the last only receiving subsidy from the Tippera District Board

118 Two new roads were made in Noakhali, and the steamer service between Noakhali and Barisal was kept up The cyclone in Chittagong blew down many bungalows, damaged bridges, and blocked up roads, specially the hill paths with fallen trees It also washed away jetty approaches, and caused other damages, which taxed the resources of the District Board to repair Little else was, therefore, done during the year in that district

119 The following table shows the outlay on communication —

District	Village roads		District roads	
	Mile	Cost	Mile	Cost
1	2	3	4	5
		Rs		Rs
Tippera	220	18,501	297	32,242
Noakhali	141	10,999	377	33,642
Chittagong	50	1,181	575	68,648

120 In planting and maintaining trees Rs 815 was spent in Tippera, Rs 1,515 in Noakhali, and Rs 1,707 in Chittagong Five hundred and eighty-five new trees were planted in Tippera, and 1,250 in Noakhali, and none in Chittagong The trees planted in the last district in previous years were destroyed or damaged by the cyclone to a great extent

* * * * *

XXX—LOCAL SELF-GOVERNMENT INSTITUTIONS

133 —There were three District Boards presided over by the District Officers as Chairmen.

District Boards

Name of District Board	Number of members	Number of meetings	Average attendance at each meeting
Tippera	19	13	11 07
Noakhali	13	16	7 62
Chittagong	19	12	16 2

134 As compared with the previous year, the attendance suffered in Tippera and Noakhali and improved in Chittagong The Boards continued to work through Standing Committees. They had 53 meetings in Tippera, 41 in Noakhali, and 22 in Chittagong during the year

Income

Name of District	Opening balance	Rate	Government contribution.	Pounds	Ferries	Other sources	Total
1	2	3	4	5	6	7	8
	Rs	Rs	Rs	Rs	Rs	Rs.	Rs
Tippera	1 22,193	97,082	80 709	7,705	7 177	20,887	2,13 560
Noakhali	56,713	71,018	45,645	5,133	9,858	18,907	1,45,961
Chittagong	46,282	70,754	41 760	5,374	16 133	1,01,706	2,35 732
Total	2,24,188	2,39,354	1,68 014	18,212	33 173	1,36,500	5,95,253
Total for 1896-97	2,23,785	2,39,271	1,92,165	17,879	34,743	79,963	5,64,121

Expenditure

Name of District	Communication	Education	Sanitation	Establishment.	Other sources	Total
1	2	3	4	5	6	7
	Rs	Rs	Rs	Rs.	Rs	Rs
Tippera	66,714	49 017	10,995	7 576	73 793	2 08 095
Noakhali	52,207	30 075	5 345	5,924	66,025	1 59 576
Chittagong	82,428	29,105	4,059	7 069	1 49,614	2,72,269
Total	2 01,349	1,08,197	20,399	20 568	2,89 432	6 39 940
Total for 1896 97	1,50,097	1,06 658	9 554	19 751	2,77,658	5,63 718

135 The cost of establishment was 3 6 in Tippera, in Noakhali 3 7, and 2 5 in Chittagong The Boards everywhere appear to have worked smoothly

Local Boards

Name of District	Name of Local Board	Number of members.	Number of meetings	Average attendance at each meeting
1	2	3	4	5
Tippera	Comilla ..	12	11	5 7
	Brahmanbaria	9	6	4 6
	Chandpur ..	7	12	4 5
Noakhali	Sadar ...	11	19	5 5
	Feni	9	7	6 1

Union Committees

Name of District	Name of Union Committee	Number of members	Number of meetings	Average attendance at each meeting
1	2	3	4	5
Tippera	Laksam ..	5	3	3 3
	Sarail	5	4	3 75
	Navinagar	5	2	3 5
	Chandpur	5	5	3 60
	Matlab	5	6	3 16
Noakhali	Hatiya	6	4	5 5
	Lakshmipur	6	7	5 7
	Sandip	6	7	5 9
	Feni	6	1	1 66

136 The district reports are extremely meagre as to information regarding the working of the Local Boards and Union Committees It is not even stated what funds and what works were assigned to them They all show deterioration in the attendance of members These institutions seem to exist only in name and might well be done away with The Union Committees in Tippera are reported by Mr Kennedy to be still in doubtful condition The

District Boards of Tippera and Noakhali, like that of Chittagong, are capable of attending to the requirements of their districts The Local Boards of Noakhali are said to have worked well, with some instances of friction between the Sadar Board and the District Engineer—a result of the division of authority

137 The District Board of Chittagong got considerably into debt owing to cyclone damages, aggravated by the absence on leave of their old and experienced Vice Chairman (Rai Kailas Chandra Das Bahadur), the accounts falling into confusion so that the Board could not tell until May last how they really stood The year closed with a deficit of Rs 9,744 Owing to large payments not having been made though due within the year, the estimated deficit at the close of the current year was Rs 61,512, which, however, has been reduced by about Rs 38,000 by reducing current expenditure.

Municipality

138 There were five Municipalities in the Division to which the Chandpur municipality was added during the year Except Cox's Bazar and Chandpur, all other municipalities have elective system.

139 The statement below shows the number of Commissioners of each Municipality and of the meetings held by them, and the percentage of their attendance —

District	Name of Municipality.	Number of Commissioners.	Number of meetings	Percentage of average attendance at each meeting
1	2	3	4	5
Tippera	Comilla	18	19	48 9
	Brahmanbaria	12	13	58 3
	Chandpur	9	7	7
Noakhali	Noakhali	12	19	49 5
Chittagong	Chittagong	18	20	44 2
	Cox's Bazar	13	7	108

140 The following figures show the income and expenditure of each Municipality —

District	Name of Municipality	Income	Expenditure
1	2	3	4
		Rs	Rs
Tippera	Comilla	25,802	19,388
	Brahmanbaria	7,613	7,408
	Chandpur	..	..
Noakhali	Noakhali	12,103	8,853
Chittagong	Chittagong	79,989	78,729
	Cox's Bazar	6,348	4,431

141 Mr. Kennedy thinks the Brahmanbaria Municipality is too poor to be of much use It includes a great quantity of agricultural land, and the main roads have to be kept up by the District Board. As regards the Noakhali Municipality Mr. Agasti writes — "The sanitary condition of the Municipality is on the whole remarkably good, and the introduction of Part IX of the Municipal Act from the beginning of the year under report has brought about a material improvement in the state of the town The drains are in fairly good order and the conservancy arrangements generally satisfactory"

142 The provisions of Part IX of the Municipal Act, after considerable friction and an outbreak of incendiarism, possibly caused by them, were introduced into the town of Chittagong, and the operations have been started in the whole of one ward and in the greater part of two other wards With this exception, nothing further was done to improve the sanitation of the town The water supply scheme referred to in the last year's report still remains practically where it was last year The Assam Bengal Railway Company have offered only to pay for the quantity of water actually taken by them instead of a fixed subsidy, and the matter being referred to the Government of India, they have enquired whether the credit of the municipality would justify a loan of Rs 2,50,000 being given to it for the purpose The scheme seems to me much too costly

XXXI—EMPLOYMENT OF MUHAMMADANS

143 Gazetted appointments held by Muhammadans were 6, ministerial appointments 180, and menial posts 655, nearly the same as in the preceding year, when the respective numbers were 8,168 and 649 Their claims are reported to have been carefully considered in every district Mr Kennedy remarks —"In the lower grades a fair number of Muhammadans have been appointed, but it is still extremely difficult to get a fair number of competent men for the higher posts"

Mr Agasti says —"The claims of Muhammadans are always borne in mind when suitable vacancies occur Eligible Muhammadans are very rare in this district In the whole staff of ministerial officers and apprentices under the Magistrate-Collector, there is not a single Muhammadan who has passed the Entrance examination"

144 The Chittagong Madrasah has, however, now begun to turn out more Entrance passed students, and all the B A students do not yet seem to have found employment

* * * * *

XXXIV—SOCIAL AND POLITICAL INSTITUTIONS

155 There are none worth mentioning in this Division The Rate-payers Association and Branch Islamia Association of Noakhali evinced no signs of life during the year In Chittagong the Islam Association worked for the improvement of the Muhammadans, and for securing Government employments for them It is also reported to have helped them on a very small scale after the cyclone The so called Chittagong People's Association, the members of which are chiefly pleaders of the town, favoured Mr Anderson with criticisms of Bills, specially the Sedition Act, the Criminal Procedure Act, and the Tenancy Act After the cyclone it acted in concert with the local Brahmos and collected money for helping the distressed, of which, however, the Magistrate knows nothing The Arjya Shava of Chittagong is said to be doing good work in stimulating an interest in Hindu religious literature. Mr Anderson regrets that no interest is taken by the school-masters in the United Schools Athletic Club

State of public feeling and public Press

156. The people of this Division ordinarily take interest in nothing outside their own villages It is only the pleaders and other educated men who take any interest in public matters The Diamond Jubilee was duly celebrated The high price of rice and low price of jute in places aroused public interest in Tippera, while in Chittagong town the latrine tax was very unpopular Tippera possesses 5 printing presses, Noakhali 3 and Chittagong 2 Noakhali has no newspaper The *Tripura Prokash* of Comilla has ceased to exist, and in its place has sprung up a fortnightly paper called the *Tripura Hitoishi*, said to be edited by a member of the local Bar There are two newspapers now in Chittagong—the old-established *Sanshodhinee* and the newly-started *Jyoti* They are not always too accurate in their information, and generally exaggerate any failure of crops, damage by cyclones, and so forth

FIRST FORECAST OF THE WINTER RICE CROP IN BENGAL, 1898

THE following is published for general information

M FINUCANE,
The 7th October 1898 *Secy to the Govt of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

First forecast of the winter-rice crop in Bengal, 1898

Explanatory —The district returns appended to this note report on the state of the crop about the middle of September The figures of normal area given in these returns have been revised by District Officers, partly with reference to the areas sown during the past five years, and partly as the result of special enquiries on the subject As with other forecasts published during the current year, a percentage notation of outturn has been adopted in place of the anna notation previously used Under the new system of notation, 100 represents the normal outturn per acre, or the 16-anna crop of the former system

2 *Character of the season* —The rainfall of the season up to the third week of September has already been described in the first forecast on the *bhadoi* crops of Bengal, dated the 27th September 1898 In April, it was deficient over the whole of Bengal Proper, but not by a large amount, except in East Bengal It was a little above the normal in Orissa, and about normal in Chota Nagpur and Bihar In May, the rainfall was slightly below the average in all parts of these Provinces except Bihar, where there was only a nominal excess On the whole, these ante monsoon showers seem to have been favourable to the cultivation of winter rice in the extensive low-lying areas of East, North, and Central Bengal In June, the rainfall was abundant and well distributed in Bengal Proper and Chota Nagpur, and deficient in Bihar and Orissa In July, it was generally below the normal In August, the rainfall was above the normal everywhere, except in parts of North Bengal and North Bihar, where the deficiency caused serious delay in transplantation Towards the end of this month, very heavy rain fell in Eastern Bengal, and did some damage to winter rice in Noakhali and Chittagong In the first week of September, good general rain fell throughout the Province, excepting parts of North Bihar and Orissa, where more rain was still required for transplantation In the second week of September, heavy rain fell in the north of the Province and especially in North Bihar, elsewhere rain was moderate In Orissa more rain was still wanted In the third week of September, there was generally heavy rain throughout the Province, accompanied by high wind.

The same kind of weather prevailed during the early part of the following week, but since then the weather has become fine and settled all over the Province

The excessive rain of September caused floods in Midnapore, Murshidabad, Patna, Saran, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, and Balasore The extent of damage done by these floods to winter rice is not yet accurately known. It has undoubtedly been great in low lying lands in North Bihar, but elsewhere has not been serious, and the loss sustained should not affect the outturn of winter rice for the Province as a whole On high lands, the heavy rain of September, although coming late, has proved useful in some places for transplantation In Cuttack, locusts were reported to have done some damage to paddy in the beginning of September Insect pests have appeared also in Backergunge and Balasore Grasshoppers have been doing much damage to paddy in Midnapore

3 *Area cultivated*—According to the revised figures shown in column 5 of the appended returns, it will be seen that the normal area under winter rice amounts to 31,195,600 acres The area under cultivation this year is estimated in the same returns as 31,933,600 acres against 31,815,500 acres estimated to have been cultivated in 1897 There is an increase in area this year as compared with that of last year and with the normal area, and this is due to seasonable rainfall, and to the extension of paddy cultivation on lands hitherto sown with jute—a result brought about by the low price fetched by jute last year and the high price of food-grains The areas entered in columns 3 and 4 of the statistics below have in some cases been revised by this Department, and some discrepancies between them and the areas previously reported are being enquired into

4 *Character of the crop.*—A reference to the district returns, appended hereto, will show that out of 45 districts of these Provinces, 16 districts report crops above the normal (100 per cent) 10 districts return normal crops, and 18 districts report crops between 75 and 100 per cent Chittagong only reports a crop below 75 per cent Nine districts report better crops than last year, 7 equal crops, and 29 worse crops Damage has been done by the recent floods, but as the weather is now more favourable, and flood water is subsiding, it is hoped that much of the submerged paddy will be saved In several districts, the heavy rains of

September have, on the other hand, greatly improved the prospects of the crop The crop is now roughly estimated by this Department as a 95 per cent crop, against a 97 per cent crop, which appears to have been harvested last year This year's crop is reported to have been sown on a larger area than that of last year

N N. BANERJEE,

Asst Director of Land Records and Agriculture, Bengal

(Countersigned)

P C LYON,

Director of Land Records and Agriculture, Bengal

CALCUTTA,
The 5th October 1898

Preliminary Forecast of the Winter Rice Crop of 1898

1	2	3	4	5	6	7	8	9	10	11
District	Subdivision	Total area of subdivision in acres	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres	Approximate area under winter rice last year in acres	Estimated area under winter rice this year in acres	Taking 100 to represent the normal crop how much represented the outturn last year?	Taking 100 to represent the normal crop how much will represent this year's outturn?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture Bengal.
Burdwan	Sadar ..	794,880	635 900	381 600	434,300	433,000	125	100	Owing to want of timely rainfall, the area sown and the expected outturn this year are less than that of last year	
	Kalna	275 460	224 400	115 200	128 000	128,000	125	100		
	Katwa ...	225 280	169 600	139 200	140 800	140 000	125	125		
	Raniganj	429 440	254 700	209 000	225,300	220 000	125	100		
	District Total	1 726,080	1 283,900	806 000	928 400	920 000	125	102		
Birbhum	Sadar ..	709 120	908,000	393,300	390 000	338,300	119	112	There has been more than sufficient rain during the current season The paddy on high lands is doing excellently but low land paddy is not doing as well. On the whole, a little more than the average crop is expected if conditions continue favourable	
	Rampur Hat ...	412,900		311 600	225 900	236,100	106	113		
	District Total	1 121 020	900 000	704,900	615,900	619 400	112	112

Estimated area under winter rice this year in acres	Taking 100 to represent the normal outturn, how much represented this outturn last year?	Taking 100 to represent the normal outturn how much will represent this year's outturn?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal
Bankura	Sadar ..	1 228 480	428,800	346 000	355,000	358 900	106	100	The area cultivated may be estimated as about the same as that of last year but the rainfall of the year being somewhat later than in 1897 the outturn will be less.	As the September rainfall has been very favourable the outturn may prove to have been underestimated.
	Vishnupur	448 000	214,200	160,400	182,000	182 000	106	100		
	District Total	1,677 440	643,000	507 000	537 000	537 900	106	100		
Midnapore	Sadar ..	2,093 440	1 229,100	717,500	760,000	760 000	106	106	The area brought under cultivation this year has been less than that of last year everywhere except in the Sadar subdivision and is due to the submersion of some lands under flood water In the Ghatal and Tamluk subdivisions the outturn is likely to be much below the normal as the water is not subsiding Grasshoppers are said to be damaging the crops in some parts of the district	Special enquiries will be made as to the ravages of grasshoppers this district
	Tamluk ..	417 920	279,600	220,200	230 800	230 600	100	99		
	Contai	548,360	456,300	347,900	352,700	352 900	100	100		
	Ghatal ...	238,080	146,500	113,300	131,800	100,000	112	60		
	District Total ...	3,297 800	2,111,500	1 403,900	1,501 000	1 443,500	105	99		
Hooghly	Sadar ...	283,880	1 6 500	113 900	141 400	112 000	100	75	Owing to short and unseasonable rainfall a smaller area has been brought under cultivation this year and the outturn for the same reason is expected to be poor	
	Serampore	219 520	160 000	85,000	100 500	100 300	8	87		
	Jahanabad	258,560	167 00	78,900	80 000	78 000	87	75		
	Howrah	110,720	69 800	40 800	61 100	61 700	100	106		
	Uluberia	215 680	125,000	75,000	90 000	80,000	87	0		
	District Total ...	1 087 360	702,300	395 209	481 000	432 000	4	84		

24-Parganas	Sadar ..	538,700	462,700	255,700	300 700	340 800	100	130	The increase in the area under the winter rice crop this year is due to favourable rain fall In the south of the district sowings were retarded owing to insufficient rainfall during the early part of the season but subsequent rains have improved the prospects of the crop and the outturn is expected to be not below the average Transplantation was somewhat delayed, especially in Diamond Harbour for want of rain.	
	Baraset ...	313,600	189 400	102,100	117 100	117 100	100	116		
	Basirhat ...	230 400	192,000	169,000	142 500	142,500	100	100		
	Diamond Harbour	266,600	243,000	243 200	232,000	232,900	100	90		
	District Total	1,344,640	1,098,900	770,000	792,300	833 000	100	100		
Nadia	Sadar ...	497 920	362 800	61 400	82 400	76 600	100	80	Owing to seasonable rainfall, a larger area has been sown this year but the decrease in the estimated outturn is said to be due to the difficulty experienced at the time of weeding in the Meherpur subdivision on account of incessant rain and also to the overflow of the rivers, which submerged the young plants and destroyed them in places.	It seems probable that the outturn has been somewhat under-estimated
	Kushtia ...	382,060	278 400	26 600	28 500	28 900	75	5		
	Meherpur ...	404,480	294,700	22 300	35 600	37 400	69	62		
	Chuadanga ...	230 400	167 900	10 300	14 200	11 040	69	75		
	Ranaghat ..	273 280	199 200	11,300	11 500	11 100	94	100		
	District Total ...	1 738,160	1 402 300	133,400	172 000	177,100	86	76		
Murshidabad.	Sadar ...	686,240	385,100	68 100	60 000	66 200	100	87	The increase in the area sown is due to seasonable rainfall. The decrease in the outturn is due to inundation. If the embankments break and heavy floods occur the crop will be much injured.	The recent floods reported from this district do not appear to have been heavy
	Kandi ...	495,760	279 900	171 700	189,900	189,900	100	100		
	Jangipur ...	351,442	319 600	37,300	49 000	49 300	100	100		
	District Total ..	1,573,440	985,108	277 100	289,900	290,400	100	97		
Jessore ..	Sadar	563,960	304,000	153,300	106,400	100 600	112	112	The decrease in this year's area in Jhenida subdivision is due to more accurate figures being obtained and to the fact that the land having been gradually drained the old *aman* lands have been partly sown with *aus* crops. The rainfall having been, on the whole, seasonable, a good outturn is expected.	
	Jhenida	394 000	204,800	64,000	64,000	43,160	112	100		
	Magura ..	272,000	1 1,500	82,000	86,000	89 600	112	100		
	Narail ...	311 080	187,500	128,000	128,000	128 000	112	112		
	Bongaon	415,360	249,000	77 000	100 000	100 000	112	100		
	District Total	1 872,000	1 116,800	504,300	546,400	520 700	112	107

Saran ...	Sadar	1 696,937	561,800	142,800	144,400	144,800	100	75	Great damage is reported owing to the submersion of the crops by unusual floods These have done much damage because sowings and transplantation were late on account of insufficient rain in June If, however the waters fall quickly, much of the rice crop will be saved.	
	Siwan		650,000	179,000	170 000	170,400	105	75		
	Gopalganj ..		371,000	117,100	117,600	117,800	100	75		
	District Total	1,696,937	1,582,800	433,900	431,600	440,800	105	75		
Champaran	Sadar	971,680	732,000	226,000	234,000	238,000	106	69	This year's area is somewhat less than the normal as owing to want of timely rain for transplantation some tracts in the north of Bettiah have not been planted out. The increase over the area of last year is due to the fact that some lands usually sown with winter rice were utilized for the *bhadoi* crops last year The outturn is expected to be much less than the average owing to want of rain for transplantation and to heavy rainfall in the beginning of September and to the damage done to the crop by the recent flood	
	Bettiah ..	1,398,320	632,000	308,000	262,000	300,000	94	85		
	District Total ..	2,369,940	1,364,000	582,800	496,000	586 000	101	77		
Muzaffarpur	Sadar ..	1,923 673	643,600	240,300	240 300	240 300	100	100	Owing to insufficient rainfall in August, the transplantation of the rice crop in the Sitamarhi subdivision was greatly retarded and hence the outturn is estimated to be a little less than the normal The normal area under winter rice shown in column 5 is based on the survey and settlement figures and may be accepted as fairly reliable	It is probable that the area sown this year in the Sitamarhi subdivision has been over-estimated. Great damage has been done to the crop by the recent floods.

RESOLUTION ON THE ANNUAL RETURNS ON THE WORKING OF THE CHARITABLE DISPENSARIES IN BENGAL FOR THE YEAR 1897

MUNICIPAL DEPARTMENT—MEDICAL

Darjeeling, the 7th October 1898

RESOLUTION—No. 875T—M

READ—

Annual Returns on the working of the Charitable Dispensaries in Bengal for the year 1897

Read also—

The Annual Returns on the working of the Charitable Dispensaries in Bengal for the year 1896, and the Resolution recorded thereon by Government

UNDER the orders in force, a full report on the working of mufassal dispensaries is submitted once in three years In the intermediate years, only statistical returns are submitted, with such brief comments as the figures appear to call for The last triennial report was submitted by Surgeon-Colonel Ross in 1896, and dealt with the three years 1893, 1894, and 1895, and the next will not be due till the close of the present year

The returns for 1897 were due to Government on the 1st May, but were not received until the 6th September, or nearly four months after the proper date The delay was no doubt mainly due to the present Inspector-General having only received charge of his office after the close of the year to which they relate The Lieutenant Governor trusts that greater punctuality will be observed in future

2 The number of dispensaries open at the close of the year was 477—a net increase over those open in 1896 of 22 institutions Twenty-five new dispensaries were opened during 1897, and two others which previously existed submitted their returns for the first time and were brought on to the Government list Of those newly opened, 1 was in class I, 15 in class II, 6 in class III-A, and 3 in class III-B The steady increase in the number of class II dispensaries, as the Inspector-General of Civil Hospitals remarks, shows a laudable desire on the part of local bodies to bring medical relief within easy reach of the people The District Board of Backergunge alone has established no less than 11 dispensaries during the last two years The addition of eleven new institutions in class III shows that private individuals also were not behind hand in providing medical relief for their poorer neighbours Five dispensaries are shown as having been closed in 1897 Of those, the dispensary at Bangaon was not really closed but was removed from the Government list, owing to the transfer of the management of the Bengal Central Railway, by which it is maintained, to a private company, the two Lady Dufferin Zanana Hospitals at Bhagalpur were amalgamated, and three were actually closed The 477 dispensaries remaining open at the close of the year are classified as follows —

Class I	30
Do II	275
Do III-A	98
Do III B	74
Total	477

3 The following table shows the distribution of dispensaries in each Division according to population —

Division.	Population	Number of dispensaries.	Number of people to each dispensary
1	2	3	4
Burdwan	7,688,818	55	139,796
Presidency	7,853,566	67	117,217
Rajshahi	8,019,187	74	108,367
Dacca	9,844,127	85	115,813
Chittagong	4,190,081	41	102,197
Patna	15,811,014	63	250,968
Bhagalpur	8,582,490	40	214 562
Orissa	4,047,352	34	119,039
Chota Nagpur	4 628,792	20	231,439
	70,669,427	479*	147,526

* Although the total number of dispensaries at the close of the year was 477, the working of 479 dispensaries is shown in the annual Returns

4 The following table shows the chief statistics in respect of area, population, and number of dispensaries and patients treated in Bengal in 1897, as compared with corresponding figures for other provinces for the year 1896 The figures for Calcutta and Howrah are, as usual, excluded —

Province	Number of dispensaries	Area of the provinces in square miles	Square miles per dispensary	Population of the province	Population per dispensary	Number of patients treated	Number of patients per dispensary
1	2	3	4	5	6	7	8
Bengal	479	151 843	318	70 865 427	147 326	2 814 119	5 841
Bombay	314	1,8,144	398	18 911 123	60 194	2 319 346	7 386
Madras	476	14 189	297	3, 630 440	75 011	4 42 533	8 510
Central Provinces	95	71 592	753	8,501 401	100 014	1 374 129	14 454
Punjab	207	110 687	410	20 880 913	78 18	3 125 894	11 606
North Western Provinces	350	107 507	307	46 805,085	134 074	3 9 5 79	11 301
Burma	90	171 430	1 785	7 605,580	79 224	708 180	7 380

As in previous years, Bengal, as compared with other provinces, shows the lowest number of patients per dispensary The reasons for this have been fully explained in previous Resolutions The Lieutenant Governor hopes that, with the increase of charitable dispensaries in the mufassal, and as a consequence of the closer supervision now exercised and the greater attention paid to the comfort of patients, Bengal will gradually overtake those provinces in which the standard of medical charity is higher The provision of separate wards for pauper and moribund patients, orders regarding which have recently been issued by this Government, is also likely to result in an increase in the number of patients

5 *Medical Officers in charge of Dispensaries* —Of the 477 dispensaries open at the close of the year, 234 were in charge of Medical officers of the Government establishment and 243 in charge of local native doctors, against 230 and 220 respectively in the previous year Of the 234 officers of the Government establishment, 73 were Assistant Surgeons and 161 Civil Hospital Assistants

6 *Inspections* —The number of dispensaries inspected by Civil Surgeons rose from 374 to 382, and the number visited four times and over, as required by Rule 29 of the Dispensary Manual, from 153 to 161 The number of dispensaries visited less than four times remains the same as in the previous year, while the number not inspected at all rose from 17 to 27 The explanation offered by Civil Surgeons of their failure to pay the prescribed number of visits is not in all cases satisfactory Thus, the dispensary at Giridih is said to be inaccessible during the rains, which is not correct In Howrah, though there are only four dispensaries outside the head quarters town, the Civil Surgeon visited

one of them only twice and another only three times In the 24-Parganas the Civil Surgeon visited Kamarhati eight times, while the dispensary at Cossipore, which is large and important, and which lies on the direct road from the head-quarters to Kamarhati, was only visited twice In this district, however, the number of dispensaries is unusually large, and the Civil Surgeon's duties are heavy

The Inspector-General makes the following remarks on the subject of inspections —"There seems to me to be no reason why Civil Surgeons should not do more inspection, which would be easy without detriment to their other duties if they arranged their tours in a more systematic manner than they seem to do at present This will be insisted on in the amalgamation scheme of the Sanitary with the Medical Department which is about to take place" In these remarks, the Lieutenant Governor fully concurs Medical subordinates at outlying stations cannot be expected to do their work efficiently without proper supervision, any more than officers of the same standing in other departments and it is just as necessary for a Civil Surgeon to inspect his dispensaries as for a District Officer to inspect his subdivisions, or a Superintendent of Police, his thanas Nor is it sufficient merely to examine the dispensary registers, and the state of instruments and drugs A Civil Surgeon, when visiting a dispensary, should always arrange to do so when patients are present, and he should require the officer in charge to examine them in his presence, and make sure that this essential duty is performed in an efficient and not in a perfunctory manner In this way alone can he ascertain whether his subordinates are up to their work, and are not in the habit of scamping it The Lieutenant Governor is aware that this most important subject is receiving Dr Hendley's earnest attention, and desires to assure him of the full support of Government in his efforts to effect a much-needed reform

7 The following table shows the number of in door and out-door patients treated during the last three years, and the ratio per cent. of this number to the population of the area concerned —

Year	Patients			Population, excluding Calcutta	Ratio per cent of total treated to population
	In-door	Out-door	Total treated		
1	2	3	4	5	6
1895	45,243	2,434,536	2,479,779	70,665,427	3 51
1896	47,109	2,637,501	2,684,610		3 79
1897	55,644	2,778,468	2,834,112		4 01

The total number of patients treated during the year shows an increase of 149,502 over the previous year The figures show that the annual increase in attendance at hospitals still lags far behind the normal increase of population, which in Bengal is not less than 7 per cent. per annum In seven dispensaries the increase in the number of patients was over 3,000, the most marked improvement being in the Bhanga dispensary in Faridpur (6,494) and the Kalimpong Mission Hospital in Darjeeling (5,640) On the other hand, there was a decrease of 2,000 and upwards in the case of 16 dispensaries, the largest being in Laheria Sarai in the district of Darbhanga, where the number fell off by 9,427 Increases are attributed either to the growing popularity of the dispensary or to the greater appreciation by the people of medical charity, while decreases are ascribed to the healthiness of the year, and to the panic caused in Bihar by the publication of the plague regulations towards the end of the year Nine out of the 16 dispensaries which show a large decrease were situated in districts affected by famine, and it is probable that a certain number of persons who would have attended them received medical relief in poor houses.

In door patients —In-door patients were received in 201 dispensaries as compared with 192 in the previous year, and the number thus treated rose from 47,109 to 55,644, being an increase of 8,535 or more than one sixth The number of beds available increased from 3,057 to 3,247, and the daily average

attendance from 1,898 to 2,226 The increase in the daily attendance is satisfactory, but it is still far below the number of beds provided This, the Lieutenant-Governor is afraid, will continue to be the case until suitable accommodation for relatives of patients is provided near each dispensary The attention of Dispensary authorities has more than once been drawn to the matter, but their funds do not permit of very rapid progress being made The Lieutenant Governor will be glad if the Inspector General will state in the next triennial report what improvement has been effected in this respect The number of deaths among in-door patients rose from 5,487 to 8,172 and the death rate from 11 64 to 14 68 In the year under review, a large number of patients was no doubt admitted in an emaciated and anæmic condition The pilgrim centres of Gaya and Deoghur record a higher death-rate than in the previous year At Gaya it was almost double, viz, 16 6 against 8 25 in the previous year The Puri dispensary shows a death rate of 28 38 against 32 17 in 1896

9 *Out door patients* —The number of out-door patients rose from 2,637,501 to 2,778,468, or 140,967 more than in 1896 The steady increase in the number of out door patients is so far satisfactory, but the number still falls short of the number treated in 1896 in the North Western Provinces (3,892,918) and the Punjab (3,070,117), where the population is far less than in Bengal The daily average attendance was 19,494 as compared with 18,377, the increase being on a far smaller scale than that of in-patients Twenty-one dispensaries had an average daily attendance of 100 and upwards in 1896, as well as in 1897, as against 26 in the year 1895 The largest daily attendance (223 43) was at the Dumraon dispensary

10 *Diseases treated* —The number of cases of malarial fever treated rose from 506,757 to 536,428 There was an increase under this head in all the Divisions except the Presidency, where the number of cases fell from 103,559 to 96,891 The increase was largest in the district of Mymensingh When recently reviewing the Sanitary Commissioner's report for 1897, the Lieutenant Governor noticed that the mortality from fever was highest in Pabna, but from the present report it appears that the number of patients treated in hospital for this disease in that district rose only from 7,305 to 7,763 In Hazaribagh, where the same disease was very prevalent, the number treated rose from 3,648 to 5,103 In Rangpur and Dinajpur, which also had a high mortality from this cause, there was a large diminution in the number treated, of which no explanation is given The number of cholera cases treated rose from 14,388 to 16,845 The district which suffered most from this cause was Chittagong, where there were two epidemics of the disease during 1897 one in the hot weather and one after the cyclone The increase in cholera in the Chota Nagpur Division is ascribed to famine Bowel complaints (dysentery and diarrhœa) account for 166,916 admissions as against 137,568 in 1896 The number of cases of small pox treated rose from 185 to 208 Although the number of cases treated under the various heads shows an increase, this must be ascribed more to the fact that the prevailing scarcity made the people readier to accept charity than to the unhealthiness of the year The death rate among the general population was only 32 94 per mille against 34 17 in 1896

11 Before next year's report is submitted, it is probable that the amalgamation of the Sanitary Commissioner's Department with the Medical Department will have been carried out In that case, the Lieutenant Governor would be glad if the Inspector General of Civil Hospitals in submitting the triennial report for the three years 1896, 1897, and 1898, will arrange to collate for each district or division the figures of the chief diseases prevalent among the general population with those of patients treated for the same diseases at the public hospitals within the same area It is probable that useful deductions may be drawn from such a comparison both as to the defects of existing institutions and as to the directions in which public requirements are efficiently provided for

12. *Surgical operations.*—The total number of surgical operations performed rose from 124,067 to 135,505 Of these, 13,115 were principal, and 2,390 secondary, operations against 122,187 principal, and 1,880 secondary, operations in 1896 Of the patients operated on, 125,454 were cured, 6,542 relieved, 1,080 otherwise discharged, and 416 died The more important operations numbered 3,596, of which no less than 2,718 were extraction of lens The number of

operations for lithotomy shows an increase of three cases, and for litholopaxy a decrease of seven cases The largest increase was under the head of "Amputations," viz, 53 The following officers performed more than 100 operations for cataract —

Surgeon Lieutenant-Colonel A Tomes (Gaya)		246
Surgeon Major T R Macdonald (Chapra)		145
Surgeon-Lieutenant-Colonel R Macrae (Dacca)		137
Surgeon Major F S Peck (Muzaffarpur)		121
Assistant Surgeon Chunder Kumar Gupta (Burdwan)		114
Ditto	Nrita Gopal Mittra (Arrah)	113
Ditto	Bipin Vihari Gupta (Dumraon)	110
Ditto	Chuni Lal Das (Gaya)	103

The number of cases of ovariotomy was the same as in 1896, viz, 15 The result of operations was not, however, so satisfactory—one third of the cases having ended fatally

13 *Sex of patients* —The number of males treated increased from 1,603,533 to 1,711,742 and the number of females from 423,238 to 458,670 The number of children admitted also increased from 657,839 to 663,700. The average daily attendance of in door patients of the female sex rose from 372 to 448, but was still very small in relation to the accommodation available The Lieutenant-Governor, however, hopes that the new plan of Cottage Hospital, which has been circulated for adoption in the construction of new buildings and which provides for the separate treatment of female patients, both in the in door and out-door departments, will have the effect of increasing their number

14. *Income and Expenditure.*—The following table compares the income and expenditure of dispensaries during the last two years —

Income.	1896			1897.

15 The total income of the dispensaries during the year 1897, inclusive of the opening balance of Rs 27,048, was Rs 9,30,578 against Rs 8,55,320 of the previous year The net increase, excluding opening balance, was Rs 73,707 The Government contribution rose from Rs 70,904 to Rs 83,786 The chief item of increase, (Rs 2,347) was under the head of salaries of medical officers, and is due to the order issued in Government Resolution No 2977Medl, dated the 18th July 1896, requiring local bodies to contribute the average salaries of medical officers employed by them, Government undertaking to meet their grade pay Receipts from municipal and other local funds amounted to Rs 4,82,969, or 51 89 per cent of the total income, as against Rs 4,28,735 or 50 12 per cent. the previous year The amount derived from municipalities shows an increase of Rs 19,160. Subscriptions from Europeans and natives combined constituted 27 per cent of the total income or 2 49 per cent less than in 1896 The amount subscribed by Europeans shows an increase of Rs 5,106, and that by natives a decrease of Rs 6,057 The decrease in subscriptions from the latter is ascribed to the general financial pressure consequent on the scarcity which prevailed during the year Receipts from paying patients also show a decline, the figures being Rs. 1,713 as against Rs 1,930 in 1896

16 The total expenditure rose from Rs 8,29,372 to Rs 8,90,202, owing in the main to increases in the number of dispensaries and of patients treated The chief item of increase was salaries, but charges on account of diet also rose from Rs 78,222 to Rs 1,06,680, and the cost of European medicines from Rs 1,15,446 to Rs. 1,20,398. The increase of Rs. 28,458 under the head Diet is partly due to the dearness of food-grains and partly to a more liberal scale of diet having been granted to patients who were admitted in a weak or emaciated condition owing to the scarcity of food grains The cost of buildings and repairs shows an increase of Rs 9,808, and is attributed to the damage done by the earthquake The year closed with a cash balance of Rs 40,376

By order of the Lieutenant-Governor of Bengal,

E. N BAKER,

Offg Secretary to the Govt. of Bengal

RESOLUTION ON THE STATISTICAL RETURNS OF VACCINATION IN BENGAL FOR THE YEAR 1897-98.

MUNICIPAL DEPARTMENT—SANITATION

Darjeeling, the 8th October 1898

RESOLUTION—No 689 T—M

READ—

The Statistical Returns of Vaccination in Bengal for the year 1897-98, with brief notes by the Sanitary Commissioner

Read again—

The Returns for 1896-97 with the Government Resolution reviewing them

The returns are six weeks late, but there is excuse The work of the department was greatly interfered with during the year owing to the fact that the military operations on the frontier rendered it necessary to recall the Deputy Sanitary Commissioners and Superintendents of Vaccination to military duty at the beginning of August During the greater part of the year the Sanitary Commissioner, in addition to his own duties, held charge of two out of the three circles into which the province is divided for the purposes of vaccination, while Assistant Surgeon Gopal Chandra Mukherji took charge of the third

2 *Strength of Inspecting and Working Staff.*—The following table compares the strength of the supervising and working staff during the last two years —

	Year.	Inspecting staff						Operators					Remarks.

	Decrease	..		2				...			81	30	

One Inspectorship in Calcutta and another in the Bhagalpur Municipality were abolished, while one appointment was made in the new municipality at Garden Reach The appointment of one more head vaccinator in the Tributary States accounts for the rise in the inspecting staff, and the entertainment of a number of paid vaccinators in the famine stricken areas and of licensed vaccinators in some of the other districts, accounts for the increase in the number of operators The number of vaccinators working in mufassal municipalities and dispensaries fell off by eight. Inspection work was seriously affected by the employment on plague duty of the Covenanted Deputy Sanitary Commissioners during the working season

3. *Number of Operations and Average per Operator*.—The total number of vaccinations performed rose from 2,293,655 to 2,319,536 and the average per operator from 615 to 639 The increase is shared by 27 districts, and was highest in the following:—

	Increase
Muzaffarpur	20,600
Darbhanga	17,069
Khulna	16,067
Faridpur	15,267
Nadia	13,750
Bhagalpur	13,675
Cuttack	11,943
Jessore	10,619

These results do credit to the officers concerned, especially as the prolonged scarcity and dearness of food must have made the realisation of fees a matter of considerable difficulty Twenty four districts show a decrease, the most marked decreases being in the following districts:—

	Decrease
Chittagong	26,237
Shahabad	21,579
Noakhali	17,721
Dacca	12,898
Bankura	11,511
Mymensingh	10,516
Dinajpur	8,857
Political States	7,661

The decrease in Chittagong is attributed to the cyclone and the storm wave that passed over the district in October 1897 In Shahabad it is ascribed to the large number of vaccinations performed during the previous year and also to the outbreak of small-pox during the year under report The Lieutenant-Governor agrees with the Sanitary Commissioner in refusing to accept this explanation, since the prevalence of small-pox ought to act and ought to be made to act as an additional stimulus to work. The decline in the other districts is explained in some by the fact that vaccination work had been pushed on during the previous year owing to outbreaks of small-pox, in others by the inability of the people in their straitened circumstances to meet the cost of vaccination, or by a combination of both causes. A severe outbreak of small-pox in some of the States and the supply of reliable figures in the returns of others account for the diminution in the Political States of Chota Nagpur A Sub Inspector who used to run up totals by giving false figures has been dismissed

4. *Protection afforded to Infants.*—In the statement showing the population among which vaccination was performed, the figures differ from those of last year in 8 districts, and in those of mufassal municipalities The variations are considerable in Rajshahi and Dinajpur, and in the Tributary States of Orissa the population is shown as having diminished by over 200,000. No

explanation of this great difference has been given, nor is there any suggestion that the field of vaccine operations was restricted during the year The Sanitary Commissioner will be requested to supply this omission.

Taking the total population at 73,595,096, and calculating the birth-rate for the Province, as in previous years, at 40 per mille, and deducting 500,707 as the mortality among infants under one year of age, the total number of infants under one year available for vaccination is estimated at 2,443,096 against 2,460,228 in the preceding year, and of these 508,615, or 208·18 per thousand, were vaccinated, as compared with 498,979, or 202 81 per thousand in 1896-97 As in the previous year, Malda, Darjeeling, and Lohardaga show the best results Patna is at the bottom of the list, and Puri, Shahabad, Gaya and the Tributary States of Orissa also have very low percentages The changes are small, and the differences remain enormous. The range in the proportion of the vaccination of infants born during the year is from 983 per mile in Malda to 54 in Patna, and these prodigious differences are constant Why has vaccination become and continued so popular in Malda? What can be done to establish it in Patna? Why should Puri average about 75, while its neighbour of Balasore exceeds 200? These are obvious questions to which the Lieutenant Governor can find no answer in the Sanitary Commissioner's memorandum, and he trusts that very special attention will be given to these backward districts to ascertain the causes of their hostility to vaccination and to settle the best methods of surmounting that hostility All the three southern districts of the Patna Division require the Sanitary Commissioner's special regard and the serious co operation of the Collectors.

5 *Primary Operations.*—The proportion of successful primary operations for the whole Province is returned at 97 87 against 98·50 The slight decrease is reported to be due to the inclusion for the first time of unknown cases in calculating the ratio of successful operations. In previous years unknown cases had been excluded. It is reported that orders are under issue for introducing during the ensuing vaccination season the system (referred to in previous resolutions) in force in the Punjab of making three punctures in each arm The draft of the instructions which it is proposed to issue on the subject has lately been approved by Government.

6 *Secondary Operations.*—The number of secondary operations increased from 70,527 to 76,443 There was an increase of 20,250 cases in rural areas, while Calcutta and the mufassal municipalities and dispensaries show a decrease of 7,852 and 6,482 cases, respectively. The percentage of successful cases was 64 36 against 60 23, excluding "unknown cases," and 52·59, including them in 1896 87, and the increase is attributed to a larger number of re-vaccinations among adults

7 *Recess Work* —The number of operations performed during the recess in connection with small-pox epidemics and the up-keep of lymph for emergencies rose from 115,833 to 122,612, or by 6,779 The increase is attributed partly to the greater prevalence of small-pox in some of the districts, and partly to the relaxation of the rule prohibiting the grant of deputation allowance to licensed vaccinators when employed within their own jurisdictions in stamping out outbreaks of small-pox

8 *Vaccination at the expense of District Boards* —The number of vaccinators employed by the District Boards and paid from district funds was reduced from 60 to 58, and the number of persons vaccinated by them fell from 58,722 to 55,937 The contributions made by District Boards for the purpose of giving free vaccination in rural areas rose from Rs 3,368 to Rs 3,602. The largest contribution of Rs 1,322 was again made by the District Board of Puri A comparison of the work done by the Licensed, Government, District Board, and Municipal agencies shows that there was an increase in the number of operations performed by the Licensed and Government agencies, and a decrease in the number performed by the other agencies

9 *Cost of Vaccination.*—The total cost of vaccination declined from Rs. 2,06,204 to Rs 1,81,480, and the average cost of each reported successful

vaccination from one anna and five pies to one anna and three pies The large decrease in the total cost is attributed to the abolition of the paid vaccination system in Angul and also to the absence during the greater part of the year of the Deputy Sanitary Commissioners, which effected a considerable saving in their pay and travelling allowance. These two items alone represent a saving of Rs 23,000

10 *Death-rate from small-pox* —The diagram given in the report illustrates the death rate from small pox in each district as compared with the proportion of population protected by vaccination during the last seven years It is interesting, but inconclusive The death rate from small-pox during the last seven years has been identical in the districts of Darjeeling, Rangpur, and Bogra, but in Darjeeling 6,000 of the 10,000 of the population are protected, in the other two districts the proportion is under 2,000 In Backergunge the percentage of protection is the same as in Rangpur and Bogra, but the proportion of small-pox mortality is 0·2 per mille against 2·0. Small-pox in Darjeeling may be abnormally fatal in Backergunge abnormally mild, and the Lieutenant Governor would like to see such comparison as the trustworthiness of the older returns may permit between the mortality prior to the spread of vaccination in any district with that which prevailed before In a district, for instance, like Malda, where nearly the whole of the infant population is habitually vaccinated, there ought to be evidence, which he who runs may read, of the value of the process in saving life There is some evidence already. In Malda last year only one person died of small pox Let the enquiry and the comparison be carried further. It is by tangible evidence such as this that the suspicious mothers in the Patna Division will be won over

11 *Method of vaccination* —Compared with the figures of the preceding year, the number of operations performed direct from the calf shows an increase of 25,000 in the case of primary vaccinations and of over 5,000 in that of re vaccination This increase is noticeable in the districts of Rajshahi, Dinajpur, Dacca, Mymensingh, and Backergunge, where the bulk of the inhabitants are Muhammadan, and also in the backward districts of Lohardaga and Palamau The proposal to introduce the system of vaccination direct from the calf into the mufassal was under consideration during the year, and reports were obtained from all Civil Surgeons, through Magistrates and Commissioners From twenty districts it is reported that there is no objection to the extension of the system, but in other districts where it is less acceptable to the people, the Sanitary Commissioner rightly considers that, having regard to the present state of public feeling in respect of plague measures, it is inexpedient to press it

12. *Supply of lanoline lymph to Nepal* —Five hundred and sixty-four grains of lanoline vaccine paste were supplied to the Nepal Durbar from the Animal Vaccination Depôt at Darjeeling. Only one return showing the result of operations performed with the lymph was received, and it was found that all the 25 cases reported therein proved successful

13. *Inspections* —The Deputy Sanitary Commissioners could not do any inspection work during the year, because, as stated above, they were employed throughout the working season on plague duty. Assistant Surgeon Gopal Chunder Mukherji, who was in charge of the Western Bengal Circle from the 4th August 1897 to 31st March 1898, visited only 111 villages and inspected 4,227 operations On the other hand, Civil Surgeons are stated to have shown greater activity in this branch of their duties The statement showing the number of villages visited by Civil Surgeons, and the number of vaccinations inspected by them, appears, however, to require further explanation The Civil Surgeons of the Sonthal Parganas, Muzaffarpur, and Palamau are shown as having each visited more than 500 villages, and five others as having visited more than 300 villages. The Lieutenant-Governor is unable to understand how an officer who has heavy work at head-quarters can have paid really effective visits to so large a number of villages, or have adequately inspected

so many as 15,000 vaccinations within the year In two districts the number of villages visited was less than 10, and in 20 it was under 100. There seems reason to think that the returns have not always been compiled on a uniform basis, and the Lieutenant-Governor would be glad if the Sanitary Commissioner would give this matter his attention before next year's report is submitted

By order of the Lieutenant-Governor of Bengal,

E N. BAKER,

Offg. Secy to the Govt. of Bengal.

THE PRELIMINARY FORECAST OF THE INDIGO CROPS OF BENGAL FOR THE YEAR 1898

THE following is published for general information

REVENUE DEPT., *The 11th October 1898.*

M. FINUCANE, *Secy to the Govt. of Bengal*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

First note on the indigo crops of the Lower Provinces of Bengal for the year 1898

Explanatory —The present return includes all the districts shown in the first note on the indigo crops of the Lower Provinces of Bengal for the year 1897 Indigo is grown extensively in the five districts of "North Bihar" (Saran, Champaran, Muzaffarpur, Darbhanga, and North Monghyr), and in Purnea, but the areas in Murshidabad and Nadia are probably over-estimated, and the outturn of indigo in Eastern Bengal is very small.

As with other forecasts issued in the current year, the percentage system of notation has been adopted in the place of the anna system under the orders of Government In this percentage system, 100 represents the normal outturn per acre, which used to be represented by 16 annas in the anna system

Character of the season —The weather has been favourable for indigo throughout North Bihar generally, but the recent heavy floods are reported to have done some damage to the second cuttings In Bengal Proper, some districts report favourable and some unfavourable weather, and the rainfall appears to have been very unequally distributed

Area under cultivation —In the first note on the indigo crops for the year 1897, the total approximate normal area under indigo in these Provinces was given as 609,300 acres The revised figures for the current year show it to be 582,400 acres.

The decrease is chiefly due to a revision of the figures for Midnapore, and a further decrease will probably be shown when the figures for area shown by the other districts of Bengal Proper have been revised.

The area sown this year is given as 527,500 acres as against 538,400 acres in 1897 The causes which have brought about this decrease are given in the notes appended to the returns

Outturn.—A considerable improvement on last year's butturn is shown by the chief indigo districts, and had it not been for the recent floods, all the five districts of North Bihar would have had a crop something over the normal In the Bhagalpur Division the crop may be termed a normal one, out in Eastern Bengal it appears to have varied between 63 and 88 per cent of a normal crop The exact effect of the floods has not yet been ascertained, but it may be roughly estimated that the outturn for the Province will not fall below the normal.

Messrs Baines & Co estimate an outturn of 74,000 maunds for "Bihar" and 21,000 maunds for Lower Bengal According to the statistics below, the outturn for Bengal should be larger, but the figures of area are incorrect, and I have little doubt that Messrs. Baines & Co 's figures should be accepted On the other hand, the estimate for Bihar is much in excess of the average outturn for the past 15 years, which amounts to about 63,000 maunds It seems possible that the recent damage to the crop by floods may have been under-estimated and that the outturn will not be quite so high, but Messrs. Baines & Co.'s sources of information are of the best, and it is probable that the prospects of the crop may have been under-valued by us. Perhaps an outturn of 70,000 maunds for Bihar may be safely estimated.

D L Roy,

Asst. Director of the Dept of Land Records and Agriculture, Bengal

---

Countersigned.

P C LYON,

Director of the Dept. of Land Records and Agriculture, Bengal.

Calcutta,
The 8th October 1898.

First forecast of the Indigo Crop of Bengal, 1898

1	2	3	4	5	6	7	8	9
Division	District.	Approximate normal area under indigo.	Approximate area sown last year (1897)	Estimated area sown this year (1898)	Taking 100 to represent the normal outturn per acre, how much repre-sented outturn last year (1897)?	Taking 100 to represent the normal outturn per acre, how much will re-present this year's out-turn (1898)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
		Acres.	Acres.	Acres.				
Burdwan	Burdwan	6,100	6,700	5,200	105	85	The decrease is due to insufficient rainfall at the time of sowing and heavy showers afterwards.	
	Bankura ...	2,900	2,900	2,900	75	60	The weather has not been favourable for the cultivation of this crop during the year and consequently a slight decrease in the out-turn is expected	
	Midnapore ..	18,500	17 700	16,800	80	70	Owing to seasonable rainfall at the sow ing and other times, a larger area than the normal was brought under cultivation and the outturn is likely to be better this year The figures of normal area and of areas sown this year and last have been revised this year	
Presidency ..	Nadia	51,500	47,900	54,000	75	74	The increase in the area sown this year is due to the timely rainfall at the sowing season The decrease in the estimated outturn is too small to call for any explanation.	The Collector will be asked to revise his figures of area as soon as he can conveniently do so They appear to be too high

1	2	3	4	5	6	7	8	9
Division	District	Approximate normal area under indigo.	Approximate area sown last year (1897)	Estimated area sown this year (1898)	Taking 100 to represent the normal outturn per acre, how much rupee acreage outturn last year (1897) ?	Taking 100 to represent the normal outturn per acre, how much will represent this year's outturn (1898) ?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture Bengal
		Acres.	Acres.	Acres.				
Presidency—concluded.	Murshidabad	14,800	13,400	12,100	90	87	The decrease in area shown this year is due to the cultivation of *bhadoi* and other crops on indigo lands.	The Collector will be asked to revise his figures of area as soon as he can conveniently do so. They are apparently too high
	Jessore	16,600	13,700	13,300	90	85	The decrease in this year's area is due to the abolition of an indigo factory in the Magura subdivision. The low outturn is due to untimely rainfall	
Rajshahi	Rajshahi	8,100	8,600	7,150	90	90	The improvement in outturn is due to favourable weather	
	Dinajpur	[100	125	;	75		No cultivation this year owing to the calamity having been damaged by the recent earthquake.	
	Rangpur ...	6,600	5,500	5,000	85	80	The cultivation of indigo is gradually dying out here; hence the decrease in area. I am inclined to think that the area is much over estimated. Unfavourable rainfall has proved injurious to the crop, so a smaller outturn is expected.	The Collector will be asked to make enquiries and revise his estimate of area.
Dacca ...	Faridpur	600	600	600	85	80	The decrease in the approximate normal area is due to the adoption of revised figures furnished by the local police. The expected decrease in the outturn is due to untimely and excessive rainfall.	

Patna	Gaya	...	100	100	100	100	150	Owing to the favourable rainfall this year, the whole area has been cultivated, and the outturn is expected to be average.
	Shahabad	...	7 700	8 500	7 700	60	75	Want of rain in the beginning of the season affected the outturn
	Saran	...	33,300	36,700	33,000	44	104	The indigo season has not been uniform throughout the district some factories did very well with their first cuttings, other not so well. Second cuttings have been spoiled in many factories by submotive rain. Floods have injured the second cuttings.
	Champaran	...	84,000	93,000	85,000	83	97	A fair outturn is expected owing to the reasonable rainfall. The crop in Champaran being an early one, it has not been much affected by the recent floods.
	Muzaffarpur		83,000	93,000	85,000	44	94	The weather this year was more favourable, and hence the increased estimated outturn. Much damage has been done to second cuttings by the recent floods.
	Darbhanga	...	84,000	70,000	80,000	63	89	... ... Damage has been done to second cuttings by recent floods.
Bhagalpur	Monghyr		13,000	13,000	11 000	61	100	... ... Some damage has been done by the recent floods
	Bhagalpur	...	13 000	13,000	13,000	106	100	The season has been favourable for indigo.
	Purnea	...	46 100	54 000	25,300	63	97	The marked decrease in area sown is mainly due to the late scarcity in some cases, and to the insufficient deposit of silt in some dams lands
	Malda	...	31,000	18,000	21,300	75	75	The figures represent the actual area cultivated as reported by the managers of different factories in the district
	Santhal Parganas		5,700	5, 00	5 200	82	98	The distribution of rainfall was on the whole favourable, and hence the better estimated outturn

Khulna.—Rainfall nil Weather hot and clear Transplantation of *aman* and harvesting of *aus* over Prospects good Fodder and water sufficient Common rice sells as follows —

	Srs.	
Sadar	.. 14 to 18	per rupee.
Bagerhat	.. 16	
Satkhira	15	
	21 (new *aus*)	

Rajshahi—No rain. Prospects of crops good No cattle-disease. Fodder and water plentiful Rice sells from 12 to 22 seers per rupee

Jalpaiguri—Rainfall at Sadar ·47, Alipur Duars nil Weather seasonable. Steeping of jute going on. Prospects of standing crops favourable. Lands are being prepared for *rabi* crops Fodder and water sufficient Common rice sells from 8 to 15 seers per rupee

Darjeeling—Rainfall at Darjeeling ·23, Kurseong 1·75, Siliguri 1·50 Weather seasonable *Hills*—Pulses and phaphur being sown; *haimanti* paddy and *bara marua* progressing and promise well *Terai*—Transplanting of *haimanti* paddy and harvesting of *bhadoi* finished, jute being reaped, sugarcane doing well, prospects good Coarse rice sells as follows —

	Srs.	
Hills	8 to 11	per rupee
Terai ...	12 to 14	

Bhutta sells from 19 to 40 seers per rupee.

Rangpur.—No rain Cutting, steeping and washing of jute going on Lands are being prepared for tobacco and potatoes Prospects fair Common rice selling at 11 to 14 seers per rupee Fodder and water sufficient

Bogra—Rainfall at Sadar 08 elsewhere nil Transplantation of *aman* finished except in parts of Dhunat and Sharakandi Lands are being prepared for *rabi* crops Prospects good Common rice sells from 12 to 15¾ seers per rupee Supply of fodder and water sufficient

Pabna.—Rainfall at Sadar 04, Sirajganj ·49 Weather seasonable Crop prospects very good Price of rice 13 to 14 seers per rupee

Dacca.—Rainfall at Sadar nil, Manikganj 02, Munshiganj 95, Narainganj 71 Weather seasonable Harvesting of jute and rice continues Prospects of standing crops good. Water subsiding rapidly Fodder available No cattle disease. Common rice 12 to 13 seers per rupee

Mymensingh.—Rainfall at Sadar nil, Kishorganj 95, Jamalpur 20, Tangail 28 Weather unseasonably warm Crops all doing well. Cattle healthy Fodder and water ample Rice selling at 12 seers per rupee

Faridpur—Rainfall at Sadar 54, Goalundo 14 Weather seasonable Prospects of crops good Rice 14 seers per rupee

Backergunge—Rainfall at Sadar nil. Weather fine Prospects of crops good Common rice sells from 11½ to 17 seers (*aman*) and from 18 to 22 seers (*aus*) per rupee

Tippera.—Rainfall at Comilla ·66. Brahmanbaria 03, Chandpur 16 Weather seasonable Harvesting of jute still continues Prospects of *aman* fair Fodder sufficient Price of common rice 12 to 20 seers per rupee

Noakhali.—Rainfall at Sadar 1·20, Feni 03 Weather hot Prospects of crops good No cattle-disease Fodder not good Price of rice—*Aman* 10 to 14 seers and *aus* 15 to 20 seers per rupee.

Chittagong—Rainfall 3·02 Weather seasonable Transplantation of *aman* progressing Prospects favourable Prices steady Water and fodder sufficient.

Patna.—Rainfall nil Fields being actively prepared for *rabi* crops. Rain wanted in Bihar for paddy on high lands. Prices almost stationary In Patna common rice sells at 18 seers a rupee Fodder and water for cattle sufficient

Gaya.—Rainfall nil. Prospects of paddy good. *Rabi* lands being prepared Common rice selling at 14 seers per rupee.

Shahabad—No rain Days hot, nights cool. Rain wanted. Paddy on high lands suffering Fields being ploughed for *rabi* sowings. Rice sells at Arrah 14 seers per rupee

Saran—*Hathya* ended without rain Flood-water nearly gone Much paddy lost on low lands, but high lands will give good yield and largely compensate Ploughing for *rabi* continues Pulses are being sown. Average prices are—Common rice 13 seers 9 chitaks, and *makai* 23 seers 11 chitaks per rupee

Champaran.—Rainfall only at Bettiah 68 Weather hot, but cool at night *Bhadoi* harvesting still continues Winter rice prospects favourable *Rabi* preparation begun in places Fodder and water sufficient Price of common rice 14½ seers and of maize 22 seers per rupee

Muzaffarpur—Rainfall nil Floods much subsided Prospects of standing crops good Lands being prepared for *rabi* sowings in places No cattle disease Prices are—Common rice 11 to 14 seers, wheat 15 to 18 seers, barley 20 seers, maize 20 to 35 seers, gram 17 to 18 seers, *rahar* 20 to 21 seers, and *marua* 25 seers per rupee

Darbhanga—No rain Threshing of *bhadoi* finished Paddy doing well Actual damage done by the floods is being ascertained Prospects of crops in Madhubani good Parts of the Warisnagar and Dalsingh Sarai thanas are still under water, and some difficulty in procuring fodder for cattle is experienced. Ploughing for *rabi* beginning Prices unaltered

Monghyr—No rain Weather hot and dry Prospects of standing crops good Rain wanted for winter rice at Jamui No cattle disease Common rice sells as follows—

Monghyr	13	seers per rupee.
Begusarai	12 to 13½	„ „
Jamui	14½	„ „

Bhagalpur—No rain Mornings and nights cool, days hot. Harvesting of *bhadoi* crops over in Supaul *Bhadoi* and winter paddy crops have suffered from the recent floods in the Madhipura subdivision, otherwise prospects of standing crops continue favourable, but more rain is needed in parts. Fodder and water sufficient No cattle-disease reported except in parts of Supaul. Prices steady

Purnea—Rainfall at Sadar nil, Kishanganj 05, Araria 15 Weather seasonable Harvesting of jute nearly finished. *Aghani* rice good Ploughing for *rabi* crops commenced Cattle-disease still continues in Araria Fodder and water sufficient Common rice (*bhadoi*) sells as follows—

Sadar	17	seers per rupee
Kishanganj	18	„
Araria	21	„

Malda.—No rain Weather fair and hot Winter rice thriving well Sowing of *kalai* pulse progressing Coarse rice selling at 20 seers per rupee at Tulsihatta and 14 seers at English Bazar Fodder ample

Santhal Parganas—No rain, but cloudy Prospects of crops good, but rain wanted for winter rice and for sowing of mustard Price of rice 14½ to 16 seers, and of maize 39 to 60 seers per rupee Some cattle-disease in Pakour

Cuttack—Rainfall nil Weather very hot, and want of rain much felt Harvesting *beali* nearly over *Laghu sarad* in ear *Guru sarad*, sugarcane, and *arhar* growing Jute being cut Condition of cattle generally good, but disease prevails in places Fodder and water sufficient Common rice sells as follows—

	S	ch	
Cuttack	17	1	per rupee
Jajpur	15	12	per rupee
Kendrapara	19	11	per rupee
Banki	18	6	per rupee

Balasore.—Rainfall at Sadar 06 *Sarad* being weeded Harvesting of jute and *aus* continues Insect-pest damaging *sarad* Sugarcane thriving well More rain wanted Rice sells from 14 to 24 seers per rupee in the interior, and at 16 to 17 seers at Balasore and Bhadrak respectively Cattle-disease reported from some villages Fodder sufficient

Angul—Rainfall at Angul 13 and at Bissipara 83 Prospects of crops good. Rice selling at 20 seers per rupee at Angul and 13½ seers at Bissipara

Puri—Rainfall at Sadar nil, Khurda 15 *Sarad* being re weeded *Laghu* ripening and being cut in places Prospects of sugarcane, *arhar*, and other miscellaneous crops good Fodder and water sufficient Cattle-disease reported from different parts of the district Common rice sells as follows —

		Srs. ch	
Puri		15 12	
Khurda		14 7	
Interior of district	..	14 2 to 18 6	per rupee

Hazaribagh—Rainfall nil. Weather clear Another shower wanted, and will do good to the standing crops Rice selling at 11 to 14 seers per rupee.

Lohardaga—Harvesting of *gora dhan* continues State of standing crops good. Rice sells at Ranchi 16 seers per rupee, and in the interior from 16 to 20 seers Cattle-disease continues in the interior Fodder and water sufficient. Grain in stock sufficient

Palamau.—Rainfall nil Weather hot Rain urgently wanted for upland paddy and *rabi* sowings Rice selling from 12 to 17 seers per rupee

Manbhum.—Rainfall nil Weather seasonable Prospects of crops excellent Cattle-disease reported from thana Purulia Fodder and water sufficient Average price of common rice at Sadar 14½ seers and at Gobindpur 18 seers per rupee Supply sufficient

Singhbhum—Rainfall nil Prospects of all standing crops excellent Rice sells at 14 to 16 seers per rupee.

General Summary.—There were some scattered showers of rain, but the weather generally was clear and hot throughout the week The general prospects of the crops are favourable except in the flooded tracts, where both the *bhadoi* and winter rice have suffered considerably Want of rain for the rice crop on high lands is beginning to be felt in some parts In parts of Midnapore and Balasore the rice crop has been damaged by insects The cultivation of lands for the *rabi* crops is proceeding, and the sowing of pulses has begun The harvesting of the *bhadoi* crops and jute is almost over There has been little change of importance in the price of common rice since the last report Some difficulty in procuring fodder is still experienced in some of the flooded tracts, elsewhere the cattle are in good condition

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 11th October 1898.

M. FINUCANE,
Secretary to the Govt. of Bengal

STOCKS OF RICE IN AND AROUND CALCUTTA.

No 751 Statis.—The following is published for general information

STATISTICAL DEPARTMENT,
The 11th October 1898

M FINUCANE,
Secretary to the Government of Bengal

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of September 1898.

		Inches.	Date.	Hour
The mean pressure of the month		29 702		
The average pressure of September from 24 years' registers		29 682		
The highest pressure in the month		29 915	28th	10
The lowest pressure in the month		29 472	13th	16
The range of pressure		0 443		
		Hours		
The total number of hours of bright sunshine during the month		156 4		
The maximum possible number of hours of sunshine		367 0		
		⊖		
The mean temperature of the month		82 5		
The average temperature of September from 24 years' registers		83 3		
The highest temperature in the month		99 9	30th	
The lowest temperature in the month		75 5	20th	
The range of temperature during the month		15 4		
The mean daily range of temperature		9 5		
The greatest range of temperature in one day		12 4	23rd	
		Per cent.		
The mean humidity of the month		88		
The average humidity of September from 24 years' registers		85		
		Inches		
The mean vapour tension of the month		0 972		
The average vapour tension of September from 9 years' registers		0 987		
The mean cloud proportion of the month		7 09		
The average cloud proportion of September from 21 years' registers		6 96		
		Ins.		
The total rainfall of the month		8 00		
The total rainfall indicated by a Beckley's self registering rain-gauge (mouth of the gauge about 52 feet above the ground)		7 50		
The average fall of September from 48 years' registers		10 18		
The greatest fall in 24 hours		1 94	14th	
		Days.		
The number of rainy days in the month		26		
The average number of rainy days in September from 24 years' registers		21		
		⊖		
The mean maximum equilibrium temperature of solar radiation during the month		148 2		
The mean difference of sun and air temperatures		60 9		
The greatest sun temperature		155 5	10th	
The greatest excess of sun over air temperature		69 2	20th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth		75 4		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground		2 4		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature		4 4	27th	
		Miles.		
The mean movement of the wind per day		94 2		
The greatest movement of the wind in one day		278 0	14th	
The greatest movement of the wind in one hour		18 0	13th, 11 to mid night	

The number of hours with winds from each of the 8 points—
N 10, N E 10, E 88, S E 95, S 188, S W 160, W 32, N W 22, Calm 115

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore 003 lower The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently equal, and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0 6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory

	Inches
The total fall of rain from 2nd to 8th October 1898	0 09
The average fall of the corresponding period for 24 years, Surveyor-General's Office	1 78
The total fall from 1st January to 8th October 1898	53 13
The average fall of the corresponding period for 24 years, Surveyor-General's Office	60 75

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 14h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

◠, dew, o, overcast, d, drizzling rain, t, thunder, p, passing temporary showers, < lightning

Chittagong Collectorate the 30th September 1898

J D ANDERSON, Collector

Advertisement of Sale under section 37 of Act II (B C) of 1882

NOTICE is hereby given that, owing to the abandonment of the D Schedule Embankments, Nos 1 2 and 4, on the right and left banks of the river Selye in the district of Midnapore which are mentioned in Act II (B C) of 1882, the right and title of Government to the embankment lands as specified in the conditions of sale below, will be put up to sale at the Midnapore Collectorate on Thursday, the 12th January 1899 corresponding to the 29th Pous 1305 B S and 30th Pous 1306 Amli —

Conditions of Sale

1 The lands to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale The purchaser of the lands will be considered to have acquired revenue-free title to the lands

2 If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once

3 If the amount of purchase money exceed Rs 100 one-fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day the sale is to be annulled (the sum deposited being forfeited to Government) and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale

INDIA, WEST—Malabar coast

Port of Quilon—Buoys placed in position

The Master Attendant, Alleppey, has given notice, dated 24th September 1898, that the *Buoys* marking the Reef and Rock which form the entrance to Quilon Roads have been placed in position as under —

Red (Northern) Buoy—

Bearing to Flagstaff, N E × E ½ E, distance about 8½ cables
Do to Latin Church, N. × W ½ W, distance about 8½ cables

Black (Southern) Buoy—

Bearing to Flagstaff, N E ½ N, distance about 9 cables
Do to Latin Church, N × W ¾ W, distance about 1 mile 1 cable

N B —The Black Buoy is about ¼ cable nearly due North of the position marked on the Charts—a fact which must be borne in mind either when approaching the entrance from the South or when turning to go South.

AUSTRALIA—PORT WALCOTT

Reef to the eastward

THE British Admiralty has given notice (No 495 of 1898) that information, dated 7th June 1898, has been received from Mr Joseph Lyons, Master of the S.S *Beagle*, that a reef hitherto unknown exists about 8 miles northward of Forestier islands, eastward of port Walcott

This reef (Beagle reef) is about 1¼ miles long east and west, and half a mile broad, and dries about 2 feet at low-water springs From its centre the north extreme of cape Thouin bears N 81° E, distant 20¾ miles, and Red hill (just open of the east extreme of Middle Forestier island) S 27° E

Approximate position, lat 20° 23½′ S, long 117° 51′ E

Mr Lyons also reports a channel 8 miles wide and carrying a depth of 6 fathoms, low-water springs, between the Beagle reef and the western edge of the inner Geographe reef, but great caution should be exercised in navigating along this coast, as it is imperfectly surveyed

AUSTRALIA, EAST COAST—SANDY CAPE

Non-existence of shoal reported to the north-eastward

WITH reference to Notice to Mariners, No 131 (2), dated the 4th July 1896, issued by this office, the British Admiralty has given further notice (No 501 of 1898) that information, dated 1st July 1898, has been received from Lieutenant and Commander J F. Parry, H M Surveying Vessel *Dart*, that he has made a careful examination of the locality in which the 3-fathom shoal lying N 53° E, 22 miles distant from Sandy cape lighthouse, was reported to exist, and that no indication of any shoal water was found, the depths near the spot being from 600 to 800 fathoms From enquiries instituted by Lieutenant and Commander Parry it would appear that the original report was to the effect that discoloured water was observed about half a mile from the vessel when Sandy cape lighthouse bore S 53° W, distant 22 miles, but that no soundings were obtained, or breakers seen, this shoal has therefore been expunged from the Admiralty Charts

Approximate position, lat. 24° 32¾ S., long 153° 35½′ E

RESOLUTION ON THE REPORT ON EXCISE ADMINISTRATION IN THE LOWER PROVINCES FOR 1897-98

FINANCIAL DEPARTMENT—SEPARATE REVENUE

Darjeeling, the 11th October 1898

RESOLUTION—No 3987—F

READ—

The report of the Commissioner of Excise for the year 1897-98, with the observations of the Board of Revenue

The dominant feature in the excise history of the year 1897 98 was the large fall of revenue, exceeding 6½ lakhs Allowing for changes of system, the normal annual increase for several years has been about 4 lakhs per annum In 1896 97 seven-eighths of this were extinguished by the famine then impending, but there remained a small increase of under half a lakh In 1897-98 the effects of the famine made themselves fully felt, and for the first time since 1891-92 the revenue from excise sank heavily Five lakhs of the decrease occurred under the head of country spirits, and the bulk of the reminder under ganja and pachwai Even yet the full effects of the calamity which befel the province last year have not exhausted themselves, for the settlements of the year now current have so far shown a still further decline of more than 1½ lakhs

Mr K G Guptu, c s, held the office of Excise Commissioner throughout the year He had the direct assistance of three Deputy Collectors, one of whom was his Personal Assistant, and two were travelling Inspectors of Excise In 19 districts, 14 of which have central distilleries, special Deputy Collectors were employed exclusively on excise and income-tax work, one officer doing the work for Hooghly and Howrah, while in 26 districts Deputy Collectors of the ordinary staff were in charge of excise in addition to their regular duties Eight Sub Deputy Collectors were in charge of the more important distilleries and 27 kanungoes were employed as Superintendents and Deputy Superintendents of the other distilleries and depôts open during the year There were also three Railway Sub Inspectors whose services were utilized in the suppression of excise offences in districts where they had been most prevalent, while a special Sub Inspector was as usual employed for checking the smuggling of contraband opium and liquor to and from Chandernagore In the executive branch of the Subordinate Establishment and among the clerks in the office branch the numbers remained the same as in the two previous years, viz, 201 and 141 respectively, while two of the old excise darogas were replaced by men of a superior class

2 *Inspections*—The Excise Commissioner, who spent 106 days on tour as against 139 days in the previous year, explains that he was unable to give more time to excise inspection owing to pressure of work in connection with the reorganization of the Salt Department, which has been placed under his charge The two Inspectors of Excise were out on tour for 198 and 250 days respectively Every district and sadar distillery in the Province was visited either by the Excise Commissioner himself or by one of the Inspectors, but in future, as the Board suggest, the Inspectors should, if possible, inspect every subdivisional office in their respective circles, and the distilleries, spirit depôts, and ganja and siddhi warehouses at subdivisions With regard to inspections by Collectors, it is reported that the sadar excise office in the district of Balasore and the distillery at Dumka were not inspected at all, and that the depôt at Mymensingh was inspected only three times during the year, whereas the rules require that the sadar excise office should be inspected every half year and the distillery or depôt at head quarters once every month The explanations furnished by the Collectors of the defaulting districts are insufficient It is satisfactory to observe that in all the districts in which special Deputy Collectors were employed the minimum number of days prescribed for inspections in the interior (150) was attained or exceeded For Deputy Collectors of the ordinary staff who supervise excise, the minimum period of touring is fixed at 90 days In 16 out of the 26 districts in which there is no special Deputy Collector, the full amount of touring prescribed was done, in six districts the deficiency varied from 3 to 17 days, and is generally attributed to the inability of Collectors to spare their officers from head quarters owing to the press of criminal and other work In Jalpaiguri only 23 days' touring was done, and the deficiency is said to be due to the heavy criminal work and also to the fact that the Excise Deputy Collector, who was also the Senior Deputy Collector, had to remain in charge of the office during the Deputy Commissioner's tour In Singhbhum only one day's touring was done In answer to an enquiry made by the Board, it came to light that the Deputy Commissioner had only two first class Magistrates and a junior officer, to whom the Excise Commissioner was unwilling to entrust excise work As the two former could not be spared for touring, the result has been an absence of all outdoor supervision over excise work The deficient inspection in the Sonthal Parganas during 1896 97 was unfavourably commented on last year, but no improvement has taken place during the year under review The state of affairs in these three districts is most unsatisfactory, and the Lieutenant-Governor is certainly desirous that the Board should, as suggested, at once call on the Deputy Commissioners concerned either to re-distribute the work so as to allow of the prescribed amount of touring being done, or to submit for the information of Government a full explanation why this is impossible, so as to admit of proper action being taken in the matter

In Darjeeling the Excise Deputy Collector is only required to be on tour as often as he can be spared

3 *Revenue and charges*.—The excise revenue was, as in previous years, realised from fees on licenses for the wholesale and retail sale of distilled and fermented liquors and drugs, distillery fees, and duty on the actual quantity of country rum, country spirit prepared in central distilleries, opium, and hemp drugs that passed into consumption Duty on imported liquors is an item of the Imperial Customs revenue The following statement shows the gross excise revenue, the charges, net revenue, and percentage of charges on gross revenue for the last five years —

Period	Revenue	Charges.	Net revenue	Percentage of charges
1	2	3	4	5
	Rs	Rs	Rs	
1893-94	1,21,37,096	6,47,740	1,14,89,356	5 3
1894 95	1,25,67,855	6,37,858	1,19,29,997	5 07
1895 96	1,33,77,705	6,74,582	1,27,03,123	5 04
1896-97	1,34,10,677*	6,83,851*	1,27,27,226	5 09
1897-98	1,27,48,012	6,77 393	1,20,70,619	5 3
Difference of the past two years	—6,62,565	—5,958	—6,56,607	+ 21

* Revised figures.

In order, however, to obtain the true figures for the net revenue derived from excise, there should be added to the charges here given Rs 12,998 on account of refunds and Rs 11,095 for the excess of rewards distributed over fines realized This raises the expenditure to Rs 7,01,486 and reduces the net revenue to Rs 1,20,46,526 against Rs 1,26,94,005 in 1896 97 For the check to the growth of the revenue, the famine of 1896-97 is responsible Mr Gupta estimates, by a comparison of the actual figures of revenue for the past seven years, that the real loss of excise revenue due to the famine during 1896-97 and 1897 98, amounted to 3½ lakhs and 14 lakhs respectively, and he considers that, as bids at annual sales are regulated not so much by the prospects of the ensuing year as by the results of the year that is about to close, the future loss to revenue from this cause may not be inconsiderable It is, however, hardly probable that the effects of the famine of 1896-97, will be felt beyond the current financial year Calculated on the population ascertained at the Census of 1891 (after allowing for natural increase at the rate of 7 per thousand per annum), the incidence of excise revenue per head of population during the year under review amounted to 2 annas and 8 pies against 2 annas and 11 pies in 1896 97. The corresponding incidence, without allowing for increase of population, during 1896-97 in the Bombay Presidency, was 8 annas 8 pies, and in the Madras Presidency 6 annas 8 pies The decrease of Rs. 5,958 in charges is nominal, being mainly due to the retransfer, with effect from the 1st April 1897, of excise buildings to the Public Works Department, the result being that all charges for their construction and repair were debited to that department instead of to Excise. On the other hand, there was a large increase under "Travelling Allowance" (Rs 12,334), which is ascribed to the increased activity of the detective and inspecting establishment, and under "Salary of District Executive or Inspecting Establishment" (Rs 8,804), mainly due to promotions, leave and acting allowances and to grain

compensation allowance to the menial establishment for dearness of food grains

4. *Revenue by Divisions* —Distributed according to Divisions, the gross receipts for the last five years are shown thus —

Divisions	1893-94.	1894-95	1895-96.	1896-97	1897-98,	1897-98 COMPARED WITH 1896-97	
						Increase	Decrease
1	2	3	4	5	6	7	8
	Rs	Rs.	Rs	Rs	Rs.	Rs.	Rs

Orissa	4,19 838	5 83,294	6,27 639	6 38,071	6,86 146	43,075	.. ..
Chota Nagpur ...	9 08 561	9 36 039	10,35 618	11 06 151	7 84,450	..	3,21,701
Total ..	1 21 87 696	1 25,67 855	1,35,77,705	1 34,16 577	1 27 48 012	43 075	7 05,640
					Decrease ...	6 6° 563	

* Revised figures

It will be seen that the decrease was shared by all the Divisions except Orissa, which shows an increase of Rs. 43,075 in receipts, mainly under "ganja' and "opium" which yield the bulk of the revenue in that Division. Nearly half of the total decrease occurred in Chota Nagpur alone, and the Board, in explaining the reasons for this, remark —

"In this Division there had been a large increase of revenue under the head of country spirits in the preceding year, and as the licensees must have suffered heavy losses in that year on account of the scarcity and the high price of *mahua*, competition for the outstills in the next year necessarily fell of, and 60 of the sanctioned shops remained unsettled"

The largest receipts were obtained, as usual, in the Presidency Division, including Calcutta, and the smallest in the Chittagong Division The Presidency and Patna Divisions, which between them contribute about half the excise revenue of the Province, showed a decrease of 1 lakh and 2 lakhs respectively in the gross revenue collected

5 *Revenue and consumption* —The relation of the growth of consumption to the growth of revenue is illustrated by the following statistics of the four chief articles of excise —

		Revenue		Percentage of difference.	Consumption		Percentage of difference
		1896-97	1897-98		1896-97	1897-98.	
1		2	3	4	5	6	7
		Rs	Rs.		L P gallons	L P gallons	
Country spirits	{ Distillery	28 47 924	27,40,064	—3·7	478,140	442 104	—7 5
	{ Outstill ..	3,,32,537	28,40 949	—12·1			
Country rum		4,16,780	4,14,065	—·9	80 808 Mds	77 979 Mds	—3·6
Opium		23,25 608	23 18 598	—·3	2 110	2 086	—1 1
Ganja		77 91 623	26 57 452	—2 7	5 008	4 650	—7 1

The consumption of exciseable articles diminished in a larger proportion than the revenue derived therefrom—a fact which shows that the accepted principle of raising a maximum of revenue from a minimum of consumption was carefully kept in view in the administration of excise during the year

6 *Sources of revenue* —Classified according to articles, the gross excise revenue of the past five years was as follows —

Articles of Excise.	Revenue					1897-98 compared with 1896-97	
	1893-94.	1894-95.	1895-96.	1896-97	1897-98	Increase	Decrease
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs	Rs	Rs	Rs
Country spirit ..	56 62 896	55 01 516	59 11,840	60 86 461	55,81 013		4,91 448
Rum ..	4,55 808	4 62,257	4 66,256	4 18,780	4 14 665	..	4 115
Imported liquors	2,88 162	2 81 596	2,67 995	2,94,490	2 91 635		2,785
Beer ..	224	536	445	507	725	219	
Tari	10 16 275	9 97 8 2	10 24,031	10 10 481	10 14 217	3 736

Madak	74,579	89 493	77 338	..	.. ..		
Ganja	24,476	27,024	30 560		.. ..		
Spirits used in arts	337	399	1 007	312	126		686
Ganja ..	25,35 045	24,02,755	25,80 819	27 81 923	26,57 452		74 070
Opium	21 54 907	23 15 721	23,65 129	23,25,605	23,18,598		7 005
Miscellaneous	10,910	13,466	13,944	17 468	13,240		4 228
Total	1 21 37 096	1 25,67,855	1 33 77 705	1 34,10 579	1,27,48 013	4,336	6 66 893
					Net decrease	6,62,557	

Out of a total demand of Rs. 1,28,22,218, Rs 1,27,48,012, or 99 4 per cent (the same percentage as in 1896 97), were realised Rupees 21,905 only were remitted, of which over Rs 20,000 were due on account of *tari* and country spirits alone The remissions under country spirits have risen from Rs 2,415 in 1896-97 to Rs 7,889 in the year under review

The revenue shows a falling off under all the heads except *tari*, beer and charas,—country spirit, pachwai and ganja contributing the bulk of the decrease Country spirits continue to bring in the largest revenue (44 3 per cent), followed by hemp drugs (22 2), opium (18 5), *tari* (7 8), rum (3 1), and pachwai (2 5) This order is the same as that of the preceding year, except that rum and pachwai have changed places The fluctuations under each separate head are discussed in detail below

7. *Current settlements* —The settlements for the current year, as made up to the end of May last, show a net decrease of Rs 1,61,591 as compared with the year under review, the most marked decrease (Rs 2,14,395) again occurring in the Chota Nagpur Division The causes of this decrease have been explained in paragraphs 3 and 4 above It is, however, reported that some of the unsettled licenses have since been taken up, and the Excise Commissioner hopes that with the settlement of the remainder the loss will, to a great extent, be made up

8 *Country spirit* —No article of excise contributes so largely to the revenue as country spirit. In the past year the receipts from this source amounted to Rs 55,81,013, or 44·3 per cent of the total excise revenue Country spirit is manufactured either at central distilleries which are maintained by Government and in which stills are worked by distillers, and the liquor is passed out, after the levy of the distillery fee and the duty, for sale at licensed shops, or at outstills which are licensed at monthly fees, no separate duty being charged. Of the total revenue from country spirit, Rs 27,40,064 were contributed by the central distilleries and the shops dependent on them under the three heads of license fees (Rs 10,13,325), still head duty (Rs 16,73,122), and distillery fees (Rs 53,617), while Rs 28,40,949 were derived from outstills The income from distillery liquor decreased by Rs 1,07,860 and that from outstills by Rs 3,91,588 The number of outstills sanctioned fell from 2,101 in 1896 97 to 2,096 in the year under review, and the number settled from 2,097 to 2,018, while the number of shops sanctioned for the sale of distillery liquor rose from 1,197 to 1,199 and the number settled from 1,191 to 1,193 The Board draw attention to the fact that in spite of decreasing sales, the license fees of distillery shops have risen steadily during the past two years In the Burdwan Division, throughout which, with the exception of certain wild tracts in Bankura and Midnapore, the central distillery system is

in force, there was an increase of Rs 14,887 in revenue which was shared by all the districts except Howrah, where there was a small decline owing chiefly to the stoppage of certain railway works. The employment of a special detective force in Bankura and in the Jahanabad subdivision of Hooghly for preventing illicit distillation in those tracts has resulted in a satisfactory increase of consumption of duty paid liquor. Two important cases of illicit distillation were detected in the Burdwan Division The Presidency Division, where the central distillery system also prevails, shows a decrease of Rs 62,308 in revenue, of which nearly Rs 52,000 were contributed by Calcutta alone, the cause assigned being the high price of food-grains In a case of illicit distillation prosecuted in Calcutta, it was discovered that distillation had been systematically carried on in a jungle in the suburbs by means of two stills of the native pattern An important case of illicit introduction of spirits from Chandernagore was also detected in Calcutta, but the prosecution of the principal offender ended in acquittal owing to some legal technicalities. The Excise Commissioner has taken steps to remedy the defects brought to light In the Rajshahi Division, and in the districts of Purnea and Malda, belonging to the Bhagalpur Division, throughout which area the outstill system prevails, there was a small decrease of Rs 16,803 in revenue which was shared by all districts except Bogra and Purnea The central distillery system is in force throughout the Dacca Division Though there was a rise of Rs 3,145 in the revenue derived from the Dacca district, there was a net decrease of Rs 419 throughout the Division, towards which all the remaining districts contributed In the Chittagong Division, where the consumption of spirit is very limited, the revenue rose during the year by Rs 851, owing chiefly to better settlements of licenses The Patna Division, which for excise purposes is taken to include the districts of Monghyr, Bhagalpur, and Hazaribagh, and is under the dual system of central distilleries and outstills, yields the largest revenue from country spirits, the amount realised in the past year being Rs 18,95,727 against Rs 21,16,240 in 1896-97, a decrease of Rs 2,20,513, which occurred in both the distillery and outstill areas The lower classes in these districts are much addicted to drink, but the liquor consumed is ordinarily weak, and there is also a very large consumption of *tari*, which is still weaker From the fact that within this division the decrease in revenue was heaviest in the Patna and Gaya districts, where there was no actual famine, while in the other districts where relief works were opened the decrease was comparatively very small, the Excise Commissioner presumes that a portion of the funds spent on famine relief found its way back as excise receipts. The Lieutenant-Governor agrees with the Board in thinking that this is not likely to have happened to any considerable extent A decrease of Rs 1,341 is returned from the Santhal Parganas, in which the distillery system is in force The central distillery system is also in force in the Orissa Division, with the exception of a portion of the hilly tracts of Cuttack, and the Angul and Khondmals districts, which are under the outstill system This division shows an increase of Rs. 4,161, which was shared both by outstills and distilleries With the exception of a small portion of Hazaribagh and Manbhum, the outstill system is in force throughout the Chota Nagpur Division, which, excluding Hazaribagh already dealt with, shows the largest decrease in revenue (Rs 2,17,963) of all the divisions The causes at work have already been explained The Excise Commissioner suspects that in this division spirits are illicitly distilled from *pachwai*, which is largely manufactured at home by the aboriginal tribes under the concession granted to them, and the Lieutenant Governor awaits the Board's report on this point

As compared with 1896 97, the revenue from country spirit during the year under review fell very largely, but it is still in advance of that in 1887-88,* when the revenue was larger than that of any previous year, except 1883 84 In 1891 92 the revenue from country spirit commenced to rise, and after steady yearly progress attained the highest figure on record (Rs 60,80,461) in 1896 97 The famine and the scarcity of *mahua* and its extensive use as food at the time that famine was most severe has thrown the revenue in 1897-98 back to a little above the figure obtained in 1894-95 (Rs. 55,61,516)

	Rs.
* 1887 88	52,06,042
1897 98	55,81,013

With their letter No 1320Ex., dated 19th March 1898, the Government of India forwarded a memorandum containing a very interesting review of the

consumption of outstill and distillery liquor in different districts of the Province, and of the proportion of revenue brought in by vend license fees compared with duty The comparison thus made led the Government of India to the conclusion that illicit distillation and sale must be widely prevalent in certain districts, and also the smuggling of outstill liquor into distillery tracts The important questions raised in this memorandum have been referred to the Board of Revenue for a report, which has not yet been received The Lieutenant Governor notices, however, that no analysis of the relative consumption of liquor in the two areas seems ever to have been made in the annual reports of the Excise Commissioner, and he would be glad if the Board would consider whether some examination of the kind should not be included in future

9 *Changes in the management of Central Distilleries and Outstills* —An additional spirit depôt was open during the year at Chuadanga in the district of Nadia in consequence of the revival of that subdivision from 1st April 1897 The experiment tried in Gaya of fixing a maximum price for the retail sale of weak distillery liquor, to which reference was made in the two previous years' Resolutions, has been abandoned since 1st April 1898, the local authorities having reported in unfavourable terms on its working

10 *Sites of shops* —The rules regarding sites of shops, which require that no liquor shop should be opened in a bazar, on high roads, or close to places of public resort, seem to have been carefully attended to The sites are selected in consultation with the magisterial and other local authorities, changes being made in deference to their views and the opinion of respectable residents During the year one outstill in Jalpaiguri was not allowed to be re opened, and another in Champaran was closed, at the instance of planters, one outstill in Singhbhum, some tari shops in Patna and Hooghly and a ganja shop in Nadia were removed in deference to public opinion, and in Gaya the site of a tari shop was changed because it was suspected to have been resorted to at night by people of bad character.

11 *Country rum* —The rum produced in the Province was, till recently, charged with a duty of Rs 5 per gallon L P, but this rate has been increased to Rs 6 per gallon with effect from the 10th January 1898 The Government of India have further directed that the same rate of duty shall also be charged by the Government of the North Western Provinces and Oudh on all Shajahanpur rum cleared for consumption in Bengal, and that rum and other similar spirits manufactured in India after European methods shall in future be exported from the North Western Provinces under bond alone, the duty thereon being payable on issue at the rate in force in the Province to which they are consigned The total quantity of rum which passed into consumption from the distilleries in Sibpur and Sakri (in Darbhanga) and by importation from Shajahanpur in the North Western Provinces, and Aska and Arkot in the Madras Presidency, was 77,979 gallons L P (57,028 gross gallons) against 80 898 gallons L P (60,814 gross gallons) in 1896 97, showing a net decrease of 2,919 gallons L P, which was confined to Madras and Sibpur rum It is remarked that the decrease would have been still greater but for the large clearances made in anticipation of the enhancement of duty above referred to The bulk of the trade in rum is carried on through Calcutta, where the quantity imported during the year amounted to 54,992 gross gallons Excluding 8,351 gross gallons exported to Assam and Port Blair, the actual consumption in Bengal itself was 46,641 gross gallons, out of which 34,237 gallons were consumed in Calcutta and 12,404 in the mufassal Besides the imports from Calcutta the mufassal districts further received 2,033 gross gallons direct from Shajahanpur

12 *Imported liquor* —The excise revenue from imported liquor is made up entirely of fees for licenses for wholesale vend, and for licenses for retail sale in shops, at hotels, dâk bungalows and railway refreshment rooms and on steamers The first license for the sale of imported liquors in a railway dining car was granted during the year to Messrs Kellner & Co for the car running between Howrah and Burdwan There was an increase in the number of licenses of all kinds except those for hotels and dâk bungalows The total receipts amounted to Rs 2,91,635 against Rs. 2,94,420 in 1896-97 About one half of the excise revenue from imported liquors is collected in

Calcutta, where the decrease amounted to Rs. 7,353 This decrease is, however, only nominal, being due to the fact that the previous year was the first year of a triennial settlement, and that two months' advance fees on account of the retail licenses had therefore been included in the receipts for that year The Excise Commissioner notices with satisfaction the further decline in the importation of cheap German spirit, mostly distilled from potatoes, which, after being coloured and flavoured locally, is sold at absurdly low prices as brandy or whisky

13 *Tari* —The receipts from *tari*, the revenue from which is derived from license fees for the sale of both fermented and unfermented *tari* advanced from Rs 10,10,481 in 1896 97 to Rs. 10,14,217 during the year under review, the increase being most marked in Gaya, followed by Monghyr, Cuttack, Purnea, Midnapore, Bhagalpur, Champaran, Saran, Howrah, Hooghly and Puri More than half of the total revenue from *tari* is collected in the Patna Division, where the receipts fell from Rs. 5,62,690 in 1896-97 to Rs 5,56,309 The decrease is, however, nominal, being due to the non-realisation of advance fees in March 1898 The number of licenses for the sale of *tari* in the Province shows a decrease of 486, which occurred almost wholly in licenses for unfermented *tari*

14 *Pachwai*.—The number of licenses for the retail sale of *pachwai*, which includes both the rice beer that is consumed chiefly in the districts of Western Bengal and the millet (*marua*) beer drunk in the Darjeeling hills declined from 1,663 to 1,592, and the revenue from Rs 4,10,202 to Rs 3,37,811—a heavy fall after the steady increase in receipts which had been maintained during the last eleven years. The district of Burdwan, which contributes about three-fourths of the entire pachwai revenue collected in the Province, alone showed a decrease of Rs. 32,294, which is attributed to the high price of rice There were also heavy decreases in Birbhum (Rs. 15,566) and the Sonthal Parganas (Rs 8,217), due more or less to the prevailing scarcity The revenue derived from license fees for home brewing yielded Rs 33,032 against Rs 33,279 in the previous year In Singhbhum and Murshidabad there appears to be a considerable consumption of illicit pachwai, and the detective staff must be kept on the alert to reduce it to a minimum

15 *Ganja* —Ganja is grown under close supervision in a compact area in the district of Rajshahi The revenue from ganja is derived from license fees and duty which varies according to quality. The following statement shows the main statistics relating to ganja revenue in the last three years —

	Licenses sanctioned	Licenses issued	Quantity consumed.	Revenue.
	No	No	Mds	Rs
1895 96 ..	2,707	2,696	5,202	26,80,819
1896-97	2,708	2,688	5,008	27,31,522
1897 98	2,712	2,706	4,651	26,57,452

The area of land brought under ganja cultivation during the year decreased by 402 bighas The demand for Rajshahi ganja is increasing for various reasons, chief among which may be mentioned the prohibition of cultivation of the plant in the Tributary States of Orissa. In view of this increasing demand the gradual diminution of the supply demands serious consideration, and the Lieutenant-Governor awaits the report which the Board have called for from the Excise Commissioner on the subject of extending the area under cultivation so as to ensure that the supply shall not fall short of the demand. The revenue from duty shows a decrease of Rs 88,764 against an increase of Rs 14,694 in license fees. The decrease in the total receipts is due almost wholly to the introduction of the system of exporting ganja under bond to the North Western Provinces and Oudh without prepayment of duty The Board report that the introduction of the system of supplying Rajshahi ganja to the Tributary States, alluded to in last year's Resolution, has already been attended with much success The Superintendent, however, deplores the half hearted interest taken by the Chiefs in the suppression of the local cultivation of ganja With regard to the two instances of reported cultivation of ganja in the residence and private garden of the Chiefs of Nayagarh and Boad States respectively, the Board should submit a separate report to Government The building of the new public golas at Naugaon has been further delayed

owing to the difficulty of finding local contractors to undertake the brick making, and the foundations of the buildings have not yet been laid The Lieutenant-Governor desires that the work may be expedited The following statement illustrates the production of ganja and its export from Rajshahi during the past year —

	Mds.
Production—	
Balance of previous years	322
Crop of 1897, less amount exported in 1896-97	5,242
Crop of 1898	5,793
Total to be accounted for	11,357
Export—	
Of crop of 1897 and previous years	4,711
Ditto 1898	1,255
Quantity destroyed under sanction	17
Total	5,983
Balance in hand of cultivators—	
Crop of 1897 and earlier years	836
Crop of 1898	4,538
Total	5,374

The distribution of the drug after leaving Rajshahi is shown below —

	Mds
Balance in district golas on the 1st April 1897	1,354
Imported from Rajshahi	5,966
Total to be accounted for	7,320
Consumed in Bengal	4,265
Exported to North-Western Provinces	321
Ditto Nepal	218
Ditto London	65
Ditto Mauritius	68
Ditto Natal	7
Ditto Sikkim	1
Ditto Assam	678
Ditto Cooch Behar	70
Ditto Mourbhanj	17
Ditto Nilgiri	2
Ditto Other Garhjat States	44
Total	5,756
Quantity destroyed as refuse	417
Wastage	147
Total accounted for	6,350
Actual quantity in stock on 1st April, 1898	970

The Board consider that the decrease of 80 maunds in the exports to the North-Western Provinces is partly attributable to recent orders under which all traders from that province are required to obtain supplies from Rajshahi direct instead of from the Patna Division as heretofore, and it has been proposed to open a *gola* in Patna for the storage of ganja intended for export up-country. This matter is under the consideration of Government The exports to Nepal, which of late years have been steadily increasing, show a decrease of 57 maunds, which is attributed to the high price demanded for Rajshahi ganja

16 *Bhang, Majum and Charas* —The number of licenses for the sale of *bhang*, which is also known under the name of *siddhi* and *sabzi*, rose from 322 to

330, but the revenue declined from Rs. 65,564 to Rs. 64,083 and the consumption from 1,005 maunds to 964 maunds The revenue from *majum*, a sweet preparation of *bhang*, which, as reported last year, is gradually losing favour, decreased from Rs 1,495 to Rs 1,482 *Charas*, which is the essence of ganja in its greatest purity and strength, and which is imported into Bengal from the Panjab and the North-Western Provinces, shows an increase of Rs 341 in the revenue yielded

17 *Opium* —The following statement illustrates the demand for excise opium during the year under review —

	Licenses	Consumption	Revenue
	No	Mds	Rs
1895 96	3,127	2 159	23,65,129
1896 97	3,180	2,110	23,25,603
1897 98	2,990	2,086	23,18,598

The figures for licenses include permits to licensed druggists to sell opium and its preparations for medical purposes only, and licenses for the sale of poppy-heads The number of licenses of the two latter classes decreased by 176, whereas the number of ordinary licenses decreased by 14 The decrease (24 maunds) in the consumption of opinion, which is proportionately much less than the decrease in the consumption of ganja, is generally ascribed to the impoverished condition of the people on account of the famine, the effects of the earthquake, and depression in the jute trade Two reasons are assigned by the Board for the comparatively slight effect produced by these causes on the consumption of opium, (*a*) that the drug is more generally used by the well-to do classes, and (*b*) that the opium habit when once acquired is not easily dropped The question of the smuggling of opium to Burma has engaged the attention of the Board and the Excise Commissioner, and their report has been received by the Government of Bengal In accordance with the wishes of His Excellency the Governor General in Council, this report, together with His Honour's opinions thereon, will be shortly forwarded for the consideration of the Government of India It is reported that there is little or no smuggling of duty-paid opium into Assam

18 *Methylated spirit* —Methylated spirits are either imported by sea or methylated locally The quantity passed out fell from 66,611 gallons to 66,448 gallons, but there was a small increase in revenue from Rs 4,495 to Rs 4,612 To stop the consumption of methylated spirit for drinking, which is an abuse of the law, rules have been introduced for the use of caoutchoucine as the methylating ingredient, instead of wood naphtha, but these were not enforced till after the close of the year under review

19 *Offences against the Opium and Excise Laws* —While the number of licensees prosecuted for infringing the conditions of their licenses rose from 250 to 311, the number of other persons prosecuted fell from 3,898 to 3,323 The percentage of convictions declined from 88 1 to 87 7 The arrests made both by the police and the excise officers show a considerable decrease, and in the case of the latter it is reported to be due to their having had to take part in relief operations The percentage of convictions in the cases instituted by excise officers was 88 4 against 86 7 in those instituted by the police There has been a marked decrease in the number of arrests for illicit distillation the decline being most noticeable in the Sonthal Parganas and Angul In Calcutta there was a marked decrease in the number of arrests for smuggling opium, due, it is said, to the energetic preventive measures taken, but the total disappearance of such arrests in Champaran, and the sudden arrest of 54 persons in Gaya, where in the previous year not a single arrest for this offence had been made, seem to call for further investigation As regards foreign excisable articles, the activity shown by the special excise force deputed to watch Chandernagore has considerably increased the number of arrests in Hooghly The amount of fines imposed for breaches of the excise laws and rules was Rs 66,528, of which Rs 42,520, or 63 9 per cent, were realised A sum of Rs 53,615 was distributed in rewards to police and excise officers and informers, as against Rs 65,237 in the previous year

20 The thanks of Government are due to Mr K G Gupta for his successful administration of the department and to the Board for their supervision during the year The Excise Commissioner comments favourably on the work of the district officers generally, including the Hon'ble Rai Durgagati Banerjee, Bahadur, C.I E , Superintendent of Excise Revenue, Calcutta, whose services are also acknowledged by the Board The names of the officers specially mentioned by Mr Gupta will be communicated to the Appointment Department

By order of the Lieutenant Governor of Bengal,

E. N BAKER,

Offg Secy to the Govt of Bengal.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE BURDWAN DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—(MISCELLANEOUS)

Darjeeling, the 16th October 1898

RESOLUTION No 3082

READ—

The Annual General Administration Report of the Burdwan Division for the year 1897-98

Mr Stevenson was in charge of the Division throughout the year, except for a period of one month, during which Mr Buckland officiated The Report has been submitted by Mr Kennedy Some of the figures given are incomplete, and complaint is again made by the Commissioner, as last year, of inaccuracies and discrepancies in the district statements

Although there were changes of District Officers in every district, with the exception of Howrah, practically all but Midnapore were in charge of one person for the greater part of the year Of the eleven subdivisions, there were changes during the year in the officers in charge in all but four

2 *Tours and Inspections* —Mr Stevenson was on tour for 89 days, and Mr Buckland for 5 The three subdivisions of Midnapore and that of Jahanabad in Hooghly were not visited by the Commissioner

The duration of tours of District Officers was approved by the Commissioner, and as no special mention is made to the contrary, it is understood that the tours actually made complied with the requirements It is represented that the period of 60 days fixed under Government Order No 92T G , dated 14th June 1892, for the Magistrate of Howrah to remain in camp is unnecessarily long The Lieutenant Governor considers that the case of Howrah may be governed by the general orders contained in Government Resolution No 749, dated 18th February 1896, that is to say, that the duration of the tour should be fixed annually by the Commissioner in consultation with the District Magistrate in consideration of the needs of the district and the previous knowledge of it already possessed by the officer in charge In Bankura, Mr Manisty spent the large number of 251 days in camp, in a district of that size, such a period might ordinarily be considered excessive, but the necessity for the personal supervision by the Collector of the famine relief operations was an exceptional circumstance. The tours of Subdivisional Officers are reported to have been sufficient

The necessary inspections appear to have been made, but at Burdwan, Midnapore and Howrah the treasuries were only inspected once by the District Officers

3 *Weather and Crops Prices and material condition of the people Public Health* —The rainfall in all districts was in excess of that of the previous year, with the exception of Midnapore and Howrah, where, however, it was in no way deficient The fall was also well distributed, differing in this respect from that of the previous year, with the result that the crops in the Division as a whole were excellent Some damage was done in the districts of Bankura and Howrah by the floods of the Damudar river

Prices, which had risen abnormally in 1896 97, fell considerably with the harvesting of the winter rice, although not to the level of previous years Common rice, which stood at 10⅛ seers to the rupee on 31st March 1897, was selling at 13½ seers on the corresponding date of the current year Various reasons are assigned by the Commissioner for the failure of prices to return to the normal level—the exhaustion of stocks by the heavy exportations of the previous year, increased population, improved communications which encourage export, and the depreciation of the rupee are all suggested Wages at the same time have not risen in a corresponding proportion, and the year was a hard one, especially during the first half of it, for the lower middle classes, artizans and day-labourers Consequent, too, on the short crops of the two preceding years 1895 96 and 1896-97, the material condition of the community as a whole was seriously affected in the early part of the year, though it improved towards its close The distribution of charitable relief was organised in Burdwan and to a small extent in Birbhum and Midnapore. The only district in which famine was declared

was Bankura in which relief operations were started in April and continued till October 855,294 persons in terms of one day received gratuitous relief, and 318,608, similarly calculated, were relieved by other methods, the total cost amounting to Rs. 1,21,552. A sum of Rs. 30,861 was also distributed in charitable relief. The results of the operations have been separately reviewed at length. In Hooghly and Howrah the employment offered by the mills and the assistance of private charity were found sufficient.

The year was, on the whole, a healthy one, and the death rate per mille decreased from 34·7 in 1895 and 32·8 in 1896 to 29·1 in the year under report Fever and cholera were less prevalent than in the preceding year. The statement that there were no deaths from bowel-complaints in Bankura appears to be incorrect, and is probably due to some error in classification which should be rectified There was an increase of small-pox in Burdwan, where difficulty is said to be experienced in inducing the local Muhammadan population to accept vaccination. A similar complaint is made as regards the Muhammadan mill hands in Howrah, and vaccination operations in the Division as a whole were less extensive than in the preceding year, although there was a considerable increase in Midnapore, and to a less extent in Hooghly. There was an outbreak of the disease at Howrah Severe epidemics of cholera prevailed in parts of Birbhum, Bankura and Midnapore, and fever of a severe type affected the town of Howrah and the right bank of the Hooghly between Bally and Ulubaria, though fortunately not extending to the interior

Information as to the improvements in sanitation effected by local bodies is not very complete Statistics regarding the available sources of water supply and their condition are said to have been collected, but have not been summarised A drainage scheme for the Howrah Municipality is under consideration, and an extension of the water works was effected, while a partial scheme for the improvement of the drainage is contemplated in the Bally Municipality

4 *Emigration* —In the Resolution of last year the steady decline in emigration under the provisions of Act I of 1882 was noticed, the figures having fallen from 4,510 in 1895-96 to 922 in 1896-97 This year there has been a still further fall to 517. This gradual dwindling of registered emigration is especially noticeable in Burdwan, where the corresponding figures of the three years were 2,947, 91, and 8 respectively. At the same time, free emigration increased during the year under report, a fact which is attributed to the prevailing high prices and scarcity, and a growing preference of employers for free labour The various depôts and rest-houses were regularly inspected, and their condition is generally satisfactory

5 *Manufactures and Mines, Trade and Commerce* —Complete figures not being available, the progress of the large industries, such as the jute and cotton mills and rope factories of Hooghly and Howrah, and the different iron-works and papers mills in the Division, is not susceptible of accurate appraisement, but the general results point to an increase of prosperity The outturn from the pottery-works at Raniganj also increased Favourable prices stimulated the trade in shellac, but the manufacture of indigo in this Division appears steadily declining. The weaving of silk and *tussar* continues, but the struggle with the competition of cheaper fabrics is a hard one, and the cotton-weavers of the Bankura district felt the stress of the prevalent scarcity severely The collieries of Burdwan and Bankura are steadily gaining in importance The output during 1897 is reported to show an increase of 13 per cent over that of the previous year, while the annual output has doubled during the last seven years. There were three serious accidents during the year, one in which the pit caught fire, and two cases of subsidence, in one of which two lives were lost.

The total import traffic in the principal staples carried by rail, river and canal amounted to 77,59,243 maunds in comparison with 76,28,788 maunds in the previous year, and the export traffic to 6,20,35,440 maunds, against 4,91,77,238 maunds during 1896-97. As a result of the cessation of the famine, there was a decrease in the net export of food grains from the Division from 72,75,886 maunds during the preceding year to 64,36,272 maunds, but the total is still enormous The export of rice fell similarly from 53,89,969 maunds to 47,77,076 maunds, and of paddy from 28 99,718 maunds to 26,64,934 maunds

6 *Civil Justice* —Complete information as to the number of civil cases instituted has not been furnished, but there was an increase in the number of cases disposed of in all districts except Burdwan, the total amounting

to 102,228 in comparison with 95,348 in the previous year The number of witnesses examined by the superior Courts increased from 13,783 during 1896 to 13,806, but the percentage of those detained over two days fell from 9 3 to 8 1 In the Courts of Munsifs 98,480 witnesses were examined in comparison with 97,157 in the previous year, the number of those kept in attendance o er two days (16 9 per cent) remaining practically stationary

7 *Crime Police Criminal Justice* —The total number of cognisable cases reported during the year and investigated by the police rose from 21,800 to 23 648, or, excluding breaches of sanitary regulations, from 13,448 to 19,123 The fact, however, that the figures for the year under report include cases subsequently declared non-cognisable or false, affects the comparison The high price of food grains is advanced as a cause of the increase, but this factor was operative to a still greater extent in the preceding year Other causes assigned for the increase are better reporting and the occurrence of numerous thefts in Birbhum of paddy while the crops were still standing and an influx of strangers seeking employment on the new railway line in Midnapore The number of non cognisable cases was practically stationary, amounting to 20,979 Of cases reported at the thana and sent up for trial by the police after enquiry, 59 2 per cent ended in conviction, in the case of those taken up direct by Magistrates or referred to the police by them, the corresponding percentage was 17 5 only, a fact which appears to call for explanation Prosecutions under section 211, Indian Penal Code, were instituted in 11 2 per cent of the cases declared maliciously false, and a larger proportion of convictions was obtained than in the previous year The Commissioner remarks that the provisions for the award of compensation to the accused in cases found to be false were but seldom used Eighteen thousand two hundred and four cases were disposed of by Stipendiary Magistrates, and 11,017 by Honorary Magistrates, the corresponding figures during 1896 being 17,071 and 9,985 respectively Notwithstanding an increase in the total number of witnesses examined, the proportion of witnesses detained over two days showed a satisfactory improvement in both classes of Courts, the figures being 4 7 and 8 4 per cent respectively The numbers unduly detained in the Burdwan Sadar Courts both by Stipendiary and Honorary Magistrates were large, the hearing of a number of important and lengthy cases being alleged in explanation The results were also poor at Jahanabad The rate of disposal of police cases by Honorary Magistrates showed a decided falling off, 7 04 per cent being adjourned six times and over, as against 4 02 per cent in 1896 The attendance of Honorary Magistrates improved, and is, on the whole, fair, though it was not good at Howrah and Burdwan It is observed by the Magistrate of Midnapore that Honorary Magistrates sitting singly dispose of the cases with fair promptitude, it is where Benches are concerned that delays arise.

Rupees 1,43,319 were imposed as fines during the year, which opened with an outstanding balance of Rs 23,967 The sum of Rs 1,28,781 was collected, Rs 11,846 were remitted and Rs 28,659 remain unrealised. The outstanding balances at the Sadar stations of Burdwan and Howrah were very heavy

Thirteen thousand one hundred and twenty-seven out of 13,927 gun licenses applied for, were granted or renewed in comparison with 11,966 in the previous year This increase is ascribed to a panic caused by an outbreak of dacoity and the apprehension of lawlessness as the result of the scarcity The proportion of licenses refused or cancelled was 5 per cent only

The conduct of the police during the year is, on the whole, reported to be satisfactory The Commissioner remarks:—"Their moral character cannot be expected to be much in advance of the public opinion of the population I think myself it is in advance of that public opinion, and though bad bargains appear from time to time in the force just as they do in other bodies of men, the police force undoubtedly does very hard and thankless work on the whole successfully" The special police staff stationed at Raniganj for the detection of dacoity, succeeded in securing the conviction of one gang with excellent results, but the Lieutenant Governor regrets to observe that two of the new class of passed Sub Inspectors turned out unsatisfactorily at Howrah The introduction of Part II of the Village Chaukidari Act was in progress throughout the Division Excluding the district of Howrah, 24,768 bighas of chakran lands were transferred during the year, although 197,105 bighas still remain to be dealt with in the other districts of the Division, which, at the close of the year, con-

tained 20,233 regulation chaukidars and 11,290 under Act VI of 1870 In Howrah, although the work in the Sadar subdivision is almost complete, the progress made at Ulubaria was not satisfactory Much remains to be done everywhere in this respect, the only district where the introduction of the Act is practically complete, being Bankura Mr. Duke is of opinion that the lands in Howrah have been assessed at needlessly low rates, and attention should be paid to this point elsewhere

8 *Registration* —There was an increase of 30,806 in the number of deeds registered, which amounted to 231,482 The continued high prices are assigned as one of the causes, but the Commissioner is of opinion that the increase is also due to growing appreciation of the advantages of registration and expansion of business, and not to increased poverty A case at Suri revealed great laxity in the system of taking thumb impressions, this important duty being left to an office daftari, who, to avoid leaving blanks in the register, filled it up with impressions taken from the first person available In the Administration Report of the Dacca Division a case was instanced where these impressions had been allowed to be tampered with, and the special attention of the Inspector-General of Registration will be drawn to this point, it is obvious that, unless the circumstances under which the impressions are taken can be accepted by Courts of law as above suspicion, their whole value as evidence vanishes The conduct of the Sub Registrars concerned in both cases is deserving of severe censure

9 *Land Revenue* —In permanently-settled estates the standard percentage of 99 per cent of current collections on current demand was reached in all districts, with the exception of Midnapore (93 58) and Hooghly with Howrah (98 12) In both cases large sums received by remittance transfer receipt were credited after the close of the year, thus affecting the percentages The proportion of collections to the current demand in estates of other classes in comparison with the prescribed standards, is exhibited below —

District	Temporarily settled estates.	Estates held direct by Government
Standard	95	90
Burdwan	37 99	83 16
Birbhum	100	91 65
Bankura	57 42	87 87
Midnapore	75 28	83 65
Hooghly with Howrah	70 24	87 97

In Birbhum and Bankura the demand on account of these classes of estates is small The collections in Government estates were, on the whole, good, but the bad results in temporarily settled estates in Burdwan, Bankura and Hooghly, to which attention was drawn last year, show little sign of improvement. There is a marked falling off in Midnapore also, which in the previous year achieved a percentage of collections of 92 4 in this class of estates The special attention of the Commissioner is again drawn to this matter

There was an increase of Rs 67,680 in the demand on account of road and public works cesses, chiefly due to the fact that effect was given to the revaluation proceedings in the district of Midnapore with effect from 1st April 1897 The collections of cesses were fair, but the results of the current collections of road cess in Midnapore (75 39 per cent) and Hooghly with Howrah (73 82 per cent), together with those of realisations of the current demand of embankment cess in Midnapore (59 41 per cent) were poor

The Pataspur settlement in the Midnapore district was completed during the year, resulting in an increase of Rs 8,147 in the Government demand It is anticipated that the settlement of ghatwali lands in Bankura will be completed by the close of the current year The numbers of certificates pending at the close of the year, on account of the realisation of cesses in the districts of Burdwan, Bankura and Hooghly (with Howrah), were large but the disposals of these cases in Midnapore was very creditable, in view of the numerous certificates filed On account of the acquisition of land for different tramway and railway projects and the water works reservoir at Howrah, the work in this branch was heavy, and six Special Deputy Collectors were employed

10. *Wards' Estates*.—There were only four estates in the Division under the management of the Court of Wards, of which the most important was the Burdwan Raj. The Lieutenant-Governor regrets to observe that the clear orders given last year for a thorough examination of the outstanding balances in the khas mahals held by the Raj, with a view of writing off demands that are irrecoverable or unjustifiable, appear to have had no appreciable result, and the outstanding balances on account of rent and cesses amounted to no less than 145 per cent. of the current demand. Further information on this point will be asked for from the Board. The management of the Naya gram Estate, in Midnapore, has resulted in the restoration of the estate to solvency, after the repayment of Rs. 8,02,725 in debts.

11. *Excise Stamps; Income-tax*.—There was a decrease of Rs. 4,702 in the income derived from excise, but that from the sale of stamps again showed an increase of Rs. 1,02,508 under all heads except receipt stamps. The final demand on account of income tax showed an increase of Rs. 23,481 and of 446 assessees. The collections continued good.

12. *Communications*.—The earthwork on the Calcutta-Cuttack section of the Bengal-Nagpur Railway was pushed on during the year, but the construction of the bridge over the Rupnarain river at Kola is the most important factor in the progress of the line. The Howrah-Amta and Howrah-Seakhalla Tramways were opened for traffic during the year, though the former has not quite been completed to its terminus. The increase in the number of railway accidents in the Burdwan district from 14 to 70 is noticeable.

13. *Education*.—The details of the educational statistics in the body of the Report are unfortunately in several instances incomplete. A decrease of 165 in the total number of schools was accompanied by an increase of 1,898 in the aggregate number of pupils attending them. The decrease was practically entirely among primary schools, which are the first to feel the effect of bad years. The total expenditure on education rose from Rs. 13,09,401 to Rs. 13,21,741 during the year under report, of which approximately 25 per cent was borne by Provincial, District Board and Municipal Funds. The percentage of boys at school to boys of school going age varied from 62·6 per cent in Midnapore to 43·5 per cent in Birbhum.

14. *Hospitals and Dispensaries*.—The working of the dispensaries in the Division presented no new feature. Their total income decreased by Rs. 1,683 owing to a decrease in the Government grants, but the income from private subscriptions showed a satisfactory increase of some Rs. 10,000. There was an increase of 15,231 in the total number of patients treated. The want of a small pox hospital at Howrah is specially noticed.

15. *Local Self-Government Institutions*.—District Boards continued to work efficiently and smoothly, but, as noticed last year, little value is attached to the work done by Local Boards. The duties entrusted to Union Committees are small, and the method of their performance was indifferent. One Union, the funds of which had been misused, was abolished, and Local Boards generally are reported to take but little interest in their working. The most important municipality in the Division is that of Howrah. The efforts of the Chairman, Mr. Duke, to bring about an equilibrium in its finances are acknowledged by the Commissioner, but the expenditure on precautionary measures against plague introduced a new and disturbing element.

16. *Conduct of Zamindars*.—The names of Raja Ranjit Singh Bahadur of Nasipur in the Birbhum district, and of the Raja of Mohisadal and Baba Upendro Nath Maity in Midnapore, have been brought to the notice of Government as examples of liberal and enlightened landlords.

17. The Lieutenant-Governor desires to express his thanks to Messrs Buckland and Stevenson for their efficient administration of the Division, and to Mr. Kennedy for his careful report from which the following extracts are published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,
Secretary to the Govt. of Bengal

Extracts from the Annual General Administration Report of the Burdwan Division for the year 1897-98

* * * * *

III.—WEATHER AND CROPS.

20. The following table compares the average rainfall in each district during the past three years :—

District	Rainfall in inches in—		
	1895-96.	1896-97.	1897-98
1	2	3	4
Burdwan . .	41·81	49 11	60 33
Birbhum	42 23	42 21	49 89
Bankura	40 61	48·35	57 45
Midnapore .	38 49	58 27	49 89
Hooghly	41·61	52·73	56·03
Howrah	37 00	52 45	52 37
Divisional average	40 21	50 52	54 32

As compared with the preceding year, the rainfall was more copious in all the districts of this Division, except Midnapore and Howrah, where it was less

21 The rainfall was seasonable as well as abundant and well distributed

Burdwan

As a natural consequence, there was a bumper winter rice crop, the like of which had not been seen for many years, followed by an excellent *rabi* crop

22. The rainfall was evenly distributed throughout the rainy season, but there was very little rain from November to the end of the year The winter crop was very good throughout the district, the Sadar subdivision having produced even more than the Rampur Hát subdivision. The cessation of the rains during the winter affected the *rábi* crop. The average outturn was, however, 15 annas

Birbhum.

23. The distribution of the rainfall was satisfactory, the result being a good outturn of the crops to the great relief of the poor people in some parts of the district, who had suffered considerably during the early part of the year The only portion of the district which does not appear to have shared in the general prosperity is that affected by the flood of the Damudar which was unusually severe in July last. The *aus* crop in this tract was much damaged, and about four to five thousand bighas of rich soil were buried under sand. Some villages were washed away with everything in them, but fortunately there was no loss of life The outturn of the early paddy crops, locally called *tilko* and *chati*, as also of the *aus*, was good, the yield being on an average 16 annas. *Nuan* paddy cultivated in the high lands in the Sadar subdivision also produced an average 16 annas crop. The outturn of *aman* was 17 annas, or a little above the average, and but for several breaks in the monsoon, the crop would have been a bumper one. What little *rabi* is grown in the district did well and yielded a 16-anna outturn. Owing to want of rain after October, wheat, pulses, gram, mustard, barley and oilseeds did not succeed so well as the *rabi*, the produce being 13 to 14 annas. The unusually heavy rainfall of August and September affected millets grown on the high lands by Santhals and Bauris, the yield being a 12 anna crop. Indigo also suffered from the heavy rains in August, when the plant was ripe, and the result was a 14-anna crop.

Bankura.

24. Though the total average rainfall of the district was less than in the preceding year, the agricultural results of the year under report were on the whole satisfactory The rainfall being evenly distributed and seasonable, the crops were excellent The *aman* harvest is reported to have been seriously damaged by grasshoppers in the Ghatal subdivision.

Midnapore

25 The outturn of paddy and the staple food-crops appears to have been considerably better than that during the two preceding years, and the same remark applies to the other crops grown in the district.

Hooghly.

26 The rainfall was so evenly distributed that the most grumbling cultivator could hardly find a fault, except that the rainfall in May was rather short for the germination and early growth of jute. In the middle of July there was a sudden rise of the river Damudar, and the water which overflooded its western bank above the Gaighata khal found its way into the Rupnarain, thereby causing serious breaches in the zamindari *bánds*. The last-named river was also in flood but for three days only With the exception of a little child accidently drowned, there was no loss of life, nor was any great damage done to houses But the *son* crop was totally destroyed, and *aus* and jute suffered partially. The damage was, however, more than counterbalanced by the rich deposit of silt left on the fields by the flood, and the plentiful harvest they yielded on being replanted with paddy immediately after the subsidence of the water

Howrah

IV —PUBLIC HEALTH

27 The subjoined table compares the number of deaths from different diseases in the districts of the Division during the past three years,—

District	Population	Number of deaths from fever.			Number of deaths from cholera.			Number of deaths from bowel-complaints.		
		1895.	1896	1897	1895.	1896.	1897	1895	1896	1897
1	2	3	4	5	6	7	8	9	10	11
Burdwan ..	1,301,980	24,630	21,601	26,679	3,174	4,068	4,434	1,350	1,151	1,295
Birbhum ..	797 838	18,911	19,899	15 944	1,876	1 464	1 304	117	117	89

Howrah ..	402	63	271	9,975	5,036	5 705	28,170	25,041	20,321	35'84	32 16	25'82
Total ..	3,089	2 023	2,394	49,707	47,009	47,911	264,946	288,606	253,786	31 7	33'6	29'1

The general health of the Division was better than what it was in the previous year. It is satisfactory to note that the death-rate for the districts individually shows an appreciable decrease during the year, markedly so in the case of Hooghly (31 9 against 38 8 per mille of population). Deaths from small-pox and from other causes were slightly more numerous in the Division than in 1896-97.

28 Deaths from fever and cholera show a considerable falling off. There was an increase in the number of deaths from small pox, the bulk occurring in March. The chief outbreak was traced to infected persons coming from the North-Western Provinces Active measures were taken to stamp out the disease A few villages in Mangalkot and Katwa thanas exclusively inhabited by Muhammadans suffered the most, as there is a strong aversion among the inhabitants to allow their women to be vaccinated by male vaccinators In this district the months of March, April and May were the most unhealthy as regards cholera, due probably to the impurity of the water available during those months. It is reported that the practice of throwing half-burnt dead bodies into the river continued in the

Burdwan.

Katwa subdivision in spite of a successful prosecution The Kalna Municipality have stopped the practice, and also that of steeping jute in public reservoirs.

Birbhum

29. The health of this district was comparatively speaking good during the year. Cholera of a virulent type prevailed during the months of March to June in thanas Bolpur, Nalhati and Maureswar, and caused many deaths Unfortunately a requisition for a Civil Hospital Assistant for special cholera duty could not be complied with by the Medical Department. Deaths from small pox were fewer than in the previous year, the majority occurring in thanas Rampur Hat, Sakulipur and Maureswar It is remarkable that thana Suri enjoyed perfect immunity The death-rate from fever was decidedly low—a result due, according to the Magistrate, in some measure to the light character and even distribution of the rainfall throughout the monsoon of 1897, following the short rainfall of the two preceding seasons. As is most unusual, fever was distributed almost equally throughout all the months of the year, save that a slight increase was observable in March and April, due, it is reported, to influenza. Thanas Rampur Hát, Maniceswar, Bolpur and Suri contributed largely to the mortality under this head

Bankura

30 In this district, too, there was less fever and less small pox, the latter occurring sporadically and disappearing as usual after the unprotected people had been vaccinated There was, however, an increase in the mortality from cholera which raged in parts of thanas Onda and Khatra Many of the cases are attributed to scarcity of food and defective water-supply caused by the prolonged drought of the previous year The District Board and the municipalities took steps to arrest the progress of the disease in their respective areas It is strange that this district shows no deaths from bowel-complaints.

Midnapore

31. During the latter half of the year malarial fever broke out epidemically, the largest mortality occurring in November and the tracts which suffered most being thanas Naraingarh, Midnapore, Daspar, Paskura, Contai and Golliballavpur Cholera prevailed throughout the year, causing the heaviest mortality in March, July and April. The largest number of deaths occurred in thanas Nandigram, Bhagwanpur, Contai, Dantun and Panskura The disease was widely prevalent in the Tamluk and the Sadar subdivisions from the end of May to the end of October, and two native doctors were employed to treat the sufferers. Steps were taken to arrest the progress of the disease in the neighbourhood of the Bengal Nagpur Railway lines under construction, the principal preventive measures adopted in the district being —

(*a*) fumigation of houses and localities with sulphur, &c.,
(*b*) action under section 199A of the Bengal Municipal Act as to water supply,
(*c*) free distribution of cholera pills in affected localities through the police

There was a decrease in the mortality from small-pox The disease prevailed badly from February to May, the largest number of deaths occurring in March. The localities which suffered most were Pataspur, Nandigram and Khedgri. Sub inspectors of vaccination and extra vaccinators were deputed to to the affected areas to arrest the spread of the disease.

Hooghly

32. As already noticed, malarial fever was moderately prevalent during the year, cholera appearing in small outbreaks The latter disease lingered for a longer period than usual in parts of the Jahanabad subdivision without assuming a virulent type Steps were taken to check the spread at its outset whenever practicable Mortality from small-pox was greater during the year than in 1896 97 Bowel complaints claimed many victims, especially among the Beharies who congregated to this district in quest of employment.

Howrah

33 The health of the town of Howrah was worse than usual, small-pox and fever being largely prevalent Fever affected the right bank of the Hooghly the whole way from Bally to Uluberia, and assumed a severe form, although the interior enjoyed greater immunity from it than usual. A local epidemic of

small pox broke out in the town in January 1897, and spreading to the surrounding villages, invaded a considerable portion of the district, disappearing only when the rains set in. The town of Bally enjoyed better health during the year than in 1896 97. There was a marked diminution in deaths from cholera. The decrease, so far as the Howrah town is concerned, is no doubt due to the opening of the water works.

Sanitary works

34 The Burdwan Municipality spent Rs 511 in extending the supply of filtered water, Rs 167 in constructing a plague hospital, and Rs 441 in completing the construction of a ward for female cholera and small-pox patients. A sum of Rs 283 was spent by the Kalna Municipality in constructing a latrine, and Rs. 222 in improving the burning ghât, besides Rs 122 on a plague hospital. The Katwa Municipality spent Rs. 184 in constructing a plague hospital, which was not completed within the year Dainhat spent Rs. 300 for the re excavation of tanks, and Rs. 89 for the erection of latrines. In Kanigani Rs. 1,190 were spent in sinking a well and constructing a drain, Asansol spending Rs. 231 in providing latrines and Rs 433 in erecting a slaughter-house. The Burdwan District Board spent Rs 3,391 in improving water-supply by sinking wells in different parts of the district

35. In the Suri Municipality, in the district of Birbhum, a few extra coolies were entertained with a view to improve the conservancy of the town, as a precautionary measure against the plague Tanks and wells were reserved for drinking purposes As regards village sanitation, the District Magistrate, while on tour, took occasion to call the attention of the villagers to the desirability of reserving a particular tank for drinking purposes without apparent success.

36 The sanitary condition of the Bankura district is naturally good on account of its good natural drainage, the ground in most parts being undulating In the matter of water-supply a good deal of improvement is needed, but as the funds at the disposal of the local bodies were limited, all that could be done was to sink wells where the supply was found to be defective

37 No information has been furnished as to what has been done in this matter in the Midnapore district The sanitation of the Hooghly district is generally speaking defective, and the remark applies equally to rural and urban areas, though the latter has improved to a certain extent in consequence of the introduction of the Plague Regulations. The Magistrate notices the paucity of prosecutions and the want of deterrent punishment for committing nuisances in the streets, which go undetected, chiefly because there is no system of patrol during the day The scheme for supplying filtered water to the riparian municipalities on the right bank of the Hooghly is still under consideration The Hooghly District Board contemplates improving the water-supply of the district by taking up three thanas every year, thus completing the entire district in four years. In the year under report they selected the three thanas of the Sadar subdivision, but were late in taking up the project. They have since made a beginning Some wells in the Serampore and Jahanabad sub divisions, which were left unfinished in the previous year, were completed during the year under report Difficulty is reported to have been experienced in inducing private owners of tanks to agree to the stringent conditions of reservation, without which the Board very properly refuses to take in hand the improvement of a tank

38 The drainage of the town of Howrah being defective, the services of Mr. Hodges, the Engineer to the Calcutta Corporation, were last year engaged for the preparation of a drainage scheme His report has not yet been received The important sanitary work executed by the Howrah Municipality during the year was the extension of the water-works to the foreshore road and to a few lanes, the market and slaughter-houses being also at the same time improved. The Commissioners of the Bally Municipality intend carrying out partially a scheme, prepared in 1894-95, for improving the drainage of the town They have acquired lands, and have opened a new road by filling up certain low lands and filthy *dobas* For want of funds the Howrah District Board were unable to take any action towards improving the drainage of the rural area They, however, spent Rs 2,035 in the improvement of water-supply The tube-wells are reported in many cases to have failed, owing partly to the unsuitability of the soil and partly to stupidity or wanton mischief on the part of the villagers

Vaccination

39 The following table shows the vaccination operations in the districts of the Division during the past three years —

District	Number of persons vaccinated			Number of successful operations in 1897-98	Percentage of successful operations to total number of persons vaccinated in 1897-98
	1895-96	1896-97	1897-98.		
1	2	3	4	5	6
Burdwan	32,119	42,380	36,933	36,130	97 9
Birbhum	20,820	26,222	19,636	19,462	99 11
Bankura	36,263	45,763	33,935	31,733	93 5
Midnapore	61,421	67,031	74,069	72,503	97 0
Hooghly	21,341	22,189	24,687	24,337	98 5
Howrah	20,296	25,067	22,219	21,072	94 83
Total	192,260	228,652	213,578	207,237	97 03

The total number vaccinated shows a decrease as compared with that operated on during the previous year. This decrease is shared by all the districts, except Midnapore and Hooghly, where an increase is observable Vaccination was not performed for the first time in any thana of the Burdwan district, having been carried on in all in previous years—a fact which apparently accounts for the decrease In Birbhum the decrease is, in the opinion of the Magistrate, in a great measure due to slackness on the part of the vaccinators, and to some extent to inadequate supervision of their work In the Bankura district the operations performed during 1896 97 in thanas Onda, Vishnupur and Sonamukhi, where vaccination had been unknown before left few villages unprotected In Howrah difficulty is experienced in vaccinating the mill operatives, mostly Muhammadans. The increase in the Midnapore district, the highest on record for some years past, is due partly to an increase in the number of vaccinators and partly to strict supervision exercised by the Civil Surgeon A further increase in the staff of vaccinators (135 during the year) is considered by the Magistrate to be necessary for the requirements of the district The increase in Hooghly is said to be the result of an appreciation on the part of the people of the advantages of vaccination The percentage of successful operations to the total number of persons vaccinated in the Bankura district is comparatively low The provisions of some of the sections of the Compulsory Vaccination Act were extended to the town of Rampurhat in Birbhum, during the year under report In this district difficulty is experienced in realizing the vaccinators' fees, which to some extent retarded progress Generally speaking, vaccination may be said to be making steady progress in the Division, the people having begun to perceive its advantages The quarters from which opposition chiefly comes are the Muhammadans and upcountry men, who object to it on religious grounds Though vaccination is compulsory within municipal limits, this class of mill workers in Howrah is reported to refuse it altogether, and resort to riotous resistance. The Magistrate mentions that the managers of mills were asked by the Civil Surgeon to make vaccination a condition of employment, but they have so far desisted from acceding to the request, under the apprehension that such a step would dislocate labour or lead to a strike on the part of the mill hands. The Civil Surgeon, however, when certifying the ages of children, gets all the unprotected ones vaccinated in his presence

Calf vaccination

40 In twenty localities in the Midnapore district, including the towns of Midnapore, Tamluk and Ghatal, calves were vaccinated in 157 cases, of which 152 proved successful, 8,554 persons were vaccinated, and 382 re-vaccinated The total expenditure incurred was Rs. 185 odd.

MATERIAL CONDITION OF THE PEOPLE

41 The short crops of 1895 96 and 1896 97, and the high prices of food-grains consequent thereon, as well as on the large exports made to districts suffering from the stress of famine, affected materially the condition of certain sections of the people Those who suffered most were the lower ranks of the middle class of limited means, who, with traditions to maintain and appearances to keep up, are daily finding their position untenable Small cultivators, artizans, such as weavers, brazers, &c, day labourers far away from the centres of trade and industry, and all those who subsist on private charity, also found the year a very trying one

42 In Burdwan, although acute distress or famine did not prevail, it was found necessary to undertake relief measures in certain tracts A sum of Rs 11,580, out of funds partly granted by the Bengal Branch of the Indian Famine Charitable Relief Committee and partly raised by subscriptions, was spent in affording relief to the needy and the distressed, while a kitchen was opened for the benefit of the large gangs of emaciated and half starved up country coolies who daily passed through the district along the Grand Trunk Road, as well as to a limited number of the blind, the halt and the lame The Magistrate notices that no difficulty was experienced by the labouring classes in finding work, that the wages did not fall, and that business in the colliery area was in full swing

43 In Birbhum, advances under the Land Improvement Loans Act, granted during the early part of the year and the latter part of 1896-97, served to provide able bodied labourers with employment, while numbers of those incapacitated from work and the respectable poor received assistance from the Famine Charitable Relief Fund at a cost of Rs 1,300

44 Bankura is the only district in the Division which was declared affected by famine The distress in certain tracts was so acute that it was found necessary to start relief operations in April 1897, and to continue them till the 13th October last, during which period the average number of persons who received gratuitous relief, reckoned in terms of one day, was 85,204, while the number of those who obtained relief in other forms was 318,605, the total cost being Rs 1,21,552, contributed partly by Government and partly by the District Board Besides this, a sum of Rs 24,000 from the Indian Charitable Famine Relief Fund, and Rs 3,066 realized from subscriptions, were spent under objects I to IV of the Provincial Committee's Circular No. 1, dated the 29th January 1897, in assisting 7,680 persons computed in the manner mentioned above In addition to these amounts Rs 3,795, forming part of the money allotted to this Division by the Provincial Committee referred to, were distributed among 1,386 persons whose houses had been washed away by the Damodar

Some of the landlords of the district provided employment for the labouring poor by excavating tanks or reservoirs Among others who took an active part in relieving distress, the most prominent is Rai Rambandhu Chatterjee Bahadur of Konchka, in the jurisdiction of the Saltora outpost, who spent Rs 6,000 on relief works and Rs 3,000 on gratuitous relief

45 In Midnapore, thana Binpur was the only tract where it was found necessary to administer relief, and 1,215 48 persons were relieved there, for a period of one month and a half, at a cost of Rs 1,288 7-7

46 In Hooghly and Howrah the mills afforded sufficient work to the labouring classes, but the first half of the year was a very trying period to people with small fixed incomes The Magistrate of Hooghly specially commends the open handed liberality of Rai Khirod Prosad Pal Bahadur of Sikendarpur in Jahanabad, who opened an *annachatra* for the benefit of the poor of his native village and its neighbourhood, and fed 6,000 persons daily during the three days of the Durga Puja, and subsequently 2,000 every day for about two months, at a cost which is said to have exceeded Rs 16,000

47 The famine prevailing in the different parts of the country, and the high prices caused thereby, appear to have immensely stimulated the export traffic in rice and paddy, and grain dealers and persons who possessed reserves of these articles are reported to have realized enormous profits, some idea of which may be formed from the fact that the exports from this Division alone amounted during the year to 26,64,084 maunds of paddy and 47,77,076 maunds of rice

The abundant *aman* harvest reaped during the year seems to have had the effect of greatly improving the condition of the people But the Magistrate of Bankura mentions that they have not yet completely recovered from the severe strain resulting from the agricultural depression by which the years 1895 96 and 1896 97 were characterized

VI —EMIGRATION AND IMMIGRATION

48 As in the previous year, emigrants were registered in the districts of Burdwan, Bankura and Midnapore

The statement given below shows the number of emigrants registered in each district during the last two years —

District	For the Colonies						For Tea Districts					
	1896 97			1897 98			1896 97			1897 98		
	Coolies	Dependants	Total	Coolies	Dependants	Total	Coolies	Dependants	Total	Coolies	Dependants	Total
1	2	3	4	5	6	7	8	9	10	11	12	13
Burdwan							91	20	111	8	5	13
Birbhum												
Bankura							252	219	471	113	91	204
Midnapore							204	136	340	165	115	300
Hooghly												
Howrah												
Total							547	375	922	276	241	517

The number of emigrants registered shows a steady falling off which is said to be due to the growing preference of employers for free labour

49 The number of emigrant coolies registered in the district of Burdwan fell from 91 in 1896 97 to 8 only in the year under report Considering the fact that the number was so large as 2,947 in 1895 96, it appears that free emigration will at no distant date supplant the system of registered emigration The Magistrate of Burdwan observes that under the free emigration system there is no check on emigration, as no official record is kept of the number of free emigrants passing through the district 28,894 coolies are reported to have passed through the several depôts in the district, against 16,588 in the preceding year The increase is said to be due to the prevalence of scarcity in the recruiting districts

50 A large number of coolies, it is reported, passed through Rampur Hat, in the district of Birbhum, during the year, on their way to labour districts, but no reliable statistics are available, as no coolies are registered in that district The Magistrate of Birbhum adds that there were also emigrants under the free recruiting system, but the exact number cannot be determined

51 As in Burdwan, there was in Bankura a marked decrease in the number of persons who emigrated to the tea gardens during the year as compared with 1896-97, but a large number of free emigrants are reported to have left the district without registration

Of the total number of emigrants registered in Bankura during the year, 20 with 5 dependants were brought for registration by professional recruiters employed by contractors in Calcutta, against 17 coolies with 4 dependants in 1896 97, and 93 with 86 dependants were registered by garden sardars, against 235 emigrants with 215 dependants in the previous year The recruitment by garden sardars was thus far more successful than by contractors' agents, whom the people continue to look upon with distrust

52 In Midnapore, the number of registered cooly emigrants continues to decrease, 300 such persons having been registered during the year, against 340 in 1896 97 Here also the garden sardars are described as having done more

work than the contractors' recruiters, who registered 17 coolies only, against 283 registered by the former

No coolies were registered in the districts of Hooghly and Howrah Mr Duke, Magistrate of Howrah, writes —

"In fact, no regular emigration is carried on from this district, although to my knowledge some inhabitants of Howrah wander very far afield"

53 The largest number of criminal cases connected with emigration occurred in Burdwan and Bankura In Birbhum only four cases were instituted during the year, against 17 in the previous year In the opinion of the Magistrate, the decrease is due to high prices of food-grains, which, it is added, probably rendered more persons willing to emigrate, and hence obviated the necessity for recruiters using force or stratagem.

54 As regards abuses, the following remarks by the Subdivisional Officer of Raniganj, Mr Walmsley, quoted by the Magistrate, are reproduced —

"There is no change to record in the manner in which coolies are recruited The average Arkati is a rogue with little regard for the inclinations of any one whom he has marked as a suitable cooly The cases that come into court would alone be enough to prove the rascality that attends the recruitment of free coolies, even if one made no allowance for the fact that these cases are but a very few out of many On the other hand, the great majority of coolies quite understand what they are doing and where they are going"

The Magistrate of Bankura, Mr De, observes that free emigration which is not under proper contract, except under the Inland Emigrants Health Act, is open to abuses

55 There were altogether 36 depôts and rest-houses in this Division, against 46 in the previous year The decrease is mainly due to the closing of a depôt and some rest houses in the Midnapore district, and to the fact that, acting under the spirit of Government Resolution No 75T G, dated 23rd May 1895, the Magistrate of Birbhum included in his return only 3 out of 8 so called rest houses existing in his district, the other 5 being insignificant and little frequented

The depôts in Burdwan were very regularly inspected The Assistant Superintendent of Emigration at Raniganj and Asansol visited the Raniganj and Asansol depôts about three times a week, and the Subdivisional Officer of Raniganj once or twice a month Particular attention was paid to the sanitation of the depôts, and the free use of disinfectants insisted on The quality of food supplied to the emigrants is reported to have been good and the quantity sufficient The water-supply of the depôts was also satisfactory, each depôt having a well which was disinfected during the year with permanganate of potash It is added that the coolies were supplied with warm clothes during the cold weather, and that every depôt is furnished with wooden *machans* in the sleeping sheds, which are overlaid with mats or blankets The Magistrate has made it a rule not to grant licenses until such *machans* are provided

The Assistant Superintendent of Emigration, Raniganj and Asansol, is highly spoken of both by the Subdivisional Officer of Raniganj and the District Magistrate

IMMIGRATION

56 There was no registered immigration into the districts in this Division As usual, labourers in large numbers came to the Division from the North Western Provinces and Bihar, in quest of work in the brick-fields, mills, factories and on the railways, to say nothing of inter-district cold-weather movements of labourers with the same object

VII —PRICES OF FOOD AND LABOUR

57 The average price of common rice, which had risen abnormally in 1896-97, fell from 10 seers 7 chitaks per rupee, the rate prevailing during the last fortnight of that year, to 13 seers 9 chitacks during the corresponding period of 1897 98 The high prices caused considerable suffering to the poorer classes, but things rapidly mended with the advent of the new rice. The rate per rupee was, however, still higher than what it was seven or eight years ago, which may be due either to the fact that the stocks have not yet been fully replenished, or to the depreciation of the rupee It is, I fancy, mainly the latter cause which affects the price, and it is extremely unlikely that prices will

ever go back to the old level. Increased population and improved means of communication must also affect the price of all food grains

There was a fall in the average prices of wheat and gram in all the districts of the Division, except Midnapore, where the latter article was dearer than it was in 1896 97, namely, 8 seers 12 chitaks against 9 seers 15 chitaks Salt was dearer in Bankura and Birbhum, and cheaper in the remaining districts, the average price for this Division being 10 seers 5 chitaks against 10 seers 3 chitaks in 1896 97

58 Notwithstanding a considerable fall in the price of rice, the staple food-grain of the people of this Division, the wages of labour did not change appreciably save in the case of superior blacksmiths in the Hooghly district, who earned Re 1 daily, against annas 12 in 1896 97 Custom is the prime factor in preventing rapid fluctuations in these wages, but when once they rise they do not fall soon, which is illustrated by the fact that the pay of menial servants and maidservants, which went up with the rise in the price of food grains in 1896 97, has not come down since

VIII —MANUFACTURES AND MINES

59. The principal articles of manufacture in this Division are silk and tasar jute, cotton, molasses, shellac, rope, iron, brass, bell metal and hard ware, indigo, paper, pottery, bone meal, mats and chemicals

Silk and tasar

60 In Burdwan the total quantity of cloth produced rose from 47,585 yards in 1896 to 53,905 in 1897, and the value thereof from Rs 43,484 to Rs 53,288 This industry is carried on in Mankar, Memari and two other villages in the Sadar, and in the villages of Bagtikari, Musthali and Ghoranash in the Katwa subdivision In Birbhum the total outturn was 43,000 lbs against 40,080 in 1896 97 The two silk filatures at Ganutia and Bhadrapur, with two branch factories, continued to work as before In Bankura the manufacture of mulberry silk thread and cloth is carried on to some extent in the town of Vishnupur and at Birsinga, a village lying eight miles north of the former Silk worms are also reared, but on a limited scale, in some parts of the district, and the quantity of silk cocoons locally obtained being small, considerable quantities of these are imported from Midnapore in order to meet the demand of the local manufacturers Vishnupur continues to produce the finest silks, which have, however, been superseded by the cheaper fabrics produced in other parts of the country The manufacture, is therefore, on the decline That of *kutni*, a mixture of silk and cotton, is almost extinct, as the demand for it, formerly existing in the North-Western Provinces, has almost ceased 3,840 pounds of raw silk were manufactured at the Nimtala factory in the Ghatal subdivision There is a French concern at Gureli, in the same subdivision, for reeling tasar and yellow silk from cocoons Silk is also reeled at the Moheshpur Factory Damasked silk scarfs, wrappers and handkerchiefs manufactured by the native weavers of Ghatal, Nimtala, Radhanagar and Khirpai are exported to Calcutta, Bombay, Madras and other places for sale Silk *dhutis* and *erendi* cloth manufactured in thana Daspur are largely in request These are also manufactured on a smaller scale at Anandpur in the Sadar subdivision Silk fabrics are produced in the Jahanabad subdivision of Hooghly, but the weavers are unable to compete with the cheaper goods turned out by machinery, and the business is in a state of decline It is reported that the tasar made in the Katwa subdivision from wild cocoons brought from the jungles of the Sonthal Parganas, continues to maintain its ground in the Calcutta market as the best of its kind, and that the article is exported in large quantities to Madras, where it is in great favour with ladies of the upper classes Tasar is also manufactured in the villages of Karidha, Tantipara, and Bisingpur of Birbhum It is woven from cocoons imported from Singhbhum, Manbhum and the Sonthal Parganas, and reeled by hand The industry is, however, languishing. In Bankura, although tasar is manufactured in some villages, the town of Bankura and the village of Birsingpur form the chief centres of the industry Tasar cocoons are reared in some parts of thanas Khatra, Raipur and Bankura, but owing to the prevailing scarcity there was very little demand for tasar cloth, and the manufacture was carried on on a very limited scale during the year

Tasai fabrics are reported to have been most extensively manufactured in the villages of Anandapur and Kasiari, in the sadar subdivision of Midnapore Such stuffs are also turned out in the Jahanabad subdivision of Hooghly, but the weavers find it hard to compete with machine-made goods.

Jute and cotton

61 There are several large jute and cotton mills in the districts of Hooghly and Howrah, in which gunny-bags, cotton fabrics and cotton-yarn are manufactured on an extensive scale The figures available are useless for purposes of comparison, but there seems no doubt that these factories are doing a good business

Cotton cloth is manufactured in all the districts of this Division, but it is gradually being ousted from the market by cheap Manchester fabrics Many weavers in Burdwan and Midnapore are reported to have given up their looms and betaken themselves to agriculture and other occupations In Bankura this business almost ceased for a time during the prevalence of the famine and there was considerable distress among the weavers in consequence Fine cotton cloths, with silk, silver and gold embroideries, made at Nimtala in Midnapore, are said to be in great demand in Bombay Cotton-cloths of various kinds are manufactured in the Midnapore Central Jail

Molasses

62 The manufacture of molasses from sugarcane is common to all districts of this Division, but that from the juice of the date palm is produced on an extensive scale in the districts of Burdwan Hooghly and Howrah only In Burdwan, the Behia mills are extensively used for pressing sugarcane Some factories at Raipur in Birbhum continued to manufacture cane sugar, the production and consumption of which was, however, very limited, imported refined sugar of a superior quality being cheaper

Shellac

63 This article is manufactured in Birbhum and Bankura The outturn in the former district rose from 238 maunds in 1896 97 to 605 maunds, and in the latter from 4,200 maunds to 10,655 maunds in the year of report The marked increase in Bankura is attributed to a slight rise in the price, which stimulated the business The number of factories at work in the district during the year was 28 against 18 in 1896 97, and the total quantity of stick lac imported rose from 8,000 maunds in 1896 97 to 13,883 maunds

Rope

64 Rope is manufactured on a large scale in Hooghly and Howrah In the absence of statistics for the year under report, a comparative review of the state of the trade is hardly possible

Iron

65 In the Barakar Factory, in Burdwan, pig iron, as well as pipes and various kinds of castings, are produced The outturn, which had decreased from 17,455 tons in 1895 96 to 5,233 tons in 1896 97, owing to the smelting furnace having got out of order, rose to 21,631 tons during the year under report There are four iron-works in Howrah, none of which has furnished the statistics asked for

Brass Bell metal and Hardware

66 These articles are manufactured in all the districts of this Division In Burdwan the estimated outturn of the year 1897 was 8,974 maunds, against 9,313 maunds in 1896 At Kanchannagore, a suburb of the town of Burdwan, knives and scissors, to the value of Rs 4,800, were manufactured in 1897, against Rs 3,604 in 1896 In Bankura the manufacture of brass and bell metal ware suffered considerably in consequence of the scarcity and the high prices of food grains Brass and bell metal utensils are still largely prepared in the Sadar and Jahanabad subdivisions of Hooghly, the estimated outturn being 8,450 maunds, against 8,138 maunds in 1896 97 But the cheaper enamelled ware from Europe is beginning to supersede these articles This industry is carried on on an extensive scale at Kharar, where brass and bell-metal plates to the value of Rs 12,81,020 are said to have been manufactured during the year, against Rs 16,45,602 in 1896 97, giving employment to nearly 5,000 men, and necessitating the importation of 29,950 maunds of raw materials such as copper, tin and zinc Brass jugs made in Tamluk are much prized and find a ready sale

Indigo

67 The outturn of this article decreased in Bankura from 138 maunds in 1896 97 to 130 maunds, and in Midnapore from 859 maunds to 624 maunds This industry is on

the decline in the former district, in which there exists only a few factories, most of which belong to Messrs Gisborne and Company In Burdwan and Birbhum the business is carried on on a very limited scale, the factories being small and the profits inappreciable

Paper

68 There are two paper mills in this Division, one at Ranigani and the other at Bally Statistics for the latter have not been supplied The former produced 2,581 tons of paper, valued at Rs 9,57,000, against 2,500 tons, worth Rs 9,50,000, in 1896 97 Hand made paper is still prepared in Serampore, but machinery has gradually ruined the industry

Pottery

69 The principal articles manufactured at Messrs Burn and Company s pottery works at Raniganj are glazed drain pipes, bricks tiles and ornamental fancy goods The value of the outturn rose from Rs 4,68,398 in 1896 to Rs 5,68,599 in 1897 Bricks, tiles and pan tiles are also largely manufactured in the districts of Hooghly and Howrah, partly for the Calcutta market and partly to meet the requirements of the residents of the riparian municipalities Earthen pots made in the Ghatal subdivision are extensively exported to Calcutta

Bone meal

70 There are two bone mills, one at Uttarpara and the other at Magra The former turned out 10,900 tons of meal and the latter 286 tons only

Chemicals

71 A large quantity of sulphuric acid was manufactured at Messrs Waldie and Company's chemical works at Konnagore, which gives employment daily to about 175 persons

Mats

72 Mats are made in Jahanabad and in every subdivision of Midnapore, the best kinds of *maslands* being produced at Raghunathbati in the Tamluk subdivision and Kiser chak in Ghatal

Miscellaneous articles

73 Jute twists, fishing nets, iron safes, *hukkas* and bamboo baskets are manufactured in large quantities in the district of Howrah Ebony wood is worked in Jahanabad, and the pipes (*nulchas*) and mouth-pieces for *hul kas* produced there find a ready market in Calcutta Trade in dried fish is carried on in the Contai subdivision on a large scale by boatmen from Arakan, the estimated value of the exports during the year being Rs 60,000

Wooden furniture is manufactured in the Hooghly Chinsura town, and exported in large quantities to Calcutta, where there is a great demand for these articles

The following table shows the outturn of some of the principal articles of manufacture The statement is not complete, as many of the factories have not furnished the information asked for —

District	Articles		Outturn in—		
			1895 96	1896 97	1897 98

Coal mines

74 Coal mines are worked in the districts of Burdwan and Bankura The number of collieries in the Raniganj subdivision is very large, and this industry has lately gained much importance As compared with 1896, the output in 1897 shows an increase of about 13 per cent, and during the last seven years the annual output has doubled, or risen from about 1,000,000 tons to 2,000,000 tons in round figures, the average value of the coal being about Rs 2 8 per ton The price is reported to have risen since December last The European companies are all doing good business, as is evident by the share quotations in the daily papers Of the Native companies, a few are successful, but the rest are reported to have been handicapped by want of sufficient capital and an excessive eagerness for immediate profit The accidents which took place during the year were comparatively few, and were mostly due to carelessness on the part of the persons injured Of the accidents to mines three deserve mention The Damuda Coal Company's pit at Bamai dih caught fire, and the pit head gear was burnt The fire was put out by throwing down earth, but the loss to the Company was serious Mylne and Company's pit at Pitani subsided, and the rush of air caused the death of two coolies employed at the mouth of the incline The Inspector of Mines could not visit the place, and without the opinion of an expert it is not possible to say whether the owners were to blame for carelessness or not Another serious subsidence took place in the Bengal Coal Company's pit at Egara Fortunately no one was below at the time, and with wide galleries and several ventilating shafts the rush of air found an outlet, but the report and reverberation were felt a mile away

IX—TRADE AND COMMERCE

75 As reported in previous years, almost all the important trade centres and marts in this Division enjoy special facilities of export and import by rail, river, and canal Birbhum has the advantage of the railway The districts of Burdwan, Hooghly and Howrah are served both by rail and river, while Midnapore enjoys the benefit of the canal system and the rivers Rupnarain and Silye Bankura, though worst off in the matter of communications, has good roads to carry its traffic by means of carts to the East Indian Railway The necessity for crossing the Damuda is, however, a serious drawback The Howrah-Ampta and Howrah-Sheakhala Tramway lines opened during the year serve portions of Howrah and Hooghly

76 The principal articles of trade in this Division are—

EXPORTS

Rice, paddy, pulses, gunny bags, sugar, coal, paper, hides, oilseeds, brass and bell-metal utensils, shellac, tasar and silk

IMPORTS

European piece goods, gram and pulses, raw jute, gunny bags, mustard seeds, sugar, tobacco, salt, kerosine oil, coal and ghee

77 The following table shows in a combined form the total traffic in 24 principal articles of merchandise imported into and exported from this Division by rail, steamer and country boats —

It will be seen that the total imports by rail during the year amounted to 66,76,256 maunds against 5,91,63,463 maunds imported in 1896 97 The largest exports were in rice, paddy, gunny bags and coal, and the most considerable imports in gram and pulses, raw jute, mustard seed, sugar, tobacco, European piece goods, salt and kerosine oil

78 The net traffic both up and down was—

	Mds
Imported by rail (columns 2 + 6) ..	66,76,256
Ditto rivers and canals (columns 3 + 4 + 7 + 8)	10,82,987
Total of imports	77,59,243
Exported by rail (columns 10 + 14)	5,91,63,463
Ditto rivers and canals (columns 11 + 12 + 15 + 16)	28,71,977
Total of exports	6,20,35,440

The exports were thus enormously in advance of the imports, the difference being 5,42,76,197 maunds, though a comparison of the figures for the past two years shows that there was an increase under both heads, the exports arising from 4,91,77,238 maunds to 6,20,35,440 maunds, and the imports from 76,28,788 maunds to 77,59,243 maunds The Magistrates have not, except in a few instances, analysed the figures and explained the variations The details given below are, therefore, necessarily meagre

79 In imports the increase under the head of gram and pulses was marked That in the case of sugar (refined and unrefined), cotton goods and kerosine oil was moderate As regards exports, the increase was marked in gunny-bags and coal and coke, while there was an appreciable decrease in rice

and paddy, as will be seen from the figures noted in the margin The increase in gunny-bags is attributable to an increased demand for the article, in consequence of the excellent harvests of the year having stimulated trade in other districts The abnormally large exports of rice and paddy which took place in 1896-97, and the consequent exhaustion of the stocks, account for the falling off in the exports in these articles during the year under review The reason assigned by the Magistrate of Burdwan for the increase under the heads of coal and coke is that a larger quantity of coal was raised owing to an increase in the number of labourers employed in the mines But this does not explain why more labourers were employed, whether to meet an increased demand or whether labour was cheaper, not being stated

	1896 97	1897 98
	Mds	Mds
Gunny bags	1 76,605	2,12 644
Coal and coke	4 04 24,160	5,41,48,227
Rice	53 89 969	47 77 076
Paddy	28,99,718	26,64 084

80 The Magistrate of Midnapore mentions that the statement furnished by the Executive Engineer, Cossye Division, showing the canal-borne traffic of the district, does not include the traffic by Messrs Hoare, Miller and Company's steamer, or that passing direct from Calcutta into the district by other routes Statements Nos VIII and IX, showing exports to and imports from Calcutta, are not, therefore, quite accurate So far as the exports to Calcutta are concerned, there was an increase in the case of rice and paddy (taken together), other food-grains, raw jute, raw silk, refined sugar, tobacco (unmanufactured and manufactured), coal and coke, and a decrease in all other articles shown in Statement No VIII With reference to imports there was an increase in Indian cotton piece goods, salt and gunny bags, and a decrease in the remaining articles shown in Statement No IX

* * * * * * *

XXIII —RAILWAYS AND OTHER PUBLIC WORKS

167 The Calcutta Cuttack section of the Bengal Nagpur Railway, passing through the districts of Midnapore and Howrah, was under construction during the year Earthwork was pushed on, the work of acquiring lands for the line has nearly been finished, and station sites selected Mr Duke justly points out that the progress of the line depends more on the completion of the bridge over the Rupnarain at Kola than on anything else The Howrah Ampta and the Howrah Seakhala tramways were opened for traffic during the year, the former up to Majee, within a distance of ten miles from Ampta, and the latter up to Seakhala, its terminus These two lines run for more than a mile along the side of public and much frequented streets in the town of Howrah They are in effect railways as regards the length and weight of trains, the character of engines and also of permanent way, and are liable to accidents, as in the absence of efficient brakes it is impossible to stop the trains within a moderate distance, owing to their great momentum Complaints have been received against the promoters, Messrs Martin and Company for their neglect to comply with the orders of Government as regards providing smokeless and noiseless engines, and running at the rate of not more than six miles an hour within the town of Howrah The matter has been reported to Government in the Public Works Department, in this office No 164L S G of 2nd April 1898, for orders

168 The canal system in the district of Midnapore consists of distributaries of which the total length is 283 miles, and which command an area of 125,000 acres, and of three main canals with a total length of 113 miles One of them, viz the Midnapore Canal, is useful as a means both of navigation and irrigation The other two, that is, the Hijli Tidal Canal and a portion of the Orissa Coast Canal, are intended purely for purposes of navigation The total collection on account of the water rates and miscellaneous canal revenue amounted to Rs 1,33,377 against Rs 1,10,818 obtained in 1896 97

Of the projects mentioned in paragraph 169 of the last Divisional General Administration Report, the following are still under consideration —

(1) The construction of two lines, one from Burdwan to Katwa, and the other from the latter town to Hooghly *via* Kalna, the survey of which was completed some time ago

(2) A line from Bhagalpur to Ahmedpur.
(3) A line from Midnapore, through Bankura district, to Murraiia, on the Bengal-Nagpur Railway, the survey of which was made during the year

169 The following table shows the accidents on railways and resulting casualties during the last two years —

District	Persons—				Trains—			
	Killed		Wounded		Accidents		Obstructions.	
	1896 97	1897 98	1896 97	1897 98	1896-97	1897 98	1896-97	1897 98
1	2	3	4	5	6	7	8	9
Burdwan	35	42	34	33	14	70	4	
Birbhum	1	12		2		2	1	
Bankura								
Midnapore	2	4	7	7				1
Hooghly	11	19	15	13	9	13	2	7
Howrah	8	19	7	73		10		6
Total	55	96	56	128	23	95	7	14

In Burdwan the number of accidents rose from 14 to 70, but the number of persons killed increased by seven only, and of those wounded decreased by one The Magistrate of Burdwan reports that many of the accidents were due to carelessness on the part of people trying to cross the railway line while shunting is going on, and many were suicides Two goods trains collided at the Sakt garh station The driver of the train, which entered the station at high speed, was prosecuted, but he was acquitted, as the Court found that he had obeyed the existing rules and committed no offence. Two other goods trains collided at Memari The driver of one of them was prosecuted, but without success Subsequently another collision occurred at the above station between two similar trains, the result of the three accidents being that the system under which the line from Howrah to Khana Junction had hitherto been worked has been considerably modified A passenger train collided with an empty train in the Howrah yard, when some of the passengers received slight injuries The driver was prosecuted, but he was acquitted by the jury, who distrusted the evidence In Midnapore an attempt is reported to have been made to wreck a ballast train, but not only was no evidence forthcoming, but the culprits could not be traced None of the other occurrences shown in the above table require special mention

170 Besides the construction of roads and bridges and the excavation of tanks and wells by District Boards and Municipalities, the only public work deserving special notice is the construction of a bathing ghât at Salkea, by Babu Mohan Lal Khetri, at a cost of Rs 16,679.

XXIV —COMMUNICATION

171 As remarked last year, this Division is well off in the matter of communications, the only exceptions being the head-quarters of the Bankura district and the two outlying subdivisions of Vishnupur and Jahanabad

The East Indian Railway connects the district head quarters of Howrah, Hooghly, Burdwan and Birbhum, and the subdivisional head quarters of Serampore, Raniganj and Rampur Hát At Seoraphuli, a branch 22 miles long takes off from the main line and ends at Tarkessar, and from Tarkessar the line of the Bengal Provincial Railway Company rejoins the main line at Mugra, in the Hooghly district From near Hooghly station the junction line crosses the Hooghly by the Jubilee Bridge, connecting with the Eastern Bengal State Railway at Naihati The use of the bridge is, however, minimised for travellers

by the timing of the branch trains, which carefully avoid all connection with the trains on the Eastern Bengal State Railway

The riparian tracts of the districts of Burdwan, Hooghly and Howrah are served by a line of steamers which carry both passengers and goods to Calcutta The canal system serves the district of Midnapore The Calcutta Cuttack section of the Bengal-Nagpur Railway is under construction When the Asansol-Bankura Midnapore line is constructed all the districts of this Division will be traversed by rail

172 In Burdwan no original work of importance was executed during the year under review 103 miles of the Provincial roads under the control of the District Board were maintained during the year at a cost of Rs 44,630, or an average of Rs 433 3 per mile A sum of Rs 77,844 was spent in repairing 172 miles of metalled and 246 miles of unmetalled district roads, the above expenditure including Rs 12,779 spent on village roads, which continued to be managed by Local Boards

During the year under report, land was acquired for the construction of a feeder road from the Debipur railway station to the village of Debipur, a distance of three miles, and the work of construction was taken in hand

Since the proposal of constructing a railway line from Burdwan to Katwa was started, the District Board has practically neglected the metalled district road from Burdwan to Katwa, the result being that the road has been so seriously damaged as to require an expenditure of about Rs 70,000 to put it into really good order An enquiry has been addressed to the Agent of the East Indian Railway Company as to whether the proposed line is likely to be constructed and, if so, when, so that the Board may come to a decision as regards the steps to be taken to improve the road

Tenders have been invited by the Burdwan District Board for the construction of a steam tramway over the existing district road from Memari to Chakdighi, with the prospect of extending it up to Tarkessar The Magistrate of the district is not, however, in favour of the project

173 In Birbhum the outlay incurred by the District Board for the maintenance of roads was Rs 12,062 on account of original works, Rs 39,812 under the head of repairs, and Rs 1,655 under that of village roads, which are looked after by Local Board The roads were in good order during the year 1897 98 No new railway feeder or any other new communication was opened during the year

174 In Bankura the budget grants under the heads of "Original Works" and "Repairs" amounted respectively to Rs 9,217 and Rs 36,361, and the expenditure incurred under the heads was Rs 9,180 and Rs 26,623 respectively The important works executed were the following —

(1) The construction of the unfinished portion of the Taldangra and Raipur road, from a little beyond Simlapal to Raipur, the total expenditure on the road being Rs 5,642 14 3, viz Rs 5,000 paid to the Collector of the district for the purpose of acquiring lands, and Rs 642 14 3 spent in excavation of earthwork

(2) The construction of the Raipur and Salboni road, which has been only partially finished owing to want of funds

(3) The construction of some small culverts on the Patroshire to Mirzapur road, at a cost of Rs 222-12-6

During the famine, relief works, 50 miles of new roads were constructed and some of the existing roads were repaired. Owing to all available funds having been diverted to famine relief, the allotment for village roads had to be considerably reduced the total outlay under this head during the year amounting to Rs 874 13 9. The total length of such roads repaired was 28 miles and 1,267 yards

175 The Midnapore District Board were unable to provide for original works more than it did during the previous years, owing to the urgent and extensive repairs which the roads under it required during the year under review The expenditure incurred by the Board on original and repair works during that period was Rs 18,694 and Rs 84,073 respectively, the most important original works completed during the year being the construction of seven bridges on the different district roads.

The Tamluk to Contai road and the Ghatal to Vishnupur road were metalled during the year

The total allotment for village roads in the district was Rs. 13,500, of which Rs. 11,460 were expended in maintaining 1,359 miles of roads

In 1895 96 the roads in the district could not be properly maintained for want of funds caused by a deficit of Rs 40,000 which occurred in that year, as noted in paragraph 176 of the Divisional General Administration Report, 1896 97 A very large amount was, therefore, set apart for repairs during the year under report

176 The cost of repairing metalled roads in the district of Hooghly is very high, so that the amount spent annually for maintaining the metalled roads absorbs most of the funds at the disposal of the Board. The Provincial roads, which were for the last nine years under the control and management of the District Board, were transferred to the Executive Engineer, 2nd Calcutta Division, with effect from 1st April 1897, under orders of Government, Public Works Department, No 111E, dated the 12th January 1897

The total length of the metalled and bridged roads in the district is 71 miles, and the total outlay incurred in maintaining them amounted to Rs 29,787, or Rs 420 per mile A sum of Rs 16,881 was expended on the repair of 423 miles of unmetalled and bridged roads, at the rate of Rs. 40 per mile

The original works constructed during the year were—

(1) A light iron bridge over the Shybona Jala, on the road from Myapur to Jagatpur, estimated to cost Rs 2,264, of which Rs 986 were spent during the year

(2) A light iron bridge over the Kharigatchee khal, which is under construction, and on which Rs 501 were spent during the year

(3) An inspection bungalow at Tarkessur, the expenditure incurred thereon during the year being Rs. 2,516

Repairs to village roads were carried out by the different Local Boards, under the supervision of the District Engineer's staff, at a cost of Rs 5,411-13-9

177 The Howrah Sheakhala Steam Tramway, which was opened during the year, and the Howrah-Ampta line, which is nearly completed, have much improved the means of communication with the interior of the district The Calcutta Cuttack section of the Bengal-Nagpur Railway, which is under construction, will, when completed, remove the difficulty felt by the people living in the interior of the Ulubaria subdivision in coming to the district head-quarters The condition of the district roads is reported to be satisfactory, but this remark does not apply to village roads, which are described as almost impassable during the rains, many of these communications being intersected by khals or water-courses, where foot-bridges should be constructed The funds at the disposal of the Board do not, however, admit of such works being taken in hand unless the cost is partially met by local subscription

178 The subjoined statement shows the length of roads maintained by the District and Local Boards and by Municipalities in each district —

District	Description of roads	By whom maintained				Remarks
		District Board.	Local Board.	Municipality	Total	
1	2	3	4	5	6	7
		Miles.	Miles	Miles	Miles	
Burdwan	Metalled	275½	Nil	54	329½	
	Unmetalled	246½	267½	40	554½	
	Total	522½	267½	94	883½	
Birbhum	Metalled	126		14½	140½	
	Unmetalled	308	*17		308	* Represent village roads under the two Local Boards maintained and paid for during the year
	Total	434	17	14½	448½	
Bankura	Metalled	220	21	28½	269½	
	Unmetalled	331	103	7½	441½	
	Total	551	124	36	711	
Midnapore	Metalled					
	Unmetalled		..	.		
	Total	.		..		
Hooghly	Metalled	71				
	Unmetalled	163	260	†	..	† The municipalities have not furnished the length of metalled or unmetalled roads maintained by them
	Total ...	234	260			
Howrah	Metalled	20		66	86	
	Unmetalled	61		20	81	
	Total	81		86	167	

179 The marginally-noted statement shows the amount spent on arboriculture in the various districts of this Division.

Arboriculture	Rs.		Rs.
Burdwan ..	4,050	Midnapore ..	90
Birbhum	1,320	Hooghly	378
Bankura ..		Howrah	499

In Burdwan 1,149 new trees were planted at a cost of Rs 1,509, and a sum of Rs. 2,541 was spent in maintaining trees already planted, a fact which illustrates the keen interest taken in tree-planting by the Magistrate, Mr Fisher, to whom every credit is due for what he has already done in this direction Much useful work under this head was also done in Birbhum, where the planting of trees along the whole length of the Suri-Saithia road is reported as likely to be completed this year, and where Rs 1,300 have already been allotted for the purpose, and a further allotment of Rs 900 will shortly be made In Midnapore the decrease of expenditure under this head is due to the fact that a large number of trees having already grown up are no longer in need of *mals* to look after them No new trees have been planted for some years past in this district, as most of the district roads, which are now without trees, have no side lands In Hooghly only 40 new trees were planted In Howrah about 182 trees were planted, partly by the Howrah Municipality and partly by the District Board

* * * * * * *

XXX—LOCAL SELF-GOVERNMENT INSTITUTIONS

District Boards

201. The District Boards are reported to have discharged their duties in a satisfactory manner during the year, and to have rendered useful assistance to District Officers as consultative bodies, a special feature of their working being an entire absence of factious oppositions and party spirit The attendance of the members, too, appears to have been on the whole satisfactory

The following gentlemen deserve special mention for the good work done by them —

Babu Banwari Lal Hati, Vice-Chairman, Burdwan District Board.
Rai Lalita Mohon Sinha, Bahadur, Vice-Chairman of the Hooghly District Board

Local Boards

202. As regards Local Boards, the attendance of members at meetings in the districts of Burdwan, Birbhum and Bankura was small The Magistrate of Birbhum brings to notice the fact that eight scheduled roads, which had been transferred to the Rampur Hât Local Board for up keep, could not be managed by them properly, and that, therefore, they had to be transferred back to the District Board, and observes that "Local Boards, so far as this district is concerned, might with advantage be eliminated"

The Magistrate of Bankura is of opinion that the usefulness of these bodies is marred by their want of "sufficient powers and scope of work" In the Midnapore district the average attendance of members of the Local Boards appears to have generally improved during the year But the work done under their direction has been generally bad. The Magistrate writes —

'The money spent on village roads is to a great extent wasted, pound administration is very elementary, with no staff and enormous territories under them, the Local Boards are really very helpless"

The Magistrate of Hooghly has offered no remarks on the working of the Local Boards in his district The Local Boards in the Howrah district were charged with the management of pounds, ferries, village roads and primary education, and their working is described as having been tolerably good The Ulubaria Local Board has dispensed with the services of the Subdivisional Officer as Chairman, a fact which the Magistrate remarks is not at all to the advantage of that body, on the ground that there is no one else who has the same facilities for seeing the country, and the Local Board road work needs a deal of checking Mr Stevenson has left the following remarks on District and Local Boards —

"My general views are unchanged as regards their utility, pound management generally defective"

Union Committees

203 No Union Committees exist in the districts of Birbhum and Bankura The number of these Committees in the Burdwan district was six, as in 1896-97 They have been entrusted with the control of village roads and the inspection of primary schools During the year under report the Daspur union, in the Ghatal subdivision of the Midnapore district, was abolished under the orders of Government, it being found that the chairman and the members had dealt with the money entrusted to them in an extremely unscrupulous manner Of the remaining five Union Committees in this district, Panskura and Contai worked satisfactorily during the year. Nawada and Pingla took increased interest in their duties Jara was too timid of responsibility to do any useful work The attitude of the Local Boards towards these small rural committees was, it is stated, one of apathy and indifference. The Union Committees in the Howrah district are still infant institutions, and difficulty is often experienced in finding suitable men to serve on these Committees Mr. Duke writes —

"Slight as is the account work required of them, it is difficult to get it performed My impression is that they repair village tracks in a rather lavish manner, and take little or no interest in sanitation, water-supply or anything else."

My own impression is that both Local Boards and Union Committees are institutions much in advance of the times Their funds are small compared with the work to be done and it requires a great deal of public spirit to attend to the small every day matters which alone come up before the members, and out of which no particular reputation is to be got

Municipalities

204 In the Burdwan district the municipalities continued to work well, and increased attention was paid to sanitation In the newly-formed Municipality at Asansol, considerable difficulty was at first experienced in collecting the taxes, but two successful prosecutions had had a good effect on the rate payers. Several latrines

have been erected, and the condition of the bazar has been improved Altogether the Municipality, with the Subdivisional Officer of Raniganj as Chairman, promises to be a success, the railway members taking an interest in its management The Sun Municipality in the Birbhum district appears to have worked successfully, the Commissioners in general paying proper attention to its affairs A general revision of taxes resulted in an increased income The interests of primary education was carefully looked after, and much was done in furtherance of water supply and drainage, new wells being sunk where needed, and a portion of a *kutcha* drain made *pucka*. The municipalities in the Bankura district generally are well spoken of There was an accretion to the income of the Bankura Municipality, caused by the donation of Rs 1,000 by Rai Ram Bandhu Chatterjee Bahadur for the construction of a ward in the local dispensary The town, however, is not, the Magistrate adds, so clean as it should be. The elective system is not in force in the Sonamukhi Municipality, as in the two other Municipalities of Bankura and Vishnupur. An improvement in the percentage of attendance is reported as regards the last two bodies, and a falling off in this respect as regards the first. The Tamluk Municipality in the Midnapore district is described to have been managed by its non-official Chairman with considerable zeal. In Chandrakona and Khirpai also a great deal of interest is said to have been taken by the non-official members Ghatal and Midnapore were fairly well managed, though in the latter there was room for improvement The working of the Kharar Municipality was anything but satisfactory, but during the year under report the Subdivisional Officer was appointed Chairman, a change from which the Magistrate anticipates good results This is the only Municipality in which a general election was held during the year With the exception of the Hooghly-Chinsura Municipality, the District Magistrate, Mr. D B Allen, Hooghly, made a thorough and exhaustive inspection of all the municipalities in the district, and his orders and suggestions were of great use in improving the collections and bringing the offices into order The question of improving the Rishra *basti*, which forms part of the Serampore Municipality and stands on Government land settled with Messrs Birkmyre and Company, and which has become highly insanitary, has formed the subject of a long correspondence. The matter is now pending with the municipal authorities, who have called upon Messrs Birkmyre and Company, under section 246 of the Bengal Municipal Act, to carry out the required improvements The general condition of the municipalities in the district was much the same during the greater part of the year as before. The Magistrate mentions that towards the close of the year the attention of these bodies was drawn, in view of apprehension of the plague, to the necessity of keeping roads, drains and latrines clean, and using disinfectants, with the result that steps have been taken in this direction in all the towns With regard to the Hooghly-Chinsura Municipality, Mr Stevenson has left the following remarks —

"The Chairman does his best, but the obstructionists among the Commissioners are too strong for him"

The following observations of Mr. Duke are reproduced as explaining the difficulties of municipal administration at Howrah, the most important Municipality in the Division, and containing suggestions for improvement —

"The Howrah Municipality has had a somewhat troubled existence, owing partly to the difficulty of keeping the expenditure within the income, and also in great measure to troubles and contentions regarding the management of the water-works.

"The financial trouble is not likely to be relieved until the Calcutta Municipal Consolidation Act Amendment Bill becomes law, for the Commissioners are resolute not to increase the general rate beyond 7½ per cent, although they are willing to adopt the Calcutta license-tax system if made applicable to coolies A revaluation relieved the pressure somewhat, and with close economy and great forbearance on the part of Government in exacting payment of instalments of loans, some sort of equilibrium had been established The threatened visitation of plague has, however, thrown everything out of gear by causing heavy extraordinary expenditure; recourse will have to be had shortly to the Emergencies Loans Act, and if a longer period of payment than two years cannot be allowed, it is hard to see how the Municipality can be kept going.

"The office management of the Municipality is extremely unsatisfactory and extremely difficult to improve, for, although on important questions the Commissioners are ordinarily extremely reasonable, yet when it comes to interfering with the status or emoluments of some petty clerk, it is found that he has a number of supporters amongst the Commissioners, and that any attempt to deal with him will be fiercely opposed. The Secretary of the Municipality is the only person who is really in a position to initiate reforms in the office, and he is made to feel that if he attempts it a great proportion of the Commissioners will become his enemies

"The difficulties are perhaps principally inherent in the municipal constitution under the present law, and would be diminished if appointments, and still more if dismissals, were withdrawn from the control of the Commissioners."

205. Mr. Duke appears to have done much towards bringing about an equilibrium between the expenditure and the income of the Municipality, and in the notes left by him, Mr Stevenson freely acknowledges the Magistrate's efforts in this direction. One of the matters now engaging the serious attention of the Commissioners is that of placing the water-works, which have been found to be faulty both in design and execution, on a satisfactory basis, with the assistance of Mr. Hughes, Engineer to the Calcutta Corporation his services having been engaged for the purpose with the sanction of Government. The management of the Bally Municipality, which was most unsatisfactory at the beginning of the year, has, since the present Chairman assumed office, markedly improved

* * * * *

XXXVII—GENERAL REMARKS.

234. Having taken charge of the Division after the close of the year, my remarks under this head must necessarily be brief and perfunctory As noticed elsewhere, the most prominent feature in the history of the year is the seasonable and well distributed rainfall, which not only dispelled the apprehensions entertained during the early part of the period under review, but produced a harvest the like of which has not been reaped for several years past The immediate result of the advent of the new rice was a reduction in the prices of food-grains and an appreciable improvement in the condition of the lower classes, among whom there had been considerable pinching The effects of the strain they had undergone are, however, discernible in many directions. Great numbers left their houses in quest of employment. The excise revenue decreased to the extent of Rs 4,702, principally under the head of pachwai, but this apparently was owing to a change in the rules. The number of sales and mortgages increased, as did that of deeds registered. The revenue from the sale of stamps advanced. The increase in crime was marked specially in the case of offences against property. Judging from figures, the considerable increase in imports, particularly under the heads of grain and pulse, cotton goods and European piece-goods, the improvement in the revenue derived from the income tax, and the larger attendance at fairs, may be mentioned as evidence of the return of better times.

Another satisfactory point in the record of the year is its exceptional healthiness. Fever, which annually claims the largest number of victims, was unusually sparing in its ravages. The inroads of cholera were sensibly diminished, and the mortality from small-pox, though somewhat higher than in 1896, was decidedly lower than in 1895 With the exception of Local Boards and Union Committees, the local bodies appear to have administered their affairs with success during the year, and increased attention was paid to water supply, while some improvement was made in sanitation within urban areas, in view of apprehensions of the plague

235. Speaking for the whole Division, fair progress was made in the work of transferring chaukidari chakran lands to the zamindars under section 50 of the Chaukidari Act. The ghatwali settlements in Bankura seem to have been duly proceeded with.

236 The most remarkable event of the year was the earthquake of 12th June 1897, the severest experienced within the memory of living men, and resulting in serious damage to Government and private buildings all over the Division.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE LAND REVENUE ADMINISTRATION OF THE LOWER PROVINCES FOR THE YEAR 1897 98

REVENUE DEPARTMENT—LAND REVENUE

Darjeeling, the 16th October 1898

RESOLUTION.—No. 3234L R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Lower Provinces for the year 1897-98

THE Report was submitted to Government with fair punctuality (30th August,

COLLECTION OF LAND REVENUE.

2 *Financial results.*—The current demand on account of the land revenue in Bengal for the past five years is shown below —

CLASS OF ESTATES	1893 94.	1894-95	1895 96.	1896 97	1897 98
1	2	3	4	5	6
	Rs.	Rs	Rs.	Rs	Rs
I —Permanently-settled estates	3,22,65,696	3,22,61,852	3,22,82,525	3,23,02,286	3,23,03,784
II —Temporarily settled estates	28,10,712	26,21,520	28,35,046	28,94,880	29,17,553
III.—Estates held direct by Government	34,08,777	34,84,498	35,25,890	35,55,897	36 96 820
Total	3,84,85,286	3,85,67,851	3,86,43,461	3,87,53,063	3,89,18 157

There was an increase in the total current demand of Rs. 1,65,094, shared by all three classes of estates, the largest fluctuation being in class III, which is mainly due to the settlement of the Kolhan Estate in Singhbhum The increase in class II was due to new settlements, resettlements, and settlements at progressive rates, of which the most important were of certain tea estates in Jalpaiguri, of several Sundarbans lots in the 24-Parganas, and of two Government fisheries in Malda

3 The demands, collections, and balances of land revenue for the same period are shown in the following table:—

YEAR	DEMAND			COLLECTIONS.			Remissions.	BALANCES			Percentage of total collections on total demand (column 7 on column 4)	Percentage of total collections on current demand (column 7 on column 2)	Percentage of current collections on current demand (column 8 on column 2)
	Current.	Arrear	Total.	Current.	Arrear	Total		Current.	Arrear	Total			
1	2	3	4	5	6	7	8	9	10	11	12	13	14
	Rs.	Rs	Rs.	Rs.	Rs.	Rs.	Rs.	Rs	Rs	Rs			
1893-94	3,84,85,286	16,11,949	4,00,97 234	3,73,43 205	18,98,740	3,84,43,253	1,21,448	13,03,113	2,67 288	15 3° 376	95 97	99 89	96 6c
1894-95	3 85,67,851	15,29,095	4,01,26 946	3,72,16,947	13,90,078	3,86,09,025	98 941	13,27,963	2 10,419	15,37,390	96°08	99 54	96 46
1895-96	3 86,43,461	13,72,463	4,00 15 924	3 76,76,616	9 99 876	3,86,73,193	97,230	10 44,832	2,10 620	13 55 512	96°69	99 81	97 23
1896-97	3,87,53 063	13 03,189	4,00,56,252	3 78,86,700	9,99,691	3,88,86,397	1 70,202	12,13,472	1 85,644	13,99 076	96°97	99°30	96 73
1897-98	3,89 18 157	14,50,394	4,03, 68,551	3,76,99,946	11,26,411	3,88,26,365	1 69,264	13,21,146	2,23,696	15,49,775	95 79	99 31	96 44

4 *Collections, balances, and remissions* —The current demand increased by Rs 1,65,094 in comparison with that of 1896 97, and the current collections rose by Rs 6,838, with the result that the percentage of current collections on current demand fell from 96 73 to 96 34 It was remarked in the Resolution on last year's report that the punctuality shown in the payment of Government revenue, in spite of general shortness and in extensive areas, almost total failure of crops, afforded a remarkable indication of the large reserve resources in those Provinces. During the first half of the year now under report the effects of scarcity and famine continued to be felt, and the latter half of it was embarrassed by a cyclone and an earthquake Good crops were, however, reaped, and there is everywhere evidence of returning prosperity The arrear collections amounted to Rs. 11,56,411,—or 80·86 per cent of the arrear demand, against a percentage of 76 55 in 1896-97 The arrear balances rose from Rs 1,86,644 to Rs. 2,28,626,—a higher figure than they have stood at since 1893-94 The short collections, where they were short, were mainly attributable to the cyclone and storm-wave of the 24th October 1897 in Chittagong, to large remissions owing to failure of the crops in the Khurda Government Estate in Puri, and to the delay in realising the arrears of Government revenue in the estate of Kotdesh, the circumstances of which were peculiar and have been separately reported to Government The collections in Government estates were also affected by the prevailing scarcity The total balance, arrear and current, outstanding at the close of the year represented a percentage of 3·84 on the total demand as compared with 3 49 in the previous year. Of this, 94 per cent. was good and recoverable

The total amount of land revenue remitted during the year was Rs. 1,49,254, of which the greater part, as usual, was in estates held direct by Government. The remissions of grace, amounting to Rs. 18,580, were considerably less than in the preceding year, when they had been granted to the extent of Rs 88,151 They were sanctioned chiefly in the districts of Backergunge (Rs 5,650), Patna (Rs 3,640), and Cuttack (Rs. 2,203), to the tenants of Government estates on account of failure of crops. On the other hand, remissions of right rose from Rs 38,603 during 1896-97 to Rs. 1,20,452, of which no less than Rs 84,513 were on the Government estate of Khurda in Puri, where remissions on account of failure of crops are classified as of right, partly because the leases provide that remissions are to be granted for loss of crops They were also heavy in Backergunge (Rs 21,296). The nominal remissions amounted to Rs. 10,222, of which Rs. 2,567 represented the rent of vacant godowns in the Orphanganj market.

5 *Permanently-settled estates.*—Out of a total demand, current and arrear, from estates in class I of Rs 3,26,19,028, the sum of Rs 3,21,94,228 was realised The percentage of the collections on the demand, after excluding from the demand, sums the recovery of which was in suspense and adding to the collections, sums realised but not credited during the year, amounted to 99 11 per cent. as against 99 21 in the preceding year and 98 91 in 1895-96 The current collections fell short of the standard of 99 per cent in 16 districts, of which 6, however, collected more than 98 per cent. The districts which collected less than 98 per cent of the current demand were Saran, Muzaffarpur, Khulna, Nadia, Manbhum, Shahabad, Palamau, Chittagong, Singhbhum, and Darjeeling In Darjeeling, as in the previous year, excluding a fictitious demand of Rs 474, the true balance was nil The current balance in Saran amounts to Rs 26,218, of which nearly half was on account of the last kist of the year Out of Rs 21,142 due in Muzaffarpur, Rs 16,014 represented the arrears of the March kist, for the realisation of which coercive measures could not be taken before the close of the year, and in Khulna, out of a balance of Rs 11,327, the sum of Rs. 10,440 has been realised since the close of the year Rupees 20,221 out of the total balance of Rs 20,708 in Nadia were received by remittance transfer receipt, but could not be credited in the accounts within the year, and in Manbhum the whole balance of Rs 2,532 was due from the Patkum Encumbered Estate In Shahabad the percentage of current collections improved slightly, but the balance outstanding, viz Rs 64,187, was still large, the short collections are attributed partly to the scarcity and partly

to the fact that the raiyats could not sell their opium until after the March kist, on account of which the greater part of the balance is due In Palamau Rs 2,402 were due from the jagirdari tenures which, though raised to the status of estates, could not be dealt with under Act XI of 1859, owing to the non-completion of the Land Registration proceedings The large balance (Rs 50,778) in Chittagong was chiefly the result of the destruction wrought by the cyclone and storm-wave Rupees 2,100 in Singhbhum were due from the Porahat Estate on account of police contribution, and were recovered after the close of the year

The realisations of the arrear balances were less than 99 per cent in 15 districts, of which, however, the collections in the 24-Parganas, Chittagong, Midnapore, and Burdwan exceeded 98 per cent., and in Dacca, Murshidabad, and Noakhali the arrears were trifling Out of the total arrear balances of Rs 45,103, no less than Rs. 41,535 is outstanding in the Patna Division, the largest defaulter being the district of Shahabad (Rs 24,391) Balances of over Rs 1,000 were also due in the districts of Patna, Bhagalpur, and Bankura.

The total amount of land revenue due from Wards' estates at the close of the year was Rs. 27,662 in comparison with Rs 7,192 in 1896-97 and Rs 12,243 in 1895-96 The largest amounts were due from estates in Shahabad, Jessore, Chittagong, Saran, Backergunge, and Champaran In Shahabad the Mahula Ward's Estate was in arrears to the extent of Rs 9,058, owing, it is reported, to the famine, but this estate was unpunctual in its payments during the previous year also. The arrears due from the Sridharpur Estate in the districts of Jessore and Backergunge remained unpaid, with the sanction of the Board, all available funds being required to prevent the sale of a portion of it on account of non-payment of patni rents and in execution of a decree. The balance of Rs. 4,319 in Chittagong, which has since been realised, was attributable to the effects of the cyclone. It is reported that the balance outstanding in the Saran district will be paid as soon as funds are available, and the arrears due in Champaran have since been realised The Lieutenant-Governor observes that the amount due from wards' estates was larger than it has been for some years past. This was no doubt due to the scarcity, but he desires to repeat what has been often said before that there can be seldom adequate reason for a ward's estate failing to pay its revenue punctually on the due date.

6 *Temporarily-settled estates* —The total demand, current and arrear, from temporarily-settled estates amounted to Rs 31,99,444 against Rs 31,31,078 during the previous year, and the total collections to Rs. 28,78,277 in comparison with Rs. 28,51,637 in 1896-97. The percentage of total collections on the total demand was 89·96 against 91 08 in the previous year and 93 32 during 1895-96 The results of collections in each subdivision of this class during the year under report as well as for the preceding year are exhibited below —

Classification of Estates.	Years	Percentage of current collections on current demand	Percentage of arrear collections on arrear demand	Percentage of total collections on total demand
1	2	3	4	5
II (*a*) Settled for periods with the proprietors	1896-97	94 99	81 84	94 38
	1897-98	92 35	96 59	92 09
II (*b*) Private estates leased to farmers for periods	1896-97	81·73	90 51	83 44
	1897-98	84 81	81 09	84 70
II (*c*) Government estates leased to farmers for periods	1896-97	82 62	75 18	81 48
	1897-98	83 53	76 52	82 29
Total	1896 97	92 01	79 67	91 08
	1897 98	90 29	86 56	89 96

The percentage of collections shows a falling off in class II (*a*), and an improvement in classes II (*b*) and (*c*), but the general result is worse than in the preceding year The unsatisfactory results in the case of Government and private estates leased to farmers formed the subject of special comment in the Resolution of the previous year. The improvement now shown is very slight, and a special consideration of the subject is promised by the Board, who have called for the reports from Commissioners on it. The Lieutenant-Governor is very gravely impressed with the defects of the farming system, defects which have been noticed again and again He trusts that the Board will go thoroughly into the matter, and will be glad to see reports furnished to them with any comments or orders the Board may pass upon them. The districts of Burdwan, Hooghly, Dacca, and Faridpur have failed to collect 50 per cent of the current demand in estates of this description, all of them having been unfavourably noticed last year. Collections in Gaya and Muzaffarpur, which were similarly noticed, have improved, though in Gaya they are still poor. The current collections in the districts of Burdwan and Palamau in the case of Government estates let out in farm also fell short of 50 per cent The standard of 95 per cent. fixed for current collections in temporarily-settled estates of all classes, was reached or exceeded in 17 districts only, of which 5, namely, Birbhum, Jalpaiguri, Chittagong, Darjeeling, and Manbhum, realised their demands in full In Puri the large balance of Rs 81,075 is due from the Kotdesh Estate, which was sold for arrears in 1896, and which it was not considered advisable to sell again for arrears that have subsequently accrued pending the decision of a suit to set aside the first sale In Midnapore, Khulna, Backergunge, and Shahabad the outstanding balances are also large The collection of arrears was specially poor in the case of Government estates leased to farmers in the districts of the 24 Parganas (20·85 per cent) and Shahabad (23 28 per cent), and of private estates similarly held in Gaya, where, however, the total balance outstanding was small

7. *Estates held direct by Government* —During the year under report there were altogether 2,739 estates held direct by Government, of which 2,495 were owned by Government as proprietor and 244 were private estates under Government management The current demand increased from Rs 35,55,897 to Rs 36,96,820, and the total demand from Rs. 42,24,976 to Rs 45,29,909, out of which Rs 35,76,850, or 78 96 per cent., were collected and Rs 1,43,829 remitted, leaving an unrealised balance of Rs. 8,09,230, or Rs 4,355 less than in the previous year

The general results are compared below with those of the previous year in each subdivision of this class —

Classification of Estates	Years	Percentage of current collections on current demand	Percentage of arrear collections on arrear demand	Percentage of total collections on total demand
1	2	3	4	5
(*a*) Managed for proprietors	1896-97	80 27	53 29	72 12
	1897-98	80 45	82 02	80 77
(*b*) Owned by Government as proprietor	1896-97	79 12	69 24	77 91
	1897-98	79 19	76 26	78 66
Total	1896-97	79 84	63 92	76 90
	1897-98	79 87	77 15	78 96

There was improvement under all heads in both classes of estates as compared with the previous year, though the results fell considerably short of the prescribed standards This was due to the distress that prevailed during the first half of the year, and the Lieutenant-Governor hopes that the

effect of good harvests will be manifested in the collections of the arrears during the current year The standard of 90 per cent. for current collections in both classes was reached or exceeded in 14 districts against 12 in 1896 97, while in one other district against 5 in the previous year it was exceeded in one class of estates only. The results were very poor in Murshidabad, where the percentages of current collections on the current demand were only 39 01 in the case of estates managed for proprietors, and 52 07 in that of Government estates. In Jalpaiguri the aggregate of collections, current and arrear, was large, amounting to Rs 4,15,155, or 111 per cent on the current demand, but the current arrears amounted to Rs 1,38,226, the percentage of current collections being 62 96. The arrear balances were, however, nearly all paid up. This result shows great improvement on that of the previous year The Lieutenant-Governor hopes, however, that the large balance still due will be reduced in the current year In Midnapore collections continued to improve, and the percentage of current realisations also rose in Jessore and Khulna, which were unfavourably noticed last year, though in Shahabad, Balasore, and Palamau they still continued to leave much to be desired The largest amount outstanding was in Chittagong, where, out of a total current demand of Rs 5,01,410, there was an unrealised balance of Rs 1,56,567 in consequence of the cyclone and storm-wave, and the lenient treatment extended to the tenants in consideration of their reduced circumstances Arrear collections were worst in the districts of Midnapore, Faridpur, Tippera, Puri, and Lohardaga There was a marked increase in the collections of miscellaneous revenue, due almost entirely to the large recoveries of survey and settlement charges, amounting to Rs 7,56,270, principally in the districts of Saran, Champaran, and Muzaffarpur The progress of realisations has been most satisfactory, the balance outstanding at the close of the year on this account from estates on which demands were made, being Rs 9,404 only

8 *Sale of Government lands* —Owing to the expense and inconvenience of their management, 43 petty Government estates with an area of 5,947 acres and an annual rental of Rs 6,611 were sold during the year under report, subject to a revenue fixed in perpetuity equal to the annual rental The prices realised were Rs 41,477, or rather over six times the annual rental These were less than in the preceding year, but the fact that six times the existing rent was paid for a settlement in perpetuity at that rent, shows that rents in these Government estates were moderate.

9 *Particulars of estates held direct.*—Particulars of estates held direct by Government, classified by Divisions, and showing the demands, cost of management, and total collections during the year are given below —

Division	Government estates.		Private estates.		Total.		Cost of management	Percentage of cost on current demand	Current collection	Percentage of current collection on current demand
	Number	Current demand	Number	Current demand	Number	Current demand				
1	2	3	4	5	6	7	8	9	10	11
		Rs.		Rs		Rs	Rs.		Rs	
Burdwan ..	283	45 124	6	2,55,269	289	3,00 493	23 684	9 0	2 06 251	88 60

Total in 1896 97	2,411	29 40 980	242	5,15 017	2,653	35 55 997	2 30,646	6 65	28 21	79 34

In 11 districts, namely, Birbhum, Darjeeling, Bogra, Pabna, Tippera, Noakhali, Patna, Gaya, Shahabad, Darbhanga, Cuttack, against 10 in the previous year, the cost of management exceeded 10 per cent on the current demand The Lieutenant-Governor is aware that the Board have given special attention to the question of reducing the cost of management to 6 per cent,

and that there are special causes which make it impracticable to do so everywhere

10 *Road and Public Works Cesses*.—The following table shows the demands, collections, remissions, and balances on account of the road and public works cesses during the year under report as compared with the figures for the two preceding years :—

Year.	Net demand after excluding reductions and remissions			Collections (including advance collections).	Percentage of collections on current demand	Balances	Percentage of balances on gross demand.	Remissions
	Current	Arrear	Total					
1	2	3	4	5	6	7	8	9
	Rs.	Rs	Rs	Rs.		Rs		Rs.
1895 96	84,88,612	14,80,123	99,68,735	82,88,761	97·2	17,27,671	17 3	84,859
1896-97	86,61,689	17,24,415	1,03,86,097	86,16,072	99 4	17,91 676	17 2	63,283
1897-98	89,56,309	17,82,378	1,07,38,687	88,71,693	99·0	18,75,440	17 4	81,813

The current demand shows an increase of Rs 2,94,627, due mainly to the revaluation of the districts of Midnapore, Patna, Monghyr, and Bhagalpur, and to partial revaluations in the districts of Jessore, Dacca, Mymensingh, Backergunge, Tippera, and Singhbhum Both the cesses were levied at the maximum rate of one anna in the rupee in the 43 districts in which Act IX (B C) of 1880 is in force While the gross rental or valuation in these districts amounts approximately to slightly over sixteen crores of rupees, the current land revenue demand is little more than 3½ crores. Ninety-nine per cent of the current demand was realised during the year under report as against 99 4 in the previous year In 27 districts the current collections were below 90 per cent on the current demand, and in 13 districts the proportion of arrear collections to the demand was below 60 per cent The aggregate collections were higher in amount than in any preceding year, but the percentage of collections on the demand was somewhat less than in 1896-97 This is attributed generally to the effects of the recent scarcity.

11 *Remittance of Land Revenue and rent by means of money-orders*.—There was an increase in the number of money-orders issued for the payment of revenue and cess, from 189,502 to 193,819, and in the amount covered by them, from Rs 17,23,411 to Rs. 18,24,014 The system, it is stated, is becoming more appreciated by owners of petty estates, while owners of large properties prefer payments through their agents at head-quarters The largest numbers of orders were sent in the districts of Chittagong, Hooghly, Faridpur, and Dacca

The following table gives the available statistics of the working of the system of payment of rent by money-orders during the last five years :—

Year	Number of money-orders issued for rent	Amount	Number of such orders refused	Amount
1	2	3	4	5
		Rs.		Rs
1893 94 ..	43,206	6,17,146	16,959	1,59,606
1894 95 ..	40,834	5,87,371	13,772	1,45,695
1895 96 .	43,708	6,20,097	14,503	1,59,890
1896 97 ..	50,488*	7,40,526*	14,070*	1,73,724*
1897-98 .	51,224	6,90,094	11,120	1,22,001

* These are the corrected figures

12 *Operation of the Sale Laws.*—The working of the Sale Laws during the last five years is shown below —

Year	Number of estates and shares and interests liable to sale.	Sold				Percentage of column 6 on column 2.	Revenue demand of estates sold	Amount of defaults	Amount realised by sale
		Estates.	Shares.	Interests	Total.				
1	2	3	4	5	6	7	8	9	10
							Rs	Rs	Rs
1893-94	16,239	991	438		1 429	8·7	1 45,659	45 051	10 73 884
1894-95	15 275	950	516		1 466	9·6	1,62 8 2	7° 624	11 11,334
1895-96	14,287	936	559	2	1 507	9·2	2,03,282	2,38 931	12 85 081
1896-97	20 272	1 114	492	1	1 607	7·9	2,00 650	85 003	9 89,406
1897-98	20 977	1,109	536		1 645	7 8	1 80,477	73 440	10 95 928

20,977 estates, shares, and interests became liable to sale for non-payment of revenue, of which 1,645, or only 7 8 per cent. on the number that became liable to sale, were actually sold, as against 7 9 in 1896-97 The number of estates sold (1,109) represents only 6 per cent. of the total number of estates in Bengal (179,750) The prices realised by sale rose from 4·9 to 6 07 times the revenue demand on the properties sold Out of 314 appeals preferred to the Commissioner against sales, 66 were successful, and recommendations for the annulment of the sales were made to Government in 21 cases on the ground of hardship The figures are noteworthy

Defaults were most numerous in Shahabad (5,848), Muzaffarpur (1,343), Saran (1,256), Chittagong (1,125), Darbhanga (1,115), and Mymensingh (1,069) In the Resolution of last year the opinion was expressed that the sale law in the Shahabad district had been worked with undue leniency, and in the year under report, though the total number of sales increased, the proportion of sales to defaults was, as in the preceding two years, very low, being only 3 5 per cent This leniency is ascribed to the existence of famine in pargana Chainpur, and may be justifiable in the special circumstances of the year, but the Lieutenant-Governor observes that the proportion of defaults to the number of estates and shares on the revenue roll in this district was as high as 42 4 per cent, while in Darbhanga, for instance, where the stress of famine throughout the district was many times more severe, the corresponding percentage was 6 9 only. The Commissioner is again requested to give particular attention to this subject, specially in Shahabad With regard to Chittagong the Commissioner remarks that, considering the bad circumstances of the year, the estates and tenures brought to sale were very few

The Lieutenant-Governor again observes that there were excessive delays in holding sales for arrears of each kist in Burdwan, Bogra, Patna, Saran, Bhagalpur, and Purnea A similar state of things was noticed last year in connection with the sales in all these districts, with the exception of Bogra There may be good reasons for not proceeding to sale at all, but once that measure is decided to be necessary, no advantage of any sort is gained, least of all to the owner, by a procedure, which is halting and uncertain The usual difficulties in connection with the working of the new Tauzi Rules are assigned as the cause, but as remarked last year if there be difficulties in the way of understanding the new Tauzi Manual they would affect all districts, and there is no reason why if they have been overcome in some of them they should not be overcome in all The Lieutenant-Governor agrees with the Board that if the ministerial officers are incapable of understanding the rules, their services must be dispensed with

13 *Working of the Public Demands Recovery Act, I (B C) of 1895* —In consequence of the alterations made in the certificate procedure by Act I (B C) of 1897, a revised Certificate Manual has been prepared by the Board and has since been submitted to Government for approval Complaints have been made in the Burdwan, Patna, and Presidency Divisions that the provisions of section 21 of Act I (B C) of 1895, as amended by Act I (B C) of 1897, have interfered with the holding of certificate sales, and by discouragement of bidders increased the difficulty in the realisation of public demands

By the section referred to the debtor is enabled to deposit the amount due with a penalty within 30 days of the sale and so get the sale set aside The new Act only came into operation on 31st March 1897, and the Lieutenant-Governor agrees with the Commissioner of Burdwan in thinking that it is too early to pronounce any opinion on the working of the section. His Honour, however, desires that the matter may form the subject of special consideration in the report for 1898-99.

The following statement shows the number of certificate cases instituted and disposed of during the year under the different classes of public demands —

Classification of demand		Number of cases pending from last year	Number filed during the year	Total	Disposed of during the year	Pending—		
						More than six months	Less than six months.	Total
1		2	3	4	5	6	7	8
I —Demands of all kinds under section 5		399	1,318	1 717	1,309	142	266	408
II —Arrears of rent due to Government, clause ( ) section 7		5,320	25,602	30 922	23,800	1,637	5,145	7 182
III —Embankment dues section 60, Act VI (B C) of 1873		1 497	5,575	7,072	5,528	456	1,088	1,544
IV —Water rates, Act IX (B C) of 1876		217	2,905	3,122	2 844	46	32	78
V —Cesses, Act IX (B C) of 1880		53 416	101,663	154,172	109,506	14,946	29 728	44,673
VI —Demands of the Court of Wards, clause (A), section 7		7,032	6,468	13,500	8 542	2 459	1 509	3,968
VII —All other demands under section 7		11 918	26,631	38 549	28 368	3,088	10,093	13 181
Total	1897-98	78 809	172,900	251 000	179 596	22,748	49,805	72,014
	1896-97	59 302	174,572	233 874	155 905	21 004	57 903	78,907

There was a net decrease of 1,772 in the number of certificates filed. The increase of 7,270 cases filed for realisation of arrears of rent due to Government was due to stricter measures taken to enforce the payment of demands in Chittagong, Midnapore, and Jalpaiguri. All the four last classes show a decrease The decrease in class V—"Cesses" (101,663 as against 104,822) occurred chiefly in the Patna Division, mostly in Gaya. In the Chittagong Division the release of the Sarail Estate from the management of the Court of Wards, and the death of the ward, in consequence of which institutions were kept in abeyance pending registration of the names of his heirs, resulted in the filing of fewer cases under class VI. The decrease of 3,194 cases in class VII is chiefly due to the fact that almost all the costs of settlement of the Dakhin Shahbazpur Estate in Backergunge had been previously recovered, and that fewer certificates were issued against the tenants of the Banaili Estate in the district of Bhagalpur for the realisation of survey and settlement costs The proportion of certificates disposed of to the total number for disposal rose from 66·3 per cent in the previous year to 71·3 per cent The number of certificates filed on account of the realisation of water-rates shows a steady and satisfactory decline from year to year The proportion of cases disposed of was highest in the Orissa Division and lowest in Chota Nagpur

In the Resolution on the report of the preceding year, the serious attention of the officers concerned was drawn to the unsatisfactory state of the certificate work in the Burdwan Division. During the year under review the percentage of disposals rose from 54·0 to 65·3, but the percentage (59·5) of the cases pending for over six months was still higher than in any other Division It is reported that explanations were submitted of the state of affairs previously noticed, but there is still room for much improvement. In the Burdwan district the number of cases pending over six months increased from 1,852 to 3,335, or a percentage of about 50 on the total number remaining for disposal The majority of these cases are for arrears of cesses and Court of Wards' demands In Hooghly there was a satisfactory increase of 5,904 in the number of cases disposed of, but the number of cases pending over six months nevertheless increased, and was no less than 7,442 at the close of the year In Bankura, too, there are heavy arrears of old cases In the Patna Division more than two thousand cases were pending over six months in the districts of Shahabad and Saran at the close of the year The number of cases instituted during the year and pending at its close in Saran was noticeably

high The Lieutenant-Governor joins with the Board in hoping that the new sliding scale of establishment recently sanctioned may prevent the accumulation of undisposed of cases in future

14 *Compulsory measures for realisation*.—Of the cases in which the demand was realised, 29·2 per cent were disposed of on issue of notice, 50 6 per cent after attachment of property, and 2 8 per cent after actual sale, the corresponding figures in the previous year were 32·4, 51 7 and 3 1 per cent In Backergunge sales were required in one-fourth of the cases disposed of The good effect of preliminary post-card notices appears to be wearing off in Chittagong, where it was once most effectual. The number of persons imprisoned for non-payment of public demands decreased from 37 to 22, of whom 15 were released without payment of the debt

Administration of Land Revenue.

15 *Management of Government Estates*.—The grant at the disposal of the Board, calculated at the rate of 9½ per cent on the collections for the management of Government estates during the year, and for miscellaneous and sanitary improvements in connection with them, amounted to Rs 4,71,579 the expenditure incurred is shown below —

	Allotment, 1897-98.	Expenditure, 1897-98	Allotment, 1896-97	Expenditure, 1896 97
1	2	3	4	5
Grant of—	Rs	Rs	Rs	Rs
(*a*) Management proper	4,71,579	2,42,664 (*a*)	4,20,000	2,36,646 (*a*)
(*b*) Sanitary improvements		60,316 (*b*)		35,633 (*b*)
(*c*) Miscellaneous and agricultural improvements		1,38,089		1,11,236 (*c*)
Total	4,71,579	4,41,069	4,20,000	3,83,515

In the previous year the Lieutenant-Governor had occasion to remark that the failure to make a full use of the grants allotted had not been satisfactorily explained. The results of the year under report in this respect are still less satisfactory. Out of a total of Rs 2,28,915 available for agricultural, miscellaneous and sanitary improvements, the amount expended was Rs 1,98,405 only, leaving a saving of Rs. 33,586 No explanation of the failure to spend the full allotments has been given As was remarked in the Resolution of last year, when funds are available for miscellaneous and sanitary improvements, which are so much required, failure to spend them in a year of partial distress should be explained. The saving was common to four Divisions Bhagalpur (Rs. 1,343), the Presidency Division (Rs 4,000), Rajshahi (Rs 9,000), while in the Patna Division Rs 17,285 remained unspent out of Rs 37,660 provided for expenditure The Lieutenant Governor requests that a special report may be submitted explaining the difficulties experienced in giving effect to the wishes of Government in this matter Of the total sum expended, the largest amount was spent on tanks and wells and drainage and embankments The grant of 1 per cent on collections made over to the Director of Public Instruction for educational purposes in connection with Government estates amounted to Rs. 47,281, but the amount actually spent was Rs 61,950. The excess is explained to be due to the fact that separate accounts have not in all cases been maintained in respect of the sums allotted, which have been supplemented by grants by the District Boards and from other sources. Details are given of the expenditure involved, and the allotment is reported generally to have been satisfactorily utilised The 1½ per cent grant on roads and communications amounted to Rs 61,545, but it is stated that for similar reasons it is not possible to show separately the expenditure incurred in connection with Government estates. The same point was noticed last year, and it was then reported that attempts would be made to procure the

information The Lieutenant Governor would be glad if further details could be furnished in future Granting that separate accounts are not kept and that the expenditure from the allotment is merged in the expenditure from other sources, there should be no difficulty in ascertaining what roads in connection with Government estates are maintained by the District Board and what sums were spent upon them during any particular year The special allotment for agricultural and sanitary improvements, amounting to 3 per cent. on collections, yielded Rs 1,41,676, the expenditure amounting to Rs 1,43,978. The subject of introducing new staples and improved agricultural machinery will be dealt with in detail separately, but the reports generally are said to show a record of failure

16. *Inspection of accounts.*—The usual inspections were made of the registers and accounts of the Government estates, but no material irregularities were detected. The working of the revised rules of management introduced in the previous year has not been specially noticed.

17 *Condition of the raiyats.*—In common with the rest of the Province, the tenants of Government estates suffered in parts from the scarcity of the first half of the year, though their condition generally had improved towards its close Noticeably in Orissa and Chota Nagpur relief in various forms had to be given, but by the end of the year the outward signs of distress had mostly disappeared In Bankura the raiyats had not recovered from the effects of the scarcity by the end of the year, but in Jessore and Khulna and in the Patna Division the good harvests of 1897-98 had made amends for the drought of 1896 97 In Malda the crops on the Government estates are reported to have been poor for some time past, but the cold weather harvest was good. In Murshidabad the raiyats suffered from the failure of the mulberry crop, and in the Rajshahi Division from the low price of jute A large area bordering on the Jumna was rendered sterile by deposits of sand in the Pabna district, and the same effect was produced in parts of Mymensingh by the earthquake of June 1897 A gradual deterioration in the condition of the khas mahal raiyats in Noakhali is reported as the result of a series of bad years, marked by the occurrence of drought, salt-water inundation, betel-nut plague and cattle-disease. The cyclone in Chittagong affected the raiyats of Government estates along with those of private zamindars.

18 *Survey and settlements* —The leading features of the year in the settlement of Government and temporarily-settled and private estates under the control of the Director of Land Records are shown below, though the survey and settlement work in the Province generally has as usual been separately reviewed in detail for the year ending 30th September 1897 in Government Resolution No 1491, dated 4th April 1898 :—

Government and temporarily-settled estates

Name of estate or tract under settlement	Estimated area in square miles under settlement of revenue or rent	Total number of villages	Area cadastrally surveyed during the year	Total area cadastrally surveyed up to the end of the year	Number of villages of which attestation has been completed.	Number of villages of which the final records of rights have been published under section 105 (2) of the Tenancy Act.	Cost during the year
1	2	3	4	5	6	7	8
							Rs.

It has been decided to postpone for a year the resurvey and revision of rents in the Majnamutha and Jalamutha estates in Midnapore. A proposal for the entertainment of a surveyor at an annual cost of Rs 1,200 or Rs 1,500 for the maintenance of the map of the town of Calcutta, which was prepared at a total expenditure of Rs 2,38,063, after a survey ending in 1894, was accepted during the year, half the cost will be borne by Government and half by the Corporation

114 original settlements, 176 resettlements and 225 summary settlements were completed during the year, with a net increase of revenue amounting to Rs. 1,47,717 The settlement of the Kolhan Government estate in Singhbhum was completed in 1896-97, and the final report has since been reviewed by Government The total rental of the estate was raised from Rs 64,829 to Rs 1,77,300, the increase of Rs 1,12,471 (or 173 per cent) being chiefly due to extension of cultivation and to the assessment for the first time at a low rate of high lands locally termed *gora* The collection of the current demand during 1897-98, as fixed by the new settlement, was 100 per cent, and the Lieutenant-Governor agrees with the Board that this was a satisfactory justification of the settlement Good progress was made in the settling of rents in Orissa, and the completion report of the operations in Chittagong will be shortly submitted The collection of the new revenue in the Palamau Government estates, the settlement of which had been completed in the previous year, was satisfactory, amounting to about 96 per cent of the demand The final reports of the settlements of the Darjeeling Terai and the Patashpur estates in Midnapore are in course of submission In Bankura the total area of ghatwali lands under settlement is 271 square miles The settlement, which is being conducted on an amicable basis, was practically completed during the previous year in the ghats which pay quit rent direct to Government or which pay no quit-rent at all. The papers were, however, revised during the year. In the ghats paying quit rent through the zamindars survey and record-writing have been completed during the previous year, and that under report in 91½ out of a total area of 183 square miles

The progress made in the smaller settlements under the Bengal Tenancy Act conducted under the supervision of the Commissioners of Divisions is shown below —

Estates	Estimated area in acres	Total number of villages.	Area surveyed in acres during the year under report.	Total area surveyed in acres up to the end of the year under report.	Number of villages of which attestation has been completed.	Number of villages of which the final records have been published under section 105 (2) of the Tenancy Act.	Cost during the year
1	2	3	4	5	6	7	8
Government estates in the districts of Midnapore, the 24-Parganas, Nadia, Murshidabad, Khulna, Pabna, Faridpur Tippera and Monghyr	86,796	277	29,473	79,184	100	51	Rs. 15,201
Private estates in the districts of Midnapore, Jessore, Rangpur Pabna, Dacca, Mymensingh Faridpur Noakhali and Patna	69 648	271	7,875	67 246	174	147	4,796

In the usual forecast of increases of revenue expected from revision of settlements and other causes for the six years ending 1901-1902, a total increase of Rs 5,50,724 was anticipated in the demand of the year under review, but the actual increase obtained was only Rs 1,65,094 as compared with an increase of Rs 1,09,602 in the previous year. The causes of this difference are explained by the Board, the principal reason being that the sum of Rs 2,50,000, estimated as the increase of revenue in the districts of Cuttack, Puri, and Balasore, was not realisable till 28th April 1898 No operations, moreover, were, it is stated, undertaken in Angul, and the revision of the khas mahal rent rolls in Chittagong yielded an increase considerably less than the forecast The reference to Angul is not understood, and the total increase of revenue in Chittagong was in excess of anticipations, though the whole of it may not have been obtained in the year 1897 98.

There were a considerable number of petty settlements pending in the Presidency, Dacca, and Chittagong Divisions, but the Lieutenant-Governor is glad to observe that the Board report that greater interest is now taken by District Officers in the completion of these settlements, with the result that there has been some improvement in the disposal of pending cases

19 *Land Registration* —The statement for the past three years, showing the total number of interests registered under initial registration in each Division since the commencement of the operations, the number of mutations effected during the year, and the percentage on the total number of interests registered, is given in the same form as last year, although the Board explain that the figures in column 2 being inaccurate, no correct deductions can be drawn from the percentages deduced from columns 6, 7, and 8 Orders were passed during the year with the view of obtaining correct figures of initial registrations, including the registrations effected since the introduction of the Act and previous to the year under report, but great difficulty has been experienced in collecting the figures, and the old form has therefore been adhered to The Lieutenant Governor hopes that no time will be lost in the revision of the statement, without which its value is greatly lessened If the figures of mutations reported were correct, they would indicate that approximately all changes of proprietary interests are registered, which is *a priori* unlikely to be the case and is indeed shown not to be the fact by the high

percentage of mutations in Dacca, where special measures were taken to ensure improvement in registration:—

Division	Total number of interests registered under initial registration (section 35)	Number of applications under section 42 filed during the year—			Percentage of column 5 on column 2	Percentage during 1896-97	Percentage during 1895-96
		On account of succession by inheritance whether under will or otherwise	On account of succession by purchase, gift, or otherwise	Total of columns 3 and 4			
1	2	3	4	5	6	7	8
Burdwan	50,055	1 866	2,001	3,867	7 7	7 3	7 2
Presidency	65 574	2,071	1,363	3,434	5 2	6 5	4 8
Rajshahi	27,016	1,400	634	2,034	7 5	7 7	7 0
Dacca	99,623	6,261	4,961	11 222	11 2	11 6	11 2
Chittagong	184,636	2,432	4,868	7,300	3 9	4 4	5 0
Patna	287,542	11,261	12 965	24,246	8 4	8 7	8 4
Bhagalpur	99,209	1,837	1,696	3,533	3 5	4 0	3 0
Orissa	168,798	4,369	5,526	10,395	6 1	7 7	6 6
Chota Nagpur	4,214	284	292	526	12 4	5 2	4 8
Total	986,767	32,251	34,306	66,557	6 7	7 3	6 9
Total for 1896 97	975,977	37,022	34,324	71,346	7 3		

There was a decrease of 4,789 in the number of applications for mutation filed, though it is still above the average of the last five years The figures of cases disposed of show an increase of 2,718 The rewriting of Register D of intermediate mutations has now been completed in 22 districts The work in the remaining districts should be expedited

20 *Partitions*.—Partition work is of greatest importance in the three Divisions of Patna, Bhagalpur, and Dacca, and the statistics of cases instituted and disposed of are given below —

Division	Pending at close of—		Instituted during—		Total for disposal during the year—		Disposed of during—		Pending at the close of—
	1895-96	1896-97	1896-97	1897 98.	1896-97	1897-98	1896-97	1897-98	1897 98
1	2	3	4	5	6	7	8	9	10
Patna	1 082	999	296	267	1,348	1 266	349	349	917
Bhagalpur	131	124	54	56	185	180	61	54	126
Dacca	430	476	193	137	623	613	147	187	426

The number of cases instituted decreased in the Patna Division by 29 and in the Dacca Division by 55. The disposal of cases showed an improvement in Bhagalpur and Dacca The work of the Special Deputy Collector at Patna is reported to have been unsatisfactory, and the employment of the Batwara Deputy Collector in Saran on magisterial and miscellaneous duties, contrary to the orders of the Board, retarded the disposal of cases in that district

The new Estates Partition Act, V (B C) of 1897, came into force on 8th December 1897, and 75 applications in the Dacca Division and 17 in Monghyr are reported to have been struck off under the provisions prescribing the limitations of Government revenue payable by shares forming the subject of partition Similar information should have been furnished for other districts

In the Resolution on the Report for 1896-97 attention was drawn to the variations in the costs of partition per acre in different districts, and it is reported that the subject has now been noticed by District Officers, but not fully Some explanations have been furnished, but the Lieutenant Governor requests that the point may be discussed in greater detail in future reports

The Lieutenant-Governor regrets to observe the statements made as to the unsatisfactory condition of the accounts of the Batwara Department in

several districts In Monghyr, where it was noticed last year that the work had been grossly mismanaged by the Deputy Collector in charge, a special auditor has been deputed, who is reported to have found great difficulty in reconciling the accounts owing to the confusion they were in Audit is said to be required in other districts also, but the Lieutenant Governor agrees with the Board that the duty of maintaining correct accounts rests primarily on the local officers concerned It is hoped that partition proceedings will be expedited under the new Act, that the expenses of them will be reduced, and that the accounts will be carefully and accurately kept.

21 *Land Acquisition* —The quantity of land acquired during the year under the Land Acquisition Act of 1894, the department for which it was acquired, and the cost of acquisition were as follows —

Purpose for which land was taken up.	Area of land taken.	Revenue abated	Cash compensation paid, including other charges.
1	2	3	4
	Acres	Rs	Rs
Government	1,021	62	1,69,648
Irrigation	256	150	35,005
Municipalities	64	10	58,767
Railways	6,565	1,802	10,46,186
District Boards	181	13	17,763
Port Commissioners			863
Total	8,087	2,037	13,28,232

The average cost per acre amounted to Rs 164, or, omitting projects of a specially costly nature, to Rs 129 the corresponding figures of the previous year were Rs 311 and Rs 154, the decrease in the year under report being attributable to the acquisition of large areas of lands at low rates in Orissa, Midnapore, and Singhbhum The quantity of land acquired during the year was largely in excess of the total for 1896-97, which amounted to 1,674 acres only The acquisition of land for numerous railway and tramway projects contributed towards this result, the most important schemes in progress at the end of the year being the Cuttack-Midnapore Calcutta extension of the Bengal-Nagpur Railway, the East Coast Railway, the Sultanpur-Bogra Kaligani and Rajbari-Faridpur extensions of the Eastern Bengal State Railway, the Mymensingh-Jamalpur-Jagarnathgani extension of the Dacca-Mymensingh Railway, the work in connection with the Assam-Bengal Railway in Chittagong, the South Bihar and Mogulserai-Gaya Railways, and the Segouli-Raxaul, the Bettiah-Bagaha, the Hajipur Katihar, and Sakri-Jainagar extensions of the Tirhut State Railway Important projects in connection with the drainage and improvement of Calcutta were in progress, 512 acres being taken up, for which Rs 5,07,972 was paid as compensation for the land and buildings thereon, or nearly a thousand rupees per acre Proceedings were also held in connection with the Tribeni and Dhaka Canals in North Bihar, which had originally been undertaken as famine-relief works

22. *Kanungos and patwaris* —The reorganisation of the patwari establishments in Orissa and in the Patashpur estates in Midnapore, in order that the record of rights may be maintained by their agency, is under consideration

23 *Advances under the Land Improvement Loans Act* —Out of a total amount of Rs 6,18,115 applied for by the Collectors for advances under the Land Improvement Loans Act, XIX of 1883, the sum of Rs 4,82,467 was allotted for distribution, of which Rs 3,58,510 was actually disbursed, Rs 1,67,305 were advanced under the special famine conditions, and Rs 1,91,205 on account of payment of instalments of loans previously granted as they

became due, and in Chittagong as a measure of relief in consequence of the cyclone

The progress made in the realisation of outstanding advances is shown below —

Outstanding advances	Demand (principal *plus* interest) falling due during the year	Collections (principal *plus* interest) during the year	Percentage of collections on demand	Remissions	Balance at the close of the year
1	2	3	4	5	6
Rs 8,47,149	Rs. 1,75,580	Rs. 1,22,761	69 9	Rs 100	Rs 52,719

The Collectors were quite right in mitigating their demands during bad seasons Greater punctuality may now be expected

The following amounts were advanced during the year under the modified rules for famine conditions the details for the Patna Division are wanting —

	Rs.		Rs
Bankura	2,000	Puri	15,000
Nadia	36,475	Hazaribagh	9,776
Murshidabad	10,038	Palamau	32,024
Khulna	24,695	Manbhum	33,147
Rajshahi ...	2,550		
Pabna ...	1,600	Total	1,67,305

By far the largest amount in any one district was advanced in Chittagong, where Rs 1,15,631 was distributed among 414 applicants for the reconstruction of embankments destroyed by the storm-wave

24 *Advances under the Agriculturists' Loans Act* —The prevalence of famine conditions in many districts during the first-half of the year led to a large increase in the sums lent to raiyats under the Agriculturists' Loans Act, XII of 1884 Altogether Rs 11,93,115 was advanced in comparison with Rs 2,61,017 in the previous year Advances were made in every district of the Province with the exception of Midnapore and Hooghly, varying in amount from the petty sum of Rs. 270 in Darjeeling to Rs 2,37,987 in Saran In the districts in which the existence of famine was declared, the following sums were disbursed —

	Rs		Rs
Bankura	20,587	Muzaffarpur	1,75,291
Nadia ..	23,579	Darbhanga	351
Murshidabad	28,155	Bhagalpur	29,764
Khulna	59,741	Sonthal Parganas	15,349
Shahabad .	50,966	Puri	16,924
Saran	2,37,987	Hazaribagh	36,000
Champaran	2,19,343	Palamau	22,999
Manbhum	Rs 41,492		

In Jessore also, where distress was felt, though not to the extent of famine, more than Rs 50,000 was advanced during the year. As in the previous year, practically no loans were given in Darbhanga, where, although

famine was severe, the Collector did not consider them required Advances to the extent of Rs 3,397 were granted for the construction of wells which had collapsed during the earthquake

The demands, collections, and balances on account of advances in this and previous years, are shown below —

Outstanding advances	Demand (principal *plus* interest) falling due during the year	Collections (principal *plus* interest during the year	Percentage of collections on demand	Remissions	Balance at close of the year
1	2	3	4	5	6
Rs 15,15,564	Rs. 5,18,283	Rs 2,79,194	53 8	Rs 103	Rs 2,38,986

The percentage of collections is considerably higher than the corresponding figures of the previous year, when 39 5 per cent. only of the demand was realised, collections having been suspended in several districts owing to the famine The Lieutenant-Governor hopes now that bountiful harvests have put the peasantry at ease, no time will be lost in recovering the amounts due

Of the balances outstanding at the close of the year, the Patna and Chota Nagpur Divisions are responsible for Rs 1,20,588 and Rs 87,074, respectively

Rent

25 *Relations between landlord and tenant* —Notwithstanding that scarcity prevailed during a considerable portion of the year over the greater part of the Province, the relations between landlord and tenant were not seriously affected, and continued generally satisfactory In some instances the zamindars materially assisted their tenants to tide over the distress, and exercised leniency in the collection of rent To this general rule, however, there were the usual individual exceptions In Burdwan a zamindar was killed by the tenants of a newly purchased village whom, it is alleged, he was attempting to oppress The murderers were not discovered, and precautionary measures have since been necessitated, as the state of tension still continues In Midnapore the attempt of the non resident zamindar of one estate to collect rent at enhanced rates led to disputes with the tenants, and in the Contai subdivision a dispute between a patnidar and the tenants for the ejection of the latter resulted in a riot The tenants have since been maintained in possession In the Kandi subdivision in Murshidabad the efforts of a landlord to enhance rents by coercive measures led to the institution of several criminal cases In Khulna, where most of the zamindars are non resident, and in Nadia, where there is an absence of influential landholders, and attempts to enhance rents illegally are frequently made, the relations between the landlords and their raiyats are not, it is reported, satisfactory In Khulna most of the zamindars being absentees, little material help was rendered by them to their tenants during the scarcity In the district of Tippera the gradual absorption of the old grazing grounds by cultivation is reported to lead to disputes The condition of affairs in the Patna Division generally does not call for special notice The assistance rendered during the famine by the Maharaja of Darbhanga and by the Court of Wards in the Hatwa and Bettiah estates has already been gratefully acknowledged by Government In the Barh subdivision of the Patna district there

was bad feeling between some landlords and tenants, resulting in a riot There was a considerable number of indigo disputes in the districts of Bhagalpur and Monghyr, which appear to call for attention The hope expressed last year that the state of affairs in killa Al was improving does not appear to have been fulfilled, while in the Jajpur and Bhadrak sub divisions the relations between landlords and tenants are reported to be specially strained In the Chota Nagpur Division, with the exception of the district of Palamau, the relations between the zamindars and their raiyats remain unsatisfactory. It is as yet too early to judge of the effect of recent legislation for the commutation of predial services The levy of illegal cesses on the occasions of new settlement or of landlords visiting their properties, and that of contributions for marriages and other ceremonies continue, but the tenants, it is said, generally pay them without objection to secure the good will of the landlords and their servants In the Patna Division the custom is said to be gradually dying out as the tenants become better acquainted with their legal liabilities, and this is reported to be a striking proof of the value of the settlement proceedings in that Division in making known to them the provisions of the law

26. *The Bengal Tenancy Act* —The working of the Bengal Tenancy Act presents no new features The generally expressed opinion is one of disappointment that its provisions are not more largely used, but, as remarked in the previous year, the preventive effect of the Act in checking disputes and abuses, while less obvious, is perhaps of as high importance as the active application of its sections It is admitted that the Act has worked smoothly With the previous sanction of the Government of India and the Secretary of State, a Bill to amend sections 30, 31, 39, 52, and 119 and Chapter X of the Act was introduced into the Bengal Legislative Council on 3rd April 1897, and after some revision was passed after the close of the year

The working of some of the most important sections of the Bengal Tenancy Act in the various divisions of the Province is shown below —

1	2			3	4	5	6	7	8	9	10	11	12
Division	Transfer of Tenures.												
	(a) Voluntary section 12 (2)	(b) By decree sale, sections 12 (2) and 14.	(c) By succession section 15.	Commutation of rent payable in kind, section 40	Appraisement or division of produce where rent is paid in kind sections 68 and 70.	Registration of improvements section 80	Certificates of Collectors as to acquisition of land for building or other purposes, section 84.	Notices of resumption of land by landlords, section 87 (2)	Written permission to landlords to measure land under section 90	Applications by Collectors for appointment of common Manager under section 98.	Applications made for a survey and record of rights under Chapter X	Applications made for survey and record of proprietors private lands under Chapter XI	Local enquiries held by order of a Court section 158.
Burdwan ..	3 450	116	196	754	43	21	..	28			12	5	2
Presidency	5 288	284	400	..	6	17		5			10		1
Rajshahi ..	631	92	50		1			11			1	..	
Dacca	1 771	1 177	451			55	5	16		1	21		1
Chittagong	2 195	850	449			7		7					10
Patna	930	..	4	45	339	217	2	309		1	1		21
Bhagalpur	1,911		13	1	457	17		25	..				2
Orissa ..				..		2					1	..	
Grand Total for 1897 98	15 495	2,526	1,545	800	1 216	336	7	916	..	2	46	5	57
Ditto for 1896-97	16,502	2,930	1,858	161	347	251	8	688	..	1	38		55

The decrease in the number of voluntary transfers of tenures registered is attributed to the fact that the registration of transfers of occupancy rights is no longer considered obligatory under the Act The most noticeable fluctuations were in the numbers of proceedings for commutation and appraisement the former were practically confined to the districts of Midnapore and Shahabad, and the variation was more apparent than real, applications of several tenants having in previous years been tried as one case instead of separately The increase in proceedings for appraisement is partly ascribed to a similar cause and partly to the good crops in the latter part of the year The reluctance of landlords to accept landlords' fees continues

27 *Rent suits* —The number of suits tried in Revenue Courts under the provisions of Acts X of 1859 and I (B C) of 1879 during the years 1896-97 and 1897-98 are compared below —

District	Number of cases instituted.		Increase	Decrease.
	1896-97	1897-98		
1	2	3	4	5
Darjeeling ...	54	53	...	1
Jalpaiguri .	3,406	5,290	1,884	
Cuttack	4,149	4,757	608	
Puri	2,146	2,679	533	
Balasore	2,201	3,287	1,086	
Hazaribagh	2,581	2,697	116	
Lohardaga .	6,863	5,184	.	1,679
Singhbhum	538	597	59	
Manbhum	6,222	5,711	.	511
Palamau	371	297	.	74
Total	28,531	30,552	4,286	2,265

The increase in Jalpaiguri was mostly under the head of suits for arrears of rent, and is attributed to the scarcity prevailing during 1896-97 In Balasore the increase was in the number of rent suits and miscellaneous cases, chiefly arising out of applications for deposits of rent The decrease in Lohardaga occurred in miscellaneous applications, execution cases, and appeals The attachment of *bhados* crops in execution of decrees without special permission was temporarily stopped by the Deputy Commissioner, except in suits about to be barred by limitation, on the ground that after a year of scarcity the raiyats were dependent on this harvest for food.

28 *Miscellaneous* —765,704 cases of all kinds were instituted during the year, and 157,135 cases were pending from the previous year. The cases disposed of numbered 792,691 The corresponding figures for the previous year were 820,918 and 790,533.

29. *Training of Junior Civilians in survey-settlement work* —A systematic course, extending over two months, for the training of junior Civilians in survey-settlement work has been drawn up by Mr Stevenson-Moore, Settlement Officer in North Bihar, in communication with the Superintendent of Settlement-Surveys and the Commissioner of Patna The requirements of other work somewhat interfered with the deputation of junior officers, but the Lieutenant-Governor hopes that with the cessation of the famine similar interruptions may not be experienced during the next cold weather

30 *General.*—The thanks of the Lieutenant-Governor are due to the Board for their habitually careful supervision of the revenue administration of the Province and for their generally ample report In connection with the sudden death of Mr H G Cooke, late Commissioner of the Orissa Division, just after the close of the year, the Lieutenant-Governor wishes to repeat and endorse the remarks made by the Board that "the care, local knowledge, and consideration for the people shown by his work, particularly in connection with the Orissa settlement, as well as its clearness and able treatment, testify to the loss sustained by the Land Revenue Administration in his death" The paragraphs relating to the several district and subordinate officers mentioned as deserving of special commendation will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

M FINUCANE,

Secretary to the Govt of Bengal.

WEATHER AND CROP REPORT

For the week ending the 17th October 1898

Burdwan—Rainfall at Sadar 3 22, Kalna 5 62, Katwa 6 89, Raniganj 3 13 Weather fine Rain has done great good to *aman* Harvesting of *aus* nearly over Common rice selling as follows —

	Srs.	
Sadar	13 to 16	per rupee
Kalna	12 to 13	
Katwa	14	
Raniganj	16	

Birbhum.—Rainfall at Sadar 3 99, Rampur Hât 2 72 Weather cloudy and rainy Prospects of crops good Price of common rice at Sadar 15 seers and at Rampur Hat 15 8 seers per rupee Fodder sufficient

Bankura—Rainfall at Bankura 2 57, Vishnupur 2 00 Weather cloudy and seasonable There was sufficient rainfall generally all over the district *Aman* paddy and sugarcane doing well No cattle-disease reported Fodder and water sufficient Common rice selling as follows —

	Srs.	
Bankura	16	per rupee
Vishnupur	15	

Midnapore—Rainfall at Sadar 5 45, Contai 11 39, Tamluk 8 70, Ghatal 5 28 Prospects of standing crops favourable Damage by grass-hoppers reported from Kessiari outpost Common rice sells as follows —

	Srs	
Sadar	12½	per rupee
Contai	14 to 15	
Tamluk	12	
Ghatal	12 to 14	

Hooghly—Rainfall at Sadar 6 36, Serampore 6 22, Jhanabad 3 90 Prospects of *aman* good Cattle disease prevails Common rice sells from 11 to 12 seers per rupee

Howrah—Rainfall at Sadar 4 49, Ulubaria 7 12 Weather threatening till 14th The recent rainfall has much improved the condition of *aman* both in Sadar and Ulubaria Harvesting of *aus* nearly finished. Fodder and water sufficient Common rice sells at 11 to 14 seers per rupee

24-Parganas—Rainfall at Sadar 5·05, Barasat 5 73, Basirhat 6 17, Diamond Harbour 9 25 Weather cloudy and rainy Prospects good The recent rainfall has done much good to the *aman* crop Cutting of *aus* and steeping and washing of jute going on Cattle disease reported from the Hasanabad police-station in the Basirhat subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11 to 12	per rupee
Barasat	15¼	
Basirhat	12 3/16	
Diamond Harbour	13	

Nadia.—Weather cyclonic in Kaliganj and some other thanas till the 15th Rainfall at Sadar 4 44, Kushtia 3 03, Meherpur 3 24, Chuadanga 3 19, Ranaghat 3 62 Prospects of *aman* good Sowing of *rabi* crops continuing Common rice selling at 12 to 14 seers per rupee Fodder and water sufficient No cattle-disease reported.

Murshidabad.—Rainfall at Sadar 9 18, Jangipur 2 41, Kandi 9 09 Weather seasonable The recent rain has done much good to the standing crops *Aman* plants, sugarcane, and mulberry doing well Cutting of jute nearly finished Fodder insufficient in places Common rice sells as follows —

	Srs	
Sadar	15	per rupee
Jangipur	16	
Kandi	16½	

Jessore—Weather cloudy, rainy, and windy Rainfall at Jessore 4 74, Jhenida 8 69, Magura 7 72, Narail 7 89, Bangaon 3 81 Ploughing and sowing of winter crops and of indigo commenced Floods subsiding in Bongaon No cattle-disease reported Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	16 to 17	per rupee
Jhenida	17 to 18	
Magura	18 to 20	
Narail	17-12¼ chs.	
Bangaon	16	

Khulna—Rainfall at Sadar 6 22, Bagirhat 7 29, Satkhira 7 18 Weather cloudy with heavy showers of rain Transplantation of *aman* over Prospects good Fodder and water sufficient Common rice sells as follows —

	Srs.	
Sadar	14 to 18	per rupee
Bagerhat ..	16	
Satkhira . .	15	
	21 (new *aus*)	

Rajshahi—Rainfall at Sadar 8 60, Nator 11 11, Naugaon 9 14 Prospects of crops good. No cattle disease Fodder and water available Rice sells from 12 to 23 seers per rupee

Dinajpur—Average rainfall 1·73 Weather cool Standing crops good No cattle disease Fodder and water ample Rice 15 seers a rupee

Jalpaiguri—Rainfall at Sadar 1 41, Alipur Duars 1 84 Weather seasonable, but last three days cloudy with high wind and showers Steeping of jute going on Prospects of standing crops good Fodder and water sufficient Common rice sells from 8 to 16 seers per rupee

Darjeeling—Rainfall at Darjeeling 1 41, Kurseong 2 10, Siliguri 1 37 Weather seasonable *Hills—Haimanti dhan, bara marua, kalai* and *phaphar* progressing *Terai*—jute being cut, *haimanti* paddy and *kalai* progressing Coarse rice sells as follows —

	Srs.	
Hills	8 to 10	per rupee
Terai	11 to 14	

Bhutta sells at Darjeeling 16 seers and at Kalimpong 44 seers per rupee

Rangpur—Rainfall at Sadar 5·26, Kurigram 7 23, Gaibanda 11 42, Nilphamari 1 4 Steeping of jute going on Transplantation of *aman* over Lands are being prepared for tobacco and potatoes Prospects fair Common rice selling at 12 seers per rupee Fodder and water sufficient

Bogra—Average rainfall 11 77 Heavy rain has fallen all over the district Transplantation of *aman* finished Preparation of land for *rabi* crops retarded for floods Prospects good Common rice sells from 13½ to 16½ seers a rupee Supply of fodder and water sufficient

Pabna—Rainfall at Sadar 2 40, Sirajganj 10 59 Weather cloudy and rainy Prospects of crops very good Price of common rice 13 to 16 seers a rupee

Dacca—Rainfall at Sadar 6 49, Manikganj 8 00, Munshiganj 5 46, Narainganj 4 94 Weather rainy during greater part of week. Harvesting of jute and *aus* rice continues Prospects of *aman* rice good Fodder available No cattle-disease Common rice 12 to 16 seers per rupee

Mymensingh—Rainfall at Sadar 12 96, Kishorganj 4 99, Netrokona 3 89 Weather rainy Prospects of paddy crop favourable Harvesting of jute nearly over Cattle are healthy Fodder and water sufficient Rice selling from 12 to 14 seers per rupee

Faridpur—Rainfall at Sadar 14 18, Goalundo 6 60, Madaripur 3 27 Heavy rain Prospects good Rice 14 to 20 seers per rupee

Backergunge—Rainfall at Sadar 6 47 Weather stormy Prospects of crops good Common rice sells from 10 to 17 seers (*aman*) and from 15 to 21 seers (*aus*) per rupee

Tippera—Rainfall at Sadar 9 19, Brahmanbaria 5 84, Chandpur 5 53 Clear after a very cloudy and cyclonic weather Harvesting of jute nearly completed The rain has done much good to the standing *aman* crop Fodder available Rice sells at 12 to 20 seers per rupee

Noakhali.—Rainfall at Sadar 10 26, Feni 4 04 Weather rainy Heavy rain has done good to crops Prospects satisfactory Cattle disease reported from Ramganj Fodder not good Water sufficient Price of rice—*aman* 11 to 14 seers and *aus* 16 to 20 seers per ample

Chittagong—Rainfall 3 30 Weather seasonable *Aman* still being transplanted Prospects good Prices steady Water and fodder sufficient

Patna—Rainfall at Sadar 2 26, Barh 48, Bihar 1 20, Dinapur 5 06, Hilsa 1 55, Bikram 68 Lands are being prepared for *rabi* crops Sowing of mustard and castor seeds in progress Prospects of paddy fair Prices almost stationary In Patna common rice sells at 16 seers a rupee Fodder and water for cattle sufficient

Gaya—Rainfall at Sadar 2 05, Jhanabad 94, Aurangabad 1 34, Nawada 43 Prospects of paddy favourable *Rabi* being sown Common rice selling at 16 seers per rupee

Shahabad—Rainfall at Sadar 1·26, Bhabua 18, Sasaram 14, Buxar 20 Weather cloudy with easterly wind More rain wanted Ploughing for *rabi* sowings continues Rice sells at Arrah 14 seers per rupee

Saran.—Rainfall at Sadar 59, Gopalganj 40 *Aghani* paddy generally doing well Ploughing for *rabi* continues, and sowing has begun Average prices are—Common rice 14 seers 11 chitaks, and *makai* 23 seers 10 chitaks per rupee

Champaran.—Rainfall at Motihari 58, Bettiah 10, Barharwa 24 *Bhados* harvesting almost over Lands being prepared for *rabi* crops Wheat is being sown Prospects of winter rice good, but rain wanted for high lands Cattle disease in Mainatand outpost Fodder sufficient Price of common rice 15 seers and of maize 23½ seers per rupee

Muzaffarpur—Rainfall at Sadar 61, Hajipur 2 34, Sitamarhi 85 Standing crops in good condition Lands being prepared for *rabi* sowings No cattle disease Prices are—Common rice 11 to 14 seers, wheat 15 to 18 seers, barley 19 to 20 seers, maize 22 to 35 seers, gram 14 to 17 seers, *rahar* 20 to 21 seers, and *marua* 25 to 27 seers per rupee

Darbhanga—Rainfall at Sadar 1·64, Samastipur 97, Madhubani 1 64 Weather cloudy and hot Paddy doing well Fields being prepared for *rabi* Tobacco and sweet potatoes being planted Difficulty for fodder still felt in the flooded tracts Rain has much benefited paddy on high lands, and prospects continue good Common rice selling at Sadar 12 seers per rupee

Mongnyr—Rainfall at Sadar 1 74, Begusarai 77, Jamui nil Weather hot in the beginning of the week, but latterly cloudy and cool Rapeseed and *rabi* are being sown Standing crops doing well Rain wanted for winter paddy and *rabi* cultivation at Begusarai late *Vahai*, *rahar* &c, were damaged to 30 per cent, and pepper crop to 50 per cent by floods in north of the Begusarai subdivision No cattle disease Common rice selling at Monghyr 13 seers, Begusarai 14 seers, and Jamui 15 seers per rupee

Bhagalpur—Weather seasonable Rainfall at Sadar 25, Banka 1 40, Madhipura nil, Supaul 02 Standing crops doing very well No cattle-disease except at Pratapganj Fodder and water sufficient Prices nearly stationary

Purnea—Rainfall at Sadar 1 49 Weather cloudy with strong easterly wind Prospects of *aghani* rice good *Rabi* sowings commenced Harvesting of jute still going on Cattle disease still continues in Araria Two fresh cases of *kaladukh* reported from Kishanganj Fodder and water sufficient Common rice sells as follows—

Sadar	17	seers per rupee
Kishanganj	18	,,
Araria	21	,,

Malda—Rainfall at Sadar 3 89, Shibganj 4 15, Gajole 5 24 Weather getting cool Prospect of winter paddy continues satisfactory Sowing of *kalai* progressing Lands are being prepared for *rabi* crops Coarse rice selling at 18 seers per rupee Fodder sufficient

Santhal Parganas—The very welcome rain (average 1 89 inches) has done immense good Prospects of all crops excellent Price of rice 14 to 18½ seers and of maize 32 to 45 seers per rupee

Cuttack—Rainfall at Sadar 7 50, Jajpur 8 11, Kendrapara 11 14, Banki 6 15 Weather showery and cloudy Harvesting of *beali* nearly over *Laghu sarad* in ear *Guru sarad*, *biri*, *mug*, and *arhar* growing well Cotton being plucked Jute being cut Sugarcane maturing Condition of cattle generally good, but disease prevails in places Fodder and water sufficient Common rice sells as follows—

	S	ch	
Cuttack	17	1	per rupee
Jajpur	17	1	
Kendrapara	19	11	
Banki	18	6	

Balasore—Rainfall at Sadar 12 69 *Sarad* being weeded Harvesting of jute and *aus* continues Insect-pest damaging *sarad* Sugarcane thriving well Rice sells from 14 to 21 seers per rupee in the interior, and at 16 seers at Balasore and Bhadrak Fodder and water sufficient

Angul—Rainfall at Angul 3 45 Prospects of crops good Rice selling at 20 seers per rupee at Angul

Puri.—Rainfall at Puri 10 52, Khurda 6 49 *Sarad* progressing well *Laghu* ripening and being cut in places State of sugarcane, *arhar*, gram, and other miscellaneous crops good Fodder and water sufficient Cattle disease reported from different parts of the district Common rice sells as follows —

	Srs	ch	
Puri	15	12	per rupee
Khurda	14	7	per rupee
Interior of district	14 to 18	2 to 6	per rupee

Hazaribagh—Drizzling rain Rainfall at Sadar 2 11, Giridih 1 13 The rain has much improved the state of the standing crops Full rice crop is expected Rice selling at 10 to 13 seers per rupee

Lohardaga—Rainfall 2 40 Harvesting of *gora dhan* continues State of standing crops good Rice sells at Ranchi 16 seers per rupee, and from 13 to 16 seers in the interior Cattle disease continues Fodder and water sufficient Grain in stock sufficient

Palamau.—Rainfall at Sadar 94 Weather seasonable Rain very beneficial for winter paddy and *rabi* sowings Rice sells from 15 to 22 seers per rupee

Manbhum—Rainfall at Sadar 3 22, Gobindpur 1 88 Weather seasonable Prospects of crops excellent Cattle-disease not reported Fodder and water sufficient Average price of common rice at Sadar 14 seers 1 chitak and at Gobindpur 13 seers per rupee Supply sufficient

Singhbhum—Rainfall 3 28 Prospects good Rice sell sfrom 12 to 16 seers per rupee

General Summary—There was heavy rain generally throughout the week in Bengal Proper and Orissa, in Bihar and Chota Nagpur the fall was less heavy This has on the whole been beneficial for the winter rice crop, but high lands in parts of Bihar require more rain A pest of insects is reported from parts of Midnapore and Balasore The cultivation of the *rabi* crops is progressing, and oil-seeds and pulses are being sown Cattle are generally in good condition except in a few flooded tracts, where the fodder supply is still insufficient Prices remain about the same as in the previous week New *aus* rice and *maha* are selling cheap,

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 18th October 1898

M. FINUCANE,
Secretary to the Govt of Bengal

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Calcutta, the 17th October 1898

C. LITTLE,
For Meteorological Reporter to the Govt of India

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF SEPTEMBER 1898

As not unfrequently happens during the monsoon season, an apparent reversal occurred in the rainfall distribution in September as compared with that of August In the latter month, as may be seen in a subsequent table rainfall was above the normal in the southern districts, while over a tract of country extending from the east of North Bengal westward over North Bihar, there was a considerable defect In September the heaviest rainfall was in North Bengal and Bihar, and the only division where the fall was below the normal was Orissa. A rainfall distribution of this kind shows that the monsoon current moving northwards over Burma or the eastern districts of the Province turned westward over North Bengal, instead of being deflected westward across the north of the Bay of the south of the Province

There was only one cyclonic storm of any importance It occurred about the middle of the month, and moving northwards from the north-west angle of the Bay towards Bihar broke up on reaching the Himalayas Throughout its course it caused heavy rain, and the falls were, as usual, very heavy along the hill districts after the depression filled up As in August, a shallow residual depression formed over Bengal, and after remaining fairly stationary for some time moved towards the north-west This shallow depression maintained the rainfall over the north of the Province, and it was not till the 22nd that the general rainfall, which commenced with the approach of the original depression, to a large extent ceased

The only other disturbances during the month were generally of small importance A shallow depression formed over the northern districts in the early days of the month, causing heavy rainfall in North Bengal and North Bihar, and towards the end another shallow depression commenced in the south east of the Bay It moved northwards into Burma, where it filled up But the inrush of monsoon winds which followed it northwards reached East Bengal, and caused showery weather about the beginning of the fourth week

As cloudy rainy weather was more frequent than usual, temperature on an average was below the normal, though not by large amounts, except in the north The difference from the normal maximum temperature varied from excess of 1° in Orissa to defect of 4° in part of Bihar and the difference in the case of night readings was about 1°

At the beginning of the month the pressure distribution over the Bay was not favourable for the prevalence of ordinary monsoon weather Pressure was increasing in the north, and a small excess had accumulated there, whereas towards the south there was defect The gradient was in consequence less steep than usual at the beginning of September Only a few scattered showers were falling in Bengal except in North Bengal, especially in the Jalpaiguri district, where heavy rainfall was general Temperature was above the normal over the Province and the Bay On the 2nd a fall of pressure began in the north, and continued on the 3rd, a very shallow low-pressure area forming along the hills Though the pressure differences were very slight, the resulting interaction of the light irregular winds caused rainfall over a steadily widening area, until on the 5th general rain was falling in all parts of the Province except Orissa The slight depression moved towards the west, but it was not till the 8th that it ceased to influence weather in the extreme north Many stations in North Bengal and North Bihar received heavy falls on the 7th and 8th

On the 9th the pressure distribution was similar to that at the beginning of the month The excess over Bengal was smaller, but there was still a low pressure area over the south of the Bay Within this area the depression of the middle of the month probably began to develop, but it was not till the 11th that it became well defined, and it was then approaching the north of the Circars, where pressure was lowest It was a diffused depression extending over the whole area and apparently shallow at the centre, the greatest defect reported on the 11th being less than 1 inch in the Circars Very little change of position was shown on the 12th, but the depression was deeper, and as pressure was rising in the south of the Bay the gradient was considerably more steep to the south-east of the centre Winds were strengthening at Diamond Island, and weather had probably become squally over the east and centre of the Bay The disturbance developed considerably between the 12th and 13th, during which time a rapid fall of pressure occurred in the north-west of the Bay, the greatest reported being 16 inch from the Orissa stations The depression was then moving northwards, the centre was to the east of Puri, probably at no great distance from the Orissa coast, and the gradient was steepest towards the east The variation from the normal in the central area was about 25 inch

The centre of the depression crossed the coast to the south of Balasore, and on the morning of the 14th was near Chaibassa, where the barometric reading was 29 23 inches Weather had been stormy over the north of the Bay, and as the centre of the disturbance moved northwards, heavy rainfall became general On the 14th the heaviest falls were in

Orissa and South-West Bengal, but many stations in East Bengal also reported falls of more than 1 inch On the 15th the centre was near Dehri with but little change in the depth Strong winds with heavy rain prevailed in the north of the Province during the 15th, and though the winds were moderating on the 16th after the depression had filled up, there was still very heavy rainfall in North Bihar and North Bengal

During the 15th rapid changes of pressure occurred in the western districts, over which the area of lowest pressure passed They varied from a rise of 3 inch at Chaibassa to a fall of the same amount at Dehri The depression remained undiminished as to depth, and caused stormy weather in the north of the Bay and over the whole Province between the 13th and 16th

Pressure continued to rise rapidly in Bihar on the 16th and 17th, and the distribution had then become very nearly normal The rapid increase in the west had given rise to a shallow residual depression over Bengal—a feature of cyclonic disturbances which has been very noticeable during the present monsoon season Remaining stationary over Bengal, they have caused general and, in some cases heavy, rainfall for several days, owing to the indraught towards the area of low pressure On the 17th and 18th rainfall was more scattered, but as the residual depression remained and gradually deepened, the falls became more general On the 20th moderate to heavy rain was falling in every part of the Province

The depression on that date was well defined over Lower Bengal with a defect of more than 1 inch in the central parts, and was moving towards the north-west The gradient was steeper than usual over the north of the Bay, and a strong monsoon was blowing across the Bengal coast and maintaining the rainfall, which continued in most districts till the 22nd, and was very heavy in Bihar on the 21st On that date the area of lowest pressure was over South Bihar, a rapid rise of pressure having occurred in the east of the Province The rise extending westward, the depression had disappeared by the 22nd

During these two last days pressure had been falling in the south east of the Bay, a depression forming over the south of Burma It remained shallow and moved northwards into Burma, causing moderately heavy rain in the districts over which it passed It was felt slightly in the east of the Province on the 24th, and caused fairly general rain in East Bengal Pressure then rose, and was in considerable excess over the Province and the north of the Bay, remaining normal farther south In consequence the distribution of pressure was more uniform than usual, and westerly winds prevailed during the closing days of the month with an almost entire absence of rain in places, and nowhere more than scattered showers

Pressure without differing much from the normal was during a great part of the month favourable for the continuance of monsoon winds At the beginning and end of the month there was a small to moderate excess, while at other times there was usually a small defect The only occasion of a difference from the normal greater than 1 inch was on the 14th and 15th, while the cyclonic storm was passing over the western districts Within the central area defect was about a third of an inch

On an average for the whole month the differences from the normal are very small They vary from excess of 01 inch in East Bengal to defect of 02 inch in the west of Bihar

Temperature—Owing to the cloudy weather, which was prevalent during September, temperature was frequently below the normal—most so in the middle of the month Means for the month were normal in South West Bengal and Chota Nagpur, and about half a degree above in Orissa, but elsewhere there was defect—greatest in Assam, North Bengal, and Bihar, where it was upwards of 1°

The defect in mean maximum temperature ranged up to 3° in the northern districts, the difference in the case of minima being much smaller and rarely more than 1°

Rainfall—was more continuous than usual in September, and though scattered in the early part of the month and again towards the end, no marked break occurred All the large divisions received more than the average except Orissa, where there was a deficiency of 18 per cent The heaviest falls were in Bihar and North Bengal—in the former 221 and the latter 161 per cent of the normal There was a small excess in Lower Bengal, and a moderate excess in Chota Nagpur

In Chota Nagpur, Orissa, and a considerable part of Lower Bengal the falls at the individual stations varied from 7 to 10 inches Towards the north the amounts increased rapidly In South Bihar and the central districts of Bengal proper they varied from 10 to 20 inches, while in North Bengal and Bihar they were generally over 20 inches and in places between 30 and 40 inches.

The difference from the normal ranged from defect of 5 inches on the Orissa coast to excess of 5 inches on a line running almost east and west across the central districts To the north of this line excess varied from 5 inches to 10 inches in South Bihar and the southern half of North Bengal In the extreme north it was between 10 and 20 inches

The following table gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first nine columns giving the actual average falls in each division for each month expressed as a percentage of the normal, while

the tenth column gives the actual rainfall of the first nine months as a percentage of the normal rainfall for that period —

Meteorological Divisions	January	February	March	April	May	June	July	August	September	Actual rainfall of first nine months of 1898 expressed as a percentage of the normal fall for the period.
South West Bengal	120	16	2	64	88	124	82	138	116	105
North Bengal	119	162	6	82	88	114	80	87	161	104

Chota Nagpur	2	116	3	80	47	150	98	109	133	109

The following table contains full data for the comparison of the actual and normal rainfall of the month of September in all districts of the Province The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the monthly meteorological tables The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 25 years, the second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district, the third column expresses the ratio of the actual district fall of the past month to the normal rainfall as a percentage, and the fourth column states as a percentage how much the district rainfall for the month varied from the normal —

Percentage Table for September 1898

Division	District	Normal district rainfall for September	Actual district rainfall for September 1898	Percentage of actual to normal rainfall	Percentage excess (+) deficit (−)
South West Bengal	Burdwan	7 62	12 00	157	+ 57

NOTIFICATION.

PUBLIC,

Simla, the 19th October 1898

No 2084 —The following draft of a rule which it is proposed to make in exercise of the power conferred by section 7 of the Indian Explosives Act, 1884 (IV of 1884), is published as required by section 18 of the said Act and in accordance with the directions contained in the Notification of the Government of India in the Home Department, No 1964, dated the 2nd September 1887, for the information of all persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration on or after the 1st December 1898 Any objection or suggestion which may be received from any person in respect of the said draft before the date aforesaid will be considered by the Governor-General in Council —

Draft rule

The Chief Inspector of Explosives with the Government of India may, in any part of British India,—

(*a*) enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed, used, sold, transported or imported under a license granted under the Indian Explosives Act, 1884 (IV of 1884), or in which he has reason to believe that an explosive has been or is being manufactured, possessed, used, sold, transported or imported in contravention of that Act, or of the rules thereunder;

(*b*) search for explosives therein,

(*c*) take samples of any explosives found therein on payment of the value thereof, and

(*d*) seize, detain, remove and, if necessary, destroy any explosive found therein in respect of which he has reason to believe that the provisions of the said Act or of the rules thereunder have been contravened

Provided that—

(1) whenever he detains or removes any such explosive he shall report the fact to the District Magistrate, and

(2) he shall not destroy any such explosive without the previous sanction of the District Magistrate.

MARINE DEPARTMENT

The 19th October 1898

No 158 Marine —The following notification issued by the Government of India is republished for general information

A D McARTHUR, *Col*, R E,
Secy to the Govt of Bengal

No 1155, dated Simla, the 7th October 1898

NOTIFICATION—By the Government of India, Home Department.

THE following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 4, sub section (3), of the Petroleum Act, 1886 (XII of 1886),

as amended by section 3 of the Petroleum Act, 1898 (VII of 1898), is published for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration by the Governor-General in Council on or after the 1st December 1898

2 Any objection or suggestion which may be received from any person with respect to the draft before the date aforesaid will be considered by the Governor-General in Council —

Draft Notification

In exercise of the power conferred by section 4, sub-section (3), of the Petroleum Act, 1886 (XII of 1886), as amended by section 3 of the Petroleum Act, 1898 (VII of 1898), the Governor General in Council is pleased to direct that the following addition shall be made to the schedule to the said Petroleum Act, 1886 —

"IV —Directions for determining the flashing point of petroleum which is not fluid at ordinary temperatures

1 *Nature of the test apparatus* —The instrument employed is the Abel-Pensky petroleum testing apparatus, fitted with an additional thermometer to indicate the temperature of the oil in close proximity to the walls of the cup This thermometer has a cylindrical bulb, $\frac{1}{2}$ inch in length and $\frac{1}{16}$ inch in diameter It is scaled from 45° to 165° Fahrenheit, ten degrees on the scale occupying $\frac{3}{4}$ inch The thermometer is held vertically in a socket attached to the cover of the oil cup in such a position that the bulb is $\frac{1}{16}$ inch from the side of the cup

(The thermometer can be removed and the orifice which is provided for it closed by means of an India-rubber plug, if the apparatus is required for testing petroleum in the ordinary way)

2 *Directions for preparing the sample for testing* —About ten fluid ounces of the oil are placed in a pint flask, the mouth of which is then closed with an India rubber stopper, and the sample is liquefied by placing the flask on a water bath, the temperature of which is only raised sufficiently high to liquefy the oil

3 *Directions for preparing and using the test apparatus* —The water bath and test lamp are to be prepared in the manner prescribed in Part III of this Schedule The oil cup is to be filled with the liquefied oil, and the cover (into which both thermometers are to be previously inserted) placed on it, care being taken that the bulb of the additional themometer is not brought into contact with the bracket gauge fixed inside the cup The oil cup is then to be placed in a refrigerator, or plunged up to the projecting collar in water maintained at a sufficiently low temperature, until both thermometers indicate the temperature at which the testing of petroleum is directed in Part III of this Schedule to be commenced The oil cup is then to be removed, wiped dry, placed in the water bath and the testing effected in the manner prescribed in Part III of this Schedule, the temperature indicated by the additional (vertical) thermometer *alone* being noted, and the average of three determinations, duly corrected for atmospheric pressure, being recorded as the flashing point of the sample, provided that no greater difference than 4° Fahrenheit exists between any two of such results "

The 19th October 1898

No 154Marine —The following order No 861Marine, dated 11th October 1898, issued by the Government of Madras, regarding the withdrawal of quarantine regulations imposed by that Government on arrivals from Calcutta, is published for general information

Advertisements.

[N B —Advertisements Notices, &c, intended for insertion in this part of the Gazette cannot be received after Noon on Monday]

LAND SALE NOTICES

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estate situate in the district of Bankura, will be put up to sale at the Bankura Collectorate on the 21st November 1898, corresponding with 6th Aghran 1805 B S [Bengali Tash or Umli according to the era current in the district]

The purchasers will be subject to the following conditions of sale —

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities

3rd.—If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once

4th.—If the amount of purchase money exceed Rs 100 one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one or, if that day be a close holiday, then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale

Deli river—Intended alteration in character of lights

With reference to Notice to Mariners, No 215, dated the 5th November 1897, issued by this office, the British Admiralty has given further notice (No 502 of 1898) that the undermentioned alterations will be made in the character of certain lights at the entrance to Deli river —

Deli light-vessel, now showing a *fixed white* light, will in future show an *occulting* light with a period of *twenty five* seconds, thus, light *fifteen seconds*, followed by an eclipse of ten seconds, otherwise it is unaltered

Approximate position, lat. 3° 53′ 35″ N, long 98° 43 30′ E

Also that the red buoy showing a *fixed red* light, situated with Batu Chamal trees bearing N 27° W, and Deli harbour light S 23° W, distant 2⅛ miles, now shows a *flashing white* light

Port of Quilon—Buoys placed in position

THE Master Attendant, Alleppey, has given notice, dated 24th September 1898, that the *Buoys* marking the Reef and Rock which form the entrance to Quilon Roads have been placed in position as under —

Red (Northern) Buoy—

Bearing to Flagstaff, N E × E ¼ E, distance about 8½ cables
Do to Latin Church, N × W ¼ W., distance about 8½ cables

Black (Southern) Buoy—

Bearing to Flagstaff, N E ¼ N, distance about 9 cables
Do to Latin Church, N × W ¼ W, distance about 1 mile 1 cable

N B —The Black Buoy is about ¾ cable nearly due North of the position marked on the Charts—a fact which must be borne in mind either when approaching the entrance from the South or when turning to go South.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ROAD AND PUBLIC WORKS CESS OPERATIONS FOR THE YEAR 1897 98

FINANCIAL DEPARTMENT—ROAD AND P W CESS

Darjeeling, the 21st October 1898

RESOLUTION—No 419T F

READ—

The Report of the Board of Revenue on the Road and Public Works Cess operations for the year 1897 98

THE Road and Public Works Cesses were levied at the maximum rate of one anna in the rupee during the year under review in all the 43 districts in which Act IX (B C) of 1880 is in force The following table compares the main results of the working of the Act during the past two years —

		1896 97	1897 98
(1) Current net demand	Rs.	86,61,682	89,56,309
(2) Arrear „ „	„	17,24,415	17,82,378
(3) Total „ „	„	1,03,86,097	1,07,38,687
(4) Total collections	„	86,16,072	88,71,603
(5) Remissions	„	63,283	81,813
(6) Net balance	„	17,91,576	18,75,410
(7) Percentage of total collections on current demand	„	99 4	99 0
(8) Percentage of current collections on current demand	„	82 8	84 3
(9) Percentage of arrear collections on arrear demand	„	83 2	80 2
(10) Number of revenue-paying estates assessed		234,835	246,638
(11) Number of revenue free estates and rent free tenures assessed		140,775	145,271
(12) Number of tenures assessed		1,476,126	1,521,897
(13) Number of recorded shareholders in estates		1,433,810	1,465,359
(14) Number of recorded shareholders in tenures		2,546,100	2,606,190
(15) Current demand of land revenue	„	3,83,83,326	3,89,33,272

2 The year opened with a current demand of Rs 86,04,920 against Rs 85,50,597 in 1896 97, an increase of Rs 54,323, which was principally the result of revaluations in the districts of Jalpaiguri, Rangpur, and Patna, which came into effect from the 1st April 1897. During the year the additions to both the arrear and current demands amounted to Rs 4,24,047, of which Rs 3,63,046 were added by the districts of Burdwan, Midnapore, Jessore, Dacca, Mymensingh, Patna, Monghyr, and Bhagalpur The increase in Burdwan was due to the assessment of mines, and in the remaining districts to revaluations The total collections show an increase of Rs 2,55,621 over the figures of the previous year, but owing to the enhanced demand, the balance outstanding at the close of the year increased from Rs 17,91,576 in 1896-97 to Rs 18,75,440 The percentage of total collections on the current demand was 99 0 against 99 4 Having regard to the effects of famine and earthquake from which the province suffered during the year, the result is remarkable

3 For the purpose of examining the percentages of current and arrear collections, districts are grouped in the following four classes, figures for three years being given to better indicate the districts which consistently show good or bad results —

I —Districts in which current collections are above 90 per cent and arrear collections above 80 per cent.

II —Districts in which current collections are above 90 per cent and arrear collections below 80 per cent

III —Districts in which current collections are below 90 per cent and arrear collections above 80 per cent

IV —Districts in which current collections are below 90 per cent and arrear collections below 80 per cent.

4 The following districts succeeded in attaining the standard of cess administration necessary to qualify for the first class —

District	Percentage of current collections on net current demand			Percentage of arrear collections on net arrear demand		
	1897 98	1896 97	1895-96	1897-98	1896 97	1895 96
1	2	3	4	5	6	7
Singhbhum	100	99 9	99 6	100	100	83 3
Jalpaiguri	99 7	99 7	99 7	100	100	88 2
Darjeeling	99 7	99 8	91 0	94 4	100	100
Puri	97 2	96 6	97 3	100	99 0	90 6
Malda	96 7	97 5	97 3	99·2	99 2	99 5
Dinajpur	95 7	94 7	95 3	100	99 9	99 6
Bogra	94 8	95 7	93 9	100	99 9	98 0
Hazaribagh	94 4	96 3	93 4	93 8	97 6	99 8
Birbhum	94 3	94 7	93 1	99 3	98 1	96 8
Noakhali	92 4	92 4	92 5	96 7	96 5	91 7
Rangpur	91 8	92 2	90 5	99 4	98 3	96 7
Rajshahi	91 6	92 4	93 2	98 3	96 9	90 2
Dacca	90 0	90 7	90 9	90 3	90 6	80 2

All of these districts, except Singhbhum and Rajshahi, showed equally good results during the previous three years, and the results are creditable to the officers concerned Though Dacca, Hazaribagh, and Darjeeling retain their former position, they show a decrease in both the current and arrear collections No explanation has been furnished of this falling off Both current and arrear demands were realized in full in Singhbhum, while the districts of Jalpaiguri, Puri, Dinajpur, and Bogra succeeded in collecting the whole arrear demand. Nadia and Mymensingh have descended during the year from Class I

to Class III, while Purnea, which in the preceding year rose to this class from Class III, has fallen to Class IV

5. The districts which fall in the second class are the following —

District	Percentage of current collections on net current demand			Percentage of arrear collections on net arrear demand		
	1897 98	1896-97	1895 96	1897-98	1896 97	1895 96
1	2	3	4	5	6	7
Balasore	93 4	95 8	93 3	67 0	73 2	73 1
Pabna	92 3	90 1	90 4	72 3	72 1	84 0
Burdwan	90 5	90 3	91 1	47 0	53 0	49 9

The list has decreased by one district, Khulna having fallen to Class III owing, it is said, to the failure of the crops in 1896 97 The decrease in both the current and arrear collections in Balasore is also attributed to the deficient harvests of 1896 97 In Burdwan the current collections are stationary notwithstanding an increase in the current demand, and the Board of Revenue ascribe this in part to the fact that the assessment of coal mines in the latter part of the year rendered the realization during the year of the cess due from them impossible The diminution of 6 per cent in arrear collections is attributable to the difficulty experienced in serving notices upon petty co sharers owing to the properties changing hands

6 The districts of the third class are the following —

District	Percentage of current collections on net current demand			Percentage of arrear collections on net arrear demand.		
	1897 98	1896-97	1895-96	1897-98	1896-97	1895-96
1	2	3	4	5	6	7
Lohardaga 99 8	86 0	76 1	68 9	100	100	100
Palamau 87 2	75 0	81 7	85 8	99 6	99 7	99 8
Champaran 60 9	60 9	60 3	77 7	98 4	95 9	97 3
Backergunge 93 5	85 0	85 6	80 7	97 7	98 7	98 5
Nadia 85 2	84 5	90 2	84 8	97 3	96 0	97 8
Jessore 95 7	81 5	82 0	81 6	97 3	90 0	95 6
Midnapore 79 4	75 3	82 7	79 8	95 7	87 1	87 1
Mymensingh 87 8	88 2	90 1	93 2	93 0	87 6	91 7
Tippera 90 4	82 0	86 4	87 5	92 4	91 3	91 1
Chittagong*	79 0	82 0	83 9	89 5	79 0	95 7
Manbhum 86 4	76 7	50 1	59 6	89 4	99 5	99 9
Patna 82 7	73 6	74 8	74 4	88 6	87 1	79 7
Gaya 85 5	76 3	74 0	62 6	89 3	84 6	60 4
Khulna 95 6	89 2	91 4	91 7	86 1	78 5	90 8
Muzaffarpur 72 7	67 3	68 2	69 7	84 8	83 7	84 9
Darbhanga 91 0	84 9	84 8	79 8	83 7	90 6	76 3
24 Parganas 88 2	84 0	85 0	85 4	80 4	87 8	83 5

* The last kist (25th February) of the year in this district became payable on the 12th of March 1898

The figures in the first column of the above statement represent the percentages of current collections on the net current demands of the districts against which they are noted, after eliminating the sums affected by the period of grace, which ended after the close of the year, for the realization of which no coercive measures could be taken within the year The balance thus arrived at is the true arrear, for the collection of which the District Officer is responsible Cuttack, Faridpur, Bhagalpur, and Monghyr have descended to Class IV while, as stated before, Nadia and Mymensingh have come down to this class from Class I, and Khulna from Class II, and Chittagong has gained a step from Class IV The number of districts in this class, therefore, remains the same as in 1896 97 Eliminating the amounts affected by the 15 days' grace, Lohardaga, Backergunge, Jessore, Tippera, Khulna, and Darbhanga reached the standard prescribed for current collections during the year under review The short collections in the districts of Palamau, Champaran, Nadia, Jessore, Patna, Gaya, Khulna, Muzaffarpur, and Darbhanga are generally ascribed to the prevalence of scarcity in the first six months of the year, which prevented voluntary payments being made before the close of the year This explanation can scarcely be valid as regards Gaya, which was little affected by scarcity In Champaran it is stated that the Bettiah Raj and other zamindars paid their tax after the close of the year In Nadia a sum of Rs 17 062 was realized after the close of the year, which, if taken into account, would bring the percentage of current collections above the prescribed standard About a quarter of the outstanding balance in Gaya is due from the seven annas Tikari Raj, which, it is reported, has for several years been responsible for a considerable portion of the balance unrealized at the close of the year, while evasion of payment by the proprietors of petty estates, in the hope of their dues being paid by their co sharers, coupled with the increase of assessment owing to revaluation, is said to have occasioned the poor results in Darbhanga The short collections in Manbhum are reported to be chiefly due to defaults by the encumbered estates managed under Act VI of 1876 The Board of Revenue have rightly impressed on the Deputy Commissioner that the demand of cesses due to Government is a first charge on the moneys received by the managers of the estates, and an improvement in this year's collection is looked for The poor results in Chittagong are due to the cyclone of October 1897 In explanation of the short collections in Midnapore, it is observed that orders sanctioning the revaluation of the district were received late, and demand notices could not, in the majority of cases, be served in time The percentage of current collections in this district has declined from 82 7 in 1896-97 and 79 8 in 1895 96 to 75 3 in the year under review, and energetic measures must be taken to put matters on a proper footing In Backergunge the proprietors took advantage of the period of grace in making payments, and there were errors of procedure in the Certificate Department, which were, however, detected and remedied by the Collector The poor results in Mymensingh are attributed to defaults by some of the large zamindars and to payments being made in many cases according to the former unrevised rates The explanations given in the case of the two latter districts are considered by the Board to be unsatisfactory, and they agree with the Commissioner in thinking that the short collections are due to preventible causes In the 24 Parganas the reason assigned is that petty defaulters availing themselves of the concession granted in 1895, whereby the levy of interest for petty arrears was forbidden, withheld payment of cesses until the issue of attachment and sale notices In Tippera the short collections were due to the delay made by the Raja of Tippera and the Receiver of the Pankara Estate in paying their dues

7 The following are the districts of the fourth or lowest class The list has grown considerably in the year under review, the number having risen from 6 in 1896-97 to 10 in 1897-98 —

District	Percentage of current collections on net current demand			Percentage of arrear collections on net arrear demand		
	1897 98	1896-97	1895 96	1897 98	1896 97	1895 96
1	2	3	4	5	6	7
Murshidabad 89 7	89 7	89 2	83 1	60 9	59 3	59 6
Purnea 90 9	89 7	93 3	88 1	35 0	91 4	83 1
Bankura 90 4	87 1	87 4	88 2	59 7	52 7	51 1
Bhagalpur 92 5	86 1	88 9	86 3	76 7	83 0	93 5
Shahabad 93 7	85 5	82 4	81 6	77 3	76 7	70 1
Cuttack*	84 7	81 6	80 0	79 8	90 5	81 5
Monghyr 85 5	79 4	78 4	79 7	79 2	81 5	70 1
Faridpur 86 0	76·9	79 3	79·3	75 6	84 7	92 6
Hooghly 77 8	73 8	63 7	65 6	48 8	53 2	50 0
Saran 67 7	63 9	56 2	65 2	68 8	79 3	78 8

* There is no March list in this district

The figures in the first column give the same information as the figures in the first column of the statement for third class districts Murshidabad, Bankura, and Shahabad have appeared in this list for at least five years, while Saran and Hooghly have figured in it since 1894 95 Compared with the previous year's figures, arrear collections fell off in all the districts except Murshidabad, Bankura, and Shahabad, the most marked decrease being in Purnea, where the percentage fell from 91·4 in 1896-97 and 83 1 in 1895 96 to 35 0 in the year under review The explanation given is that assessees, under a mistaken impression that the new, which is also a reduced assessment, had effect in 1896 97, made payments accordingly, whereas it only came into effect from the beginning of 1897-98 The poor results in Murshidabad are ascribed to the perfunctory nature of the valuation of rent free lands, to the difficulty experienced in ascertaining the boundaries of such lands for taking steps to put them up to sale, and in tracing the successors of deceased owners of the lands The Board have under their consideration a proposal, which appears to be very necessary, for the revaluation of rent free lands in this district, and the Lieutenant Governor awaits their report on the subject It is most unsatisfactory that there should be any question as to the propriety of the amount of the cess In Purnea a sum of Rs 13,591 was struck off from the demand of 1897-98, but it was not shown in the accounts until after the close of the year Had this deduction been made in time, the percentage of current collections would, it is stated, have been above the prescribed standard The short collections in Bhagalpur are attributed to the temporary confusion in the Cess Department caused by the introduction of the new valuation, which was not sanctioned till June 1897 In Shahabad scarcity prevailed in the first six months of the year and the Surajpara Estate failed to pay the cesses for the March list before the close of the year The explanation is not sufficient, but it is noted that there has been a considerable improvement on the results of the previous year, and the Board think that the collections are now well in hand The falling off in Cuttack is ascribed to the delay in the Certificate office in filing certificates before the close of the year, while the short collections in Monghyr are attributed to a bad harvest, to the evasion of payment by proprietors of petty estates in the hope of their dues being paid by their co sharers, to the incomplete state of land registration, and to the payment of cesses by large zamindars through banks or agents, who, while getting the chalans passed in the Road Cess office before the expiry of the period of grace, do not make payment until the arrear list is filed, and thus appropriate the difference between the high interest they are able to obtain by lending in the open market and the low interest they have to pay to Government for late payments The result of the further report called for by the Board on the suggestions made to check this delay is awaited The bad results in Faridpur were chiefly due

to laxity in both the Cess and Certificate Departments The Lieutenant-Governor trusts that the Collector will exert himself to secure better success in future The reasons assigned in Hooghly are the disinclination of the proprietors to pay the cesses owing to high prices of food grains, the abortive results of certificate cases, the unwillingness of co sharers to pay their share of dues, and the difficulty experienced in realizing by the certificate procedure the demands of about 24,000 rent-free holdings Prevalence of scarcity in the first half of the year and the unsatisfactory state of land registration account for the short collections in Saran, but the Board agree with the Collector in thinking that the failure to reach the prescribed standard is chiefly attributable to defects in the Cess office, and it is trusted that these will be removed at an early date

8 Arrears amounting to Rs 1,306 became barred by limitation in five districts, against Rs 12 891 in nine districts in 1896 97 Patna heads the list with Rs 666, followed by Darbhanga, Midnapore, Hooghly, and Jessore with Rs 469, Rs 113, Rs 54, and Rs 4, respectively These amounts, with the exception of that against Darbhanga which is under recovery by certificate, have all, of course, been remitted

9 The following statement illustrates the working of the certificate procedure in the realization of the cesses during the last two years —

	1896-97	1897 98
Certificates pending from the previous year	36,034	52,493
Filed during the year	104,645	101,410
Total for disposal	140,679	153,903
Cancelled on objection	1,781	1,601
Struck off	3,246	5,210
Fully discharged	83,165	102,517
Pending at the close of the year	52,487	44,575
Sales effected	2,353	2,866
Sales set aside	50	51

It is satisfactory to notice that there was a decrease both in the number of certificates filed during the year and in the number of pending cases The former fell off by 5,235 and the latter by 7,912 The largest number of certificates was filed in the districts of Saran (9,728), Hooghly (8,339), Gaya (7,826), Darbhanga (6,030), Monghyr (5,868), and Chittagong (5,390 The number of objections filed against certificates was 7,658 against 7 279 in 1896 97 In 1,601 cases certificates were cancelled on objection, and reductions in the amount certified were made in 458 cases In Gaya, Hooghly, Saran, Monghyr, Dacca, and Bhagalpur, the number of cancellations was 389, 249, 188, 150, 137, and 76 out of 1,086, 814, 702, 499, 391, and 167 objections disposed of respectively In Gaya most of the certificates cancelled were on account of rent free lands in respect of which there were double assessments or in cases where the lands or their holders could not be traced The defective state of land registration is the chief cause of the large number of cancellations in Saran, Dacca, Monghyr, and Bhagalpur

10 The second complete revaluation of the district of Patna, which was sanctioned in October 1893 and commenced in February 1894, was brought to a close during the year The result of the work was an increase in the cess demand of the district from Rs 3,56,005 to Rs 4,62,303 The net cost after deducting fines, searching fees, and stamp receipts was Rs 25,606, which is about 25 per cent of the increase in the annual demand The good work done by the Cess Deputy Collector, Babu Gopikrishna Lal, has been noted The first valuation of the district of Mymensingh, consisting of 6,171 estates, was carried out in 1875 Partial revaluations of 2,151 estates were made from time to time from 1880-81 to 1893 94 The number of estates remaining to be revalued was therefore 4,020 With a view to complete the revaluation of the whole district, sanction was accorded in February and May 1894 to the revaluation of 4,611 estates, composed of the abovementioned 4,020 estates, 487 estates which though they had been revalued, were taken for a second revaluation as having been revalued more than five years ago, and 104 estates which had resulted from partition effected in some of the preceding 487 estates The

operations commenced from the 1st August 1894, and their results show an increase in the valuation of these estates from Rs 43,20,564 to Rs 53,86,228, which is reported to be due to the increase in the value of the lands, to the judicious selection of tenures by the revaluation officers for their valuation on returns, to the proper assessment of *ny-jote* lands which were undervalued at first, and to the local enquiries made by the kanungos especially employed for the purpose The net cost, after deducting Rs 24,454 realized on account of fines and stamp-fees, was Rs 34,518, which is about half the annual increase obtained in the cess demand Notice has been taken of the good work done by Babu Purna Chunder Nag in connection with this work Partial valuations and revaluations were also completed in the districts of Nadia, Khulna, Dinajpur, Bogra, Pabna, Dacca, Chittagong, Shahabad, and Purnea

11 Statement VI, appended to the Report, compares the gross rental in each district for 1897-98, calculated from the returns under the Cess Act, with the gross rental ascertained on the same basis when the road cess was first introduced, and the gross rental of the preceding year The results for the province are as follows —

		Rs
Gross rental at first assessment		13,11,68,432
Ditto in	1896-97	15,94,99,305
	1897-98	16,31,49,222

The increase up to date amounts to Rs 3,19,80,790 on the rental when the road cess was introduced, but it is to be noted that over 2½ lakhs of this represent the road cess now levied in Singhbhum—a district which was not valued when the Cess Act was first introduced The largest proportionate increase has been in Bankura, where it was 155 per cent The increase exceeded 50 per cent in Jalpaiguri, Muzaffarpur, Monghyr, Birbhum, Balasore, and Hazaribagh Only the districts of Murshidabad and Jessore showed a decrease of gross rental in 1897-98, as compared with the gross rental at the first assessment, the decrease in Jessore being due to a portion of the district having been separated to form the new district of Khulna The decrease in Murshidabad is said in the previous year's report to have been due to the transfer of some estates to Birbhum

12 The names of the Deputy Collectors whose work is favourably noticed by the Board will be communicated to the Appointment Department

13 The Lieutenant Governor's thanks are due to the Board of Revenue for their careful and efficient administration of the Department

By order of the Lieutenant Governor of Bengal,

E N BAKER,

Offg Secy to the Govt of Bengal

No. 5191A.

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

ACCOUNTS

Dated Calcutta, the 25th October 1898

RESOLUTION.

Purchase of Stores in England and locally by the General and Irrigation Branches of the Public Works Department of the Government of Bengal, during 1897-98

READ—

(1) Letter from the Government of Bengal, Public Works Department, No 5051A, dated the 29th September 1898, submitting to the Government of India, Public Works Department, the statement of expenditure on stores in the General and Irrigation Branches of the Public Works Department of the Government of Bengal for the year 1897 98

(2) Letter from the Government of India, Finance and Commerce Department, No 1426S R, dated 25th March 1895, pointing out that, as it is understood that several of the principal engineering firms in India now possess the apparatus necessary for the proper testing, both of the raw material and of the finished product, the fullest use should be made, subject to the prescribed precautions, of the liberty to procure supplies in India

(3) Resolution on the operations of the Public Works Department, Bengal, in 1896 97 in respect of purchases of stores in England and locally

REMARKS —The following information is published, showing the operations of the Public Works Department of this Province in 1897 98 in respect of purchases of stores in England and locally

2 The total cost of stores entirely obtained from England was Rs 87,104 as against Rs 1,44,100 in 1896 97. The following is a list of the principal items —

	Rs	
Steel flange rails	2,249	This was required by the 1st Calcutta Division for use in the Akra Brick Factory
Rolled iron joists	6,586	These were required for use in the extension of the Out-patients' Department, Campbell Hospital, Sealdah, special repairs to Jail buildings at Hooghly, and to No 3, Church Lane, Calcutta, and quadrennial repairs to various Imperial and Provincial buildings in the 2nd Calcutta Division
Rolled steel joists	8,664	These were required for the Subdivisional Court, Patuakhali, Magistrate's Court, Burdwan, Munsif's Court, Araria, Telegraph Office, Comilla, Chemical Block Medical College, Calcutta, and other works in the 1st Calcutta Division
T-iron	1,441	These were obtained for the extension of the Out-patients' Department, Campbell Hospital, Sealdah, and the construction of a cast iron spiral staircase, &c, in the Foreign Office, Calcutta, and for works in the Nadia Rivers Division
Wrought-iron Tees	3,573	These were required for Magistrate's Court at Burdwan and Telegraph Office at Comilla
Wrought-iron B B Tees	1,484	These were required for constructing Subdivisional Court at Netrokona
Wrought-iron bars	3,883	These were required for Chemical Laboratory Block, Medical College, Calcutta

	Rs	
Corrugated-iron sheets	9,212	These were obtained for various works and repairs executed in connection with Government buildings
Wrought iron bed plates	1,013	
White glazed square tiles and angle heads	6,520	These were required for use in the Out-patients' Department Medical College, Calcutta
Iron angle bar flat	2,410	These were required for works carried out in the Buxar Central Jail
Wrought iron plates	1,360	These were brought on to stock of the Balasore Division when sent out, and were used on works in connection with the establishment of the Ordnance Proof Department at Balasore
Round iron	1,556	
Mild steel sheets	1,632	These materials were brought on to stock when sent out, and were used as required on various works executed at the Government Workshops at Jobra
Wrought-iron galvanized channels	2,171	
Iron of sorts	2,577	
Iron chains	1,532	These were obtained for stock in Delhi Workshops Subdivision.
Candles	2,410	These were obtained for use in the Jablochkoff system of lighting in the Eden Gardens, Calcutta
Syde's floor tiles	9,210	These were required for the office of the Comptroller of Post Offices, Calcutta
Copper tape	1,831	These materials were obtained for use in the various new works and repairs executed to Government buildings
Cement	7,365	
Paints	8,425	

None of the articles detailed above could have been entirely manufactured in India, nor are they, as far as Government knows, even sent out in a rough state to be finished at workshops in this country

3 The total cost of stores of European manufacture purchased in India, on the score of urgency was Rs 1,74 960, as against Rs 1,03,264 in 1896 97 The principal items which make up this total are the following —

	Rs	
Rolled steel joists	13,833	These were urgently required for earthquake damage repairs to High Court building, Calcutta, and civil buildings throughout the Nadia Rivers and Dacca Divisions, quadrennial repairs to St John's Church, construction of Chemical Laboratory, Medical College, Victoria Zanana Hospital, office of the Comptroller of Post Offices, East Block Indian Museum, Out patients' Department, Medical College, Calcutta cook-house in Reformatory School, Alipore, annual repairs to Belvedere, thorough repairs to Watgunge thana Kidderpore, construction of the new Secretariat buildings at Darjeeling
Rolled iron joists	2,329	These were urgently required for gun shed, Proof Range, Balasore, and other works in progress in the Balasore Division
Wrought-iron bed plates	3,357	These were urgently required for office of the Comptroller of Post Offices, Victoria Zanana Hospital Chemical Laboratory, Medical College, earthquake damage repairs to High Court building, Calcutta
Corrugated iron sheets	3,656	These were urgently required for remodelling the latrine and improving the drainage in the ground of the Sanskrit College, Calcutta constructing Donaldson's patent latrine in the cutcherry compound at Alipore, supplying and fixing iron screens over the partitions in the north and south east walls of Howrah Subsidiary Jail enclosing the female ward in the compound of the Campbell Hospital Sealdah
T iron	29,340	This was urgently required for Victoria Zanana Hospital Chemical Laboratory Medical College, new office for the Comptroller of Post Offices, Calcutta, cook house in the Reformatory School at Alipore and female ward in the Campbell Hospital Sealdah, special repairs due to earthquake damages in the High Court, the Sanskrit College the Foreign Office the Board of Revenue Office, Calcutta and the civil buildings throughout the Nadia Rivers and Dacca Divisions, and putting up a flat terrace roof in the Alipore Collectorate

	Rs	
T iron bars	2,231	These were at once required for special repairs to the buildings damaged by earthquake in the Dacca Division
Kodalies	64,718	These were urgently required for Famine Relief Works in Behar
Picks	2,839	
Galvanized iron pipes	5,052	These were urgently required for different works in the 1st Calcutta Division
Wrought iron gates, (Bostwick)	4,794	These were urgently required for Out patients' Department in the Medical College, Calcutta
Fire grates	1,050	These were urgently required for the construction of the new Cutcherry building at Darjeeling
Wrought iron gratings	1,506	These were urgently required for constructing the Barrack No 3 Bhagalpur Central Jail
Portland cement	5,851	This was urgently required for constructing female ward in the Campbell Hospital, Sealdah, for urgent repairs to Barrack buildings at Chinsura, and for quadrennial repairs to Salt golas, Sulkea, in the 2nd Calcutta Division, for works in progress in Sikkim, and for meeting emergent demands of other Divisions
B H P oil engine with Gould's pump and suction delivery pipes	2,765	These were urgently required for introducing pumping engine apparatus in the Imperial Secretariat building, Calcutta
Treble barrel 4 inch deep well pump	1,632	The pump was very urgently required for water works in the Central Jail, Hazaribagh

Taking the India Office prices and adding freight and other incidental charges, the cost of these articles, if purchased in England, would have been only Rs 1,43,165, so that Government paid 22 21 per cent more through buying them in India than it would have paid in England The corresponding loss in 1896 97 was 3 55 per cent The large loss was principally due to the excessive value of kodalies purchased for Famine Relief Works and of Portland cement purchased for Sikkim works

4 The total cost of stores manufactured in India, partly from imported material and partly from indigenous material, and substituted for stores formerly imported, was Rs 38,726, as against Rs 1,07,087 in 1896 97 The principal items were as follows —

	Rs	
Built girders	3,081	These were required for the Chemical Laboratory, Medical College, Calcutta
Wrought iron main trusses	5,565	These were required for the Female Ward, Campbell Hospital, Sealdah
Cast iron columns	7,046	These were required for the new office for the Comptroller of Post Offices, Calcutta, the Victoria Zanana Hospital, Calcutta, the Chemical Laboratory in Medical College, Calcutta, the Female Ward and the extension of the Out patients' Department, in Campbell Hospital, Sealdah, and for repairing earthquake damages to the Board of Revenue Office, Calcutta
Cast-iron columns	1,421	These were made at the Dehri Workshops for record-racks of the Muzaffarpur Collectorate
Wrought iron works for record racks	2,937	These were made at the Dehri Workshops for the Muzaffarpur Collectorate
Wrought-iron record-racks	2,946	These were made at the Dehri Workshops for the Bankipore Collectorate
Wrought iron gates, folding	1,347	These were obtained for the Office of the Comptroller of Post Offices and the Out patients' Department in the Medical College, Calcutta
Staircase, complete	4,601	This was required for the office of the Comptroller of Post Offices, Calcutta
Cast iron railings	2,534	These were required for the extension of the Out-patients' Department in the Campbell Hospital, Sealdah, and for the upper storey of the treble munsih at Howrah
Three and-a half tons cast iron reversible ballast road rollers	1,100	These were required for use in the 2nd Calcutta Division
Bolts and nuts	1,103	These were made at the Jobra Workshops for miscellaneous works
Iron castings	3,100	
Brass castings	1,945	

5 The policy prescribed by the Government of India in their Resolution No 1426S R of 25th March 1895, quoted above, continues to receive the attention of the Local Government

ORDER —Ordered, that a copy of this Resolution be published in the Supplement to the next issue of the *Calcutta Gazette*

Ordered, also, that a copy of this Resolution be forwarded to the Bengal Chamber of Commerce, the Calcutta Trades' Association, and the Bengal National Chamber of Commerce

By order of the Lieutenant Governor of Bengal,

R B BUCKLEY,

Secretary to the Government of Bengal

WEATHER AND CROP REPORT

For the week ending the 24th October 1898

Burdwan —Rainfall only at Raniganj 11 Weather seasonable *Aman dhan* is coming into ear Cultivation and sowing of *rabi* crops in progress Fodder and water sufficient Common rice selling as follows —

	Srs	
Sadar	1 to 16	per rupee
Kalna	11 to 13	
Katwa	14	
Raniganj	15	

Birbhum —No rain Weather seasonable Prospects of crops favourable Price of common rice at Sadar 15 seers per rupee Fodder sufficient

Bankura —No rain Weather seasonable Sugarcane and winter rice crops are doing well Fodder and water sufficient Common rice sells at Bankura 17½ seers and at Vishnupur 15 seers per rupee

Midnapore —No rain Prospects of standing crops good Damage by grass hoppers still reported from Narangarh police station Prices of common rice —

	Srs	
Contai	14 to 16	per rupee
Tamluk	13 to 13½	
Ghatal	12 to 14	

Hooghly —No rain Prospects of paddy favourable Common rice sells from 10 to 12 seers per rupee

Howrah — Rainfall nil Weather seasonable Prospects of *haimanti* paddy good Harvesting of *aus* paddy nearly over Fodder and water supply sufficient Common rice sells at 11 to 14 seers per rupee

24-Parganas —Rainfall at Sadar 01 Weather seasonable Prospects favourable Ploughing and sowing of *rabi* crops have commenced No cattle disease reported Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11½ to 14	per rupee
Basirhat	12 to 13	
Diamond Harbour	13	

Nadia —Rainfall only at Sadar 02 Weather seasonable Prospects of *aman* good Sowing of *rabi* crops continuing Common rice sells at 12 to 15 seers per rupee Fodder and water sufficient

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	77
	Inches
The total fall of rain from 16th to 22nd October 1898	0 01
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0 78
The total fall from 1st January to 22nd October 1898	59 52
The average fall of the corresponding period for 24 years, Surveyor-General's Office	62 65

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h, 16h., and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground.

⌓, dew, =, fog, d, drizzling rain.

C W BOLTON,
Chief Secy to the Govt of Bengal

REVENUE DEPARTMENT,—(LAND REVENUE)

NOTIFICATION—No 3243T R

The 31st October 1898.—The following draft rules which it is proposed to issue with the sanction of the Lieutenant-Governor under section 121, Act V of 1897, an Act to amend the law relating to the Partition of Estates, are herewith published for general information, with the intimation that the draft will be considered by Government on the 3rd

December, and any suggestions or remarks which it is desired to offer should be communicated before that date to the Secretary to the Government of Bengal in the Revenue Department

F A SLACK,
Offg Secy to the Govt of Bengal

CHAPTER 1

Rules issued by the Board of Revenue with the sanction of the Lieutenant-Governor under section 121 of Act V (B C.) of 1897 (The Estates Partition Act).

Partnership Act Rules Chapter 1 rule 1

Power of the Board to issue instructions.

OFFICERS employed in making partitions shall follow such instructions consistent with the law and these rules as may be issued by the Board for their guidance

Rule 2 of above

Subordination of officers.

2 Except where otherwise provided for by law or these rules, officers employed in making partitions are subordinate as follows —

(*a*) Deputy Collectors and Collectors, as defined in section 3 (ix) (*a*) and 3 (xi) (*b*) of the Act, are subordinate to the Collector of the district

(*b*) Collectors of districts are subordinate to Commissioners of Divisions

(*c*) Commissioners are subordinate to the Board of Revenue

New

Particulars to be entered in the application under section 18

3 In addition to the particulars required to be entered in the application under section 18, the Collector shall require the applicant to furnish the names and addresses of the proprietors of the estate or estates surrounding the estate which is to be partitioned, the name of the post-office of the area within which each of the said proprietors resides, and the name and number of the estates owned by them

New

Costs of partition

4 The costs of partition may include the following charges —

(1) The cost of establishments appointed under section 35 of the Act.

(2) The cost of establishments in the District or Commissioner's office under section 36

(3) The salary and pension and leave allowance and travelling allowances of the Deputy Collector appointed under section 41

(4) Contingent expenditure, including—

(*a*) the cost of service of notices and of the publication of notifications under the Act,

(*b*) the costs of stationery and forms and survey instruments,

(*c*) the cost of making any copies of the records and maps that may be required under this Act for the purposes of the partition,

(*d*) any other charges necessary for the completion of the partition

(5) Cost of audit of accounts

(6) Cost of boundary marks under section 96

Old rule modified

Apportionment of cost of certain establishments.

5 In framing the estimate of the cost of partition, the yearly cost in any district of an establishment employed under section 36 and of any Deputy Collector employed under section 41 shall be distributed among all estates in the said district which have been declared to be under partition under section 29 in proportion to their area under partition subject to the provisions of section 38 Similarly, the yearly cost of an establishment employed under section 36 in the office of any Commissioner will be distributed among the estates in his Division which have been declared to be under partition under section 29 in proportion to their area under partition In exceptional cases in which the area of the estates declared to be under partition is not known, even approximately, the distribution of the costs of the establishments mentioned in this rule shall be in proportion to their most recent valuations for the purposes of the assessment of Road and Public Works cess

Proportional debit of certain costs to estates.

(a) The cost of inspecting and other superior officers employed by the Deputy Collector under section 36 may be distributed among the several estates for whose benefit they are employed in proportion to the area of each which has been declared to be under partition under section 29

Provided that in exceptional cases in which the area of the estates declared to be under partition is not known, even approximately, the distribution of such costs shall be in proportion to their most recent valuations for the purpose of the assessment of Road and Public Works cess The cost of audit of the partition accounts where leviable, will be distributed among the estates concerned on the same principle

Levy of the costs of partitions in districts where no Estates Partition Fund has been formed

(b) In all districts in which an Estates Partition Fund has not been formed under section 42 (1), the costs of partitions shall be borne by all estates which have been declared to be under partition under section 29 in accordance with the estimate for each to be framed under the provisions of section 37, subject to the terms of section 38, and to final adjustment under section 40

Old rule 8 modified

Levy of costs of partitions where an Estates Partition Fund has been formed

6 The charges on account of partitions in districts where an Estates Partition Fund has been formed may be levied according to the estimate in each case as provided in sections 37 and 38, subject to final adjustment under section 40, or where a general scale of fees has been fixed by the Board of Revenue under section 42 (2), according to the scale of such fees

Old rule modified

General scale of fees

7 In fixing the fees to be levied under the preceding rule, the Collector shall have regard to section 42 (3) and to the following maximum scale —

	Per acre Rs A
For an estate of 100 acres or less ..	1 0
For an estate exceeding 100 acres but less than 200 acres .	0 14
For an estate exceeding 200 acres but less than 300 acres ..	0 12
For an estate exceeding 300 acres but less than 500 acres	0 10
For an estate exceeding 500 acres	0 8

and a fee of Re 1 per day to the amin for every day he is engaged subsequently on local enquiries and reports

8 If the Collector should consider in any case that a higher scale is required he shall report the exceptional circumstances to the Commissioner for sanction If the excess

is more than 25 per cent of the ordinary scale, or amounts to more than Rs 1,000 in all, the Commissioner will report the case for the orders of the Board

New

Sanction of partition estimate

9 The estimates prepared under section 37 shall be submitted to the Commissioner for sanction

Old rule " modified

Payment of costs of partition by instalments.

10 The estimated cost of a partition under section 37 (1) and the fees leviable from the proprietors under section 42 (5) shall be paid in not less than three instalments, of which the first shall consist of one half of the total amount estimated The first instalment shall be leviable by the Collector as soon as he has made the estimate required by section 37 (1), and the remaining instalments at such times as the Collector may think fit, provided the entire cost of a partition shall be realised before it is confirmed Every instalment shall be paid within one month from the date on which a demand for it shall have been served upon the person or the accredited agent of the person from whom it is due, and, in the event of non payment within one month from such date, the Collector shall proceed to levy the amount under the Public Demands Recovery Act, 1895

New

Costs of stamped paper

11 The sum necessary for the purchase of stamped paper on which to execute the partition deed shall be leviable as soon as the notice under section 93 has been published by the Collector The cost of stamp to be affixed to the partition paper, which is leviable under the Stamp Act, I of 1879, Schedule I 37, shall not form part of the costs of partition as contemplated in sections 37 and 38, but shall be levied from the different proprietors of the shares created by the partition in proportion to the value of their shares.

Survey and Settlement Manual Rule 15 Chapter 5, Part 1

Sanction of establishment

12 (*a*) Establishments of a fixed nature, that is to say, establishments that will be required for a term exceeding 12 months, require the sanction of the Commissioner

(*b*) Temporary establishments may be sanctioned by the Collector provided that such charges shall not exceed the provision made in the estimate sanctioned under Rule 9

Wards Manual Rule 3 section VIII

Sanction of appointments

13 Appointments to posts on duly sanctioned fixed establishments shall be made as follows —

(*a*) To posts of which the remuneration is not above Rs 100, by Deputy Collectors subject to the approval of the Collector

(*b*) Above Rs. 100 and not above Rs 200, by Commissioners

(*c*) Above Rs 200, by the Board with the sanction of Government

New.

Scale of establishment

14 For the purpose of proceedings under Chapter VI of this Act, a sufficient establishment shall ordinarily be appointed to complete the measurement and preparation of the record in six months If this period be not sufficient, the establishment to be appointed shall be subject to the sanction of the Commissioner

Old rule 10 modified.

Qualification of staff for survey

15 No inspecting officer or amin shall be appointed for the purpose of making measurements under the Act without the sanction of the Commissioner, unless he is qualified to make a survey with the plane table

16 Deputy Collectors shall provide for the supervision of the progress of work by requiring the submission of progress reports from the officers employed under them in the form given in Appendix A

Control of survey staff

New

17 The following processes will ordinarily be comprised in the making of a survey and preparation of a record of rents and other assets of land under the Act —

Procedure for survey and preparation of the record.

Tenancy Act, Chapter 6 modified Rule 5

(i) Demarcation of the boundaries of the estate
(ii) Measurement of lands
(iii) Khanapuri or preliminary preparation of the record
(iv) Attestation of the record and disposal of objections
(v) 'Publication of the Record.'

18 If the estate under partition exceeds the area of a village according to the revenue survey, the unit of survey and record shall be the area contained within the extreme boundaries of the village maps of the Revenue survey, so far as such area can be determined by the Deputy Collector

Unit of survey

Ditto modified Rule 4

19 Where there is no dispute the boundaries of the village according to possession should be followed Where a dispute exists, the boundaries claimed by either party shall be surveyed, and the dispute shall be disposed of by the Deputy Collector

Identification of lands

Ditto ditto

20 A field map of every village shall be prepared It shall show the boundaries of every field separately assessed to rent, or of such plot of land as the instructions of the Board of Revenue for giving effect to these rules may prescribe

Preparation of map

Ditto rule 6

21 For the purpose of preparing the record of existing rents and other assets of land, the following documents shall be prepared —

Papers to be prepared for the record

Ditto modified. rule 7

(i) The village map
(ii) The khasra or field index
(iii) The khatian or record of existing rents and other assets of land
(iv) The khewat or record of the character and extent of proprietary interests
(v) Any other papers which the Board may from time to time prescribe

22 The record to be prepared under section 46 of the Act shall consist of a khewat and a khatian

Form of record

Ditto modified rule 8,

23 The khewat shall show the character and extent of proprietary interests, and where there are large tenure-holders, the character and extent of whose interest may, in the opinion of the Deputy Collector, require it, such interest shall be recorded in a similar form in addition to being recorded in the khatian

Khewat.

Ditto modified rule 9 (a),

24 The khewat of proprietary interests shall be drawn up in accordance with the proprietary interests, as ascertained in accordance with the procedure prescribed in Chapter IV of the Act

Manner of preparing the khewat.

Ditto modified rule 9 (b)

25 The khatian shall show in detail for all the lands of the estate or village the lands included in such estate or village according to occupation by landlord or tenant, with particulars of rent and other assets, if any

Form of khatian.

Tenancy Act rule 10 (a modified

26 Lands cultivated or held direct by the proprietor shall be shown in detail in the khatian Lands unoccupied as roads and rivers, shall also be entered

Ditto, rule 10 (b) modified

New

27 The khasra, khewat and khatian shall ordinarily be prepared in the forms given in Appendices B, C, D, but these forms may be modified by the Collector to suit the local conditions of different areas under survey

Forms

New

28 The entries in the record of existing rents and other assets which are to be read out under section 47, sub-section (2) shall be—

Entries to be read out during attestation.

(1) the name of the proprietor, landlord, and tenant of each holding

(2) the area of the holding and the number of fields contained in it,

(3) the rent payable for the holding, (*a*) as stated by the landlord, (*b*) as stated by the tenant, and (*c*) as taken by the Deputy Collector for the purpose of the partition

In the case of land not contained in any holding the following entries shall be read out —

(*a*) in the case of cultivated or occupied land, the area and boundaries (if any) of the land and the name of the occupant,

(*b*) in the case of uncultivated or unoccupied land, the area and boundaries (if any) of the land and a brief description of it, as roads, burial ground, &c,

(*c*) the assets, if any, recorded under section 46 (*d*)

Bengal Tenancy Act, rule 29, Chapter 6.

29 Under section 48 the copy of the record of existing rents shall be locally published in the following manner —

Mode of publication of the record

(*a*) A notice shall be posted up at the landlord's office in the estate or village, or, in the presence of not less than two persons in some conspicuous place in the village, stating that the record will be published in the village on a day to be specified, not less than a week from the date of such notice, and calling on all persons interested to attend on the date so specified

(*b*) On the date fixed for publication, the entries in the record as prescribed by the preceding rule shall be read out in the presence of the parties who attend, and they shall be informed that the record will be open for inspection for not less than one month in the office of the Collector or Deputy Collector, or in such other convenient place as such officer may determine

New

30 Under section 48 a copy of the following entries in the record of existing rents shall be furnished to each landlord and tenant, so far as such entries affect his estate, tenure or holding —

Copies to be furnished.

A In the case of rent-paying lands—

(i) the name of the village and pargana and taun number of the estate,

(ii) the names of the proprietors,

(iii) the name of the landlord, if different from the proprietor,

(iv) the name of the occupant of the land or holding,

(v) the number of each field as given in the map,

(vi) the boundaries as recorded in the record,

(vii) the area of each field,

(viii) the total area of the holding,

(ix) the rent—

(*a*) as stated by the landlord,

(*b*) as stated by the tenant,

(*c*) recorded by the Deputy Collector

B In the case of other lands—

(*a*) if occupied, the same information as above, heads (i)—(viii),

(*b*) if unoccupied, the same information as above, heads (i), (ii), (v), (vi), (vii) and (viii),

(*c*) a list of assets, if any, recorded under section 46 (*d*)

Estates Ledgers.

31 In every district in which any estate is under partition, a ledger in the form annexed (Appendix E) shall be maintained by the Collector, which shall show the receipts and disbursements of each estate Old rule 23 modified.

District Partition Account.

32 From the Estates' Ledgers a general register of receipts and disbursements on account of the Estates Partition Fund when such fund has been formed under section 42, shall be maintained in the form annexed (Appendix F) in which all receipts and expenditure on account of the whole district shall be entered Old rule 23 modified

Form of partition paper

33 The partition paper required under sections 53 and 57 shall be prepared in the form annexed (Appendix G) Old rule 24

FORMS PRESCRIBED IN THE RULES

APPENDIX A

FORM OF PROGRESS REPORT

(Rule 16, Chapter 1)

Weekly Progress Report of for week ending

Nature of work *e.g.*, whether demarcation, surveying, preparing map or records preparing partition paper or final report, or delivering possession

ESTIMATED AMOUNT TO BE DONE	Amount previously done.	Done in the period of this report	Total done	Balance to be done	REMARKS
1	2	3	4	5	6
E.g.—					
Estimated length of boundary					
Area to survey					
Number of plots

APPENDIX G

FORM OF PARTITION PAPER.

(Rule 33, Chapter 1)

1 Names of proprietors
2 Quantity of land in parent estate
3*a* Rental as shown by landlord
3*b* Ditto as admitted by rayats
4 Rental as taken for the purposes of partition
5 Other assets, if any
6 Sadar jama of entire estate
7 Fractional shares of each set of proprietors or villages held in severalty by each or shares in such villages
8 Names of each set of proprietors.
9 Quantity and specification of land assigned to each estate formed by present partition
10 Rental and other assets, if any, assigned to each
11 Jama of each separate estate and tauzi number
12 Any stipulation regarding places of worship, tanks, &c, under Chapter IX.
13 Date of confirmation by Commissioner
14 Date from which partition has taken effect and separate liability has commenced.
15 Remarks

If a partition paper has been prepared by arbitration under section 58, and no survey has been made the above statement shall be prepared with the necessary modifications.

In order to specify the land assigned to each estate, *vide* item 9 above, reference will be made to the village or subdivision of a village and to the khasra numbers so far as such reference is necessary

CHAPTER 2

Instructions issued by the Board under Rule I of the Rules framed under section 121 of the Estates Partition Act, V (B C) of 1897, for the guidance of Officers making Partitions

I

PREPARATION OF ESTIMATES AND KEEPING ACCOUNTS — Old rule 7

1 Estimates under section 37 shall be prepared in Form (1) given in Appendix H. — Old rule 7

Original draft rule 14. Preparation of estimates.

2 In estimating the probable cost of the measuring establishment required, careful consideration should be given not only to the size of the estate, but also to its compactness or the reverse, the number of separate shares to be formed, and similar circumstances It should be borne in mind that in cases where no superior officers are employed for testing the work of amins and similar duties, and where there is no district establishment under section 36, it may be necessary to retain the services of the amin, not only for measurement but until the proceedings of the partition are completed by the Collector

Ditto 15 Contingent expenses

3 Under the head of other expenditure, provision should be made for the items of expenditure described under this head in rule 4 of the rules framed under section 121

4 At the commencement of each year the Collector shall prepare a list of all estates which have been declared to be under partition in his district, showing the area of each under partition (or in the exceptional cases referred to in Rule 5, their most recent valuations for the purpose of the assessment of Road and Public Works cess), and shall distribute the annual cost of any establishment employed in his office under section 36, of any Deputy Collector employed under section 41, of any inspecting and other superior officers employed by the Deputy Collector under section 35, and of the audit of the partition accounts where leviable in proportion to the area of each estate under partition (or in the exceptional cases referred to in proportion to the most recent valuations of each for the purposes of the assessment of Road and Public Works cess) Provided that should it appear probable that the operations in any estate will conclude early in the year, it will be in the discretion of the Collector to remit the annual share of such cost debitable to such estate as above, which shall thereupon be apportioned among the remaining estates under partition

5 Stamp duty — New

A register of stamp duties levied on partition deeds shall be kept up in Form (2) given in Appendix H.

6 Annual Return — Old rule 25A, modified

At the close of each financial year, the District Collector should submit, through the Commissioner to the Board, a statement in Form (3) of Appendix H, showing the expenditure incurred and the average cost per acre of the land partitioned in the district

7. Costs in Commissioner's office — Old rule 6, modified

At the commencement of each year the Collector shall submit to the Commissioner, in duplicate, a list of all estates under partition in his district, with the area of each under partition (or in the exceptional cases referred to in Rule 5 their most recent valuations for the purpose

of the assessment of Road and Public Works cess), and the Commissioner shall then determine the amount to be borne by each estate on account of the establishment employed in his office under section 36, and enter the same in the several district lists, returning one copy of each to the Collector by whom it was submitted.

Original draft rule 39

Special proceedings as to costs.

8 Any special proceedings as to costs under sections 38 and 39 should be reported to the Commissioner of the Division, and should be specially mentioned in the final report of the partition

Old rule 21 modified

Ditto 40.

9 The abstract of the Estates Partition Fund required by section 42 (6) shall be submitted in Form (4), Appendix H

Old rule 22

10 Early in April of each year the Commissioner will prepare an account of the total actual expenditure incurred during the last official year on account of the butwara establishment entertained in his office, and apportion it among the several districts in his division, and will communicate these figures to the district officers concerned for insertion in their Partition Fund accounts, and abstract annual statements of Partition Fund which should be prepared under section 42 (6) of the Estates Partition Act, V (B.C.) of 1897, with a note that the amount was drawn by him direct from the treasury. Copy of this account will also be furnished to the Accountant-General, Bengal, for adjustment of the Partition Fund accounts of each district in his office

Old rule 24A, modified

II

APPOINTMENT AND CONTROL OF ESTABLISHMENT

Scale of establishment.

11 In appointing establishment under section 35 of the Act, a sufficient establishment to complete the work of survey and record-writing in six months should ordinarily be appointed, but in cases where this period will not be sufficient, the establishment should be appointed with reference to the following scale, which is fixed as the maximum for an area of 20 square miles to be completed in six months —

Survey and Settlement Manual, Appendix E

		Per mensem Rs
1	Inspector at	40
10	Amins ,,	30 each
20	Chainmen ,,	6 ,,
10	Coolies ,,	4 ,,
4	Chainmen and messenger for the Inspector at	6 ,,
	Contingencies at	2 per amin

Original draft rule 3.

Qualifications of amins

12 As a general rule, amins appointed to make measurements in partition cases must be qualified by the production of a certificate from a survey school or the head of a professional survey party It should always be possible to procure amins possessing this qualification in Bihar, Orissa, and the districts of Eastern Bengal, in which there have been professional surveys on a large scale Amins not possessing such a certificate are not to be employed without the special sanction of the Commissioner

Old rule 10 modified

Ditto 5

Qualifications of inspecting officers.

13 Officers employed to supervise or check the work of amins must always be qualified as amins, and should ordinarily have acted as amins in practical surveys

Old rule 11 modified

Ditto 6

Rates to be paid to amins.

14 Amins should, as a rule, work at contract rates The rates to be paid to amins should be so fixed as to allow them not less than Rs 30 per mensem, exclusive of the wages of chainmen and coolies, and of other contingent charges For this remuneration an amin will ordinarily be expected to survey and prepare the measurement papers of 200 acres a month For other work connected with partitions, such as enquiry into objections, the remuneration to be allowed should be as nearly as possible analogous

Old rule 12 modified

Original draft rule 7

15 In the case of petty estates, such as would occupy an amin less than a month, the Collector may, at his discretion, allow the amin a rupee per diem

Ditto 8

Reckoning of remuneration

16 In reckoning the remuneration of an amin, a reasonable time must be given for going to and from the estate

Old rule 13

Ditto 9

Progress reports

17 Before an amin is deputed to make measurements, the Collector or Deputy Collector shall prescribe the time within which the measurement or any portion of it is to be completed The form of Progress report is indicated in article 16 of the rules framed under section 121

Old rule 15, modified

Ditto 10

Advances to be granted

18 The whole remuneration of an amin should not be paid to him until his papers have been examined and passed as correct The officer in charge of the partition should see that the amin is not permitted to remain on the estate without reason or make unnecessary delay in filing his papers Advances not exceeding two-thirds of the remuneration earned may from time to time be given, at the discretion of the Deputy Collector He will be responsible for seeing that no unreasonable delay occurs in examining the amin's work and settling his accounts

The same rule applies, *mutatis mutandis*, to Inspectors and other officers

Old rule 18, modified

Ditto 12

Survey records to be utilized

19 Whenever a professional or other trustworthy survey or record-of-rights has been made, the Collector will see that it is utilised as provided in section 49 He will also bear in mind that whenever a record of-rights and settlement of rents have been made, these are binding on all parties so long as they are in force, and must be accepted as the basis of partition In such cases it may be necessary to bring the records up to date and to assess for the purposes of the partition such lands of the estate as have not been assessed by the Settlement Officer

Old rule 19 modified

III

INSTRUCTIONS FOR MAKING A SURVEY AND PREPARING A RECORD OF EXISTING ASSETS

20 The rules of the Survey and Settlement Manual shall be followed so far as they apply in making a survey and preparing a record under chapter VI of the Act The following instructions are taken from those rules, and comprise the most important points of procedure —

The rules in this section are taken from the Survey and Settlement Manual, modified

A.—Demarcation of Boundaries

Part II, Chapter 2, rule 5

General notice

21 Before the commencement of survey a general notice in Form (5), Appendix H, to be served in accordance with the provisions of section 5 of the Bengal Survey Act, V (B C) of 1875, shall be issued to the proprietors or their agents and all occupants of the lands under partition

Ditto 8

Special notice

22 If these general notices are not obeyed, a special notice in Form (6), Appendix H, to be served in accordance with the provisions of section 48 of the Survey Act, shall issue under section 7 of the Survey Act on individuals by name, and if the parties still refuse to attend, fines can be inflicted under section 51 of that Act

Ditto, 11

Demarcation.

23 The demarcation of boundaries and identification of lands is to be carried out with all publicity, and the voluntary co-operation of owners and occupants of lands is to be sought

Ditto 7

Notice on neighbouring villages.

24 At least ten days before proceeding to demarcate the village the Deputy Collector will issue a general notice in Form (7), Appendix H, to the proprietors (or their agents) of neighbouring villages to inform them when the demarcation is to take place and to enable them to attend Similar notices shall be served upon the proprietors of the estates under partition

Part II. Chapter rule 14

Disputes as to boundary

25 When there is no dispute, the boundaries according to possession will be demarcated by placing marks at convenient places on the boundary line. If there is any dispute, both lines of boundary will be demarcated, and will be shown on the map for decision by the Deputy Collector under section 88 of the Estates Partition Act, V (B C) of 1897

B —Measurement

26. Measurement includes survey of the boundary or traverse survey and field-to-field survey.

A —Traverse Survey of Boundaries

Note.—The work of boundary or traverse survey is mainly technical its object is to prepare skeleton maps of villages for the purpose of field survey Proprietors and occupants of lands should be informed that the traverse survey does not necessarily indicate the boundary, which will be accurately surveyed at the time of cadastral survey The surveyor is to prepare a note shewing any special circumstances which may arise during survey requiring orders.

Part II Chapter 3, rule 2.

General rules

27 The amin deputed to carry out the traverse survey of boundaries is to follow as closely as possible the real boundaries of villages which have been demarcated.

Ditto, 3

Preparation of skeleton map.

28 He is to mark stations on the real boundaries, and to connect these stations by straight lines, which will then form the outline skeleton map of the village

Ditto, 7

Traverse survey of village sites.

29 All large village sites are to have sub-traverse lines running round and through them Tracts of jheal and jungle should be similarly encircled by sub traverse lines All large rivers require stations on both banks

Ditto, 8

Subdivision of villages.

30 In all large villages inquiries are to be made as to the boundaries of tolas or other subdivisions of the village These, if they form compact areas, are to be demarcated, and the boundaries traversed for the convenience of the cadastral survey and record writing

Ditto 11

Method of survey

31 Traverse survey of boundaries may be made either by the prismatic compass or the plane table The scale of survey should be ordinarily 16 inches to the mile. Paper for sheets should be used divided into squares on the 16-inch to a mile scale containing 2½ acres to the square inch

Ditto 22.

Checking work

32 The work of the amin should be checked by the Deputy Collector or other officer subordinate to him, and at least 20 per cent of the angles and distances should be tested

C —Cadastral or Field Survey

Part II, Chapter 6, rule 19.

Equipment of amin.

33 Before an amin is deputed to make the cadastral survey of a village, he should be supplied with—

(1) Set of written instructions consistent with these rules prepared by the Deputy Collector to suit the special circumstances of the area under survey

(2) An order signed by the Deputy Collector authorising him to survey the village

(3) The necessary equipment (*vide* Appendix E of the Board's Survey and Settlement Manual)

(4) A skeleton map of the village as prepared by the traverse surveyor on the scale of 16 inches to the mile, or such other scale as may be adopted

(i) The amin will compare his chain daily with a standard laid down in the village under survey in order to keep it correct

(ii) The amin will prepare note sheets on which he will note any point on which orders may be required or other matter, and the Deputy Collector will write orders on these sheets at the time of inspection

Ditto, rules 14-1

System of survey

34 The offset system of survey, as described in paragraphs 14 to 19, chapter 6, Part II, page 39 of the Survey and Settlement Manual, should be followed in partitions of large estates In smaller estates the plane table system of survey may be followed

Part II Chapter 6 rule 22

35 On arrival at the village the amin will present his parwana to the landlord's agent, and request him to arrange for the attendance of people to point out boundaries of fields In case of obstruction he shall submit a report to the Deputy Collector

Notice to landlord

Ditto 12.

36 Before commencing the actual survey of fields, the amin should cut up the village into quadrilaterals of from 10 to 14 gunter's chain sides For this purpose he will run straight lines on aligned flags from one traverse station to another or to intermediate stations selected by him When measuring the sides of these quadrilaterals, the points and distances at which field boundaries cross the lines should be carefully noted on a rough sketch, and the inter-sections be marked on the ground. This rough sketch is called the khaka, and the measurements so made should be afterwards plotted on the map The whole sheet will then be divided into quadrilaterals, and accumulation of error by building up field upon field will be obviated

Survey of quadrilaterals.

Ditto 28

37 Except along the traverse and quadrilateral lines, no measurements are to be recorded During the survey of fields all work is to be plotted on the map at once

Field book not required

Ditto, 30

38 The unit of field survey is an area of which the ownership is separate and the occupant is separate. Each parcel or block of land lying within the same exterior boundaries in the occupation of one person under one title or of several persons holding jointly, should be mapped as a separate survey number Uncultivated land should, however, generally be numbered separately from a contiguous plot of cultivated land

Unit of field survey

Ditto, 31

39 The amin is to survey separately every plot which is pointed out to him as a separate field if it falls within the above definition It will often be found that what is pointed out as one field contains several subdivisions made by *aels* for purposes of irrigation or cultivation, such subdivisions of fields need not be separately measured. The amins will show on the map every field boundary which is on the ground in firm lines If there is no field boundary visible on the ground, as in rice lands under water, the boundaries will be shown by broken lines

Survey of plots

Ditto 32.

40 The village site is to be surveyed in detail All houses, gardens, homesteads, and roads, within it are to be surveyed and numbered If necessary, the village site is to be surveyed on a large scale, and shown on the margin of the map

If there are obstructions from jungle or otherwise, it will be necessary to triangulate with the chain. In a very close village it is only by the use of the sight-rule and the prismatic compass, that the details within the village can be plotted Experienced amins should be employed in this work

Survey of village sites.

Ditto 33

41 Garden plots and homesteads in village sites are to be surveyed, and numbered separately from houses Houses, not temporary huts, with their compounds when they occur in fields outside the village site are to be separately mapped, but unless the compounds are cultivated, one number is to be given to both house and compound

Survey of gardens, &c

Ditto 34

42 Roads and large permanent footpaths are to be surveyed and separately numbered, whether they run through cultivated or waste lands

Survey of roads

D —Preparation of the Record

Part II Chapter 8 rule 5

43 Before commencing the writing of the record the Deputy Collector shall, with the approval of the Collector, prepare instructions for record-writing consistent with the instructions hereinafter laid down and suited to the special circumstances of the tract under survey

Special instructions.

Part II Chapter 8 rule 7

44 The khasra is to be written on the field in the language of the district It will usually be convenient to defer writing it until the map is completed of at least one subdivision of the village, and until the map has been checked

Khasra how written.

Ditto, 37

45 In rule 39 above it is directed that every field boundary, other than *ails* or irrigation embankments, which appears on the ground should be plotted If the fields plotted without the *ails* are very large, it may be necessary to plot some of the *ails* in order to assist the identification of the field In preparing the record it will be possible to reduce the number of plots so shown in the following way —When several contiguous plots held by a tenant with no differences of tenure, rent, or soil are found to have been separately plotted the amin will, at the time of writing the record, leave the outer limits of the block of plots untouched, but will cross out the pencil lines which divide the inner plots on the map with short pencil dashes When the map is inked up, a firm line will be drawn round the outer limits of the block of fields, and the intermediate lines, if any, will be shown by dots.

Subdivision of fields or plots.

Ditto, 43 (*i*)

46 While the writing of the khasra proceeds, extracts therefrom, known as parchas, shall be prepared in the same form as the khatian and shall be distributed to the occupants of the lands entered in the khasra, in order that they may be informed from the first as to the entries which are being made in the records

Extracts of khasra to be given to parties

Ditto, 39

47 In filling up the khasra, if there is any dispute as to any entry, such as name of estate, proprietor or landlord, tenant, &c, the column is to be left blank, and the particulars of the dispute are to be entered by the amin in a separate dispute list

Khasra to be left blank by amin in the case of dispute till the dispute is decided by a Revenue Officer

Ditto 39

48 The dispute list may be in the following form, and should be of the same size as the khasra forms —

Dispute list.

(1) Number in khasra
(2) (*a*) Name of first party, his father's name and residence
(*b*) Name of second party, his father's name and residence
(3) Summary to be written by the amin in the shortest language as, *e g*, "as to occupancy"
(4) Entry declared by the Deputy Collectors to be accepted for the purposes of the partition, and signatures of parties in case of compromise
(5) Remarks

Ditto 44

49 *Column (2) of the khasra* —In this column will be entered the name of the occupant of one field on each of the four sides of the field surveyed. It will not be enough to enter "east of the preceding field" The boundaries should be given as follows —

Name of occupant

North	A B's field
South	C D's „
East	E F's „
West	This raiyat's field, number so and so

Ditto 47

50 *Column 3* will contain the name of the proprietor according to the khewat If any field is in the sole ownership of any proprietor, the name of such proprietor should be entered in this column with an explanation of his sole interest

Name of proprietor

Ditto 47

51 *Column 4* will contain the name of any intermediate tenure holders between the proprietor and the raiyat The character of his interest, if it is extensive, may be recorded in a form of khewat

Name of tenure holder

Part II Chapter 8 rule 1

52 *Column 5*—The name of all co-sharers, if any, will be entered, as well as the name of the principal raiyat If the raiyat in occupation of the land is not recognized in the landlord's office, a note will be made of the fact in the column of remarks

Name of raiyat.

If any land is occupied by the proprietor, or by any rent-free holder, the name of such occupant will be entered in column 5

Ditt 5 to 8

53 *Columns 7 and 8 Area*—The Deputy Collector, subject to the approval of the Collector, will decide in what standard areas are to be recorded Areas are usually worked out by the use of the area comb, or talc squares, except in the case of measurements by chain and compass If possible, areas should be worked out in the field, but if this delays work, it may be done in office The extraction of areas by the use of the area comb should be carefully checked by extracting at least 30 per cent. a second time

Areas how extracted

Ditt 66. *Column 9*—A description of the land will be given in this column as jungle, river &c

Ditt 70 *Column 10 Remarks*—In this column note should be made of any special source of income, as from trees, shops, &c

54 In the khatian the classes of occupants will be arranged in the following order—Proprietors, tenure holders, raiyats, lands unoccupied. The lands entered against each class of occupant will be totalled, and the whole total shall agree with the total of the khasra.

Order of khatian.

55 *Column 3 of the Khatian*—In this column it should be stated whether the land is rent-paying or not, and if not occupied the description of the land The tenants need not be classified into tenants at fixed rates settled and no occupancy tenants

Character of interest of tenant

56 The names of under raiyats are not to be entered in the khatian unless specially ordered by the Collector

57 The entries of existing rents will be filled in by the amin from the copy of the rent-roll of the village as filed by the proprietors and will, if the Deputy Collector so orders, be verified from the raiyats during record-writing

Entries of rents

58 Lands which are not rent-paying and which are not held by tenants will be entered in the khatian, and any assets of such lands will be entered in the column provided for the purpose

E—*Testing the measurement and checking the preparation of the record*

Part II Chapter 7, rule 1

59 The measurements of the amins are to be checked by the Deputy Collector or officer deputed by him while the measurement is in progress He is to run lines across the map as plotted, and will note if the field boundaries intersected agree with those shown on the amin's plotted map All such lines are to be shown in coloured ink on the map, and are to be signed and dated

Check while survey is in progress.

He is also to check the measurement of at least one quadrilateral in every sheet The amin should not ink in his work till it has been tested and passed

Ditto 3 60 An independent check may also be carried out An independent check is made by a field-book measurement of particular lines across a village, which are plotted on tracing paper and compared with the plotted sheet after field survey These independent checks should amount to not less than 40 chains in every 320 acres.

Independent check

Ditto, 4 61 When measurements are made by any system other than that described above, the Deputy Collector should measure 5 per cent of the fields in different parts of the area surveyed, and thus test the measurement

Check in petty surveys.

62 While the record-writing is in progress, the Deputy Collector or officer deputed by him should visit the village and test it He should test at least 10 per cent of the entries in the khasras, and the Deputy Collector may at the same time dispose of disputes, subject to further objection under section 47 — Part II Chapter I rule 1

Checking the record-writing

63. The Deputy Collector or other officer testing the record-writing should initial in the khasra all entries which he has tested, and should, where possible, correct mistakes on the field — Ditto

F — Attestation and publication of the record

64 Under section 47 of the Act, the Board prescribe that the notification to be issued shall be in Form (8) of Appendix H It shall allow an interval of not less than one week to elapse between its publication and the date of attestation No place shall be fixed for attestation which is at a distance of more than three miles from the village the records of which are to be attested — Part III, Chapter I rule 8

Notice for attestation

65 Under the preceding rule a period of not less than a week is to be allowed between the issue of the notice and the date of attestation, but ordinarily, unless the progress of the work will be hampered by the delay, an interval of one month should be allowed. — Ditto 8

Period of notice

66 If there is reason to believe that the landlords or tenants will absent themselves from the attestation proceedings, steps should be taken to enforce their attendance by the issue of special notices under the powers given by section 97 of the Act. The notice may be issued in Form (9), Appendix H — Ditto, 9

Notice to parties

67 The attestation proceedings must be commenced on the day fixed, and if, for any reason, it is impossible to do so, the Deputy Collector must issue a fresh notification or attend at the place fixed, and record a formal order adjourning the proceedings to another date In such cases a notice should be sent to the village as soon as it is found necessary to adjourn the date All orders of adjournment, with the reasons, are to be entered on the order-sheet — Ditto, 10

Adjournments of dates.

68 The general notification is sufficient notice to all persons, and if all do not come, a Deputy Collector is entitled to proceed in the presence of such persons as do attend It is undesirable that he should proceed in the absence of any considerable number of tenants, and if they do not attend, the Deputy Collector should take action under section 97 of the Act A good effect may be produced if the practice be observed of summoning those who do not attend, and of causing them to pay a process-fee for the service of the summons — Ditto 11

Attendance of parties

69 If a tenant does not attend in person, but the accuracy of the entries in his khatian can be sufficiently attested by his relations or neighbours, it is not necessary to cause his attendance The Deputy Collector must, however, satisfy himself that the entries made in a tenant's khatian slip are publicly certified, so that he may be made aware of them The signatures of parties are not necessary, but are useful as a check — Ditto 1

Admissions of parties.

70 A Deputy Collector when proceeding to attestation may be accompanied by a staff of attestation muharrirs The establishment will vary with the nature of the work, but should be large enough to provide for a sufficient number of khatian slips which have undergone preliminary attestation being laid before the Deputy Collector each day for final attestation, and also to provide for the complete carrying out of the orders passed during attestation and the preparation of the records for draft publication — Ditto, 15

Attestation staff

71 Attestation is divided into two stages — Part III Chapter I rule 14

Procedure of attestation.

(1) preliminary explanation, when the muharrirs read out and explain the entries in the khatian,

noting errors or disputes and entering the rents as stated by the landlords and tenants and other facts not entered by the amin, and

(2) attestation by the Deputy Collector when errors are corrected, disputes disposed of, and the entries in the khatian completed

At the preliminary explanation the attestation muharrirs shall enter all necessary details in the khatians

Ditto 20 72 Where any particular is disputed, the column of the khatian will be left blank, and the disputes will be entered in a dispute list, as provided in rule 48 above The attestation muharrir will also prepare a list of mistakes to be corrected

Disputes.

Ditto, 21 73 When the attestation muharrir has, in consultation with the landlords or their agents, and with the tenants, made all the necessary entries in the khatian and the dispute list, and has explained them to the parties, the papers shall be laid before the Deputy Collector for final attestation Arrangements should be made that parties are not kept waiting, and, as far as possible, the preliminary explanation and final attestation should take place on the same day

Duties of attestation muharrir

Ditto 22 (1) 74 At the time of final attestation, the Deputy Collector should take his seat at a table in as open a place as possible, it is convenient to have a small enclosure made with bamboos, so as to keep off the pressure of the crowd, while enabling all to see and hear, and with an entrance by which each tenant can be admitted to the front of the table as his name is called The tenants will then be called up in order before the Deputy Collector

Final attestation.

Ditto 22 (2). 75 The entries prescribed in rule 28 of the rules issued under section 121 shall be read out and attested, and any objections, oral or written, made to such entries shall be summarily disposed of The Deputy Collector should satisfy himself that the tenant understands and agrees to what is entered concerning his lands, rental, and other details of his tenancy At the same time, the mistake list is to be reviewed, and orders will be passed on any matters which have not been disposed

Procedure

Ditto, 31 76 As the final attestation of each khatian is completed, it should be initialled and dated by the Deputy Collector All corrections made in the khatians should be initialled by the Deputy Collector

Corre tion in papers

Ditto 31 77 All orders passed by the Deputy Collector at this stage are to be entered in the dispute list or mistake list, and to be initialled by him. He should see that they are given effect to in the records, and when this has been done a certificate to that effect will be made on each list. Orders passed on rent disputes need not be treated in this way, as the Deputy Collector will at once give effect to his order by filling up the appropriate column in the khatian

Disposal of disputes.

Part III, Chapter 6, rules 7 8 78 All inquiries into disputes which may arise in the course of a survey or the preparation of a record of existing rents are, under section 47 (3), to be decided summarily, and the Deputy Collector is to declare what entry is accepted for the purposes of partition Officers engaged in making partitions should not enter into claims of right or title, unless it is necessary to do so for the disposal of the disputes They should, as far as possible, decide disputes according to existing facts and present possession

Method of inquiry

Ditto, 7 8 79 Under section 97 of the Act they are vested with powers under Chapters X and XIV of the Code of Civil Procedure for compelling the production of documents and enforcing the attendance of witnesses and not for the trial of cases.

Powers of officers.

Part III Chapter 8, rule 4 80 If the statements of the landlords and tenants as to the existing rents do not agree, the Deputy Collector is to summarily ascertain the existing rental by examining the landlord's accounts raiyats' rent-receipts, the road cess papers, or otherwise

Record of rents

Vide paragraph 4 of the Board's letter

Existing rents to be ascertained

81 A practice has been established in some districts of calling upon the proprietors to supply a rainandha or table of rates, and of assessing the land surveyed according to it, without inquiring whether the rent resulting is that which is at the time payable or not This is not in accordance with the system prescribed by section 46 (*c*) of the Act, the provisions of which should be observed with care New

Part III, Chapter 8, rules 1 2.

Final record.

82 When all necessary entries have been made in the khatian, all mistakes have been corrected, and all disputes have been disposed of, the Deputy Collector shall cause the record to be prepared for publication under section 48 of the Act

Ditto, 1 2.

Publication of record.

83 It is desirable that publication of the record should follow as soon as possible after the attestation, while the people still remember what was entered in the khatian For this object the Deputy Collector, if he is unable to publish it personally, should have an establishment for the purpose and should, if there are several villages in the estate, arrange for the systematic publication of the records

Ditto, rule 3

84 It is advisable, if possible, to have the records published by a kanungo or an officer of equal standing

Ditto rule 4

Procedure

85 The duplicate of the notice for publication should be attested by the peon, and the officer deputed to make publication, when he visits the village, will enquire into and verify the manner of publication If he finds that the notice was not duly published, that the occupants of lands in the village are not prepared to hear the entries read out, he will report the fact to the Deputy Collector, so that steps may be taken to fix an adjourned date, if necessary

Ditto rule 5

Attendance of parties.

86 In villages containing no dwellings, or of which the greater portion of the occupants of the village lands live elsewhere, the peon who serves the notice will be supplied with subsidiary notices to be served in the villages where the majority of the landlords or tenants live Arrangements may be made to summon the people, and the services of the village chaukidar or other village officials should be used for this purpose

Ditto, rule 7

Report of publication

87 A report carefully attested by the officer who carries out the publication will be filed with the proceedings, and the returns of notices will similarly be filed

Ditto rule 9

Records where to be kept for inspection

88 The record will ordinarily be kept for inspection in the Office of Deputy Collector, or a special room in a convenient building may be fixed elsewhere, due regard being had to the safety of the record In all cases some special place should be set apart where the records of which publication has been made can be arranged in due order of dates in charge of a record keeper or trustworthy muharrir A list will be kept by him showing on what date each record was published and when the legal period for inspection will expire

Ditto, rule 10

89 Arrangements should be made to meet the convenience of parties who wish to inspect the records and to allow them to copy portions of the records, subject to the careful supervision of the officer in charge

Part III Chapter 6, rule 4

Petitions of objection to entries in record

90 Verbal objections may be made at any time up to the publication of the record, but written petitions of objection to any entry in the record are to be stamped as required under the Court Fees Act They are to be entered in a register showing briefly the subject-matter of such petition

Ditto rule 11

Final correction of papers.

91 When the legal period for inspection of the records has expired, the Deputy Collector will again examine the khasra, khatian and the village map, if necessary, to see that they are duly corrected, and will proceed under section 5 of the Act In the case of corrections which are ordered on objections, a reference may be made in the khatian to the date of the order for such correction All alterations in the records are to be initialled by a responsible officer

IV

GENERAL

92 All notifications under this Act shall be published, and all notices shall usually be served (except such as are served by post) by means of the nazirs peons, fees being charged on the scale prescribed for the service of execution processes and denoted in the usual way by adhesive stamps — Old rule 1 modified

Manner of publishing and serving notices &c

93 Before publishing a notification under section 21, the Collector may require the proper amount of fees to be paid by the applicant If the application is admitted under section 29, the fees thus paid will be included in the expenses of partition and the expense incurred in the publication of this notification and service of this summons should be taken as a basis for the calculation of the expense to be incurred on account of the other notifications and notices which are required by the Act — Old rule 2 modified

Prepayment of fees

94 A progress form to show the disposal of partition cases shall be submitted every quarter in Form (10), Appendix H — Old rule 15 modified

95 In order to check the realisation of partition fees, a return shall be prepared in the form annexed (No 11 of Appendix H), which shall be submitted to the Board with the statement prescribed by rule 6, Chapter 2, above

96 A partition case will be kept upon the Collector's file— Old rule 30, modified

(i) until any appeal against the proceedings of the Revenue officers has been decided, or until three months have elapsed without any order being made under section 116,

(ii) until the date prescribed in the notice under section 94 for the commencement of separate liability has elapsed and the Tauzi Navis has certified that the joint estate is not in arrears or, if in arrears, until the arrear has been recovered,

(iii) if any expenditure has been incurred in the construction of boundary marks under section 96, until the cost of erecting such boundary marks has been recovered

On these three conditions being fulfilled, the partition will be treated as completed and the case removed from the file

97 The law (section 88) appears to contemplate that objections to the effect that lands under division do not form part of the parent estate will be made before the Deputy Collector proceeds under section 57 to determine how the lands of the parent estate shall be partitioned It is possible, however, that objections worthy of consideration may be made at a later stage, but such objections should not be entertained after a partition has been finally confirmed under section 93 The objectors should be referred for their remedy to the Civil Court — Old rule 31, modified

Objections in certain cases

98 With a view to ensure the personal attention of Revenue officers to the proper making up of the record of a partition case, and to enable them to see at once the progress of every such case from its institution to its close, an Order-sheet shall be attached to each record See Board's Circular Order, Appendix J, No 20 — Old rule 32, modified

Order-sheet

99 All partition cases shall be entered in Register No. 2, Form 12, Appendix H Column 19 is provided for the tauzi number of the new estates, and Collectors should see that this column is properly filled up, after communicating the necessary information to the Land Registration and Tauzi Departments — Old rule 29, modified

100 The numerous forms of notices, &c in use in partition proceedings are not printed and supplied by the Superintendent of Stationery It has been ruled that, as a partition pays its own expenses, the notices, &c, should be issued in manuscript, the cost being met in the same way as other charges connected with partition As it is generally within the competency of a Commissioner to sanction any partition charge, Commissioners are authorised to have the forms printed at a local press apportioning the expenditure to all the estates under partition Many of the forms given in Appendix J must be required in all partitions The adoption of these forms is not ordered by the Board, but it is probable that they will be found useful — Old rule 33 modified

Forms.

APPENDIX H

FORM (1)

(Rule 1, Chapter 2)

1.—*Statement showing the estimated cost of partition to be levied under section 37 (1) of the Estates Partition Act, V of 1897*

Number of estate in register	Name of estate	Registered proprietors	Government revenue	Area to survey or if the district has not been surveyed, the estimated area.	Name of estate and revenue at the period of the decennial settlement	Petitioner's name.	Shares into which it is proposed to divide the estate, with the names of the respective proprietors	Answer of officers and gangs to be employed and time they are to be taken up in measurement and other proceedings under section 45	Rate of pay and total cost of establishment shown in column 9	Yearly and total cost of other establishments	Yearly and total cost of contribution towards district establishment employed under sections 3 and 41 (1)	Year's and total cost of contribution towards division establishments employed under section 56.	Other expenditure likely to be incurred (if any) in detail	Total estimated cost of partition (columns 9 to 14)	Apportionment of cost to each proprietor	Instalments and times at which it is proposed to levy the cost	REMARKS
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18

FORM (2)

(Rule 5, Chapter 2)

Register of Stamp duties levied on Partition Cases disposed of during the year 189

Serial number	Name of estate with pargana and tauzi number	Total asset	Deduct Government revenue	Net profit	Market value of net profit at 20 years purchase	Total stamp duty	Name of proprietor	Amount of proportionate share due from each proprietor	Initials of Deputy Collector to the effect that the figures entered in columns 7 and 9 have been correctly calculated	Paid in stamp (in the case note the number and date of petition Register)	Paid in cash (in this case note the number and date of acquittance)	Initials of Deputy Collector to the effect that the entries in columns 11 and 12 have been compared by him and are correct	REMARKS
1	2	3	4	5	6	7	8	9	10	11	12	13	14
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.		Rs. A. P.					

FORM (3)

(Rule 6, Chapter 2)

RETURN XXVIIA

Statement showing the expenditure incurred and the average cost per acre of the land partitioned in the district of for the year ending 31st March 189

Number of estates under partition	Their area in acres	Number of estates partitioned during the year	Their area in acres.	Total cost of partitions completed during the year	Average cost per acre of partitions completed during the year	Estimated cost of partitions in the year†	Cost during the year of partitions in the year	Average duration of partitions concluded during the year‡	REMARKS
1	2	3	4	5	6	7	8	9	10

This number is to show only those estates of which the partition is concluded during the year under report whether the partition was commenced in that or any previous year.

† The total cost will include all expenditure incurred from the beginning to the end of each year.

‡ This average is to be calculated from columns 4 and 5.

FORM (4)

(Rule 9, Chapter 2)

Abstract of the Partition Fund of district , for the year , prepared as required by Section 42 of Act V (B C) of 1897

Receipts	Rs	A	P	*Disbursements*	Rs	A	P
Balance in hand on 1st April 189				Contribution towards establishments employed in the Commissioner's Office under section 36 of the Act			
Received on account of estate				Salary of Deputy Collector employed under section 41 of the Act.			
				Salary of district establishment employed under section 36 of the Act			
				Cost of establishments employed under section 35 of the Act			
				Contingent expenditure			
Total				Cost of stamps			
				Cost of audit,			
				Cost of boundary marks			
				Balance in hand on 31st March 189			

FORM (5) —*Proclamation under Rule 21, Chapter 2*

To

All occupants of lands in village , pargana , district , and to all persons dwelling in villages whose boundaries are conterminous with this village, and to all persons employed on, or connected with, the management of, or otherwise interested in, such lands. It is hereby notified and proclaimed that under section 45 of the Partition Act, V (B C) of 1897, a survey shall be made and a record of existing rents and other assets of all the lands shall be prepared of estate No

This is, therefore, to give notice that the demarcation and survey of the land in the village above stated will commence on the , and you are hereby called upon to attend, either personally or by agent, on the officer engaged to conduct the work at such times and places as shall be stated hereafter in special proclamation to be published in the villages in which the lands to be surveyed lie You will then point out the boundaries of all lands belonging to your respective estates, tenures and holdings, and render such aid as may be necessary in setting up or repairing such marks as may be required, and you will afford such assistance and information as may be required of you for the purposes of the Act You should, therefore, be prepared to point out all the lands mentioned therein as belonging to your estates, tenures and holdings in each village of which you are in actual possession, and also be prepared to give the necessary information in respect of those which are no longer in your possession

FORM (6) —*Special Notice under Rule 22, Chapter 2*

Special notice in continuation of notice in Form 5 of Appendix H

To , proprietor or manager or agent on behalf of the proprietor of estate No , village , pargana , district

It is hereby notified in continuation of the general proclamation , dated the , that (the undersigned or whoever may be sent) will proceed to the demarcation of the undermentioned village on or about the dates specified below and this is to give you notice that you must attend personally or by agent for the purpose of pointing out the boundaries of all lands belonging to your estate situated in such village, and of rendering all aid that may be necessary in setting up or repairing boundary marks and of affording any assistance or information which may be needed

NOTE.—If this notice is issued to a tenant to require his attendance to point out boundaries or give other information, it must be altered accordingly

This notice may in the first place, be issued generally on the proprietors or occupiers of land in the village.

FORM (7).

Notice to Neighbouring Landlords (Rule 24, Chapter 2)

Notice issued by

dated 189 .

To

The landlords and tenants of the undermentioned village

NOTICE is hereby given that amin has been deputed to demarcate mauza , pargana , district , and the undermentioned villages which border on it, and appear to be in your possession You are required, therefore, to appear before the amin to point out the boundary of your respective mauzas, estates, and tenures The amin has no authority to decide any matter in dispute, but merely to ascertain what is disputed Matters in dispute will be settled afterwards by the Deputy Collectors in charge Possession cannot be disturbed by the amin's demarcation Marks put down by the amin should not be removed Herein fail not

No 20.

Circular Order No. 6 of January 1889

WITH a view to ensure the personal attention of Revenue Officers to the proper making up of the record of a partition case, and to enable them to see at once the progress of every such case from its institution to its close, the Board direct (as the High Court have directed* by their Circular order No 13 of 18th July 1877, with regard to regular suits and miscellaneous cases) that there shall be attached to each record an "order sheet or ruidad This paper is to contain a note of every hearing, as well as every order made in the case, from the commencement to the close

The Hon'ble F M. Halliday

* Pages 304-5 of the General Rules and Circular Orders, 1881.

2 The practice of writing orders on petitions, perwanas, or amin's reports and such like papers, is strictly prohibited orders are to be written on the order sheet only, excepting final decisions On every petition return or report requiring an order to be made upon it, there is to be entered at the head thereof a note of the date of the order made and no more, the order and the reasons for making it, when any require to be recorded, are to appear only in the order sheet. Nothing is to be written on any application, except the Register number of the case the date of filing and a reference to the order sheet If any person to be examined is present in office, an order for examination is unnecessary; but the fact of such examination is to be noted in the order sheet.

3 On the case being called on for hearing, if there are any witnesses in attendance, a note of the fact is to be entered in the order sheet, and as the witnesses are called, their names are to be shown there If evidence taken under a commission is read, this fact with the name of each witness, is also to be noted A similar note is to be made when the return of an amin is read

4. There is likewise to be a note of all documentary evidence used at the hearing, giving the numbers of the documents used by each party There is to be one series of numbers for the whole, those of the party who has the right to begin commencing from No. 1, and those of the other parties following in regular order

5 The final order in the case is not to be written *in extenso* in the order sheet, but the making of it is to be noted The same course is to be adopted if there is any subsequent application for review

6 The order sheet may be written by the clerk at the dictation of the presiding officer, and each order, when recorded, is to be signed by the presiding officer, who is to be responsible for the correctness of the entry signed. It is to be kept in charge of the same officer who has the custody of the record, and at the conclusion of the case is to be permanently attached thereto

7 Orders of the kind frequently made such as *misl shamil* and the like should never, or very rarely, occur

8. Appellate Courts are to be guided by the spirit of these rules in making up the appeal record

9 The order sheet (which is to be in the following form) is to have columns ruled off to the right and left—one for the date and the other for the signature of the presiding officer —

Order sheet, dated from to
No of 18

NOTIFICATION—No 3250L R.

The 1st November 1898.—The following draft of rules which it is proposed to make under section 189 of the Bengal Tenancy Act, VIII of 1885, as amended by the Bengal Tenancy (Amendment) Act, III of 1898, and to be substituted for Chapter VI of the rules published under Notification No 4867L R., dated 1st November 1894, at page 1118, Part I of the *Calcutta Gazette* of the 7th idem, is hereby published for general information under the provisions of section 190 (1) of the said Act

Any objection or suggestion which any person may desire to make with respect to the draft should be submitted to the Secretary to the Government of Bengal in the Revenue Department, Calcutta, before the 3rd December, on which date the draft will be taken into consideration

F A. SLACK,
Offg Secy. to the Govt of Bengal

CHAPTER VI

Rules under section 189 of the Bengal Tenancy Act as to the procedure to be followed by Revenue Officers in regard to the Record of Rights and Settlement of Rents

Present rule

1 (*a*) Every Revenue Officer appointed by the Local Government under the designation of "Settlement Officer" or "Assistant Settlement Officer" for the purpose of making surveys, record of rights, settlement of rents, determination of proprietors' private lands, and such like proceedings, or any one or more of them, under the Tenancy Act, is hereby vested with all the powers exercised by a Civil Court in the trial of suits, and with the powers mentioned in section 189 (1) (*b*) and (*c*) of the Tenancy Act, VIII of 1885

Rule 1 (2) modified

(*b*) A Revenue Officer who, under the designation of a Settlement Officer, has been appointed by the Local Government for the purpose of making a survey and record of rights and settlement of rents under Chapter X of the Bengal Tenancy Act, VIII of 1885, shall have power to make over objections preferred under section 103A or the settlement of fair rents (including the preparation of a table of rates) and the preparation of a settlement rent roll under Chapter X, Part II of that Act, in any area, or applications for the settlement of fair rents under section 105, or suits instituted for the trial of disputes under section 106 of that Act, to the officers subordinate to him, who have been duly empowered under the designation of Assistant Settlement Officers to act as Revenue Officers under the provisions of the same chapter of the same Act

Rule 1 (*c*) modified

(*c*) On the application of any person interested after giving notice to other persons interested and hearing objections preferred, if any, or of his own motion without giving such notice, a Revenue Officer so appointed under the designation of Settlement Officer shall have power to withdraw from the file of any Revenue Officer (designated Assistant Settlement Officer) who is subordinate to him any such objections preferred under section 103A of the Bengal Tenancy Act, or the settlement of fair rents (including the preparation of a table of rates) and the preparation of a settlement rent roll, under Chapter X, Part II of the Act, in any area, or any such applications for the settlement of fair rents under section 105, or any such suits instituted for the trial of disputes under section 106, of the Act, and to dispose of such applications, objections, or suits himself, or to transfer them for disposal to any other Revenue Officer similarly subordinate to him who is duly empowered to act as a Revenue Officer

Ne See section 106

(*d*) On the application of either party to a suit under section 106, after giving notice to the other party and hearing objections preferred, if any, or of his own motion without giving such notice, a Revenue Officer so appointed under the designation of Settlement Officer may transfer to such competent Civil Court as the District Judge may designate the trial of a suit or of any class of suits instituted for the decision of a dispute or disputes which involve important and complicated questions of right and title or claims to be put in possession

New

(*e*) In the case of an uninhabited village, any general notice to be served or publication to be made under the rules in this chapter may be served or made in any inhabited village contigu-

ous to that village, or, if there be no inhabited village contiguous to that village, in the inhabited village nearest to that village or in the village in which the tenants and occupants of the lands of the uninhabited village are believed by the Revenue Officer to reside.

2 Deputy Superintendents of Survey and Assistant Superintendents of Survey employed in operations under these rules are hereby declared to be Revenue Officers for the purpose of performing any duty imposed upon them by these rules, or by instructions consistent with these rules, issued by the Board of Revenue They are hereby vested with the powers specified in section 189 (1) (*b*), provided that an Assistant Superintendent shall not exercise the powers vested in a Superintendent under the Bengal Survey Act. Present rule.

PROCEDURE FOR CADASTRAL SURVEY, RECORD OF RIGHTS, AND SETTLEMENT OF RENTS.

3 The processes will be— Rule 3 modified

I —Demarcation of boundaries.
II —Measurement
III —Khanapuri, *i e*, preliminary preparation of the record
IV —Attestation of the record
V —Publication of the draft record
VI —Disposal of objections under section 103A
VII —Settlement of fair rents in cases in which a settlement of revenue is being or is about to be made
VIII —Final publication of the record of rights
IX —The settlement of fair rents on the application of the parties under section 105, and the trial of suits for the decision of disputes under section 106, in cases in which a settlement of revenue is not being or is not about to be made.

I —DEMARCATION OF BOUNDARIES.

4 (*a*) In the demarcation of village boundaries, the area contained within the exterior boundaries of the village maps of the revenue survey shall be preserved as far as possible as the unit of survey and record Rule 4, modified

(*b*) Where there is no dispute the boundary of the village according to possession shall be followed, and, where that boundary does not differ substantially from the boundary of the revenue survey, the latter will not be separately shown in the map

(*c*) Where there is considerable difference between the boundary according to the revenue survey map and the existing boundary of the village as ascertained by the Revenue Officer, the latter shall be followed for the purposes of map and record, but the boundary of the revenue survey map shall also be marked on the new village map

(*d*) Where there is dispute as to village boundaries, the Revenue Officer shall decide the dispute under the Bengal Survey Act, V (B C) of 1875

(*e*) Where no revenue survey maps have been prepared, the Revenue Officer appointed under the designation of Settlement Officer is empowered to determine, after such local enquiry as he may consider necessary, and issue of notice of the enquiry to all parties concerned in the manner prescribed, the area to be included in the village, and such area shall be adopted as the unit of survey and record of rights New

(*f*) The notice under rule 4 (*e*) of the enquiry to be held shall be given by proclamation and beat of drum and by posting it in the presence of not less than two persons in some convenient place or places in the lands to which it refers. New

5. Boundary pillars of a permanent nature shall be erected at every point where the boundaries of three or more villages meet, and may be erected wherever the Revenue Officer considers it necessary to define by pillars the boundaries of estates or tenures, or of lands which have been the subject of dispute Present rule.

II —MEASUREMENT

Rule 6 modified

6 A field map of every village shall be prepared It shall show the boundaries of every field separately held or of such plot of land as the instructions of the Board of Revenue for giving effect to these rules may lay down

III —KHANAPURI, *i e*, PRELIMINARY PREPARATION OF THE RECORD

Rule 7 modified

7 The following are the principal documents to be prepared in the course of a survey and the preparation of a record of rights under Chapter X of the Tenancy Act —

Village map	Khewat
Khasra	Khatian
Parchas.	Terij

These and any other papers prescribed by the Board of Revenue shall be prepared in such manner as the Board may prescribe

Rule 8 modified

8 The record of rights, which shall be published under section 103A of the Tenancy Act, shall be contained in the khewat and the khatian

Rule 9 modified

9 (*a*) The proprietary khewat shall show the character and extent of proprietary interests It shall be first drawn up with reference to the registers maintained by the Collector under the provisions of the Land Registration Act VII (B C) of 1876 As the record writing proceeds, the proprietary khewat shall be altered in accordance with the facts of possession The Settlement Officer shall, from time to time, under such instructions as the Board of Revenue may prescribe in this behalf, give information to the Collector of all alterations made in the khewat, and the Collector shall thereupon take action to make such corrections as may be necessary in his registers prepared under the Land Registration Act If the Collector, after enquiry made under the Land Registration Act, finds that any entry in the khewat is incorrect, a note shall be made in the khewat of his finding

(*b*) A khewat may also, when the Revenue Officer thinks fit, be prepared to show the character and extent of the interests of tenure-holders, such of their interests as are of a raiyati nature being also recorded in the khatian

Rule 10 modified

10 (*a*) The khatian shall show in detail for all the lands of the village, estate by estate, landlord by landlord, tenant by tenant, and occupant by occupant, the lands included in each estate, owned by each landlord and occupied by each tenant or occupant, with particulars of rent and area and of the incidents of each tenancy

(*b*) Lands cultivated or otherwise held direct by the proprietor shall be shown in detail in the khatian, and shall be entered either as proprietor's private land, or as land held by the proprietor but not private land, in accordance with the provisions of Chapter XI of the Tenancy Act

IV —ATTESTATION OF THE RECORD

Present rule

11 (*a*) When the map, khasra, khewat, and khatian for a village have been prepared in the manner prescribed by these rules and by instructions of the Board of Revenue consistent with them, the Revenue Officer shall issue a notification in such form as may be approved by the Board, fixing a day which shall be not less than a week from the date of publication of the notification, on which he will be present at some place to be specified at or near the village, for the purpose of attesting and completing the record of rights

Rule 11 (*b*) modified.

(*b*) The notification shall further state that on the day so fixed, or on any other day to which the proceedings may be adjourned, the Revenue Officer will record rents and status and deal with objections relating to entries in the record or omissions therefrom, and it shall require all parties interested in the subject-matter of the enquiry to attend at the time and place specified with their *parchas*, and with such evidence as they have to offer in connection with the proceedings

Present rule

(*c*) Such notification shall be published by proclamation and beat of drum, and fixed up in the presence of not less than two persons in some conspicuous place in the village to which it refers.

12 The Revenue Officer may also, if he deem fit, take such additional measures under the powers conferred on him by Rule 1 of this Chapter as he may deem desirable to procure the attendance, at the place specified in the notification issued under the last preceding rule, of the occupants, under-raiyats, raiyats, tenure-holders, landlords and proprietors, or their authorized agents — Rule 12, modified

13 On the date specified in the notification issued under Rule 11, or on any other date to which the proceedings may be adjourned the entries which have been made in the khewat and in each khatian shall be read out in the presence of such of the interested parties as are in attendance. If the correctness of any entry is questioned, the Revenue Officer shall dispose of the objection after local enquiry or otherwise provided that if the correctness of the measurement be objected to, and a fresh measurement be demanded, the Revenue Officer may require the cost of the remeasurement to be deposited If the remeasurement show the original measurement to have been inaccurate, the amount deposited, or any portion of it, may, if the Revenue Officer thinks fit, be refunded to the objector — Rule 13, modified

14 The Revenue Officer shall ascertain what raiyats claim the right to hold at fixed rates or fixed rents, explaining, as far as may be necessary, the provisions of the Act in this respect If the right claimed is disputed by the landlord, the Revenue Officer shall call on the claimants for proof of such right It is sufficient for the claimant to establish the presumption mentioned in section 52 (2), and if that presumption be not rebutted by the landlord, the claimant shall be recorded as a raiyat at fixed rates of rent or a fixed rent as the case may be — Present rule

15 The Revenue Officer shall ascertain which of the raiyats are settled raiyats or occupancy raiyats, as the case may be, and shall record them as such, having regard to the presumption of section 20 (7) of the Tenancy Act — Present rule

16 The Revenue Officer shall ascertain what raiyats are non-occupancy, and to this end he shall be entitled to call upon the landlord or his agent to produce a statement showing the names of the raiyats alleged by him to be non occupancy raiyats On production of such statement, the Revenue Officer shall explain to the raiyats whose names are entered in the statement, and who have not already been recorded as occupancy or settled raiyats, the nature of the presumption raised by section 20 (7) of the Act If, after such explanation, a raiyat admits himself to be a non-occupancy raiyat, he shall be recorded as such If he does not admit himself to be a non-occupancy raiyat, the Revenue Officer shall call on the landlord to prove the allegation made by him in regard to such raiyat — Present rule

17 Abwabs shall not be recorded Cesses which are authorized by law shall be recorded separately from the rent in the khatian — Present rule

18 The Revenue Officer shall summarily ascertain the tenant's present rent, and record it in the appropriate column of the khatian as the rent payable in respect of the land held by the tenant — Present rule

19 When the record of rights and of existing rents has been prepared and attested in the manner prescribed in Rules 11 to 18, and when the record shall have been arranged and corrected in accordance with the orders which the Revenue Officer may have passed, he shall record a proceeding in which he shall state that attestation of the records of the village has been completed, and shall then cause the draft record of rights to be published in the village in the manner provided in Rule 20 — Rule 19 modified

V —PUBLICATION OF THE DRAFT RECORD

20 (*a*) As soon as the record of rights has been prepared and attested, a notice shall be posted up at the landlord's office in the village or in the presence of not less than two persons, in some conspicuous place in the village, stating that the draft of the record will be published in the village on a day to be specified, not less than a week from the date of the posting of such notice, and calling on all persons interested to attend on the date so specified provided that the draft of the record shall not be published until the proceeding under Rule 19 has been recorded — Rule 20 (*a*) modified

Rule 29 (b).

(b) On the date fixed for the publication of the draft record, the Revenue Officer shall either proceed to the village himself and read the contents of the record in the presence of the parties who attend, or he shall depute an officer, not below the rank of kanungo, who shall read out the contents of the record in the presence of so many of the parties as attend, and the Revenue Officer or officer deputed by him, as the case may be, shall at the same time inform the parties who attend that the draft record will be open for inspection for not less than one month in the office of the Revenue Officer, or in such other convenient place as the Revenue Officer may determine. The Revenue Officer shall receive and consider any objection which may be made to any entry during the period named

VI.—DISPOSAL OF OBJECTIONS UNDER SECTION 103A.

Rule 30 modified

21 When an objection is made within and before the expiry of the period of publication of the draft record prescribed under Rule 20 (b) regarding the correctness of an entry or as to the propriety of any omission, notice of the objection shall be served on all persons whose interests may, in the opinion of the Revenue Officer, be affected thereby, and they shall be called upon to attend at such time and place as the Revenue Officer may fix for the disposal of the objection If no person attends to contest the objection, the objection may be allowed and the record amended accordingly, or the person who made the objection may, if the Revenue Officer thinks fit, be called upon to produce evidence in support of his objection

All such objections shall be dealt with summarily under such instructions as the Board of Revenue may prescribe

VII.—SETTLEMENT OF FAIR RENTS IN CASES IN WHICH A SETTLEMENT OF REVENUE IS BEING OR IS ABOUT TO BE MADE

Rule 20(a) and (b) and 24(2) modified

22 (a) In the case of a settlement of fair rents under Part II of Chapter X of the Bengal Tenancy Act, when a settlement of revenue is being or is about to be made, the Revenue Officer shall serve a notice by proclamation and beat of drum, and by posting it in the presence of not less than two persons in some conspicuous place in the village comprising the lands under settlement. The notice shall be in such form as may be approved by the Board of Revenue, and shall set forth that on a date named and at a place named the Revenue Officer will settle fair rents in respect of all estates, tenures or holdings, and for unsettled lands included in such village A schedule may, when the Revenue Officer thinks fit, be appended to the notice, giving such particulars as he may think necessary relating to the names and numbers of all estates, tenures, and holdings paying revenue or rent to Government, and of unsettled lands for which rent will be settled. Such notice shall be served at least one week previous to the date fixed for settlement of fair rents When such notice has been served it shall be held that all persons have, subject to the provisions of Rule 30 (b), been sufficiently warned of the date fixed.

New

(b) Provided that in cases in which a table of rates is prepared under the provisions of section 104B, the notice shall not be published until the table of rates has been confirmed under sub-section (5) of that section

New see section 104D

23 A table of rates shall not ordinarily be prepared when it is found that the tenants of the local area in question hold their lands at lump rentals, and no rates actually exist, or when the rates are so numerous and varied, and are so little dependent on the class of soil, that no table of existing rates can be prepared When the above conditions do not obtain, and it is possible to prepare a table of existing rates which are generally of a uniform character and in accordance with certain ascertainable classes of soil, a table of rates may be prepared in accordance with the provisions of section 104A (c)

Provided that when the Revenue Officer is of opinion, for reasons to be recorded by him in writing, and submitted to, and approved by, the authority empowered to confirm the table or rates, that the rents stated as the existing rents by the landlord

and tenants are not the rents that are legally payable and that it is impossible to ascertain those rents, a table of rates fairly and equitably payable may be prepared and shall be based on the rates or rents payable in those neighbouring villages, the lands of which are fairly comparable with the lands of the village

24 When the Revenue Officer has decided to settle rents in any local area on the basis of a table of rates, under section 104A (*a*), he shall first prepare a table of existing rates, and shall then either maintain those rates or shall proceed to enhance or reduce them, having regard to the general principles laid down in the Act for the enhancement or reduction of rents and especially to section 30 (*b*), (*c*), and (*d*) — New, section 104D

25 The table of rates finally prepared by the Revenue Officer and published by him under section 104B (2), shall contain the particulars noted in section 104B(1) and shall show— — New section 104D

(*a*) the classes of soil, as locally known, that have been adopted in the fixation of rates,

(*b*) the area, expressed in local measure, for which each rate is fixed

(*c*) the existing rates, if any, taken as the basis of the table of rates, and

(*d*) the rate fixed as fairly and equitably payable for that area of land of each class of soil for each class of tenant who e rent is liable to alteration

26 (*a*) When a table of rates has been prepared under section 104B, a notice shall be posted up in the landlord's office in the village or in the presence of not less than two persons in some conspicuous place in the village, stating that the table of rates will be published in the village on a day to be specified, not less than a week from the date of the posting of such notice, and calling on all persons interested to attend on the date so specified. — New see section 104B (2)

(*b*) On the date fixed for the publication of the table of rates the Revenue Officer shall proceed to the village and shall explain to so many of the parties as attend the proposed rates and the grounds on which they are based, and shall hear and consider any objections that may be raised to any entries in the table He shall at the same time inform the parties who attend that the table of rates will be open to inspection for not less than one month in the office of the Revenue Officer, or in such other convenient place as the Revenue Officer may determine, and that any person who objects to any entry in the table of rates, may present a petition to him on the subject within one month of the date of the publication of the table of rates, which will be duly considered under section 104B (3)

27 The Revenue Officer shall record the grounds of his final order in every case in which he disposes of an objection to a table of rates under section 104B (4) — New section 104B (3)

28 In submitting his proceedings to the confirming authority under section 104B (4), the Revenue Officer shall describe the soil classification adopted by him for the purposes of his table of rates, and shall show in tabular form the rates which were found by him to exist for the classes of soil described, and the rates he proposes to substitute for the existing rates, explaining in each case his grounds for maintaining, enhancing, or reducing the rates — New section 104B (4)

29 (*a*) The following Revenue authorities are empowered under section 104B (4) to confirm tables of rates prepared under the Act — New see section 102B (4)

(*i*) When the total rents to which the table of rates is to be applied will not, in the opinion of the Revenue Officer exceed Rs 5,000 the Commissioner of the Division

(*ii*) When the total rents in question will, in the opinion of the Revenue Officer, exceed Rs 5,000, the Board of Revenue

(*b*) The following Revenue authorities are empowered, under section 104B(4), to confirm settlement rent-rolls prepared under the Act —

(*i*) In all cases in which the settlement rent roll has been prepared by an Assistant Settlement Officer, and the Settlement Officer is of the rank of a Collector, the Settlement Officer.

(*c*) In all other cases the Collector or other Revenue authority to whom the Settlement Officer is declared by the Board of Revenue to be immediately subordinate

Rule 6 (*a*) modified

30 (*a*) On the date fixed in Rule 22 above, or on any subsequent date to which the proceedings may be adjourned, the Revenue Officer shall read, or cause to be read aloud in his presence, the name of each tenant whose rent has to be settled, the area of his tenancy and the existing rent and shall proceed to settle a fair rent for every such tenant under the provisions of section 104A (1) (*a*) (*b*) (*d*) or section 104C

Rule 6 (*b*) modified

(*b*) Provided that when a Revenue Officer proposes to alter an existing rent, and the parties have not attended in compliance with the general notice prescribed in Rule 22 above, the Revenue Officer shall serve each person interested with special notice, and the fair rent shall not be settled in the absence of such person until after due service of such special notice has been proved

New

31 The settlement rent roll shall contain the particulars prescribed in section 104A (2), and the fair rent settled for each tenant shall be entered in it by the Revenue Officer himself at the time that such rent is settled

New see section 104F (1)

32 As soon as the settlement rent-roll has been prepared, it shall be published in the manner prescribed for the publication of the draft record in Rule 20, and the Revenue Officer, or the officer deputed by him to read out the contents of the settlement rent-roll, as the case may be, shall at the same time inform the parties who attend that the settlement rent roll will be open to inspection for not less than one month in the office of the Revenue Officer, or in such other convenient place as the Revenue Officer may determine, and that any person who objects to any entry in the settlement rent-roll or omission therefrom may present a petition to the Revenue Officer on the subject within one month of the date of the publication of the settlement rent roll, which will be duly considered under section 104E

New see sections 104E (1) and 104C (1)

33 All objections presented under Rule 26 or Rule 32 shall be dealt with in accordance with the provisions of Rule 21, in the same way as objections presented under section 103A An appeal presented under section 104G (1) shall lie to the officer to whom the Revenue Officer who has passed the order appealed against is immediately subordinate provided that a second appeal shall lie from any order on appeal settling the amount of a fair rent passed by a Settlement Officer or Collector under this rule to the Commissioner of the Division, and that, when the proposed annual rental of any tenancy exceeds 100 rupees per annum, a final appeal shall in all such cases lie to the Board of Revenue

New see section 104H (3)

34 As soon as the settlement rent roll has been sanctioned by the confirming authority, it shall be incorporated in the record of-rights by the entry of the fair rents settled in a column of the khatian to be set apart for that purpose

VIII —FINAL PUBLICATION OF THE RECORD-OF-RIGHTS

Rule 31 modified

35 When all objections under section 103A have been disposed of as provided for in rule 21 above, and, in cases in which a settlement of revenue is being or is about to be made, the settlement rent roll has been incorporated in the record-of-rights, as provided in rule 34, and the Revenue officer has corrected the draft record in accordance with the orders passed by him on such objections or in the course of the preparation of the settlement rent roll, he shall finally frame the record and cause it to be published by notifying that its contents will be read out in the village on a date to be specified not less than a week from the date of the publication of such notice, and by reading it out himself or causing it to be read in the village on the date so specified, in the manner prescribed in rule 20, in the presence of the parties or of so many of them as attend

IX—THE SETTLEMENT OF FAIR RENTS ON THE APPLICATION OF THE PARTIES UNDER SECTION 105, AND THE TRIAL OF SUITS FOR THE DECISION OF DISPUTES UNDER SECTION 106 IN CASES IN WHICH A SETTLEMENT OF REVENUE IS NOT BEING OR IS NOT ABOUT TO BE MADE.

Rule 20 modified

36 When the landlord or tenant applies for the settlement of a fair rent, he shall be considered as plaintiff and the opposite

party as defendant, and the Revenue Officer shall proceed as is directed in rule 37 to rule 42 following

Rule 22 modified

37 When the estate or tenure is managed by the Court of Wards, and a settlement of revenue is not being or is not about to be made, the procedure laid down in these rules for recording or settling rents shall be followed, the Manager of the estate or the tenure being regarded as the landlord

Rule 24(1) modified

38 When a landlord or tenant applies for the settlement of a fair rent, notice shall be served on every person interested in the application, together with a copy of the application, or extract therefrom or summary thereof, so far as the application concerns such person

Rule 25 modified

39 With the consent of the Revenue Officer, any number of tenants occupying land under the same landlord in the same village may make a joint application for the settlement of rents, or may be joined as defendants in the same proceeding on a similar application by the landlord provided that if at any time it shall appear to the Revenue Officer that the question between any two of the parties of whom one is so joined with others cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such other order, in accordance with the Civil Procedure Code, for the joint or separate disposal of the application as he may think fit

Rule 26(1) modified

40 (*a*) On the date fixed for the settlement of fair rents, or any subsequent date to which the proceedings may be adjourned, the Revenue officer shall read aloud, or cause to be read aloud in his presence, the name of each tenant whose rent has to be settled, the area of his tenancy, and the existing rent, and shall then proceed to settle a fair rent under the provisions of section 105

Rule 26(iii) (*b*)

(*b*) Where landlord or tenant does not attend after due service of notice has been proved, the procedure may be *ex parte*

Rule 26(iii) (*c*) modified

(*c*) Where landlord or tenant appears and the fair rent is not settled under sub sections (5) or (6) of section 105, that is, by the acceptance by the parties of a rent proposed by the Revenue Officer, or compromise, the Revenue Officer shall record evidence in the manner prescribed in clause (*f*) of section 148 of the Bengal Tenancy Act for the trial of rent suits, and shall settle a fair and equitable rent according to law provided that in important cases the Revenue Officer may, in his discretion, record evidence at length

Rule 26 modified

(*d*) When a fair rent has been settled under these rules, it shall be entered in the khatian as the rent payable in respect of the holding from the date prescribed by section 110

Rule 27

41 It shall not be necessary for a Revenue officer to draw up a separate decree with regard to the fair rent settled, but the entry made in his decision or schedule attached thereto with regard to the fair rent settled shall be held to be a decree

Rule 30(*b*) modified

42 Proceedings under section 106 of the Act shall be dealt with in all respects as suits between the parties

SUPPLY OF COPIES OF THE RECORD OF RIGHTS TO PARTIES INTERESTED

These and the remaining rules reproduce the present rules 43 to 44 with a slight modification of rule 33 (*c*) and the omission of rule 42

43 (*a*) The Revenue Officer having completed the record shall cause copies of it to be made, one of which, or extracts from which, will be made over to the landlord concerned, or, where there are more landlords than one, to their common agent or common manager, as the case may be, or, if there be no common agent or common manager, to such person among the landlords as the Revenue Officer may think fit, and one to the Collector of the district

(*b*) An extract from the khatain relating to his tenancy shall be given to every tenant under the seal of the Revenue Officer and under the signature of an officer duly authorized by the Revenue Officer to give copies

(*c*) Copies of records, or of extracts from them, supplied to landlords and tenants under this rule shall be given free or on payment according as in the case of each local area the Local Government may direct When payment is required, the sums so recovered shall be adjusted against the expenses incurred on account of survey and settlement

FINAL REPORTS

44 The Local Government may, if it thinks fit, direct that a final report be written in English for each village and each local area under survey The report for the village will show—

(*a*) The number of tenants of each class, with the area held and rental paid by them
(*b*) The area and classification of the village lands
(*c*) The rental before settlement, and according to settlement and the number of fair rents settled, with explanation of increase or decrease
(*d*) When settlement of land revenue is being made, the amount of Government revenue, before and after resettlement, grounds of assessment, and comparison of gross assets with new assessment
(*e*) The rates of rent prevailing before settlement, and the rates settled if any
(*f*) Proximity to markets, and facilities for irrigation
(*g*) Village customs, including customs as to payment of village officials
(*h*) Arrangements made for maintenance of records
(*i*) Other matters deserving of notice which have been excluded from the record of-rights

The report for the whole area under survey will contain the following particulars —

I —General description of the tract
II —Its fiscal history
III —Statistical results
IV —Comparison of condition of the tract as regards rentals before and after survey
V.—Financial results, including approximate division of expenses under the heads—

(*a*) Survey,
(*b*) Record of-rights,
(*c*) Preparation and distribution of records

APPLICATIONS UNDER SECTION 103 FOR SURVEY AND RECORD-OF-RIGHTS

45 These applications shall be made to the Collector of the district

46 The application shall specify—

(*a*) The status of the applicant, viz, whether he is a proprietor or a tenure holder, and the particulars in respect of which the application is made

(*b*) The number of tenants (so far as the applicant is able to state it) occupying the estate or tenure, or part thereof in respect of which the application is made, the total rent payable by them at the time, and the estimated area covered by the application

47 If the application is made by a proprietor, it shall not be admitted unless the name of the applicant and the extent of his interest are registered under Act VII (B C) of 1876

48 On receipt of the application, the Collector shall forward it to the Commissioner with any remarks which he may think necessary

49 The Commissioner may call for further information, or may require the application to be amended

50 If the Commissioner considers that the application cannot be granted with advantage to the interests of all persons concerned, he may reject it. If he approves it, he shall forward the application, with an expression of his opinion, for the orders of the Board of Revenue

51 A Commissioner rejecting an application shall record his reasons for doing so, and the applicant, if dissatisfied with the order, may appeal within one month to the Board of Revenue

52 When an application is referred to the Board under Rule 50, or an appeal is preferred under rule 51, the Board shall pass such orders as it may think fit for allowing or rejecting the application

53 As soon as an application is allowed, the Collector shall call upon the applicant to deposit eight annas per acre of the estimated extent of the estate or tenure or part thereof in respect of which the application has been allowed If the Collector is unable to estimate the area, he shall require a deposit at the rate of Rs 2 for each tenant If the amount does not exceed Rs 500, the applicant must deposit the whole amount in advance If it exceeds Rs 500, the applicant shall deposit the sum of Rs 500, and shall give such security as the Collector may require for the payment of the balance of the deposit in such instalments as the Collector may from time to time demand

If the amount deposited as above proves more than sufficient to cover the cost of the proceedings, the unexpended balance will be refunded on their termination

If the amount deposited proves insufficient to cover the cost, the applicant shall when required by the Collector, deposit from time to time such further sums as the Collector may think necessary for the completion of the proceedings If he shall fail to do so the proceedings may be stopped and the order allowing the application cancelled

54 In conducting the operations, the Revenue Officer shall proceed in accordance with the rules for the guidance of officers acting under orders made under section 101

GENERAL DEPARTMENT—(EMIGRATION)

NOTIFICATION—No 711T G

The 31st October 1898—The following notification, issued by the Government of India in the Department of Revenue and Agriculture, is published in the *Calcutta Gazette* for general information —

RAILWAY DEPARTMENT

The 1st November 1898

No 152 —Declaration—Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken up at the public expense for a public purpose viz, for Moghalserai Gaya Railway, in the district of Shahabad, it is hereby declared that for the above purpose a strip of land of an average width of 600 feet, more or less, from Makrain, passing through or near Pali and Ratubigha to Mathuri, is required in the villages named in the following schedule, of an approximate area as stated in each case —

District	Tahsil	Name of village	Area in acres
1	2	3	4
Shahabad .	Sasaram	Makrain .	164 84
		Pali .	22 53
		Ratubigha	30 95

BABU BRAJAMOHAN DUTT'S PRIZE ESSAY FOR NATIVE LADIES

THE following subject has been selected for Babu Brajamohan Dutt's Prize Essay of Rs 40 for the year 1898-99 —

"Modesty is the chief ornament of women, and their chief duty is to serve their husbands"

The conditions for the award of the prize are —

(1) That the competition be open to all educated women, being natives of Bengal, without regard to age
(2) That the prize be given for an essay, to be written in either Bengali or Sanskrit.
(3) That the essays be sent to the Central Text-book Committee for adjudication within six months of the date of advertisement.
(4) That each essay be accompanied by the written declaration of the husband, parent, or guardian of the competitor, that to the best of his belief she has received no assistance of any kind, direct or indirect, in writing the essay

Candidates are requested to send their essays, not later than the 30th April 1898, to the Secretary to the Central Text-Book Committee, Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, Calcutta The envelope containing the essay should be superscribed "Brajamohan Dutt Prize Essay" The name of the successful competitor will be published in the *Calcutta Gazette*

The winner of the prize in any year may, if she pleases, again compete If she is adjudged to have sent in the best essay in such subsequent competition, her name will be published in the *Gazette*, but the prize will be awarded to the next eligible candidate

No prize will be awarded if, in the opinion of the judges, the best essay sent in is not such as to deserve a prize

DARJEELING,
The 21st October 1898

C A MARTIN
Director of Public, Instruction

Civil Engineering College, Sibpur

THE following alterations in the rules of the College have been sanctioned by Government —

1 All applications for admission to the Engineer and Apprentice Departments must be accompanied by a registration fee of Re 1, which in no case will be returned

2 The tuition fee in the Engineer Department is raised from Rs 8 to Rs 10 a month

3 With the exception of Apprentices on the free and reduced fee lists, all other Apprentices will pay a tuition fee of Rs 3 a month for each month of the year

These rules will come into force in the case of all admissions in June 1899, but will not apply to students already in the College

The Indian Law Reports

Published under Authority

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court, a second for the Madras High Court a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively

In supersession of the previous advertisements on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 —

Terms of subscription payable annually in advance

For the complete series, *including postage* (Inland rate) Rs 22-8

Drawing Instruments (electrum) are available at the College Book Depôt at Rs 62 per box Drawing Instruments drawing materials, &c., are also obtainable from the Roorkee Workshops and application should be made to the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA

Royal octavo, with numerous plates

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required

VOLUME I*

Sec		Rs	A.
I.—Building Materials	(in the Press)		
II.—Masonry	(ditto)		
III.—Carpentry	(ditto)		
IV.—Earthwork (1892)		1	4
V.—Tools and Plant	(never published)		

VOLUME II*

VI.—Buildings (1891)	1	4
VII.—Bridges	3	8
VIII.—Roads	2	4
IX.—Railways (1891)	1	4
X.—Irrigation Works (under revision)		

ROORKEE MANUAL OF APPLIED MECHANICS

Vol. I.—Direct and Transverse Strain, principally by Analytical Methods	3	0
II.—The Stability of Structures, mostly by Graphic Methods (in the Press)		

MANUALS

	Rs.	A.
VII.—Surveying (by Major Firebrace, R E) (7th edition), with Curve Table	3	8
XIII.—Drawing (by Lieut R Pulford, R E)†	3	0
XIIIA.—Drawing, First Principles of Geometrical (by Lieut. R Pulford, R E.) (4th edition)	1	4
XIV.—Simple Applied Mechanics (2nd edition), Parts I and II in one	3	0
Simple Applied Mechanics, Part II (1st edition)	0	8
XV.—Examples of Estimating Comprising a progressive series of Estimates (with plans of Buildings and Bridges, worked in detail) By P Keay Esq and revised by C C Sullivan, Esq, Head Master (5th edition)	3	12
XVI.—Earthwork Estimating, with Practical Tables and Diagrams By Major A M Brandreth, R E (in the Press)		
XVII.—Specimens of Printing used in the College Drawing Course and Entrance Examinations	0	6

Note—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same omitting section X is the course for the Upper Subordinate class The other Manuals are the complete course for both Classes in the several subjects of which they treat

A Dictionary of the Economic Products of India

BY DR GEO WATT, C I E,

Reporter on Economic Products

The first five volumes and Vol VI Parts I II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied to non subscribers on receipt of the price for the complete set which is Rs 45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India 8 annas per volume, for England, Re 2 6 per volume For copies bound in half calf or half morocco Rs 6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names habitat or source; history; properties and uses (both chemical and industrial); trade statistics markets &c The work is arranged alphabetically

according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references so that little difficulty need be experienced in finding the account of a product, even when the scientific name is unknown to the reader, &c.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo pages; Vol II embraces the letter C in 689 pages; Vol III contains the letters D, E, F and half of G; Vol IV latter half of G to middle of I and Vol V contains the latter half of L to end of O Vol VI (which consist of four parts) Part I, contains letters P to R The whole work completed in nine volumes (including Parts II to IV of Vol VI) but a tenth volume has been issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index is practically a Glossary of the Vernacular and European names of the plants, animals and minerals of India and, as such, is a work of reference, which it is hoped, will prove of considerable value

Index to ditto ditto, 8vo Rs 2 (4*a*)

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 5th April, 1898, and, having been assented to by His Excellency the Viceroy and Governor General on the 3rd May, 1898, is hereby published for general information —

An Act to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885

CONTENTS

SECTION

1 Short title and commencement

2 Amendment of Act VIII, 1885, section 30

3 Amendment of Act VIII, 1885, section 31

4 Insertion of sections 31A and 31B in Act VIII, 1885

31A. What may be taken in certain districts to be the "prevailing rate"

31B Limit to enhancement of prevailing rate

5 Amendment of Act VIII, 1885, section 39 (6)

6 Amendment of Act VIII, 1885, section 52

SECTION

7 New Chapter X for Act VIII, 1885

CHAPTER X.

RECORD-OF-RIGHTS AND SETTLEMENT OF RENTS

Part I —Record-of-rights

101 Power to order survey and preparation of record-of-rights

102 Particulars to be recorded.

103 Power for Revenue Officer to record particulars on application of proprietor, tenure-holder or large proportion of raiyats

103A. Preliminary publication, amendment, and final publication of record of-rights.

103B Presumption as to correctness of record-of rights

Part II —Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land revenue is being or is about to be made

104. Settlement of rents and preparation of Settlement Rent Roll when to be undertaken by Revenue Officer

104A Procedure for settlement of rents and preparation of Settlement Rent Roll under this Part

104B (*1*) Contents of Table of Rates.

(*2*) Local publication of Table

(*3*) Revenue Officer to deal with objections

(*4*) Table to be submitted to superior Revenue authority

(*5*) Proceedings of confirming authority

(*6*) Effect of Table

104C. Application of Table of Rates.

104D Rules and principles to be followed in framing Table of Rates and settling rents in accordance therewith

104E. Preliminary publication and amendment of Settlement Rent Roll

104F Final revision of Settlement Rent Roll, and incorporation of the same in the record-of-rights

104G Appeal to and revision by superior Revenue authorities.

SECTION

7—*contd*

104H Jurisdiction of Civil Courts in matters relating to rent

104J Presumptions as to rents settled under sections 104A to 104G

Part III—Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made

105. Settlement of rents by Revenue Officer in cases where a settlement of land revenue is not being or is not about to be made

106 Decision of disputes by Revenue Officer

107 Procedure to be adopted by Revenue Officer

108 Revision by Revenue Officer

109 Bar to jurisdiction of Civil Courts

109A. Appeals from decisions of Revenue Officers

Part IV—Supplemental Provisions

110 Date from which settled rent takes effect

111. Stay of proceedings in Civil Court during preparation of record of-rights

111A Limitation of jurisdiction of Civil Courts in matters, other than rent, relating to record-of rights

112 Power to authorize special settlement in special cases.

113 Period for which rents as settled are to remain unaltered.

114. Expenses of proceedings under Chapter.

115 Presumption as to fixity of rent not to apply where record-of-rights has been prepared.

8 Validation of publication of past records.

9 Effect of settlements of rent and decisions by Revenue Officers made before the commencement of this Act

10 Amendment of Act VIII, 1885, section 119

11 Repeal of Bengal Act V, 1894

BENGAL ACT No III OF 1898.

An Act to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885 VIII of 1885

WHEREAS it is expedient to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885, in the manner hereinafter appearing;

And whereas, the said Act having been passed by the Governor General of India in Council, the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the requisite amendments being made by an Act of the Lieutenant Governor of Bengal in Council, 55 and 56 Vict., c 14

And whereas the sanction of the Governor General has similarly been obtained to the amendment of the Court-fees Act, 1870, which is proposed by section 7 (105) of this Act, VII of 1870

It is hereby enacted as follows —

Short title and commencement.

1. (*1*) This Act may be called the Bengal Tenancy (Amendment) Act, 1898, and

(*2*) It shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor General

Amendment of Act VIII, 1885, section 30

2 For clause (*a*) of section 30 of the Bengal Tenancy Act, 1885, the following shall be substituted, namely — VIII of 1885

"(*a*) that the rate of rent paid by the raiyat is below the prevailing rate paid by occupancy raiyats for land of a similar description and with similar advantages in the same village or in neighbouring villages, and that there is no sufficient reason for his holding at so low a rate."

Amendment of Act VIII, 1885, section 31.

3 After clause (*d*) of section 31 of the said Act the following shall be inserted, namely —

"(*e*) if a favourable rate has been determined under clause (*a*) for any description of raiyats, such rate may, if the Court thinks fit, be left out of consideration in ascertaining the prevailing rate,

"(*f*) if the holding is held at a lump rental, the determination of the rent to be paid may be made by ascertaining the different classes of land comprised within the holding, and applying to the area of each class the prevailing rate paid on that class within the village or neighbouring villages'

Insertion of sections 31A and 31B in Act VIII, 1885

4 After section 31 of the said Act the following shall be inserted, namely:—

"31A (*1*) In any district or part of a district to which this sub-section is extended by the Local Government by notification in the Calcutta Gazette, whenever the prevailing rate for any class of land is to be ascertained under section 30, clause (*a*), by an examination of

What may be taken in certain districts to be the "prevailing rate

(*Sections 5-7 Chapter X—Part I—Record-of-rights*)

the rates at which lands of a similar description and with similar advantages are held within any village or villages, the highest of such rates at which and at rates higher than which the larger portion of those lands is held may be taken to be the prevailing rate

Illustrations

'(*a*) The rates at which land of a similar description and with similar advantages is held in a village are as follow:—

Bighas.						Rs	A	P
100	..			..	...	at 1	0	0
200	...				..	1	8	0
150		..				1	12	0
100				...		2	0	0
150	..		...	...	...	,, 2	4	0
Total ... 700								

Then Re 2-4 is not the prevailing rate because only 150 bighas, or less than half are held at that rate Re 2 is not the prevailing rate because 250 bighas, or less than half are held at that or a higher rate. Re 1-12 is the prevailing rate because 400 bighas, or more than half, are held either at this or a higher rate, and this is the highest rate at which and at rates higher than which more than half the land is held

(*b*) The rates at which land of a similar description and with similar advantages is held in a village are as follow:—

Bighas.						Rs	A	P
100	..	...			at	1	0	0
250			..			1	4	0
150	..			..	... ,,	1	8	0
150		...		...		1	12	0
50		...		..	...	2	0	0
Total 700								

Then, for the reasons given in Illustration (*a*), neither Re 2 nor Re. 1 12 is the prevailing rate, nor is Re 1-8 the prevailing rate, because only 350 bighas (exactly half) are held at Re 1-8 or at rates higher than Re 1-8 In this case Re 1-4 is the prevailing rate because more than half the lands are held at Re 1-4 or higher rates, and this is the highest rate at which and at rates higher than which more than half the land is held '

"(*2*) The Local Government may, by a like notification, withdraw sub section (*1*) from any district or part of a district to which it has been extended as aforesaid

Limit to enhancement of prevailing rate

"31B When the prevailing rate has once been determined by a Revenue Officer under Chapter X or by a Civil Court in any suit under this Act, it shall not be liable to enhancement save on the ground and to the extent specified in section 30, clause (*b*), and section 32"

Amendment of Act VIII 1885 section 39 (*6*)

5 After the word "correct," in sub-section (*6*) of section 39 of the said Act, the words "and may presume that the prices shown in the lists prepared for any year prior to the passing of this Act are correct" shall be inserted

Amendment of Act VIII, 1885, section 52.

6 To section 52 of the said Act the following shall be added, namely —

"(*5*) When in a suit under this section the landlord or tenant is unable to indicate any particular land as held in excess, the rent to be added on account of the excess area may be calculated at the average rate of rent paid on all the lands of the holding exclusive of such excess area"

New Chapter X for Act VIII, 1885.

7 For Chapter X of the said Act the following shall be substituted, namely —

"CHAPTER X

"RECORD-OF-RIGHTS AND SETTLEMENT OF RENTS

"*Part I—Record-of rights*

Power to order survey and preparation of record-of rights

"101 (*1*) The Local Government may, in any case with the previous sanction of the Governor General in Council, and may, if it thinks fit, without such sanction in any of the cases next hereinafter mentioned, make an order directing that a survey be made and a record of-rights be prepared, by a Revenue Officer, in respect of the lands in any local area, estate or tenure or part thereof

Section 7 Chapter X —Part I —Record-of-rights)

"(3) The cases in which an order may be made under this section without the previous sanction of the Governor General in Council are the following, namely —

"(*a*) where the landlords or tenants or a large proportion of the landlords or of the tenants apply for such an order and deposit, or give security for, such amount, for the payment of expenses, as the Local Government directs,

"(*b*) where the preparation of such a record is calculated to settle or avert a serious dispute existing or likely to arise between the tenants and their landlords generally,

"(*c*) where the local area, estate or tenure or the part thereof belongs to, or is managed by, the Government or the Court of Wards,

"(*d*) where a settlement of land-revenue is being or is about to be made in respect of the local area, estate or tenure or of the part thereof

"Explanation 1 —The term "settlement of land revenue," as used in clause (*d*) includes a settlement of rents in an estate or tenure which belongs to the Government

"Explanation 2 —A superior landlord may apply for an order under this section notwithstanding that his estate or part thereof is temporarily leased to a tenure holder

"(4) A notification in the official Gazette of an order under this section shall be conclusive evidence that the order has been duly made

"(4) The survey shall be made and the record-of-rights prepared in accordance with rules made in this behalf by the Local Government

"102. Where an order is made under section 101, the particulars to be recorded shall be specified in the order, and may include, either without or in addition to other particulars, some or all of the following, namely —

Particulars to be recorded

"(*a*) the name of each tenant or occupant,

"(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy-raiyat, non-occupancy raiyat or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure,

"(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier,

"(*d*) the name of each tenant's landlord,

"(*e*) the rent payable at the time the record-of-rights is being prepared,

(*Section 7 Chapter X.—Part I —Record-of-rights*)

"(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise,

"(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases,

"(*h*) the special conditions and incidents, if any, of the tenancy,

"(*i*) if the land is claimed to be held rent-free—whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority

Power for Revenue Officer to record particulars on application of proprietor, tenure holder or large proportion of raiyats.

"103 On the application of one or more of the proprietors or tenure-holders, or of a large proportion of the raiyats, of an estate or tenure, and on the applicant or applicants depositing or giving security for the required amount for expenses, a Revenue Officer may, subject to and in accordance with rules made in this behalf by the Local Government, ascertain and record all or any of the particulars specified in section 102 with respect to the estate or tenure or any part thereof

Preliminary publication, amendment and final publication of record of rights

"103A (*1*) When a draft record of-rights has been prepared, the Revenue Officer shall publish the draft in the prescribed manner and for the prescribed period, and shall receive and consider any objections which may be made to any entry therein, or to any omission therefrom, during the period of publication

"(*2*) When such objections have been considered and disposed of according to such rules as the Local Government may prescribe, and (if a settlement of land revenue is being or is about to be made) the Settlement Rent Roll has been incorporated with the record under section 101F, sub-section (*3*), the Revenue Officer shall finally frame the record, and shall cause it to be finally published in the prescribed manner, and the publication shall be conclusive evidence that the record has been duly made under this Chapter

"(*3*) Separate draft or final records may be published under sub-section (*1*) or sub-section (*2*) for different local areas, estates, tenures or parts thereof.

Presumption as to correctness of record of rights.

"103B A certificate, signed by the Revenue Officer, stating that a record-of rights has been finally published under this Chapter shall be conclusive evidence of such publication, and every entry in a record-of-rights so published shall be presumed to be correct until the contrary is proved.

(Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made)

"PART II—*Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made*

Settlement of rents, and preparation of Settlement Rent Roll when to be undertaken by Revenue Officer

"104 In every case in which a settlement of land-revenue is being or is about to be made, the Revenue Officer shall, after publication of the draft of the record-of-rights under section 103A, sub section (*1*),—

"(*a*) settle fair and equitable rents for tenants of every class,

"(*b*) notwithstanding anything contained in section 192, settle a fair and equitable rent for any land in respect of which he has recorded, in pursuance of clause (*c*) of section 102, that the occupant is not entitled to hold it without payment of rent, and

"(*c*) prepare a Settlement Rent Roll

Procedure for settlement of rents and preparation of Settlement Rent Roll under this Part.

"104A (*1*) For the purposes of settling rents under this Part and preparing a Settlement Rent Roll, the Revenue Officer may proceed in any one or more of the following ways or partly in one of those ways and partly in another, that is to say,—

"(*a*) if in any case the landlord and tenant agree between themselves as to the amount of the rent fairly and equitably payable, the Revenue Officer shall satisfy himself that the rent so agreed upon is fair and equitable, and if he is so satisfied, but not otherwise, it may be settled and recorded as the fair and equitable rent,

"(*b*) the Revenue Officer may himself propose what he deems to be the fair and equitable rent, and if the amount so proposed is accepted, either orally or in writing by the tenant, and if the landlord, after notice to attend, raises no objection, the rent so proposed may be settled and recorded as the fair and equitable rent,

"(*c*) if the circumstances are, in the opinion of the Revenue Officer, such as to make it practicable to prepare a Table of Rates showing for any local area, estate, tenure or village or part thereof, or for each class of land in any local area, estate, tenure or village or part thereof, the rate or rates of rent fairly and equitably payable by tenure-holders and raiyats and under-raiyats of each class, he may frame a Table of Rates and settle and record all or any of the rents on the basis of such rates in the manner hereinafter described,

"(*d*) the Revenue Officer may settle all or any of the rents by maintaining the existing rentals recorded in the record-of rights as published under section 103A, sub-section (*1*), or by enhancing or reducing such rentals Provided that in making any such settlement regard shall be had to the principles laid down in sections 6 to 9 (both inclusive), 27 to 36 (both in-

(Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made)

"(*f*) The Settlement Rent Roll shall show the name of each landlord and of each tenant whose rent has been settled, and the amount of each such tenant's rent payable for the area shown against his name

"104B (*1*) If a Table of rates is prepared, it shall specify—

Contents of Table of Rates.

"(*a*) the class or several classes of land for which, having regard to the nature of the soil, situation, means of irrigation, and other like considerations, it is in the opinion of the Revenue Officer necessary or practicable to fix a rate or different rates of rent, and

"(*b*) the rate or rates of rent fairly and equitably payable by tenants holding land of each such class whose rent is liable to alteration

"(*2*) When the Revenue Officer has prepared the Table of Rates he shall publish it in the local area, estate, tenure or village to which it relates, in the vernacular language prevailing in the district, and in the prescribed manner.

Local publication of Table.

"(*3*) Any person objecting to any entry in the Table of Rates may present a petition to the Revenue Officer within a period of one month after such publication, and the Revenue Officer shall consider any such objection and may alter or amend the Table.

Revenue Officer to deal with objections.

"(*4*) If no objection is made within the said period of one month, or, where objections are made, after they have been disposed of, the Revenue Officer shall submit his proceedings to the Revenue authority empowered by rule made by the Local Government to confirm the Tables and Rent Rolls prepared under this Part (hereinafter called the "confirming authority"), with a full statement of the grounds of his proposals, and shall forward any petitions of objection which he may have received

Table to be submitted to superior Revenue authority

"(*5*) The confirming authority may confirm a Table submitted under sub-section (*4*), or may disallow the same, or may amend the same in any manner which appears to it proper, and may allow in whole or in part any objection forwarded therewith or subsequently made, or may return the case for further enquiry

Proceedings of confirming authority

"(*6*) When a Table of Rates has been confirmed by the confirming authority, the order confirming it shall be conclusive evidence that the proceedings for the preparation of the Table have been duly conducted in accordance with this Act and it may be presumed that the rates shown in the Table for tenants of each class, for each class of land, are the fair and equitable rates payable for land of that class within the area to which the Table applies.

Effect of Table.

"104C. When a Table of Rates has been confirmed under section 104B, sub section (*5*), the Revenue Officer may settle or any of the rents and prepare the Settlement Rent Roll on the basis of the rates shown in the Table, by calculating the rental of each tenure or each holding of a raiyat or under raiyat on the area of such tenure or holding at the said rates

Application of Table of Rates

(Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made.)

"Provided that the Revenue Officer shall not be bound to apply the said rates in any particular case in which he may consider it unfair or inequitable to do so

Rules and principles to be followed in framing Table of Rates and settling rents in accordance therewith.

"104D In framing a table of rates under section 104B, and in settling rents under section 104C, the Revenue Officer shall be guided by such rules as the Local Government may make in this behalf, and shall, so far as may be, and subject to the proviso to the said section 104C, have regard to the general principles of this Act regulating the enhancement or reduction of rents

Preliminary publication and amendment of Settlement Rent Roll

"104E (*1*) When a Settlement Rent Roll for a local area, estate, tenure, or village or part thereof has been prepared, the Revenue Officer shall cause a draft of it to be published in the prescribed manner and for the prescribed period, and shall receive and consider any objections made to any entry therein, or omission therefrom, during the period of publication, and shall dispose of such objections according to such rules as the Local Government may prescribe

"(*2*) The Revenue Officer may, of his own motion or on the application of any party aggrieved, at any time before a Settlement Rent Roll is submitted to the confirming authority under section 104F, revise any rent entered therein

"Provided that no such entry shall be revised until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Final revision of Settlement Rent Roll, and incorporation of the same in the record-of rights.

"104F (*1*) When all objections have been disposed of under section 104E, the Revenue Officer shall submit the Settlement Rent Roll to the confirming authority, with a full statement of the grounds of his proposals and a summary of the objections (if any) which he has received.

"(*2*) The confirming authority may sanction the Settlement Rent Roll, with or without amendment, or may return it for revision

"Provided that no entry shall be amended, or omission supplied, until reasonable notice has been given to the parties concerned to appear and be heard in the matter

"(*3*) After sanction by the confirming authority, the Revenue Officer shall finally frame the Settlement Rent Roll and shall incorporate it with the record-of-rights published in draft under section 103A

Appeal to, and revision by superior Revenue authorities.

"104G (*1*) An appeal, if presented within two months from the date of the order appealed against, shall lie from every order passed by a Revenue Officer prior to the final publication of the record of-rights on any objection made under section 104B, sub-section (*3*), or section 104E, and such appeal shall lie to such superior Revenue authority as the Local Government may by rule prescribe

"(*2*) The Board of Revenue may, in any case under this Part, on application or of its own motion, direct the revision of any record of-rights or any portion of a record of-rights at any time within two years from the date of the certificate of final publication, but not so as to affect any

(Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made)

order passed by a Civil Court under section 104H

"Provided that no such direction shall be made until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Jurisdiction of Civil Courts in matters relating to rent

"104H. (*1*) Any person aggrieved by an entry of a rent settled in a Settlement Rent Roll prepared under sections 104A to 104F and incorporated in a record of-rights finally published under section 103A, or by an omission to settle a rent for entry in such Settlement Rent Roll, may institute a suit in the Civil Court which would have jurisdiction to entertain a suit for the possession of the land to which the entry relates or in respect of which the omission was made

"(*2*) Such suit must be instituted within six months from the date of the certificate of final publication of the record of-rights, or, if an appeal has been presented to a Revenue authority under section 104G, then within six months from the date of the disposal of such appeal.

"(*3*) Such suit may be instituted on any of the following grounds, and on no others, namely

"(*a*) that the land is not liable to the payment of rent,

"(*b*) that the land, although entered in the record-of rights as being held rent-free, is liable to the payment of rent,

"(*c*) that the relation of landlord and tenant does not exist,

"(*d*) that land has been wrongly recorded as part of a particular estate or tenancy, or wrongly omitted from the lands of an estate or tenancy,

"(*e*) that the tenant belongs to a class different from that to which he is shown in the record-of rights as belonging,

"(*f*) that the Revenue Officer has not postponed the operation of the settled rent under the provisions of section 110, clause (*a*), or has wrongly fixed the date from which it is to take effect under that clause,

"(*g*) that the special conditions and incidents of the tenancy have not been recorded or have been wrongly recorded

"The Secretary of State for India in Council shall not be made a defendant in any such suit unless the Government is landlord or tenant of the land to which the aforesaid entry relates or in respect of which the aforesaid omission was made

"(*4*) If it appears to the Court that the entry of rent settled is incorrect, it shall, in case (*a*) or case (*c*) mentioned in sub-section (*3*), declare that no rent is payable, and shall in any other case settle a fair rent,

and in any case referred to in clause (*f*) or clause (*g*) of the said sub section (*3*) the Court may declare the date from which the rent settled is to take effect, or pass such order relating to the entry as it may think fit

"(*5*) When the Court has declared under sub section (*4*) that no rent is payable, the entry to the contrary effect in the record of rights shall be deemed to be cancelled

"(*6*) In settling a fair rent under sub-section (*4*), the Court shall be guided by the rents of the other tenures or holdings of the same class comprised in the same Settlement Rent Roll, as settled under sections 104A to 104F.

(*Section 7 Chapter X —Part II.—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made —Part III —Settlement of Rents and decision of disputes in cases where a settlement of land revenue is not being or is not about to be made*)

"(7) Any rent settled by the Court under sub-section (4) shall be deemed to have been duly settled in place of the rent entered in the Settlement Rent Roll

"(8) Save as provided in this section, no suit shall be brought in any Civil Court in respect of the settlement of any rent or the omission to settle any rent under sections 104A to 104F

"(9) When a Civil Court has passed final orders or a decree under this section, it shall notify the same to the Collector of the district.

Presumptions as to rents settled under sections 104A to 104G

"104J Subject to the provisions of section 104H, all rents settled under sections 104A to 104F, and entered in a record-of-rights finally published under section 103A, or settled under section 104G, shall be deemed to have been correctly settled and to be fair and equitable rents within the meaning of this Act.

"PART III —*Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made*

Settlement of rents by Revenue Officer in cases where a settlement of land revenue is not being or is not about to be made.

"105. (1) When, in any case in which a settlement of land revenue is not being made or is not about to be made, either the landlord or the tenant applies, within two months from the date of the certificate of the final publication of the record of-rights under section 103A, sub-section (2), for a settlement of rent, the Revenue Officer shall settle a fair and equitable rent in respect of the land held by the tenant

'Explanation —A superior landlord may apply for a settlement of rent notwithstanding that his estate or tenure or part thereof has been temporarily leased

"(2) When, in any case in which a settlement of land-revenue is not being made or is not about to be made, the Revenue Officer has recorded, in pursuance of clause (*i*) of section 102, that the occupant of any land claimed to be held rent-free is not entitled to hold it without payment of rent, and either the landlord or the occupant applies, within two months from the date of the certificate of the final publication of the record-of-rights under section 103A, sub-section (2), for a settlement of rent, the Revenue Officer shall settle a fair and equitable rent for the land.

"(3) Every application under sub-section (1) or sub-section (2) shall, notwithstanding anything contained in the Court-fees Act, 1870, bear such stamp as the Government of India may from time to time prescribe by notification in the Gazette of India. VII of 1870

"(4) In settling rents under this section, the Revenue Officer shall presume, until the contrary is proved, that the existing rent is fair and equitable, and shall have regard to the rules laid down in this Act for the guidance of the Civil Court in increasing or reducing rents, as the case may be.

(Section 7 Chapter X—Part III—Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made)

"(5) The Revenue Officer may in any case under this section propose to the parties such rents as he considers fair and equitable, and the rents so proposed, if accepted orally or in writing by the parties, may be recorded as the fair rents, and shall be deemed to have been duly settled under this Act

"(6) Where the parties agree among themselves, by compromise or otherwise, as to the amount of the fair rent, the Revenue Officer shall satisfy himself that the amount agreed upon is fair and equitable, and, if so satisfied, but not otherwise, he shall record the amount so agreed upon as the fair and equitable rent If not so satisfied, he shall himself settle a fair and equitable rent as provided in sub-sections (4) and (5)

Decision of disputes by Revenue Officer

"106 If, in any case under this Part, a dispute arises at any time within two months from the date of the certificate of the final publication of the record of-rights under section 103A, sub section (2), regarding any entry which the Revenue Officer has made in, or any omission made from, the record,

whether such dispute be between landlord and tenant, or between landlords of the same or of neighbouring estates, or between tenant and tenant, or as to whether the relationship of landlord and tenant exists, or as to whether land held rent-free is properly so held, or as to any other matter,

a suit may be instituted before the Revenue Officer, by presenting a plaint on stamped paper for the decision of the dispute and the Revenue Officer shall then hear and decide the dispute

"Provided that the Revenue Officer may, subject to such rules as the Local Government may prescribe in this behalf, transfer any particular case or class of cases to a competent Civil Court for trial

Procedure to be adopted by Revenue Officer

"107 (1) In all proceedings for the settlement of rents under this Part, and in all proceedings under section 106, the Revenue Officer shall, subject to rules made by the Local Government under this Act, adopt the procedure laid down in the Code of Civil Procedure for the trial of suits, and his decision in every such proceeding shall have the force and effect of a decree of a Civil Court in a suit between the parties, and, subject to the provisions of sections 108 and 109A, shall be final XIV of 1882

"(2) A note of all rents settled and of all decisions of disputes by the Revenue Officer under section 105 or section 106 shall be made by him in the record of-rights finally published under section 103A, sub section (2), and such note shall be considered as part of the record

Revision by Revenue Officer

"108 Any Revenue Officer especially empowered by the Local Government in this behalf may, on application or of his own motion, within twelve months from the making of any order or decision under section 105, section 106 or section 107, revise the same, whether it was made by himself or by any other Revenue Officer, but not so as to affect any order passed or decree made under section 109A

Provided that no such order or decision shall be so revised if an appeal from it is pending under setion 109A or until reasonable notice has been given to the parties concerned to appear and be heard in the matter

(*Section 7 Chapter X—Part III—Settlement of Rents and decision of disputes in cases where a settlement of land revenue is not being or is not about to be made—Part IV—Supplemental Provisions*)

"109 Subject to the provisions of section 109A, a Civil Court shall not entertain any application or suit concerning any matter which is or has already been the subject of an application made or suit instituted under section 105, section 106, section 107 or section 108

Bar to jurisdiction of Civil Courts.

"109A (*1*) The Local Government shall appoint one or more persons to be a Special Judge or Special Judges for the purpose of hearing appeals from the decisions of Revenue Officers under sections 105 to 108 (both inclusive)

Appeals from decisions of Revenue Officers

"(*2*) An appeal shall lie to the Special Judge from the decisions of a Revenue Officer under sections 105 to 108 (both inclusive), and the provisions of the Code of Civil Procedure relating to appeals shall, as nearly as may be, apply to all such appeals XIV of 1882.

"(*3*) Subject to the provisions of Chapter XLII of the Code of Civil Procedure, an appeal shall lie to the High Court from the decision of a Special Judge in any case under this section (not being a decision settling a rent) as if he were a Court subordinate to the High Court within the meaning of the first section of that Chapter

"Provided that, if in a second appeal the High Court alters the decision of the Special Judge in respect of any of the particulars with reference to which the rent of any tenure or holding has been settled, the Court may settle a new rent for the tenure or holding, but in so doing shall be guided by the rents of the other tenures or holdings of the same class comprised in the same record as ascertained under section 102 or settled under section 105 or section 108

"*Part IV—Supplemental Provisions*

"110 When a rent is settled by a Revenue Officer under this Chapter, it shall take effect from the beginning of the agricultural year next after the date of the decision fixing the rent or (if a settlement of land revenue is being or is about to be made) the date of final publication of the Settlement Rent Roll

Date from which settled rent takes effect.

"Provided as follows —

"(*a*) if the land is comprised in an area, estate or tenure in respect of which a settlement of land-revenue is being or is about to be made, the rent settled shall, subject to the provisions of sections 191 and 192, take effect from the expiration of the period of the current settlement, or from such other date after the expiration of that period as may be fixed by the Revenue Officer,

"(*b*) if the land is not comprised in an area, estate or tenure as aforesaid, and if the existing rent has been fixed by a contract binding between the parties for an unexpired term of years, the rent settled shall take effect from the expiration of that term, or from such other date after the expiration of that term as may be fixed by the Revenue Officer

(Section 7 Chapter X—Part IV—Supplemental Provisions)

Stay of proceedings in Civil Court during preparation of record of rights.

"111 When an order has been made under section 101, directing the preparation of a record-of-rights, then, subject to the provisions of section 104H, a Civil Court shall not,—

(*a*) where a settlement of land revenue is being or is about to be made—until after the final publication of the record of rights, and

(*b*) where a settlement of land-revenue is not being made or is not about to be made—until three months after the final publication of the record-of-rights,

entertain any suit or application for the alteration of the rent or the determination of the status of any tenant in the area to which the record-of rights applies

Limitation of jurisdiction of Civil Courts in matters, other than rent, relating to record of rights

"111A No suit shall be brought in any Civil Court in respect of any order directing the preparation of a record of-rights under this Chapter, or in respect of the framing, publication, signing or attestation of such a record or of any part of it, or, save as provided in section 104H, for the alteration of any entry in such a record of a rent settled under sections 104A to 104F

"Provided that any person who is dissatisfied with any entry in or omission from a record of rights framed in pursuance of an order made under section 101, sub section (*2*) clause (*d*), which concerns a right of which he is in possession, may institute a suit for declaration of his right under Chapter VI of the Specific Relief Act, 1877 I of 1877

Power to authorise special settlement in special cases

"112 (*1*) The Local Government, with the previous sanction of the Governor General in Council, may, on being satisfied that the exercise of the powers hereinafter mentioned is necessary in the interests of public order or of the local welfare, invest a Revenue Officer acting under this Chapter with the following powers or either of them, namely —

"(*a*) power to settle all rents,

"(*b*) power, when settling rents, to reduce rents if, in the opinion of the officer, the maintenance of existing rents would on any ground, whether specified in this Act or not, be unfair or inequitable

"(*2*) The powers given under this section may be made exercisable within a specified area either generally or with reference to specified cases or classes of cases

"(*3*) When the Local Government takes any action under this section the settlement record prepared by the Revenue Officer shall not take effect until it has been finally confirmed by the Governor General in Council

Period for which rents as settled are to remain unaltered

"113 (*1*) When the rent of a tenure or holding is settled under this Chapter, it shall not except on the ground of a landlord's improvement or of a subsequent alteration in the

(Section 7 Chapter X —Part IV —Supplemental Provisions Sections 8, 9)

area of the tenure or holding, be enhanced, in the case of a tenure or an occupancy-holding or the holding of an under-raiyat having occupancy rights, for fifteen years, and, in the case of a non-occupancy holding or the holding of an under-raiyat not having occupancy rights, for five years, and no such rent shall be reduced within the periods aforesaid save on the ground of alteration in the area of the holding or on the ground specified in section 38, clause (*a*)

"(*2*) The said periods of fifteen years and five years shall be counted from the date on which the rent settled takes effect under this Chapter

Expenses of proceedings under Chapter

"114 (*1*) When the preparation of a record-of rights has been directed or undertaken under this Chapter, in any case except where a settlement of land-revenue is being or is about to be made, the expenses incurred by the Government in carrying out the provisions of this Chapter in any local area, estate, tenure or part thereof (including expenses that may be incurred from time to time in the maintenance of boundary marks and other survey marks erected for the purpose of carrying out the provisions of this Chapter), or such part of those expenses as the Local Government may direct, shall be defrayed by the landlords, tenants and occupants of land in that local area, estate, tenure or part in such proportions as the Local Government, having regard to all the circumstances, may determine

"(*2*) The portion of the aforesaid expenses which any person is liable to pay shall be recoverable by the Government as if it were an arrear of land-revenue due in respect of the said local area, estate, tenure or part

"Explanation —The word 'tenure' in this section includes all revenue free and rent-free tenures and holdings within a local area, estate or tenure

Presumption as to fixity of rent not to apply where record of rights has been prepared

"115 When the particulars mentioned in section 102, clause (*b*), have been recorded under this Chapter in respect of any tenancy, the presumption under section 50 shall not thereafter apply to that tenancy"

Validation of publication of past records

8 All records published under section 105 of the Bengal Tenancy Act, 1885, before the commencement of this Act, whether in draft or final form, shall be deemed to have been duly published VIII of 1885

Effect of settlements of rent and decisions by Revenue Officers made before the commencement of this Act

9 (*1*) Every settlement of rent or decision of a dispute by a Revenue Officer under section 104 or section 106 of the Bengal Tenancy Act, 1885, before the commencement of this Act, in respect of which no appeal has, before the commencement of this Act, been preferred to the special Judge appointed under section 108 of that Act, shall have the force and effect of a decree of a Civil Court in a suit between the parties, and shall be final VIII of 1885

(*Sections 10, 11*)

Provided that an appeal shall lie to the District Judge from any such settlement or decision which was made or given within thirty days before the commencement of this Act, if the appeal be presented within thirty days from the date of such settlement or decision

(2) The provisions of the Code of Civil Procedure relating to appeals shall, as nearly as may be, apply to all such appeals XIV of 18

Amendment of Act VIII, 1885, section 119

10 In section 119 of the Bengal Tenancy Act, 1885, the words and figures "sections 103A, 103B, 106, 107, 108, 109 and 109A" shall be substituted for the words and figures "sections 105 to 109, both inclusive" VIII of 188

Repeal of Bengal Act V, 1894

11 Bengal Act V of 1894 (*an Act to remove doubts which have arisen in connection with the re-settlement of land-revenue in temporary-settled areas, and to amend the Bengal Tenancy Act, 1885*) is hereby repealed

PART VI

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 21st October, 1898

No 12 OF 1898

A Bill to further amend the Indian Evidence Act, 1872

WHEREAS it is expedient to further amend the Indian Evidence Act, 1872, It is hereby enacted as follows

I of 1872

1 (*1*) This Act may be called the Indian Evidence Act, 1898, and

Short title and commencement

(*2*) It shall come into force at once

I of 1872

2 To section 37 of the Indian Evidence Act, 1872, the following shall be added, namely

Addition to section 37 Act I 1872

"This section applies also to any Act of the Lieutenant Governors in Council of the North Western Provinces and Oudh, the Punjab and Burma"

3 In section 45 of the said Act, as amended by section 4 of the Indian Evidence Act Amendment Act XVIII of 1872 after the word "hand writing," in each of the two places in which it occurs the words 'or finger impressions' shall be inserted

Amendment of section 45 Act I 1872

4 In section 86 of the said Act as amended by section 8 of the Indian Evidence Act (1872) Amendment Act, 1891, for the second paragraph the following shall be substituted, namely

Amendment of section 85 Act I, 18,2 III of 1891

"An officer who with respect to any territory or place not forming part of Her Majesty's dominions is a Political Agent therefor, as defined in section 3, clause (40), of the General Clauses Act, 1897, shall for the purposes of this section, be deemed to be a representative of the Government of India in and for the country comprising that territory or place" X of 1897

5 In section 8 of the Indian Evidence Act (1872) Amendment Act, 1891, the words and figures from 'and to the same" to the end of the section are hereby repealed III of 1891

Partial repeal of section 8 Act III 1891

STATEMENT OF OBJECTS AND REASONS

IT has been held by the Calcutta High Court in the case—apparently unreported—of *The Queen Empress* v. *Fakir Mahomed Shek, Ershad Ali Shek and Sita Nath Dass* which was decided on the 16th July, 1896, that the opinion of an expert as to the identity of finger impressions is not admissible under section 45 of the Indian Evidence Act, 1872 (I of 1872) The system of identification by means of such impressions is gaining ground and has been introduced with considerable success, especially in the Lower Provinces of Bengal It seems desirable that expert evidence in connection with it should be admitted, and with that object it is proposed, by clause 3 of this Bill, expressly to amend the law on the subject

2 The opportunity has been taken to suggest the amendment of two other sections of the Indian Evidence Act, 1872 When the Act was passed, the Legislative Councils of the North-Western Provinces and Oudh, of the Punjab and of Burma had not been constituted, and section 37, therefore, fails to render relevant statements as to facts of a public nature made in the recitals contained in the Acts of those legislatures Clause 2 of the Bill will remove what is now an obvious lacuna in the Act.

3 The remaining amendment proposed by clauses 4 and 5 of the Bill is of a purely formal character There is no section in the Code of Criminal Procedure, 1898 (Act V of 1898), corresponding with section 190 of the Code of 1882, the definition of "Political Agent" having been omitted from the new Act, because it has now been defined once for all by section 3, clause (40), of the General Clauses Act, 1897 (X of 1897)

Renewals							6 .66	16,01		25 694
Proportion of salary of Traffic Manager									375	4,500
Compassionate allowances	347									
Total	1,67 666	1,57 994	1 36 682	1 53 611	1,40 4 2	1,55 675	1,67 732	1,47,066	1 41,771	2,04,241
Net Revenue	13,257	1 ,180	27 576		14,795	6,824		31 958	27,055	60 475
Grand Total	1,80,923	1,69,174	1 64 158	1 53,611	1 55,217	1 62 499	1,67 732	1,79,024	1,68 826	2 64 716

2 The receipts during the year amounted to Rs 1,80,923, showing an increase of Rs 11,749 over those of the previous year The receipts from Railway traffic were Rs 1,51,408, against Rs 1,33,811 in 1896-97

3 The total expenditure amounted to Rs 1,67,666, showing an excess of Rs 9,672 over that of the year before This was due mainly to the heavy charges on account of repairs The wearing surface of the roadway and the superstructure of the bridge and the pontoons were kept in thorough repair, the iron-work was cleaned, oiled and painted, the fenders and sheathings kept in good order, the draw bridge girders were strengthened and beams renewed as required, and all other work, found necessary to maintain the bridge in order, was carried out The Lieutenant Governor is glad to see that such thorough care is taken of the bridge The bridge sustained but very slight damage during the severe earthquake of the 12th June 1897

4 As in the previous years, in addition to the ordinary receipts, the following sum, which may be classed as extraordinary, was received —

	Rs
Interest on Government securities of Pontoon Renewal Fund	1,750
The corresponding expenditure under the same head was—	
Sinking Fund on loans	4 280

5 The cost of lighting the bridge with electricity was Rs 9,823, against Rs 10,395 in 1896 97, showing a reduction of Rs 572 The arrangement of having the engines at the Commissioners' Howrah Workshop continued to work well

6 The bridge was opened for the passage of vessels on 149 occassions, of which 104 were on the ordinary fixed days of the week, and 45 on Sundays on special application The number and description of vessels, which passed through the bridge on these occasions, are shown below —

Vessels	1897 98.	1896 97	1895 96	1894 95	1893 94	1892 93	1891 92	1890-91	1889 90	1888 89

Port Commissioners vessels *	.0	53	38	45	161	183	66	92	53	20
Government steamers and flats	1	2	1	2	2			5	16	7
Total	2 412	2 324	2,073	2,201	2,063	2 074	2 086	2,110	1 863	1,7 41

7 No sea going vessel collided with the bridge There were 129 cases of collision, of which 93 were casualties to cargo and other boats The number of casualties during the three preceding years was 109, 78 and 81 respectively

By order of the Lieutenant Governor of Bengal,

A D McARTHUR, *Col*, R ,

Secretary to the Govt of Bengal

WEATHER AND CROP REPORT.

For the week ending the 31st October 1898

Burdwan—No rain Weather seasonable Prospects of winter rice excellent Common rice selling as follows —

		Srs.	
Sadar	..	13 to 16	per rupee
Kalna	...	13	
Katwa	.	15	
Raniganj	.	16	

Birbhum—No rain Weather seasonable Prospects of crops good. Price of common rice at Sadar 15 seers and at Rampur Hât 16 seers per rupee Fodder sufficient

Bankura—No rain Weather seasonable Prospects of *aman* excellent Harvesting of *nuan* paddy and sowing of *rabi* have commenced No cattle disease reported Fodder and water sufficient. Price of common rice at Sadar 17½ seers and at Vishnupur 15 seers per rupee

Midnapore—No rain Prospects of standing crops very good indeed Damage by grass-hoppers reported from Benapura and Kesiari police-stations Prices of common rice —

		Srs	
Sadar		13 to 15	per rupee
Contai		14 to 16	
Tamluk	..	13 to 13½	
Ghatal	..	13 to 16	

Hooghly—Rainfall nil Prospects of *aman* good Cattle-disease prevails Common rice sells from 11 to 12 seers per rupee

Howrah—Rainfall nil Weather cool Harvesting of *aus* nearly finished Prospects of *aman* good. Fodder and water sufficient Common rice sells at 11 to 13 seers per rupee

24-Parganas—Rainfall nil Weather seasonable Prospects of crops good Ploughing and sowing of *rabi* crops going on Cattle-pox reported from Chaital in the Basirhat subdivision Fodder and water sufficient Common rice sells as follows —

		Srs	
Sadar		11 to 12	per rupee
Barasat	.	15	
Basirhat	...	13⅞	
Diamond Harbour	...	13	

Nadia—No rain *Aman* paddy doing well Sowing of *rabi* crops progressing Common rice selling at 12 to 15 seers per rupee Fodder and water sufficient Cow-pox at Patherghata in thana Tehatta.

Murshidabad.—No rain. Weather seasonable. *Aman* and *kalai* plants doing well State of sugarcane and mulberry seems to be good Sowing of indigo and *rabi* crops going on Cutting of jute finished. Fodder insufficient in Sadar and Kandi subdivisions Common rice sells as follows —

	Srs.	
Sadar	15	per rupee
Jangipur	16	
Kandi	16	

Jessore.—No rain. Weather fine and seasonable Ploughing and sowing of winter crops going on Prospects of standing crops good No cattle-disease reported Fodder supply insufficient at Bangaon. Common rice sells as follows —

		Srs.	
Jessore		15 to 18	per rupee
Jhenida		17 to 18	
Magura	.	19 to 21	
Narail		17-12½ chs	
Bangaon	...	17½	

Khulna—Rainfall nil Weather seasonable Lands being prepared for winter crops *Aman* paddy doing well Prospects good Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	.. 16 to 18	18 per rupee
Bagerhat	17 and	
Satkhira	21 (new *aus*)	

Rajshahi—No rain Prospects of crops good *Rabi* sowings in progress No cattle disease Fodder and water available Rice sells from 12 to 18 seers per rupee

Dinajpur—Rainfall nil. Weather cool, hot during day Standing crops good No cattle-disease Fodder and water ample. Rice 17 seers a rupee

Jalpaiguri—Rainfall nil Weather seasonable. *Haimanti* paddy doing well. Fodder and water sufficient Common rice sells from 8 to 15 seers a rupee.

Darjeeling—Rainfall nil Weather seasonable *Hills*—Wheat and barley being sown, *bara maiua*, *phaphar*, *kalai*, and *haimanti* paddy progressing *Terai*—*Haimanti* paddy doing well, potatoes and mustard being sown Coarse rice sells as follows —

	Srs.	
Hills	9 to 11	per rupee
Terai .	13 to 16	

Bhutta sells at Darjeeling 19 seers and at Kalimpong 44 seers per rupee

Rangpur—No rain Lands are still being prepared for tobacco and potatoes Prospects fair Common rice selling at 12 to 14 seers per rupee Fodder and water sufficient

Bogra—Rainfall nil Preparation of lands for *rabi* crops going on Prospects of standing crops good Common rice sells from 15 to 18 seers a rupee Supply of fodder and water sufficient

Pabna—Rainfall nil Weather fine Prospects of crops good Price of rice 12 to 16 seers per rupee

Dacca—Rainfall nil Weather seasonable Prospects of standing crops good Fodder available No cattle disease Common rice 13 to 20 seers per rupee

Mymensingh—Rainfall nil Weather seasonable Harvesting of jute and sowing of *rabi* continue Prospects of *aman* good Common rice sells at 15 to 19 seers per rupee Fodder and water sufficient

Faridpur—No rain Weather seasonable Prospects of crops good Rice 14 to 20 seers per rupee

Backergunge—Rainfall nil Weather seasonable Prospects of crops good Common rice sells from 11½ to 18 seers (*aman*) and from 15 to 21 seers (*aus*) per rupee

Tippera.—No rain Weather seasonable Prospects of standing crops hopeful Fodder sufficient Rice sells at 12 to 20 seers per rupee

Noakhali—Rainfall nil Lands are being cultivated for *rabi* crops No cattle disease Condition of fodder fair Water good Price of rice—*aman* 12 to 16 seers and *aus* 16 to 21 seers per rupee

Chittagong—Rainfall nil Weather seasonable Prospects of crops good Prices steady Water and fodder sufficient

Patna—Rainfall nil Sowing of *rabi* going on, and that of tobacco and potatoes in progress. Prices almost stationary In Patna common rice sells at 18 seers per rupee Fodder and water for cattle sufficient

Gaya—No rain Prospects of paddy good Sowing of *rabi* in progress Common rice selling at 16½ seers per rupee

Shahabad.—No rain Weather cold *Rabi* sowings in rapid progress Standing crops good Rice sells at Arrah 14 seers per rupee

Saran—No rain Paddy generally doing well Sowing of *rabi* continues, early sowings doing well Average prices are—Common rice 15 seers 6 chitaks and *makai* 24 seers 12 chitaks, against 14 seers 15 chitaks and 23 seers 4 chitaks, normal prices

Champaran—No rain Weather cool Sowing of *rabi* crops progressing Oilseeds and pulses being sown Prospects of standing crops good except on high lands, where rain is wanted No cattle disease Fodder and water sufficient Price of common rice 15½ seers and maize 23 seers per rupee

Muzaffarpur—Rainfall nil Prospects of standing crops fair. *Rabi* sowings in progress No cattle disease Prices are—Common rice 11 to 14 seers, wheat 12 to 16 seers, barley 18 to 20 seers, maize 25 to 37 seers, gram 16 to 18 seers, *rahar* 20 to 21 seers, and *marua* 37½ seers per rupee

Darbhanga—No rain Nights cool. Paddy where not damaged is flourishing Prospects good Transplantation of tobacco and sweet potatoes completed Sowing of *rabi* in progress Fodder available Common rice selling at Sadar 12 seers per rupee.

Mongnyr—No rain Days hot, but nights cool. *Rabi* being sown Prospects of standing crops good Sugarcane doing well. No cattle-disease Common rice sells as follows:—

	Srs	
Monghyr ..	13	per rupee.
Jamui	15	
Begusarai .	13½	

Bhagalpur—Rainfall nil Weather seasonable State of crops good, but more rain is wanted in the Banka subdivision No cattle-disease except at Partapganj Fodder and water supply sufficient Prices stationary

Purnea—Rainfall nil Weather seasonable Crop prospects good Jute being steeped Cattle-disease at Araria Fodder and water sufficient One death from *kaladukh* reported from Kishanganj Common rice sells as follows —

	Srs	
Sadar	17	per rupee
Kishanganj	19	
Araria	20	

Malda.—No rain Weather cool and clear Prospects of winter rice very good Sowing of *rabi* crops continues. Coarse rice selling at 18 seers a rupee Fodder sufficient

Sonthal Parganas—No rain Winter rice and sugarcane doing well *Rabi* sowings going on rapidly Prices—rice 15 to 17 seers and maize 32 to 45 seers per rupee

Cuttack—Rainfall nil Weather seasonable *Laghu sarad* in ear *Guru sarad*, *biri*, *arhar*, and *mung* growing, but locusts are reported to have damaged *sarad* crops slightly Condition of cattle generally good, but disease prevails in places Fodder and water sufficient Common rice sells as follows —

	S	ch	
Cuttack	17	1	per rupee
Jajpur . .	17	1	
Kendrapara	21	0	
Banki	18	6	

Balasore—No rain Harvesting of *bali* continues *Sarad* in ear Sugarcane thriving well *Rabi* crops being sown. Rice sells from 14 to 24 seers per rupee in the interior, and at 16 and 17 seers per rupee at Balasore and Bhadrak respectively Fodder and water sufficient

Angul—Rainfall at Angul nil Weather seasonable Prospects good Rice selling at Angul 20 seers per rupee

Puri—No rain *Sarad* in ear *Laghu* ripening and being cut in places. *Kolthi*, mustard, and linseed being sown. Prospects of sugarcane, *arhar*, and other miscellaneous crops good Fodder and water sufficient Cattle-disease reported from certain parts of the district Common rice sells as follows —

	S	ch	
Puri	15	12	per rupee
Khurda	14	7	
Interior of district	13 to 18	2 to 6	

Hazaribagh.—No rain. Weather cold 18—anna rice crop expected *Rabi* being sown Rice 10 to 13 seers per rupee

Lohardaga.—Rainfall nil Sowing of wheat and barley continues State of standing crops good. Rice sells at Ranchi 18 seers, and in the interior of the district from 18 to 20 seers per rupee Cattle-disease continues Fodder and water sufficient Grain in stock sufficient

Palamau.—No rain. Weather seasonable Sowing of *rabi* continues Paddy and other crops doing well Cattle-disease reported from Satbar thana Rice sells at Sadar 19 seers per rupee

Manbhum.—Rainfall nil Weather seasonable Prospects of crops on the ground are excellent Cattle-disease not reported Fodder and water sufficient Average price of common rice at Sadar 15 seers and at Gobindpur 14 seers per rupee Supply sufficient

Singhbhum.—Rainfall nil Rice plentiful—20 to 22 seers per rupee

General Summary.—The weather remained fine throughout the week, no rain falling Reports of the winter rice crop are generally favourable, but certain high lands in Champaran and in the Banka subdivision of Bhagalpur require rain. The sowing of the *rabi* and other cold weather crops is in active progress. The price of rice is reported to have fallen in some districts Some cattle-disease is reported, but the condition of the cattle on the whole is good. The fodder-supply is everywhere sufficient except in parts of Murshidabad and Jessore

By order of the Lieutenant-Governor of Bengal,

The total fall of rain from 23rd to 29th October 1898	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	1 70
The total fall from 1st January to 29th October 1898	59 52
The average fall of the corresponding period for 24 years, Surveyor-General's Office	64 35

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground.
